MISSION STATEMENT

National American University welcomes students of diverse interests, cultures and abilities and prepares them for careers in health care, business and business-related fields by providing quality higher education in a caring and supportive environment.

The university builds learning partnerships with students and other institutions and organizations locally, nationally and internationally through its private, regionally accredited system of campuses and education centers offering courses in traditional, accelerated and distance learning formats.

As a comprehensive technical and professional institution of higher learning, the university responds to the changing needs of students, employers, and their communities by providing undergraduate and graduate programs and continuing education opportunities to serve our evolving global society.

CORE VALUES

- Offer high quality instructional programs and services.
- Provide a caring and supportive learning environment.
- Offer technical and professional career programs.

PURPOSES

1. Offer quality technical and professional degree programs, as documented by institutional and academic assessment processes at the associate, bachelor’s and graduate level, diplomas, certificates and adult degree completion programs to traditional, adult and international learners.
2. Provide a general education program to build awareness, abilities and interests to empower lifelong learners as knowledgeable citizens of the global community.
3. Provide a collegiate experience through instructional and support services that creates a stimulating, caring and supportive learner-centered environment in which students are encouraged to achieve the educational goals established by the university.
4. Promote a learning and working environment by providing new technologies, methodologies and practices that enhance and extend quality programs and services.
5. Prepare students to provide leadership and services for the employment needs of business, industry and government worldwide.
6. Pursue communication, cooperation and alliances with educational institutions, organizations and associations on a local, regional, national and international basis.
7. Respond to the ever-changing societal demands for personal and professional development and continuing education through flexible scheduling and convenient access via traditional, accelerated and distance delivery methodologies.
8. Assist students in the development of ethical values and behaviors.
9. Foster an environment that encourages involvement by employees in the innovation and solution-seeking processes and provide an opportunity for personal and leadership development.
10. Provide a stable institutional environment where human, financial and physical resources are sufficient to accomplish its educational and institutional goals as a sound basis for continued growth and development.

Adopted by the National American University Board of Governors, January 2009

ACCREDITATION - APPROVALS - AFFILIATIONS

National American University is accredited by the Higher Learning Commission and is a member of the North Central Association of Colleges and Schools, www.ncahlc.org, (312) 263-0456.

In addition, the following National American University programs are separately accredited or approved by national educational and professional associations.

• Master of Management emphasis Health Care Administration
• Master of Management emphasis Human Resource Management
• Master of Management emphasis Proprietary Higher Education
• Bachelor of Science in Accounting
• Bachelor of Science in Applied Management
• Bachelor of Science in Business Administration
• Bachelor of Science in Business Administration emphasis Accounting
• Bachelor of Science in Business Administration emphasis Entrepreneurship
• Bachelor of Science in Business Administration emphasis Financial Management
• Bachelor of Science in Business Administration emphasis Human Resource Management
• Bachelor of Science in Business Administration emphasis Information Systems
• Bachelor of Science in Business Administration emphasis International Business
• Bachelor of Science in Business Administration emphasis Management
• Bachelor of Science in Business Administration emphasis Marketing
• Bachelor of Science in Business Administration emphasis Pre-Law
• Bachelor of Science in Business Administration emphasis Supply Chain Management
• Bachelor of Science in Business Administration emphasis Tourism and Hospitality Management
• Associate of Applied Science in Accounting
• Associate of Applied Science in Applied Management
• Associate of Applied Science in Business Administration

The HIT Associate degree program is accredited by the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM).

The medical assisting programs offered at Albuquerque, Bloomington, Colorado Springs, Denver, Independence, Overland Park, Roseville, and Sioux Falls are accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) on the recommendation of the Medical Assisting Education Review Board (MAERB). The Commission on Accreditation of Allied Health Education Programs can be contacted at 1361 Park Street, Clearwater, FL 33756, phone (727) 210-2350, fax (727) 210-2354.

The paralegal studies program offered at the Rapid City and Sioux Falls campuses are approved by the American Bar Association (ABA).

The pharmacy technician programs offered at Bloomington, Brooklyn Center, Roseville and Sioux Falls are accredited by the American Society of Health-System Pharmacists (ASHP).

The veterinary technology program is accredited by the Committee on Veterinary Technician Education and Activities (CVTEA).

The baccalaureate and master’s degree programs in nursing at National American University are accredited by the Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington DC 20036, (202) 887-6791.

Full approval has been granted by the Missouri State Board of Nursing for the university’s Associate of Science in Nursing (ASN) program (Zona Rosa campus).

Full approval has been granted by the Colorado Board of Nursing for the university’s ASN program (Denver campus).

Program approval has been granted by the Minnesota Board of Nursing for the university’s BSN program (Bloomington campus).
Interim approval has been granted by the South Dakota Board of Nursing for the university’s BSN program (Rapid City and Sioux Falls campuses).

Initial approval has been granted by the Kansas State Board of Nursing for the university’s BSN program, including LPN Bridge to BSN (Overland Park and Wichita West campuses).

Full approval has been granted by the South Dakota Board of Nursing for the university’s Online RN to BSN program.

The National League for Nursing Accrediting Commission (NLNAC) has granted initial accreditation for the NAU Zona Rosa, Missouri ASN program for spring 2009 through spring 2014. The NLNAC has granted candidate status for the NAU Denver, Colorado ASN program for spring 2011 through spring 2013. Information concerning NLNAC accreditation can be obtained at www.nlnac.org.

NAU nursing baccalaureate and master’s degree programs has been granted new applicant status by the Commission on Collegiate Nursing Education (CCNE). Information concerning CCNE accreditation can be obtained at www.aacn.nche.edu/CCNE/reports/rptNewApplicants.asp?sort=state#SD. On March 7-10, 2011, the CCNE consultants visited the NAU School of Nursing to evaluate the BSN and MSN programs. The School of Nursing will receive the CCNE accreditation decision by November 2011.

National American University is approved for veteran's training and for administering the various educational programs sponsored by state and federal agencies.

National American University is registered with the Minnesota Office of Higher Education pursuant to section 136A.61 to 136A.71. Registration is not an endorsement of the institution. Credits earned at the institution may not transfer to all other institutions.

National American University is authorized by the Tennessee Higher Education Commission. This authorization must be renewed each year and is based on an evaluation by minimum standards concerning quality of education, ethical business practices, health and safety, and fiscal responsibility.

National American University is regulated by: The Indiana Commission on Proprietary Education, 302 W. Washington St., Room E201, Indianapolis, IN 46204. Toll free number: 1-800-227-5695 or (317) 232-1320.

ADMISSIONS STATEMENT
National American University admits students of any age, religion, race, sex, sexual orientation, cultural background, or national and ethnic origin to all of the programs, activities, rights, and privileges generally accorded or made available to students at the university. The university does not discriminate on the basis of these characteristics in the administration of its educational policies, admissions policies, scholarship and loan programs, or other university-administered programs.

No qualified disabled person shall be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any university-related program or activity. National American University reserves the right to make changes at any time in its policies and procedures, fees, class schedules, and/or programs.

EQUAL EDUCATIONAL OPPORTUNITY POLICY
National American University is committed to providing equal educational and employment opportunity regardless of sex, marital status, race, color, religion, age, ancestry, national origin, disability or veteran status. Equal educational opportunity includes: recruitment and admission; access to courses and facilities; access to academic advising, placement testing, and tutoring services; financial assistance and student employment; health and insurance services; and extracurricular programs and activities.

Questions and comments concerning the university's EEO Policy may be directed to Mr. Jason Warr, System Vice President for Academic Operations and Learner Services, 5301 S. Highway 16, Suite 200, Rapid City, SD 57701, or (605) 721-5274.

THE CATALOG
This catalog reflects the regulations, policies, procedures, programs, and fees for National American University as of September 2011. National American University reserves the right to adopt, amend, and implement its policies and procedures as it deems appropriate and necessary. Under certain circumstances, National American University may grant exceptions to its policies and procedures in individual cases when it is determined, in the sole and absolute discretion of the university, that such action would be appropriate to further the mission and purposes of the university.

For the convenience of our university community, the undergraduate catalog has been published online. Students may access the catalog at www.national.edu or through the student portal. The most current version of the catalog will always be posted online. The university also reserves the right to correct clerical errors. Therefore, students should refer to the online version for updates, clerical corrections and other changes.
The provisions of this catalog are not to be regarded as a contract between the student and National American University. Prospective students should contact the admissions office for information regarding any such possible changes. Currently enrolled students should consult the campus executive officer, academic dean, or other appropriate administrators.

HISTORY

National American University (NAU) has been a cornerstone of higher education in western South Dakota since its humble beginnings in 1941. Originally known as National School of Business, the institution first opened its doors in downtown Rapid City with offerings in specialized business training that centered primarily on its secretarial and accounting programs.

Anticipating a post-war demand for business education, the college’s administrators designed a business administration curriculum that featured new classes in accounting, marketing, and management. When the demand came, the institution was ready with programs geared toward the educational needs of returning veterans, and other men and women who wanted business training and sought an expanded role in the developing business world.

It was in late 1960 that the university, now nearly two decades old and growing rapidly, moved its operations to its new facilities at 321 Kansas City Street in downtown Rapid City, where it remains today. The expanded campus location included a new two-story brick building that housed classrooms, administrative offices, the library, and the university bookstore. Three years later, construction of the new student residence hall was completed, which resulted in a significant influx of students from outside of the region. Students arrived from all corners of the United States, and from all around the world, creating a vibrant student population that was diverse and energized.

With the dramatic increase in student enrollment, the number of faculty and staff increased as well. As National American University’s stature in the educational community grew, the university soon expanded its base of programs, as well as its campus facilities. Throughout the late 1960’s and the early 1970’s, the university added several new buildings, including a library, a gymnasium, as well as additions to the classroom/administration building and the student residence hall.

In 1996, NAU began to develop online courses to be offered through the emerging resource of the World Wide Web. Since that time, the university’s distance learning program has created a thriving virtual campus offering degree programs in a number of academic areas. With the addition of online course offerings and degrees, National American University students have access to learning 24 hours a day from anywhere the Internet can be accessed.

In May of 1997, the university changed its name from National College to its current name of National American University to reflect its standing as a multi-campus institution offering postgraduate programs. Today National American University continues to offer quality business-related degree programs to students from all walks of life through its affiliations with colleges and universities throughout the United States and from around the world. NAU offers a Master in Business Administration program, a Master in Management program, and a Master of Science in Nursing program for students wishing to extend their education beyond a bachelor’s degree. The university has also expanded its program offerings to include allied health and nursing programs.

For more than 70 years, National American University has been a recognized leader in academic excellence. Students from all over the globe are enrolled in NAU’s master’s, bachelor’s, associate degree and diploma programs. With dedicated staff and faculty guiding these students to their ultimate goals, it is easy to recognize that from National School of Business in 1941 through National American University in 2011, the university has experienced a dramatic and perhaps unprecedented evolution as an academic institution.

STUDENT LIFE

NAU places a high priority on providing a student-centered experience. Student life is centered around the student and includes opportunities to engage in extracurricular activities, leadership opportunities, and a strong sense of community. NAU is dedicated to helping students achieve their academic and personal goals.

CAMPUS LOCATIONS

Albuquerque
4775 Indian School Road NE, Suite 200
Albuquerque, NM 87110-3976
(505) 348-3700
(505) 348-3705 (FAX)

National American University’s Albuquerque campus is conveniently located in the heart of the Albuquerque metro area. The Albuquerque campus has been serving students in the central New Mexico area since 1975, and has long been considered one of NAU’s flagship campus locations. **Brooklyn Center**
6200 Shingle Creek Parkway, Suite 130
Brooklyn Center, MN 55430-4100
(763) 852-7500
(763) 852-7505 (FAX)

National American University’s Brooklyn Center campus is conveniently located in the heart of Minneapolis. The Brooklyn Center campus has been serving students in the Twin Cities area since 2000, and is considered one of NAU’s best campus locations. In addition to its strong business and information technology curriculum, the Brooklyn Center campus offers excellent degree programs in medical assisting, medical administrative assistant, and pharmacy technician. Located in the Brookdale Corporate Center, the Brooklyn Center campus is easily accessible from Interstate 694 and Highway 100. It is one of four convenient NAU campuses in the Twin Cities area.

**Burnsville Education Center**
513 West Travelers Trail
Burnsville, MN 55337
(952) 563-1250
(952) 563-1255 (FAX)

National American University’s Burnsville campus is conveniently located in the heart of the I35 W and Burnsville Parkway in the south metro area. The Burnsville campus has been serving students in the south metro area since May of 2011. In addition to its strong academic curriculum, the Burnsville campus offers excellent degree programs in business, criminal justice, nursing and other allied health programs. It is located at the intersection of Burnsville Parkway and Interstate 35 West.

**Centennial**
8242 South University Boulevard Suite 100
Centennial, CO 80122-3157
(303) 542-7000
(303) 542-7005 (FAX)

National American University’s Centennial campus is conveniently located in the heart of the Southwest Denver metro area. The Centennial campus has been serving students in the Denver metro area for the past year, and is considered one of NAU’s newest campus locations. In addition to its strong business and online curriculum, the Centennial campus offers excellent degree programs in all the allied health areas and IT programs. Located at the intersection of University Boulevard and County Line Road, just off C-470, the campus is convenient to Centennial, Littleton, Highlands Ranch and central Denver.

**Colorado Springs**
1915 Jamboree Drive Suite 185
Colorado Springs, CO 80920
(719) 590-8300
(719) 590-8305 (FAX)

National American University’s Colorado Springs campus is conveniently located in the heart of Colorado Springs. The Colorado Springs campus has been serving students in the southern Colorado area since 1974, and has long been considered one of NAU’s flagship campus locations. In addition to its strong business and information technology curriculum, the Colorado Springs campus offers excellent medical degree programs in medical assisting, medical administrative assistant, medical staff services, RN foundation courses, and healthcare management. Located at 1915
Jamboree Drive, Suite 185, at the intersection of Chapel Hills Drive and Jamboree Drive, the Colorado Springs campus is easily accessible from Interstate 25 or Academy Boulevard, and is convenient to downtown as well as all suburban areas and military bases.

**Colorado Springs South**

1079 Space Center Drive  
Colorado Springs, CO 80915  
(719) 208-3800  
(719) 208-3805 (FAX)

National American University’s Colorado Springs South campus is conveniently located to all military installations and communities within Colorado Springs. The Colorado Springs South offers students the opportunity to take classes on campus or online and provides students with the one-on-one support necessary to their success. The Colorado Springs South campus offers a variety of degree programs designed to help students achieve their goals and further their professional career. Located at the intersection of Powers Boulevard and Galley Road, the education center is convenient to the Security, Widefield and Fountain communities.

**Denver**

1325 S. Colorado Boulevard, Suite 100  
Denver, CO 80222-3308  
(303) 876-7100  
(303) 876-7105 (FAX)

National American University’s Denver campus is conveniently located in the heart of the Denver metro area. The Denver campus has been serving students in the central Colorado area since 1974, and has long been considered one of NAU’s flagship campus locations. In addition to its strong business and information technology curriculum, the Denver campus offers an Associate of Science in Nursing degree which is taught at the campus with state-of-the-art equipment where students practice hands-on learning. Located at the intersection of Colorado Boulevard and Interstate 25, the campus is convenient to downtown, Cherry Creek, and the Denver Tech Center.

**Distance Learning**

[www.national.edu/online](http://www.national.edu/online)  
5301 S. Highway 16, Suite 200  
Rapid City, SD 57701  
(605) 394-4953  
(800) 770-2959 General Information  
(800) 209-0182 Admissions  
(605) 394-5082 (FAX)

NAU’s distance learning program provides online courses and degree options to students across the United States as well as internationally. Students access classes and extensive campus resources anytime, anywhere through National American University’s student portal. Online courses are asynchronous with courses designed with the latest navigation software. Some courses contain asynchronous interactive enhancement features to allow students to interact with faculty and other students in a real-time classroom environment. The university offers students an array of learner services to support their academic endeavors such as the electronic Learning Resource Center/Online Library services, tutoring services, counseling services, help desk support, and other support services.

**Ellsworth Air Force Base Extension**

1000 Ellsworth St., Suite 2400-B  
Ellsworth AFB, SD 57706  
(605) 718-6550  
(605) 718-6555 (FAX)

National American University’s Ellsworth campus is conveniently located in the heart of Ellsworth Air Force Base in western South Dakota. Since 1974, the Ellsworth campus has been serving active duty, reserve, National Guard, and retired military personnel, as well as military families, veterans receiving VA benefits, DOD employees and their dependents, base contractors, and residents of nearby Box Elder. NAU’s Ellsworth campus offers Bachelor of Science and Associate of Applied Science degree programs and classes that meet the Community College of the Air Force (CCAF) requirements for oral communications, written communications, humanities, math, and social science. The Ellsworth campus is located in the Rushmore Center at 1000 Ellsworth Street.

**Independence**

3620 Arrowhead Avenue  
Independence, MO 64057  
(816) 412-7700  
(816) 412-7705 (FAX)

National American University’s Independence campus is conveniently located on the busy east side of the Kansas City Metro area. The Independence campus has been serving students in the western Missouri area since 1990, and has long been considered one of NAU’s flagship campus locations. It is one of three NAU campuses in the Kansas City metro area. In addition to its strong business and information technology curriculum, the Independence campus offers excellent degree programs in medical assisting, healthcare coding, paralegal studies, and healthcare management. The Independence campus is easily accessible from Interstate 70 and Highway 291 just north of the Independence Center. The area is a restaurant and shopping destination due to its proximity to downtown and all suburban areas.

**Lee’s Summit**

401 North West Murray Road  
Lee’s Summit, MO 64081  
(816) 600-3900  
(816) 600-3905 (FAX)

National American University’s Lee’s Summit campus is conveniently located in the heart of the Kansas City metro area since 1974, and has long been considered one of NAU’s flagship campus locations. It is one of three NAU campuses in the Kansas City metro area. In addition to its strong business and information technology curriculum, the Independence campus offers excellent degree programs in medical assisting, healthcare coding, paralegal studies, and healthcare management. The Independence campus is easily accessible from Interstate 70 and Highway 291 just north of the Independence Center. The area is a restaurant and shopping destination due to its proximity to downtown and all suburban areas.
area. Lee’s Summit has been serving students in the Kansas City area since October of 2009. It is considered one of NAU’s blended model education center locations. In addition to its strong business curriculum, the Lee’s Summit campus offers excellent degree programs in medical assisting and information technology. Located on North West Murray Road between Chipman Avenue and Third street, the campus is convenient to Highway 50 and Interstate 470.

**Lewisville Education Center**
475 State Highway 121 Bypass
Lewisville, TX 75067-8193
(972) 829-2150
(972) 829-2156 (FAX)

National American University’s Lewisville Education Center is conveniently located in the heart of the Dallas metro area. The Lewisville campus has been serving students in the Northern Dallas area and provides the caring and supportive environment needed to achieve academic success. In addition to its strong business and accounting curriculum, the Lewisville campus offers excellent degree programs in the healthcare field, criminal justice and information technology. The flexibility and convenience of participating in online and on campus classes allows students to earn their degree while maintaining busy lifestyles. Located off of the 121 S. Bypass, the Lewisville campus is conveniently located in the Village Crossing retail center.

**Mesquite**
18600 LBJ Freeway
Mesquite, TX 75150-5628
(972) 773-8800
(972) 773-8805 (FAX)

**Minnetonka Education Center**
10901 Red Circle Drive, Suite 150
Minnetonka, MN 55343
(952) 562-4200
(952) 562-4205 (FAX)

National American University’s Minnetonka Education Center is conveniently located in the southwest region of the Twin Cities. The Minnetonka Education Center offers blended academic programs to students in the Twin Cities area and has been serving students since the summer of 2009. In addition to its strong business and information technology curriculum, the Minnetonka Education Center offers excellent degree programs in accounting, criminal justice, and the healthcare field. The flexibility and convenience of participating in online and on-site classes allows students to earn their degree while maintaining busy lifestyles. The Minnetonka Education Center is easily accessible from Interstate 494, and Highways 169, 62, and 100.

**Overland Park**
10310 Mastin
Overland Park, KS 66212-5451
(913) 981-8700
(913) 981-8705 (FAX)

National American University’s Overland Park campus is conveniently located just 15 minutes from downtown Kansas City. The Overland Park campus has been serving students in western Missouri and eastern Kansas since 2001, and is one of three NAU campuses in the Kansas City metro area. In addition to its strong business, allied health and information technology curriculum, the Overland Park campus offers an exciting nursing program the Bachelor’s in Nursing-Generalist degree. Located at 103rd Street and Highway 69 just north of the Corporate Woods area, the Overland Park campus is easily accessible from Highway 69 and Interstate 435.

**Rapid City**
321 Kansas City Street
Rapid City, SD 57701-3692
(605) 394-4800
(605) 394-4871 (FAX)

National American University’s Rapid City campus is conveniently located in downtown Rapid City, SD. The Rapid City campus has been serving students in the western South Dakota area since 1941, and is still considered NAU’s home campus. In addition to its strong business and information technology curriculum, the Rapid City campus offers excellent degree programs in athletic training, veterinary technology, and paralegal/pre-law studies. A tourism and hospitality management emphasis program is unique to the campus. Located at 321 Kansas City Street, the Rapid City campus is easily accessible from just about anywhere in the Rapid City area, and is convenient to Interstate 90, Highway 16, and Highway 79.

**Rio Rancho**
1601 Rio Rancho, Suite 200
Highway 528 and Sara Road
Rio Rancho, NM 87124-1093
(505) 348-3750
(505) 348-3755 (FAX)

National American University’s Rio Rancho campus is conveniently located on the growing west side of the Albuquerque metro area. The Rio Rancho campus has been serving students in the Rio Rancho area since 1997, and it is one of two NAU campuses located in the New Mexico region. In addition to its strong business and information technology curriculum, the Rio Rancho campus offers excellent degree programs in the healthcare fields. Located on the second floor of the Sandia Area Federal Credit Union, directly across the street from Intel, the Rio Rancho campus is easily accessible from Interstate 25 and Paseo Del Norte Highway, as well as Alameda and Rt. 528.
Roseville
1550 W. Highway 36
Roseville, MN 55113-4035
(651) 855-6300
(651) 855-6305 (FAX)
National American University’s Roseville campus is conveniently located near the Rosedale Shopping Center. The Roseville campus has been serving students in the Minneapolis area since 1974, and has long been considered one of NAU’s flagship campus locations. In addition to its strong business and information technology curriculum, the Roseville campus offers excellent degree programs in medical assisting, paralegal studies, therapeutic massage, and pharmacy technician. Located north of Har Mar Mall, the Roseville campus is easily accessible from Highway 36 and Snelling Avenue. It is the first of five convenient NAU campuses in the Twin Cities area.

Sioux Falls
5801 South Corporate Place
Sioux Falls, SD 57108
(605) 336-4600
(605) 336-4605 (FAX)
National American University’s Sioux Falls campus is conveniently located in the southwest part of the Sioux Falls area. The Sioux Falls campus has been serving students in eastern South Dakota since 1974, and is considered one of NAU’s most successful campus locations. In addition to its strong business and information technology curriculum, the Sioux Falls campus offers excellent degree programs in paralegal studies and allied health. Located at the intersection of Interstates 90 and 29, the Sioux Falls campus is easily accessible from just about anywhere through nearby major traffic arteries and the city’s bus service.

Tulsa
8040 South Sheridan Road
Tulsa, OK 74133
(918) 879-8400
(918) 879-8405 (FAX)
National American University’s Tulsa campus is conveniently located in the heart of the Tulsa metro area. The Tulsa campus has been serving students in the Tulsa area since February of 2011, and has long been considered one of NAU’s premier campus locations. In addition to its strong academic curriculum, the Tulsa campus offers excellent degree programs in Information Technology, Allied health, Criminal Justice, and business. Located at the intersection of 81st and Sheridan Road, the campus is convenient to 169 highway.

Watertown Education Center
925 29th Street S.E., Suite E
Watertown, SD 57201
(605) 884-7200
(605) 884-7205 (FAX)
National American University’s Watertown Education Center offers blended academic programs to students in Watertown and the surrounding region. The Watertown Education Center has been serving students in northeastern South Dakota since fall 2006. The flexibility and convenience of participating in online and on-site classes allows students to earn their degree while maintaining busy lifestyles. Whether you need to complete your degree or you’re just getting started, NAU has a program that fits your needs. NAU is conveniently located on Highway 212 near Interstate 29. In addition to its strong business and information technology curriculum, the Watertown location offers excellent degree programs in accounting, criminal justice, and healthcare management.

Wichita
7309 E 21st St. N., Suite G40
Wichita, KS 67206
(316) 448-5400
(316) 448-5405 (FAX)
National American University’s Wichita campus is conveniently located in northeast Wichita and has been serving students in the area since 2007. The Wichita campus offers the convenience of on ground classes, online classes, or a combination of both. Students can pursue an associate or bachelor’s degree in a wide variety of programs. Located on East 21st Street North between Rock Road and Woodlawn, the Wichita campus is easily accessible from all areas of Wichita and the surrounding communities.

Wichita West
8428 West 13th St, Suite 110-120
Wichita, KS 67212
(316) 448-3150
(316) 448-3155 (FAX)
National American University’s Wichita West campus has been serving students in the area since 2010. The Wichita West campus offers the convenience of on campus classes, online classes, or a combination of both. Students can pursue degrees in a wide variety of programs. The campus is conveniently located at the corner of 13th Street North and Tyler Road in the Northwest Plaza Center and is easily accessible from all areas of Wichita from the following highways: Interstate 235, K96 or US54/400 (Kellogg).

Zona Rosa
7490 NW 87th Street
Kansas City, MO 64153
(816) 412-5500
(816) 412-5505 (FAX)
National American University’s Zona Rosa campus is conveniently located in the Zona Rosa outdoor shopping center in the northland region of Kansas City. The Zona Rosa campus has been serving students in western Missouri since 2005, and is the northern-most campus of four NAU locations in the KC metro area. In addition to its strong business, legal
studies, information technology, and allied health curriculum, the Zona Rosa campus offers an Associate of Science in Nursing degree, which is taught in a state-of-the-art facility where students practice hands-on learning. Located at Interstate 29 and Barry Road, approximately four miles from the Kansas City International Airport, the Zona Rosa campus is easily accessible from all major traffic arteries and the city’s bus service.
It is recommended that applicants and their families visit National American University so that they may become acquainted with the personnel and facilities of the university. A personal interview should be scheduled with a member of the admissions staff.

**ADMISSION REQUIREMENTS**

**Regular Admission**
For admission to one or more of National American University’s diploma or undergraduate degree programs, students must:

1. complete and submit a Student Application for Admission (Go to http://www.national.edu); and
2. have graduated from a recognized high school (or the U.S. Department of Education-accepted equivalent); or
3. submit an official transcript from an accredited U.S. higher education institution indicating completion of a post-secondary education program of at least two years in length with a minimum cumulative grade point average of 2.0. The official transcript request must be completed during the application process for university approval during the first term of attendance. Students who received their secondary education outside the United States, United States territories, or Department of Defense-recognized U.S. high schools located on military bases outside the territorial United States must provide evidence of secondary-level education completion. Students must submit one or more of the following document(s) during the first term of attendance for university approval prior to the end of the first term:
   a. an official document evidencing completion of the equivalent of a U.S. high school education. (Go to International Undergraduate Student Admissions at http://www.national.edu for further details on country-specific equivalencies of U.S. high school education.) International documentation may include an official academic transcript or marks sheet and/or examination results. (Diplomas or certificates of government examinations must show the academic subjects passed and grades/marks received. All records should be submitted in the original language, and credentials written in languages other than English must be accompanied by a certified English translation. Translations should be literal and not interpretive. A key to the marking system or grading scale should also be included if it is not indicated on the transcript.);
   b. an original General Education Development (GED) examination report demonstrating passing marks for the overall examination; or
   c. an official transcript that indicates completion of a post-secondary program of at least two years in length with a minimum cumulative grade point average of 2.0/4.0 or the equivalent from (i) an international higher education institution that is approved by the country’s national ministry of education or appropriate approval body or (ii) an accredited U.S. higher education institution. (Transcripts should show marks and credits earned for all post-secondary work. All records should be submitted in the native language, and credentials written in languages other than English must be accompanied by a certified English translation. Translations should be literal and not interpretive. A key to the marking system or grading scale should also be included if it is not indicated on the transcript.)

**Non-Native English Speaking Students**
In addition to the above-listed requirements, National American University requires all non-native English speaking students to demonstrate sufficient command of the English language necessary to succeed in college-level classes taught in English. The English proficiency requirement can be satisfied through one of the following before attending any course at the university. Students must:

1. provide an official Test of English as a Foreign Language (TOEFL) score report indicating a minimum score of 500 for a paper-based, 173 for a computer-based or 61 for an Internet-based exam. (The TOEFL must have been taken within the past two calendar years. Official test scores must be sent from the testing agency to National American University. When ordering TOEFL test results, include the university’s school code of 6464.); or
2. provide an official International English Language Testing System (IELTS) score report with an overall minimum score of 5. (The IELTS must have been taken within the past two calendar years. Official test scores must be sent from the testing agency to National American University.);
   or
3. provide evidence of completion of two semesters (or the equivalent) of college-level English (excluding ESL courses) with a grade of "C" or higher at an accredited college or university whose language of instruction is English; or
   or
4. provide evidence of English language proficiency by completing the Accuplacer ESL English assessment exam with minimum scores in the following categories:
   - reading skills of 102 or higher
   - sentence meaning of 100 or higher
   - language usage of 95 or higher
   - writing sample of 5 or higher

Additional documentation in support of an application under this provision may be requested as deemed necessary by National American University. The university reserves the
right to reject documentation or to request verification of documentation as may be necessary. Admissions documentation is considered the property of the university and will not be returned to the applicant (some exceptions may apply). The university reserves the right to reject any submitted application for enrollment.

**Full-time Students**
Students who enroll for 12 or more credit hours per quarter are considered to be full-time.

**Part-time Students**
If a student chooses not to attend full-time, a schedule may be arranged for one or more courses. Credits earned may be applied to degree or diploma programs.

**Special Students**
A special student is one who is not enrolled in a diploma or degree program. Special students are generally not eligible for federal financial aid. However, alternative loan programs may be available. Contact a National American University Financial Services Representative for more information.

**Transfer Students**
Students who have successfully completed course work at other accredited post-secondary institutions may apply for admission to National American University. University policies on transfer credits, residency requirements, and other admissions requirements are outlined in this catalog.

**ACADEMIC SUCCESS APPRAISAL**
The purposes of the academic success appraisal are to:
1. Encourage academic success and degree completion.
2. Identify existing knowledge and skills in both sentence skills and mathematics.
3. Provide students with feedback about their basic skills.
4. Aid in appropriate course placement in English or mathematics and advise the student if pre-college studies are needed.
5. Recommend a course of study in which the student may reasonably expect to achieve academic success.

As an open-enrollment institution, NAU requires all students to complete academic success appraisals at the time of enrollment or provide evidence of successfully completed college-level English and mathematics courses or equivalent. Course completion or equivalents are defined as follows:
1. A student has successfully completed college-level algebra and/or composition (“C” grade or above) and has submitted a copy of a college transcript as documentation.
2. A student has successfully completed the CLEP College Composition and/or College Algebra examination with a passing score, as defined by the CLEP program, and has submitted a copy of the official CLEP transcript as documentation.
3. A student has successfully completed the equivalent Advanced Placement (AP) English and/or mathematics examinations with a score of 3 or above and has submitted a copy of the official AP transcript as documentation.

**BACKGROUND CLEARANCE**
National American University offers a number of academic programs that may ultimately lead to certification and/or licensure in any given field. In that regard, governing/regulatory agencies or bodies may require the demonstration of a criminal background clearance prior to granting such certification and/or licensure. It is incumbent upon students to verify whether a specific criminal background clearance is required in their field of study prior to beginning course work. Upon request, university personnel will assist students with contacting the proper agencies or authorities in making this determination.

**FALSIFICATION OF EDUCATIONAL RECORDS**
Falsifying, altering, or misrepresenting a transcript, grade report, diploma or any other material relevant to admission, enrollment or academic performance shall be considered an overt act of academic dishonesty. This action shall result in denial of admission or enrollment into National American University, or permanent suspension from continuing as a student with the university.

**FINANCES**
Students who are out-of-state residents pay the same tuition, fees and residence hall charges as in-state students. All charges are due and payable on the first day of each new quarter. Advance payment by mail or other means is advised. Financial aid is available for those students who qualify. Tuition, fees and residence hall charges are subject to change without notice. Drafts and checks should be made payable to National American University.

**IMMUNIZATION REQUIREMENTS**

**Minnesota Students**
Under Minnesota law, students need to submit a complete immunization record or meet one of the legal exemptions before being admitted to NAU. Students are exempt if they graduated from a Minnesota high school in 1997 or later, were previously enrolled in another college in Minnesota, or were born before 1956. Other exemptions include religious or philosophical objections to being immunized, in which the student needs to submit a notarized statement of his/her beliefs, or if the student has already had one of the diseases covered in the state immunization requirement. A doctor may sign an exemption if the student has another medical reason, for example, immune to the disease or currently pregnant. Please see an admissions representative for further details.

**South Dakota Students**
Under South Dakota law, students (born after 1956) who are entering a postsecondary institution in South Dakota for the
first time after July 1, 2008, must submit, within 45 days after the start of classes, certification from a licensed physician that the student has received or is in the process of receiving the required two doses of immunization against measles, rubella, and mumps. As an alternative to the requirement for a physician’s certification, the student may present: (1) Certification from a licensed physician stating the physical condition of the student would be such that immunization would endanger the student’s life or health; (2) Certification from a licensed physician stating the student has experienced the natural disease against which the immunization protects; (3) Confirmation from a laboratory of the presence of adequate immunity; or (4) A written statement signed by the student that the student is an adherent to a religious doctrine whose teachings are opposed to such immunizations. If the student is under the age of 18, the written statement shall be signed by one parent or guardian. Please see an admissions representative for further details.

INTERNATIONAL STUDENTS

National American University encourages diversity within its student body, and international students from many countries study at National American University campuses in the United States. An international student is a student who is not a citizen of, nor a permanent resident of, nor a refugee in, the United States of America.

Admission Requirements

International student applicants who wish to study at National American University in an undergraduate program at a campus in the United States approved to host F-1 students must:
1. Complete and submit an International Student Application for Admission (See http://www.national.edu);
2. Provide evidence of secondary and/or post-secondary education completion through one of the following requirements:
   a. An official academic transcript or marks sheets from the country where secondary education was completed. The documents presented should be those which would allow the student access to post-secondary education in the home country. Diplomas or certificates of government examinations must show the subjects passed and grades/marks received. All records should be submitted in the original language, and credentials written in languages other than English must be accompanied by a certified English translation. Translations should be literal and not interpretive. A key to the marking system or grading scale should also be included if it is not indicated on the transcript; or
   b. An official transcript that indicates completion of a post-secondary program of at least two years in length with a minimum cumulative grade point average of 2.0/4.0 or the equivalent from (i) an international higher education institution that is approved by the country’s national ministry of education or appropriate approval body or (ii) an accredited U.S. higher education institution (Transcripts should show marks and credits earned for all post-secondary work. All records should be submitted in the native language, and credentials written in languages other than English must be accompanied by a certified English translation. Translations should be literal and not interpretive. A key to the marking system or grading scale should also be included if it is not indicated on the transcript.); or
   c. An original General Educational Development (GED) examination report demonstrating passing marks for the overall examination.
3. Demonstrate proficiency in English through satisfaction of one of the following requirements:
   a. Provide an official Test of English as a Foreign Language (TOEFL) score report indicating a minimum score of 500 for a paper-based, 173 for a computer-based, or 61 for an Internet-based exam. (The TOEFL must have been taken within the past two calendar years. Official test scores must be sent from the testing agency to National American University. When ordering TOEFL test results, include the university’s school code of 6464.); or
   b. Provide an official International English Language Testing System (IELTS) score report with an overall minimum score of 5 (The IELTS must have been taken within the past two calendar years. Official test scores must be sent from the testing agency to National American University.); or
   c. Provide evidence of completion of two semesters (or equivalent) of college-level English (excluding ESL courses) with a grade of "C" or higher at an accredited college or university whose language of instruction is English; or
   d. Provide evidence of English language proficiency by completing the English assessment exam, Accuplacer ESL, with minimum scores in the following categories:
      • Reading skills of 102 or higher
      • Sentence meaning of 100 or higher
      • Language usage of 95 or higher
      • Writing sample of 5 or higher
4. Complete and submit the International Financial Certification form and attach an original bank statement. International students are required, as part of the application process, to show evidence of sufficient funding during their studies. The amount and source of funds are also shown on the Certificate of Eligibility (Form I-20) needed to apply for an F-1 student visa. In addition, students planning to bring a spouse and/or children are required to show additional funds for those individuals.

Students requesting the Certificate of Eligibility (Form I-20) to apply for an F-1 visa to enter the U.S. to attend National American University must fulfill all listed international admissions requirements. Upon acceptance by and approval from the university, Form I-20 will be issued to eligible students.

Transfer students and students requesting Change of Status from a different visa type will be additionally required to
submit official transcripts from previously attended colleges and universities as well as information concerning proof of current status with the United States Citizenship and Immigration Services (USCIS) for the issuance of Form I-20.

Additional documentation in support of an applicant's candidacy may be requested as deemed necessary by National American University. The university reserves the right to reject documentation and to request verification of documents as necessary. Admissions documentation will be considered the property of the university and will not be returned to the applicant (some exceptions may apply). National American University reserves the right to reject any and all student applicants.

Financial Aid
Government-sponsored or subsidized programs are generally not available to international students. International students should consult their country’s consul or ambassador for educational benefits sponsored by their home country, or obtain a private sponsor.

New International Students
New international students may participate in new student orientation during the first week of the quarter. Students will receive information about academic issues, as well as an orientation to the campus and the local area.
LEARNER SERVICES

The learner services program at National American University campuses contributes to the career development goals of the university’s students. Learner services are provided through personnel, programs, and procedures offered to stimulate student development and personal and social growth. Other aspects of learner services attempt to reduce or regulate conditions that might conflict with educational objectives shared by students and the university.

ALUMNI

Graduates of National American University become members of the National American University Alumni Association.

A recent initiative has been undertaken to enhance communication by way of newsletters and other means, and to build a more active and mutually beneficial relationship. Regular input from recent graduates helps the university evaluate its programs and personnel in terms of assessing outcome determinations and establishing improvement measures.

Alumni of National American University are encouraged to assist the university with the placement responsibility by sharing information regarding employment opportunities. Referral of prospective students to the university by alumni is also welcomed. Job search assistance on a long-term basis is available at no added charge to graduates through the campus career services offices. Alumni may activate involvement, and begin to receive the National News quarterly newsletter, on the National American University web site at http://www.national.edu/Alumni.

CAREER SERVICES

Career development is central to the mission and the overall purposes of the university, and the career services staff has the responsibility to assist students and graduates in this important endeavor. Faculty, staff members, alumni and others also contribute to this effort.

The learner services office at each campus assists students and graduates with employment or enhanced employment. Interaction with employers and alumni, participation in the career management class, career fair sponsorships, assistance with preparation of resumes and other written materials, on-campus recruitment by employers, part-time employment, internships, Internet utilization, and Federal Work-Study jobs are some of the means used by National American University to facilitate employment and career development of students and graduates. The university prepares and reports statistical information on employment of graduates. National American University students and alumni are informed and empowered by the ability to link to the world’s job market through the NAU Career Services web site: www.national.edu/careerservices.

CONDUCT

As a student at National American University, appropriate conduct and integrity are expected. In some instances of student misconduct, the university will issue a warning or will place the student on disciplinary probation, suspension, or will dismiss the student from the university. A written policy on student conduct is available from the office of the academic dean or the campus executive officer who has authority and responsibility for overseeing student conduct.

Procedural fair play and due process will be provided in every instance. Proper safeguards for the welfare, safety and educational opportunity will be provided for all students.

Institutional obligations include, but are not limited to, upholding the law and maintenance of regulations regarding academic honesty and restricting prejudicial behavior, physical abuse or harassment, impropriety of personal behavior, or illicit use of drugs or intoxicants, especially as these relate to institutional and educational goals. Respect and tolerance are key words in the institutional expectations of students in their interaction with each other and with other members of the university community. Legal violations will be turned over to police authorities.

DISABILITY SERVICES

National American University strives to make its programs accessible to all individuals, in compliance with Section 504 of the Rehabilitation Act of 1973 and Title III of the Americans with Disabilities Act of 1990. Its purpose is to create and maintain an environment in which students may achieve their fullest potential, limited to the least extent possible by individual disabilities. Such disabilities include physical or mental impairment that substantially limits major life functions. All faculty, staff, and students of the university are expected to adhere to this philosophy of equal access to educational opportunity and to assume broad responsibility for its implementation.

Disclosure of a disability is not required, but if disclosed, it is the responsibility of the individual to seek available assistance and make his/her needs known.

The system student services office is the designated office at National American University that maintains disability-related documents, certifies eligibility for services, and determines and provides reasonable accommodations for students with disabilities. It is located in Rapid City, South Dakota. All requests for accommodation, documentation reports, and inquiries should be directed to:

Dr. Meg Whiston, System Director of Learner Services
5301 South Highway 16, Suite 200
For more details regarding the university’s policies and procedures for providing reasonable accommodations for students with disabilities, please see the System Student Handbook.

DRUG AND ALCOHOL POLICY
National American University takes a positive, proactive role in preventing the possession, use or distribution of drugs and alcohol by students and other members of the campus community. The university has adopted the guidelines of the 1990 Drug Free Schools and Campuses Act. Under this act, National American University has:

1. Established standards of conduct that prohibit unlawful use, possession or distribution of drugs or alcohol;
2. Annually distributed information describing legal sanctions under state and federal law;
3. Annually distributed information regarding health risks associated with the use and abuse of drugs and alcohol;
4. Provided information related to counseling, treatment, and rehabilitation associated with the use and abuse of drugs and/or alcohol on an annual basis;
5. Set disciplinary sanctions which will be imposed on students and employees for violations related to the use and abuse of alcohol and/or drugs;
6. Utilized professional staff to inform and to support institutional and personal educational objectives.

The university’s drug and alcohol policy is distributed to students annually. These sanctions include expulsion of students and termination of employees.

GRIEVANCE
Written policies and procedures of National American University describe processes through which students may question or contest most institutional determinations. There are specific descriptions related to privacy, harassment, conduct, grades, drugs and alcohol, and other campus concerns and conditions. Due process is integral to university procedures; students are encouraged to voice their concerns and to interact productively with the university in the administration of policies that relate to them or to the well-being of other students.

Student problems or issues not otherwise addressed by a formal policy may be appealed by contacting a campus academic dean, campus executive officer, or regional vice president.

GROUPS/ORGANIZATIONS
Student groups on National American University campuses have been organized for specific functions or on the basis of a common interest or goal. Student groups may include student government, student advisory councils, or other campus organizations that exist on the basis of ethnic, recreational, athletic or academic interests.

HEALTH AND ACCIDENT INSURANCE
Health and accident insurance in the form of a student group policy exists for all National American University students. The financial impact of illness or an accident on educational opportunity may be reduced by electing this optional coverage. Information regarding this benefit may be obtained from campus learner service coordinators.

LEARNING RESOURCE CENTER/ONLINE LIBRARY
National American University's Learning Resource Center (LRC)/Online Library is dedicated to assisting and supporting students, faculty and staff at all campuses in achieving success in their academic programs and careers through the development and maintenance of a collection of current and timely information in a variety of formats. Most campuses have traditional hard copy resources including books, journals, magazines, newspapers and publications that support all the academic programs. All campuses have access to the NAU Online Library. The Online Library provides access to the National American University online catalog, e-books, tutorials, and myriad electronic searchable full-text databases including those provided by: ProQuest, EBSCO, Gale, LearningExpress, NetLibrary, Mosby's, OVID, LexisNexis, NBC, and WorldCat. All campus students have access to public libraries as well as often support from local university and college libraries in their region.

LEARNER SUPPORT SERVICES
National American University campuses have a number of programs intended to assist students in gaining the optimum benefit from their academic experience. Tutoring is perhaps one of the oldest and most supportive activities sponsored by the university. Successful students in a particular discipline are hired by the university and tutoring services are made available to the students at each campus.

Advising contacts between students and members of the faculty and the professional staff are also very important in planning and achieving goals for education, for careers, and for life.

NAU FOUNDATION ACADEMIC EXCELLENCE AWARD
Each National American University campus recognizes and rewards academic achievement through an NAU Foundation Academic Excellence Award and the NAU Foundation Alumni Academic Excellence Award program. To be eligible to apply for the Academic Excellence Award, the student must have attended half-time (six or more undergraduate credit hours or 4.5 or more graduate credit hours) at National American University fall and winter quarters of the last calendar year and continue on a half-time basis for the award
period. The minimum cumulative GPA requirement for consideration is 3.66.

Applications are available at each campus in the spring. Letters of reference and a brief autobiography must be included with the application.

Scholarship recipients are selected on the basis of the following:
1. Academic achievement at National American University;
2. Participation in institutional activities or community involvement/service while a National American University student;
3. Financial need.

**Orientation**
The university conducts a variety of orientation activities and programs prior to student entrance into the university and classes; students thereby become acquainted with faculty, staff and curriculum. It is important that the student's and the university's goals and philosophies match. Orientation programs are both formal and informal. It may be desirable in many instances to include family members or friends in visitation, tours and general orientation activities. Students and family members routinely visit the campus as part of the orientation and enrollment process.

University publications, including this catalog and the student handbook, play a role in orienting students to National American University. Strategies for Success, a university course which is required of all entering students, extends orientation and student development into the classroom and beyond.

**Part-time Employment**
The learner services office will assist students who want part-time employment, on or off campus, while attending the university. The learner service coordinators work regularly with area business firms to help secure jobs for National American University students seeking part-time positions.

**Recognition and Scholarships**
National American University recognizes students for their academic achievements, leadership abilities, and community service. Information on scholarship programs can be obtained by contacting the financial aid office at the campus of interest.

In addition to various quarterly honors, the university participates in the national program Who's Who Among Students in American Universities and Colleges. Outstanding upper division students in bachelor's programs are selected and recognized yearly at each location. Academic excellence, leadership and service are factors used to select qualified candidates for Who's Who.

**Right to Privacy - FERPA**
The Family Educational Rights and Privacy Act (FERPA) of 1974 is a federal law which states: (a) that a written institutional policy must be established and (b) that a statement of adopted procedures covering the privacy rights of students be made available. The law provides that the institution will maintain the confidentiality of each student's educational records.

National American University accords all the rights of privacy under the law to students who are declared independent. Students who are minors are still accorded the protection of the law with the exception that a parent or guardian may have the right to information in the student's file. No individual organization outside the institution shall have access nor will the institution disclose any information from students' educational records without the prior written consent of students, except to personnel within the institution or officials of other institutions in which students seek to enroll. Persons or organizations providing students' financial aid, accrediting agencies carrying out their accreditation function, persons in compliance with a judicial order, and persons who, in an emergency, seek to protect the health or safety of students or other persons may also have access. Within the university, only those members of the faculty or staff individually or collectively acting in students' educational interests are allowed access to student records.

At its discretion, the institution may provide student directory information in accordance with the provisions of the Act to include the following: name, local and permanent addresses, local and permanent telephone numbers, e-mail address, date and place of birth, dates of attendance, class, college, major, most recent school attended, full-time or part-time status, honor roll, participation in officially recognized activities and sports, weight and height of members of athletic teams, degree(s) and honors conferred, and commencement program information.

A student may withhold directory information by notifying the office of the registrar or the branch campus administrative office in writing no later than the 15th day after the first day of the term in which the student is enrolled. Requests for nondisclosure will be honored by the university until removed by the student. Please note that such withholding requests are binding for all information to all parties other than for educational purposes.

In addition, FERPA affords students certain rights with respect to their education records. These rights include the following: 1. The right to inspect and review their education records within 45 days of the day the university receives a request for access; 2. The right to request an amendment of their education records that they believe are inaccurate or misleading; 3. The right to consent to disclosures of personally identifiable information contained in their education records, except to the extent that FERPA authorizes disclosure without consent (One exception that permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the university in an administrative, supervisory, academic or support staff position.).
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the university to comply with the requirements of FERPA. The name and address of the office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue SW, Washington, DC 20202-5920.

**STUDENT CONCERNS - MINNESOTA STUDENTS**

Those students enrolled at NAU campuses located in the state of Minnesota and who have been unable to resolve their concerns through the university’s normal channels may also contact the Minnesota Higher Education Services Office, 1450 Energy Park Drive, Suite 350, St. Paul, MN 55108-5277.

**STUDENT CONCERNS - MISSOURI STUDENTS**

The Missouri Department of Higher Education serves as a clearinghouse for postsecondary student complaints. The MDHE complaint policy may be found at http://www.dhe.mo.gov/documents/POLICYONCOMPLAINTRESOLUTION.pdf. This web site contains information about the complaint process and includes instructions for how to file a formal complaint. Note that the policy provides that a student who wishes to file a complaint with the department must first exhaust all formal and informal avenues provided by the institution to resolve disputes.

**STUDENT CONCERNS - TENNESSEE STUDENTS**

Those Tennessee students enrolled in the distance learning program with student concerns may contact the distance learning campus learner services advisor at (800) 548-0602. Those who have been unable to resolve their concerns through the university’s normal channels may also contact the Tennessee Higher Education Commission, 404 James Robertson Parkway, Nashville, TN 37243-0830, telephone: (615) 741-5293.
Tuition and Fees are due on the first day of each quarter unless advanced arrangements are made. A commitment for tuition and fees is subject to the current refund policy. Students may qualify for short-term financial assistance to complete their registration. Tuition does not include the cost of books and supplies.

 Debts that are not paid in full within 30 days after a student's last date of attendance will be subject to late charges of up to 18% per year (1.5% per month) on the unpaid balance. They are also subject to the statutory provisions for default in the state where the student attended in inclusive of reasonable collection costs and attorney fees. The university also reserves the right to report all unpaid balances to the credit bureau.

Fees

Graduate Application Fee - $45
Student Accident and Sickness Insurance Plan (optional) (Inquire for coverage and rates.)
Matriculation Fee (paid once) - $75
Undergraduate Graduation Application Fee (per undergraduate degree at time of graduation application) - $50
Graduate Graduation Application Fee (per graduate degree at time of graduation application) - $60
Residence Hall Deposit (Rapid City only) - $100
Portfolio Fee (per credit hour) - $50
Technology Fee (All undergraduate on-campus students excluding Ellsworth) - $10 per credit hour

A list of specialty course/program fees is available to all students and prospective students in the student account office. Students enrolled in specific programs are required to purchase program wearable items, accessories, or uniforms, or receive immunizations for program participation. A $100 program allowance is available per academic year to assist with these costs.

Residence Hall Room Charge

(Rapid City campus only)
All students residing in the residence hall are required to purchase a meal plan.

Per Quarter Charge
Multiple occupancy (2-person room) - $770
Multiple occupancy (4-person room [3 or 4]) - $770

Per Quarter Food Service Charge
55-meal plan (based on an average of 5 meals per week) - $396

Additional meals may be purchased. See Financial Services for rates.

Refund Policy: On-Campus and Online Students

Definition of a Student
The definition of "student" as used in this catalog means the student, if the student is a party to the contract, or the student's parent, guardian, or other person if the parent, guardian or other person is a party to the contract on behalf of the student.

Add/Drop Period
A student may add or drop any course during the first scheduled week of a standard term of enrollment with no penalty. A student who drops individual courses during this week will receive a full refund for the credit hours dropped. No refunds will be made for individual courses attended and then dropped following this period. The add/drop dates for standard and interim terms are posted in the Academic Calendar.

The university will make full or partial refund of tuition paid by students who completely withdraw after classes begin.

Withdrawals/Refunds
Students should give written notice of withdrawal to the university academic dean to officially terminate their enrollment. Students who do not give written notice will be withdrawn from courses when it is determined, by the university, that the student is no longer pursuing his or her educational objective.

Students completing at least one course during the term will not be eligible for a refund. Students who withdraw without completing any courses during the term will have a refund calculation completed.

The period of enrollment includes all courses for which the student is registered, from the first scheduled day of attendance through the last scheduled day of classes for this student.

The return of Title IV funds and the tuition reduction will be calculated based on the student’s last day of attendance. Refunds minus a $75 administrative fee will be made within 45 days of when the withdrawal date (last day of attendance) is determined.

The following refund policy from National American University applies to all students in all academic programs and all student categories at all campuses. The following refund policy does not apply to contract agreements or other arrangements where a separate refund policy is stated.
A prorated amount of Title IV funds must be returned to financial aid programs for students not completing 60 percent of the period of enrollment if the student was a financial aid recipient.

Students who completely withdraw from National American University during the first 60 percent of the term will have tuition and fees prorated based on the last day of attendance in accordance with the following calculation:

<table>
<thead>
<tr>
<th>Last Day of Attendance</th>
<th>Percent of Reduction</th>
</tr>
</thead>
<tbody>
<tr>
<td>Withdrawal prior to the first day of classes</td>
<td>100%</td>
</tr>
<tr>
<td>Last day of attendance during the first week of classes</td>
<td>100%</td>
</tr>
<tr>
<td>Beyond first week but during first 60% of scheduled classes</td>
<td>daily proration*</td>
</tr>
<tr>
<td>Beyond 60% of scheduled classes</td>
<td>no refund</td>
</tr>
</tbody>
</table>

*Percent of term completed = Number of days from scheduled start of term through student’s last day of attendance ÷ Number of days in scheduled term

Percent to be refunded = 100% minus percent of term completed

If a postsecondary proprietary educational institution utilizes a refund policy of their recognized national accrediting agency or the new United States Department of Education (USDOE) Title IV refund policy enacted by the 1992 Amendments to the Higher Education Act, the postsecondary proprietary educational institution must provide written verification in the form of a final refund calculation, upon the request of the commission, that its refund policy is, indeed, more favorable to the student than that of the commission's. Postsecondary proprietary educational institutions accredited by a nationally recognized accrediting agency must uniformly apply the commission's tuition refund policy or the refund policy of their recognized accrediting agency, as previously approved by the commission to all first-time students enrolled. Postsecondary proprietary educational institutions using a refund policy other than that of the commission's must list the complete policy and its origination in the institutional catalog and the enrollment agreement. (Indiana Commission on Proprietary Education; 570 IAC 1-8-4.5; filed Jan 17, 1995, 1:00 p.m.: 18 IR 1476; readopted and extended filed Jan 9, 2002, 10:58 a.m.: 25 IR 1731; readopted filed Sept 11, 2008, 9:53 a.m.: 20080924-IR-570080518RFA)

ADMINISTRATIVE FEE

A $75 administrative fee will be assessed against each prorated refund.

Percent to be refunded = 100% minus percent of term completed

Food Service (Rapid City)

Food service refunds are prorated throughout the quarter. The refund is based on the last day the service was utilized.

The university will make full refund of any amount paid by the student for a quarter during which the student has not taken any meals under this contract, provided the student notifies the university five (5) days prior to the beginning of the quarter.

Residence Hall (Rapid City)

During the quarter, should a student withdraw from the university and leave the residence hall, a pro-rata refund will be applied throughout the quarter. The date that the student officially checks out of the residence hall will determine the basis for the pro-rata refund. (Refer to the guidelines set forth in the residence hall application agreement form.)
National American University recognizes that many worthy students would be unable to pursue their educational goals without financial assistance.

National American University provides financial aid in the form of grants, scholarships, work-study and low-interest loan programs through federal, state and local sources.

Students interested in applying for financial aid through the following programs are encouraged to write and/or visit the university financial services office. The addresses for all locations of National American University are listed at the beginning of the catalog.

### FEDERAL PELL GRANTS
A Federal Pell Grant, unlike a loan, does not have to be repaid. Pell Grants are awarded only to undergraduate students who have not earned a bachelor’s or professional degree. The federal government determines eligibility. Pell Grant awards for the 2011-2012 academic year range from $555 to $5,550.

### FEDERAL SUPPLEMENTAL EDUCATION OPPORTUNITY GRANTS (FSEOG)
The FSEOG program is designed to assist undergraduate students with an exceptional financial need. First priority is given to Federal Pell Grant recipients. National American University FSEOG awards range from $500 to $900 per quarter. Amounts are limited and early application is important.

### FEDERAL WORK STUDY PROGRAM (FWS)
The Federal Work Study Program (FWS) provides jobs for undergraduate and graduate students with a financial need, to assist them with their educational expenses. Students may work up to 20 hours per week while the university is in session.

The National American University Financial Services Office - or on the Rapid City Campus the Career Services Office -- assists students with obtaining either on-campus or community service FWS positions. Funds are limited; therefore, early application is important.

### FEDERAL PERKINS LOAN
A Federal Perkins Loan is a low interest loan (5 percent) for both undergraduate and graduate students with exceptional financial need. Priority is given to Federal Pell Grant recipients.

The annual maximum for each award year of undergraduate study is $5,500. The annual maximum for each award year of graduate study is $8,000.

The aggregate (program) loan limits are $27,500 for a student who is a junior or senior in an undergraduate program leading to a bachelor’s degree, and $11,000 for a student who is a freshman or sophomore in an undergraduate program leading to a bachelor’s degree or for students in degree/diploma programs that are two years or less in length. The aggregate (program) loan limit for a graduate student is $60,000 (including any Federal Perkins Loan borrowed as an undergraduate).

Repayment of Perkins Loans for first-time Perkins Loan borrowers begins nine months after the student graduates, withdraws or drops below half-time attendance. For details on deferments and/or cancellations, contact the financial services office. Funds are limited, therefore early application is important.

### FEDERAL DIRECT LOAN PROGRAMS
Loans made through these programs are referred to as Direct Student Loans. The Federal Government provides funds and guarantees these student loans. Direct Student Loans include Subsidized and Unsubsidized Stafford Loans, and Parent Loans for Undergraduate Students (PLUS). Students and parents repay these loans to the Servicer assigned by the Federal Government.

### DIRECT STAFFORD LOANS
Direct Stafford Loans are for undergraduate, graduate and professional degree students. You must be attending as at least a half-time student to be eligible for a Direct Stafford Loan.

There are two types of Direct Stafford Loans: subsidized and unsubsidized. You must have financial need to receive a Subsidized Stafford Loan. Financial need is not a requirement to obtain an Unsubsidized Stafford Loan. The U.S. Department of Education will pay the interest that accrues on Subsidized Stafford Loans during certain periods of at least half-time enrollment, the grace period and during certain times of deferment. The U.S. Department of Education will at no time pay the interest that accrues on Unsubsidized Stafford Loans.

### Annual and Aggregate (Program) Limits for Direct Subsidized and Unsubsidized Stafford Loans

Nursing scholarship site:
www.nursingscholarship.us

In the reference section of the university library and in the financial services office, further information is available concerning outside scholarships and how to apply for them.

Veterans Administration (VA)
Veterans and/or dependents of veterans who are disabled or deceased may qualify for educational financial assistance through the Veterans Administration. Since the regulations regarding eligibility are quite extensive and many times need interpretation, the student is referred to the Veterans Administration Center. State Veterans Administration Office locations may be found at www.va.gov/statedva.htm. Or you may call 1-888-442-4551 or contact your local Veterans Service Organization.

Other State and Federal Programs
Benefits may be available through such government programs as State Trade Adjustment Act, Minnesota State Grant Program (MSGP), Minnesota Child Care Grant (MCCG), Bureau of Indian Affairs (BIA), state vocational rehabilitation services (for mobility, hearing, and/or visually impaired), and the Military or Federal Tuition Assistance Programs.

DIRECT PARENT LOAN FOR UNDERGRADUATE STUDENTS (PLUS)
Direct PLUS loans are for parents to borrow to help pay for their dependent child's education. The Direct PLUS loan provides additional funds for education expenses. Direct PLUS loans enable parents with good credit histories to borrow for each child who is enrolled at least half-time. The annual loan limit is the student's cost of education minus any estimated financial aid received. The U.S. Department of Education will at no time pay the interest that accrues on Direct PLUS loans.

For information about Federal Student Aid from the U.S. Department of Education, visit www.studentaid.ed.gov.

SCHOLARSHIPS

ACADEMICS

ACADEMIC HONORS
Honors awarded at National American University are divided into four groups: President’s List, Dean's List, Honorable Mention List, and Academic Excellence Certificate and special recognition.

President’s and Dean’s List
Each quarter, students who earn a designated grade point average are eligible for the following honors:

- **Full-Time Students:**
  - President’s List – 4.0 and enrolled in 12 or more credits
  - Dean’s List – 3.65 to 3.99 and enrolled in 12 or more credits with no grade below a "B"
  - Honorable Mention List – 3.33 to 3.64 and enrolled in 12 or more credits with no grade below a "C"

- **Part-Time Students:**
  - Academic Excellence Certificate – 4.0 GPA and enrolled in at least eight credits but less than 12 credits

Graduation Honors
Upon meeting bachelor of science degree graduation requirements, those students who have exhibited academic excellence will be awarded the designations to indicate that they have graduated with honors. To be eligible for these honors, a student must have a cumulative grade point average on credits earned at National American University according to the following schedule:

- Cum Laude - An average of 3.5 to 3.69
- Magna Cum Laude - An average of 3.7 to 3.89
- Summa Cum Laude - An average of 3.9 or higher

Associate degree and diploma candidates who have a cumulative grade point average of 3.5 or higher for credits earned at National American University are eligible for the designation "With Distinction."

ACADEMIC INTEGRITY
The National American University Mission and Purposes describe the university’s commitment to assist students in further development of ethical values and behavior. A significant aspect of one of the purposes relates to academic integrity and the encouragement of honesty and ethical behavior on the part of students and graduates. Academic dishonesty includes, but is not limited to, plagiarizing and/or cheating on assignments, tests or projects; or assisting someone else in these actions.

Students
Students are encouraged to model behaviors that reflect honesty and integrity, and, therefore, may not engage in or tolerate cheating, plagiarism or other forms of academic dishonesty and/or related misconduct. Students should work in collaboration with each other to accomplish educational objectives; however, they are also responsible for their own understanding of the academic content and for their own work. Students who are unclear about the academic dishonesty examples listed below should seek clarification from a faculty member or staff members with appropriate expertise.

The most common forms of academic dishonesty include but are not limited to:

**Cheating:**

- Using or attempting to use unauthorized assistance, material or student aids in examinations or other academic work. Examples: using a cheat sheet on an exam, copying from another student’s exam, copying an exam before it is given, collaborating on an assignment without course instructor’s consent, or altering exam answers and resubmitting the exam for a better grade.

**Plagiarism:**

- Using the ideas, data or language of another without specific and proper acknowledgement. Examples: failing to cite a reference or to use quotation marks where appropriate, or misrepresenting another’s work as one’s own original creation.

**Fabrication and Falsification:**

- Submitting contrived or altered information in an academic exercise. Examples: inventing data, research results, information or procedures in an academic exercise, reporting false information about internship or practicum experiences, or altering the record of data or experimental procedures or results.

**Multiple Submission:**

- Submitting, without prior permission, substantial portions of the same academic work for credit more than once.

**Complicity in Academic Dishonesty:**

- Knowingly helping or attempting to help another commit an act of academic dishonesty; failing to report instances of academic dishonesty of which the student is aware.

Students are responsible for seeking information about accurate documentation of citations and references for specific content areas. Students who are unclear about the cheating and plagiarism examples listed above should seek clarification from a faculty member or staff members with appropriate expertise.

**Faculty**

The university trusts the members of the faculty to enforce policies and to establish procedures in their classes that will encourage honesty and ethical behavior on the part of students.
The university expects that faculty members will not only make the determination of academic dishonesty, but that they will impose the sanctions described below as appropriate.

**Penalties**

Penalties are given at the discretion of the academic dean and/or system vice president of academic operations and learner services (SVPAOLS) and are determined based on the severity of the violation and any prior history of academic dishonesty. Penalties include the following:

1. Failing grade for test, assignment, or project
2. Failing grade for course
3. Temporary or permanent suspension (assigned only by the SVPAOLS)

A student may not withdraw from the course or change the grading option for the course before an allegation of academic dishonesty has been resolved. Generally, if a student has either admitted to the allegation or has been found responsible for academic dishonesty, the student will not be permitted to withdraw from the course or change the grading option for the course.

**ADVANCED PLACEMENT PROGRAM (AP)**

Entering students who have completed an honors course in high school and who have taken and successfully passed the appropriate College Board Advanced Placement exam with a score of 3, 4 or 5 may receive course credit. The student shall receive credit without a specific grade for the exempted course.

**ASSESSMENT PHILOSOPHY**

The assessment of student learning outcomes is integral to achieving the National American University Mission and Purposes and Core Values. In order to prepare students for careers in health care, business, and business-related fields through quality higher education, student learning outcomes must be measured to document academic achievement and to identify opportunities for improvement. In addition to promoting continuous improvement, the assessment of student learning also encourages the university to be accountable to its constituents through the documentation and reporting of its academic outcomes.

The following are essential elements in the assessment of student learning at National American University:

- Qualified faculty design and approve new academic programs and support services after appropriate research and planning have been completed so that quality is imbedded in all programs and services.
- Qualified faculty create program goals and student learning outcomes for each undergraduate and graduate academic program, consistent with the University Mission and Purposes and Core Values, program accreditation standards, and good practices in higher learning and in the profession. These learning outcomes are combined with faculty-developed criteria to serve as the basis for assessing the quality of teaching and learning, as well as related support services, provided within and across academic programs and campuses.

- Student learning outcomes for all academic programs are measured in a systematic and continuous manner, using multiple direct and indirect assessment methodologies to document achievement of outcomes, as well as learning over time. While most assessment methods will be objective and quantitative, others may be subjective and qualitative. There is no single best method for measuring and assessing student academic achievement and the complexities of higher learning. Use of multiple quantitative and qualitative methods is encouraged to allow for triangulation of the data and improve the validity and reliability of the conclusions drawn from assessment reports.

With the university’s adoption of performance-based curriculum development, authentic assessments that measure student performance or work products are integrated, as appropriate, into program assessment plans. In addition, existing classroom assessments and data collected and reported to meet external accountability requirements are utilized where possible.

- Faculty peer groups with representatives from across the university campuses/regions analyze the collected data to determine whether learning outcomes have been achieved or opportunities for improvement are present. Recommended actions for improvement are implemented, and learning outcomes continue to be assessed until improvement can be documented.

- Relevant findings from the assessment of student learning are included in the university’s budget and strategic and operational plans to promote quality academic programs and support services and encourage excellent teaching and effective learning. Findings and actions resulting from the assessment of student learning are also linked to scheduled academic program reviews and the university’s institutional effectiveness efforts, where appropriate.

Consistent with this philosophy, every student at National American University participates in periodic assessments in order for the university to measure and improve student learning outcomes and academic support services. A variety of direct and indirect assessment methods are used and may include examinations, rubrics, competency checklists, portfolio analysis, and survey or interview participation.

Although measurement and evaluation of student learning is fundamental to the university’s assessment program, outcomes are not intended to be used as the basis for evaluating faculty or for determining the graduation status of students. The assessment of student learning will not create barriers to hinder student progress toward educational goals.

**ATTENDANCE PHILOSOPHY**

The university’s philosophy on attendance supports its mission of career and professional education. The university creates an
educational environment that is responsive to the career/professional interests and educational objectives of its students, as well as the needs of employers, government and society. Students are expected to attend all of their classes just as employees are expected to be at work as scheduled in the business world. Our goal is to prepare students to be conscientious and productive employees.

NAU creates a caring and supportive learning environment. The university believes that students are more successful if they participate in class, and that they receive great benefit from classroom discussions and the relationships formed with other students and faculty members. Instructors are more likely to recognize that a student is in need of tutoring or other academic support if the student is regularly attending class.

**ATTENDANCE POLICY**

Students are expected to attend all class sessions. If a student misses two consecutive weeks of classes without contacting the instructor or academic advisor, he/she may be administratively dropped from the course. Faculty may implement grade adjustments based on the university’s attendance policy. Each faculty member’s requirements for make-up work, if applicable, are stated in the course syllabus.

Attendance is taken each week in all classes. Students enrolled in online courses are counted as present if they actively participate weekly within the course in the university’s learning management system. For more information regarding online requirements, please refer to the Distance Learning section of the academic catalog.

Students who have attended past the first 60 percent of the scheduled term, as published in the academic calendar, will not be dropped for non-attendance.

**AUDITING**

Students who wish to attend the class sessions of a university course but do not wish to receive credit or a letter grade must meet with their academic advisors to request auditing privileges. Privileges will be extended to students upon recommendation of the student’s advisor and approval of the academic dean.

The following students are eligible to request auditing privileges:

1. Students who are already carrying at least eight hours of credit may audit one or more on campus or online courses, on a space available basis, at no additional cost.
2. Graduates of National American University may audit, on a space available basis, a course they have previously taken and passed at National American University at no additional cost.

Students may not audit independent study courses or courses not already completed that are required in the program of study.

**BLOCK TRANSFER POLICY**

National American University’s block transfer policy (General Education Equivalency) applies to all bachelor’s degree programs with the exception of the following: Athletic Training, Nursing, and the Applied Management program offered in Kansas. All transfer course work must be college level (1000-level or above).

Block transfer does not apply to students residing or attending Minnesota or Texas campuses. If students were eligible for block transfer on enrollment, a subsequent change of degree program request will initiate the reevaluation of eligibility for block transfer in the new degree program.

Students who have earned a bachelor’s or associate degree, regardless of the type, with the equivalent of at least 50 quarter credit hours of general education courses, meet the requirements for National American University’s general education core area available for block transfer.

Students who have earned an Associate of Applied Science (AAS), Associate of General Studies degree or a technical Bachelor of Applied Science degree from an accredited institution may be eligible for block transfer in the university’s Bachelor of Science in Applied Management and Bachelor of Science in Applied Information Technology degree programs if sufficient general education transfer credits are available.

**CANCELLATION OF COURSES**

The university reserves the right to cancel any scheduled course for insufficient enrollment.

**CHANGE OF GRADES**

Grades submitted by faculty at the end of each quarter are not subject to revision on the basis of additional work or a new examination. Grade changes, other than incomplete grades, are limited to computational and/or recording errors.

**CHANGE OF PROGRAM**

Students are limited to active enrollment in one program of study. Students wishing to change the program in which they are enrolled must meet with their academic advisor or the academic dean to complete the required paperwork and to determine which courses/credits they have earned will meet the requirements of the new program.

**CHANGE OF PROGRAM WITH GRADE DELETION**

Any student may apply one time for a change of program with grade deletion. To initiate this process, the student consults with his/her academic advisor who will explain the specific application guidelines.

If the student's request is granted, all grades that do not apply toward a new program curriculum will be deleted on the official transcript. Once the change has been finalized, all deletions are permanent. The course numbers and titles will
continue to be included on the transcript, but no credits or grades will be reflected. This procedure is available only once in the student's academic career at National American University and may not be applied if the student has already received a “Fresh Start” under the Fresh Start Policy. For Satisfactory Academic Progress purposes, the grades the student earned in the first program must be calculated in the cumulative GPA, and the corresponding credit hours must be calculated in the successful completion rate.

**CLASSIFICATION OF STUDENTS**

Freshman  A student who has not yet earned 40 quarter hours of credit.

Sophomore  A student who has earned 40-79 quarter hours of credit.

Junior  A student who has earned 80-119 quarter hours of credit.

Senior  A student who has earned 120 or more quarter hours of credit.

In addition to completion of university courses, other ways to earn university credit are discussed in the catalog under the heading of "Nontraditional Credit."

**COMMENCEMENT**

Formal commencement exercises are conducted annually following the spring quarter. Students graduating from the online campus are recognized through a virtual commencement; additionally, they are also encouraged to attend commencement exercises at any one of the university's campus locations.

**CORPORATE TRAINING**

National American University provides specialized short-term training. These customized courses are designed around the specialized needs of business and industry.

**DUAL USE OF CREDIT**

National American University encourages high-performing high school students to extend their education through the completion of college-level courses while still enrolled in high school. In addition, with their high school district’s approval, these courses may also be applied to high school graduation requirements. High school students wishing to take college-level courses at NAU must meet the following requirements:

1. Satisfy the university’s requirements for enrollment into EN1150 Composition I and MA2050 College Algebra or have a minimum ACT score of 20 in English and math or a minimum SAT score of 500 in verbal and math;
2. Have a minimum 3.0 GPA on a 4.0 scale in all high school course work;
3. Complete the university’s dual credit application with the appropriate parental and high school administrator’s signatures;
4. Be a high school junior or senior. High school freshmen and sophomores with ACT or SAT scores in the 90th percentile or above may also be eligible for dual credit courses.

High school students enrolled in National American University dual-credit courses will be required to meet the same admissions and course requirements as regularly enrolled university students.

**ENROLLMENT DATES AND QUARTER SYSTEM**

National American University is on a four-quarter calendar schedule. These quarters are 11 weeks in length. New students may begin classes during any of the four quarters.

A standard quarter credit hour is based upon 10 hours of instruction per quarter. A laboratory credit hour is based upon 20 hours of laboratory time per quarter. An externship/internship credit hour is based upon a minimum of 30 hours per quarter of on-the-job work experience. Nursing standards for laboratory credit hours and clinical credits vary. Please refer to the school of nursing student handbook for details.

**EXAMINATION FOR COLLEGE CREDIT**

**Standardized Tests**

Students enrolled at National American University may receive credit for specific courses by satisfactorily completing appropriate College-Level Examination Program (CLEP) or Defense Activity for Nontraditional Education Supports (DANTES) examinations. Exam scores must meet or exceed the minimum qualifying scores established by these testing agencies to be accepted. If minimum scores are not met, students must wait for a time period specified by the testing agency before attempting the same standardized exam again.

In order to receive credit, students must be enrolled at National American University and have an official score report submitted to the registrar’s office. Academic credit awarded through these standardized testing programs will be applied to the National American University degree requirement. Grades are not assigned on the academic transcript and exam results are not included in grade point average calculation.

Students may contact the academic deans at these campuses for further information about testing procedures and fees.

Credit for standardized tests will not be awarded if the student has received prior credit for the same course or an equivalent course.

Each college and university reserves the right to accept transfer credits on a course-by-course basis and will determine the number of hours to be accepted from transfer students. Results from standardized examinations may not be accepted in transfer by other institutions.
EXTERNSHIP/INTERNSHIP

The purpose of the externship/internship program at National American University is to provide students an opportunity to apply skills gained in the academic program to a work situation. Students in an externship/internship will be assigned to a university-approved organization engaged in activities related to the student's academic program and career objectives. The student must have an externship/internship site approved by the appropriate university coordinator no later than the beginning of the quarter in which the externship/internship will be performed. The student will perform duties and services as assigned by the employer and the university coordinator.

FALSIFICATION OF EDUCATIONAL RECORDS

Falsifying, altering, or misrepresenting a transcript, grade report, diploma or any other material relevant to admission, enrollment or academic performance shall be considered an overt act of academic dishonesty. This action shall result in denial of admission or enrollment into National American University, or permanent suspension from continuing as a student with the university.

FRESH START POLICY

The Fresh Start Policy provides a student who left National American University, without completing an academic program, an opportunity to return and start again with a new cumulative grade point average. The Fresh Start Policy is an option only for students who have not taken a course at National American University for at least five academic years.

The Fresh Start Policy student will retain previous credit that was completed with a grade of "C" or better. It will be applied to the requirements of the student's current academic program. An asterisk will denote courses deleted through the Fresh Start Policy on the transcript. For Satisfactory Academic Progress purposes, the grades the student earned during previous attendance must be calculated in the cumulative GPA, and the corresponding credit hours must be calculated in the successful completion rate.

The student must apply for consideration of the option at the time of readmission and the "Fresh Start" can be made only once during a student's academic career at National American University. The academic dean will review the student's request for entering the Fresh Start Program and his/her current academic goals before granting the student provisional admission into the Fresh Start Policy. The student will be considered on probation status until he/she has completed 12 new quarter hours. The eligible student will be granted Fresh Start Policy officially only after completion of 12 new quarter hours with a GPA of 2.0 or higher. Once accepted, the student cannot petition for any other transcript modification (such as a change of program with grade deletion).

GRADE GRIEVANCE POLICY

If a student questions a final grade, the student should first discuss the grade with the instructor. If the student still believes the grade is not appropriate, the student may request a hearing before a Grade Review Committee. The request for a hearing must be submitted prior to the end of the quarter following the quarter in which the grade was issued. Work submitted beyond the due date for an incomplete grade is considered a student initiated appeal and requires a Grade Review Committee to determine whether or not a grade change should be submitted.

GRADING STANDARDS

Grade points are earned as follows for each credit hour:
A - 4 grade points - Excellent or Superior
B - 3 grade points - Good
C - 2 grade points - Satisfactory
D - 1 grade point - Passing

Grade designations for which grade points are not earned include:
F Failure. The subject may be repeated, and in the case of non-elective courses, it will be necessary to do so in order to complete a program.
I Incomplete. The student did not complete all requirements of the course at the time of grading.
W Withdrawal. The student voluntarily withdrew from the course or was dropped from the course before completing 60 percent of the academic term. This grade has no bearing on the grade point average but may affect eligibility for financial aid.
WF Withdrawal-Fail (applies to the school of nursing). The student voluntarily withdrew from the course or was dropped from the course before completing 60 percent of the academic term. The student was earning a failing grade in the course at the time of withdrawal. This grade has no bearing on the grade point average but may affect eligibility for financial aid.
S Satisfactory. Used in courses in which credit is awarded and credit hours count toward graduation.
U Unsatisfactory. Used in courses for which credit is awarded and credit hours count toward graduation but are not calculated into the GPA.

Grade point average is determined by dividing total grade points earned by total hours attempted. GPA may be figured for each quarter (quarterly GPA), for all hours attempted at the university (cumulative GPA), or for courses in a major (major GPA). Credits and grade points earned at other universities or colleges are not included in GPA calculations at National American University.

Students will be informed of their progress in each course on a regular basis by grades given on tests, papers, and other assignments. Additionally, students will receive a notice halfway through each quarter if their grades are below a "C". Grade reports are issued at the end of each quarter.
GRADUATION REQUIREMENTS

Conferring of Degrees or Diplomas
The degree or diploma is conferred by the National American University board of governors upon recommendation of the president and faculty after a student has completed all academic requirements for such degree or diploma.

Bachelor of Science Degree Graduation Requirements
The requirements for obtaining a Bachelor of Science degree are detailed below:

1. CAPSTONE courses must be completed with a minimum "C" grade.
2. A minimum 2.0 grade point average is required overall in the MAJOR CORE and in the EMPHASIS CORE. For nursing minimum grade point average requirements, please refer to the school of nursing student handbook.
3. Each professional course in the paralegal studies, healthcare management, and athletic training must be completed with a minimum "C" grade.
4. A student must successfully complete three 3000-level and three 4000-level courses at National American University. These courses are chosen from the MAJOR CORE and EMPHASIS CORE.

Residency Requirements:
5. The university’s residency requirements for the MAJOR and EMPHASIS CORES are listed on the program status sheets, which are included in the Academic Programs section of this catalog.
6. Twelve of the credits in the MAJOR CORE credits must be 3000- or 4000-level courses (excluding internships).
7. The FINAL 54 credits must be taken in residence at National American University. (Non-traditional credit does not apply to the residency requirement.) If a student desires to take courses concurrently at another institution during the final 54 credits, the other institution must be accredited and prior written approval must be obtained from the associate provost/system vice president for curriculum and instruction. For nursing residency requirements, please refer to the school of nursing student handbook.
8. A student must make written application for graduation with the registrar's office two quarters prior to their anticipated graduation date. The deadline for application is the Friday of the week following midterm.
9. The student must satisfy all financial obligations with the university.
10. Candidates for graduation must have official transcripts from all previous post-secondary institutions on file in the registrar's office. No student will be eligible for graduation while holding a special or non-degree status.
11. In all associate programs, a minimum of 90-quarter hours of credit is required; however, specific program requirements may vary.

Associate of Applied Science/Associate of Science Degree Graduation Requirements
The requirements for obtaining an Associate of Applied Science or an Associate of Science degree are as follows:
1. A minimum 2.0 grade point average (GPA) is required overall and in the MAJOR CORE.
2. Each professional course in the paralegal studies, therapeutic massage, health information technology, medical assisting, medical administrative assistant, medical staff services management, pharmacy technician, and veterinary technology programs must be completed with a minimum "C" grade. For nursing minimum grade point average requirements, please refer to the school of nursing student handbook.
3. The university’s residency requirements for the MAJOR CORE are listed on the program status sheets which are included in the Academic Programs section of this catalog.
4. The FINAL 36 credits must be taken in residence at National American University. (Nontraditional credit does not apply to the residency requirement.) If a student desires to take courses concurrently at another institution during the final 36 credits, the other institution must be accredited and prior written approval must be obtained from the associate provost/system vice president for curriculum and instruction. For nursing residency requirements, please refer to the school of nursing student handbook.
5. A student must make written application for graduation with the registrar's office two quarters prior to his/her anticipated graduation date. The deadline for application is the Friday of the week following midterm.
6. The student must satisfy all financial obligations with the university.
7. Candidates for graduation must have official transcripts from all previous postsecondary institutions on file in the registrar's office. No student will be eligible for graduation while holding a special or non-degree status.
8. In all associate programs, a minimum of 90-quarter hours of credit is required; however, specific program requirements may vary.

Diploma Program Graduation Requirements
The requirements for obtaining a diploma are as follows:
1. A minimum 2.0 grade point average is required overall and in the MAJOR CORE.
2. Each professional course in the healthcare coding and therapeutic massage diploma program must be completed with a "C" grade. For nursing minimum grade point average requirements, please refer to the school of nursing student handbook.
3. The university’s residency requirements for the MAJOR CORES are listed on the program status sheets, which are included in the Academic Programs section of this catalog.
4. The FINAL 27 credits must be taken in residence at National American University. (Nontraditional credit does not apply to the residency requirement.) If a student desires to take courses concurrently at another institution during
the final 27 credits, the other institution must be accredited and prior written approval must be obtained from the associate provost/system vice president for curriculum and instruction.

5. A student must make written application for graduation with the registrar's office two quarters prior to his/her anticipated graduation date. The deadline for application is the Friday of the week following midterm.

6. The student must satisfy all financial obligations with the university.

7. Candidates for graduation must have official transcripts from all previous postsecondary institutions on file in the registrar's office. No student will be eligible for graduation while holding a special or non-degree status.

8. In all diploma programs, a minimum of 48-quarter hours of credit is required; however, specific program requirements may vary.

**Incomplete Policy**

Students who do not complete all requirements of the course at the time of grading may receive an incomplete grade for the course. Incomplete grades will be given only when unusual circumstances beyond the student's control prevent completion of the work in a particular course. Incomplete grades and arranging for the completion of course work must be approved by the instructor prior to the end of the course. In the absence of extenuating circumstances, remaining course work must be completed within four weeks after the end of the course.

**Independent Study**

Although most courses listed in the catalog may be taken by independent study, they are available only under extenuating circumstances. The student must consult with the academic dean to determine if he/she qualifies for an independent study.

In addition, the student must meet the following eligibility requirements:

1. Written approval of the academic dean must be obtained.
2. The student must have a minimum 2.5 cumulative grade point average.
3. The independent study cannot be used to improve an earned grade.
4. The student cannot enroll in an independent study if the course is listed on the on-campus or online class schedule.
5. No capstone course or therapeutic massage program course may be completed by independent study.
6. Indication of academic ability must be evidenced by:
   a. At least one year of successful college experience; or
   b. Successful completion of EN1150 or EN1300.

The independent study course will start on the first day of a term and end on the last day of the term. Students are expected to meet with the supervising faculty member at least one hour each week of the term. Independent study forms may be obtained by contacting the academic dean. Students are encouraged to submit forms prior to the start of the quarter.

All forms should be submitted by the last day of the add/drop period.

**Internet Policy**

Open access through computers, networks, and the Internet is a privilege. National American University’s goal in providing this service to our students, faculty and staff is to promote educational excellence by facilitating resource sharing, innovation and communication.

National American University’s e-mail and Internet resources are provided for the sole use of NAU students, faculty, staff and administration. E-mail and Internet records are subject to all existing laws (federal, state and local) as well as the university policies and procedures.

Internet access is coordinated through a complex association of government agencies and regional and state networks. In addition, the smooth operation of the network relies upon the proper conduct of the end users who must adhere to strict guidelines. The guidelines provided here are designed to make students, faculty and staff aware of the responsibilities they are about to acquire. In general, this requires efficient, ethical and legal utilization of the network resources.

If a National American University user violates any of these provisions, his/her account may be terminated and future access could be denied. Depending upon the severity of the situation, abuse of NAU’s e-mail, network, or Internet systems may also result in disciplinary action including suspension from the university.

**Netiquette**

Users are expected to abide by the generally accepted rules of network etiquette. This includes, but is not limited to, these rules:

1. Be polite - do not use abusive or offensive language in messages to others.
2. Do not reveal your personal address or phone number or those of other students, faculty or NAU employees.
3. Remember that electronic mail (e-mail) is not guaranteed to be private. Those who operate the system do have access to mail. Messages relating to or in support of illegal activities may be reported to the authorities without notification to or permission from the student/employee sending or receiving the message.
4. Do not tie up the network with idle activities or game playing - remember there are many students who need to use the system.
5. Do not plagiarize - cutting and pasting ideas and documents into your own document is very easy to do. Be sure to give credit to the author when using his/her material.

**Prohibited Use**

The following types of activities are specifically prohibited and may result in administrative action:

1. Unauthorized use of any computer account;
2. Unauthorized transfer of or entry into a file;
3. Using NAU’s network to gain unauthorized access into any computer system;
4. Illegal copying of software protected by U.S. copyright law (may also result in civil damages and criminal penalties);
5. Using e-mail to threaten or harass others;
6. Using the university’s network to access pornography or obscene material and sites displaying the same;
7. Activities for the purpose of personal or commercial financial gain including chain letters, solicitation of business or services, sales of personal property, etc;
8. Storing, processing or displaying racially offensive, gender offensive or obscene material;
9. Using another individual’s account or identity to send or receive e-mail;
10. Viewing, damaging or deleting other users’ files or communications without appropriate authorization;
11. Posting materials on electronic bulletin boards, which violate existing laws, regulations or National American University policies or codes of conduct;
12. Theft, misuse or abuse of computing or networking resources;
13. Posting of National American University confidential materials, records, policies or procedures or transmitting the same to unauthorized personnel;
14. Sharing of passwords with others.

**Vandalism**

Vandalism is defined as intentional or negligent damage to computer equipment, software and systems of the university or harming or destroying data of another user, Internet, or other networks. It includes, but is not limited to, the intentional uploading or creation of computer viruses. Vandalism will result in the cancellation of privileges and may result in suspension from the university.

**NONTRADITIONAL CREDIT**

A student may obtain up to 50 percent of the required credit hours toward graduation from nontraditional methods including: a) experiential learning/portfolio credit awarded by National American University, b) evaluated corporate training certificates, and c) non-transcribed military training. Letter grades are not assigned to nontraditional credit awarded by NAU and are generally not transferable to another institution. Residency requirements are not satisfied through nontraditional credit.

**Experiential Learning/Portfolio Credit**

Students possessing college-level knowledge and skills resulting from their learning experiences through their trade, business, profession or community involvement are encouraged to apply for portfolio credit. Students are required to write a separate portfolio for each college course for which they are requesting credit. The courses must be National American University courses. A $50 per credit hour portfolio fee is charged for each portfolio. Credit is granted on the student’s permanent record as portfolio credit. Interested students should contact their academic dean to obtain a copy of the portfolio guidelines.

**Corporate Training Certificate Credit**

National American University’s corporate training certificate evaluation program is based upon sound education practices for colleges and universities designed in granting academic credit for high-quality educational courses offered by extramural learning providers, provided that the courses are appropriate to an individual’s academic program.

National American University’s program is founded on the principles and evaluation criteria established by the American Council on Education (ACE), as recommended by the Carnegie Commission on Nontraditional Study. The criteria and procedures that ACE established in 1945 for evaluation of military courses were adapted and extended for use in civilian organizations and are currently administered through the Council’s College Credit Recommendation Service (CREDIT). National American University uses the ACE recommendations to grant credit to students for learning acquired from approved organizations.

Guidelines for awarding credit are as follows:

1. The training must be documented by a signed original certificate or a dated listing from the company training/education officer with an original signature and must include the following:
   a. Title or description of the training
   b. Date(s) the training was held
   c. The number of contact hours
   d. Name of the company conducting the training
2. The certificates will be evaluated by the university and credit may be granted as equivalent to specific National American University courses or for specialty core credit for the applied management degree.
3. Students interested in earning credit through the certificate evaluation process should contact the academic dean for more information.

**Military Training Credit**

Transcribed military courses are treated the same as courses transferred from a higher education institution. Military course completion certificates which are not recorded on official military transcripts may be evaluated separately and used to complement other military records.

**PREREQUISITES**

Some courses require successful completion of other specified courses prior to enrollment to help ensure student success. All requests for prerequisite waiver must be submitted to the associate provost/system vice president for curriculum and instruction.

Students enrolled in the National American University School of Nursing should refer to their School of Nursing handbook for guidelines regarding prerequisites.
COURSE REGISTRATION

Beginning dates for specific terms are listed in the university calendar. Registrations are permitted within the first week of a regular quarter for all students and the first week of the eight-week interim term for new students only. Any subsequent changes in a student’s registration (including class periods and adding or dropping courses) must be completed on a change of registration form and approved by the student’s advisor or the academic dean.

Students registered in a given term are encouraged to register for the following quarter. There are advantages to doing so, including a greater selection of courses.

REPEATING COURSES - UNDERGRADUATE

A student may be eligible to receive financial aid for a repeated course if the student previously withdrew from the course or received a failing grade. A student may also be eligible to receive financial aid one time to repeat a course in which the student previously received a passing grade. However, a student generally may not receive financial aid to repeat a course for which the student previously earned an "A".

When a course is repeated, the higher grade is used to calculate the student’s term and cumulative grade point averages, although the lower grade will remain on the transcript. For policies affecting nursing courses, please refer to the school of nursing student handbook.

RESERVE OFFICER TRAINING (ROTC)

The ROTC program is designed to provide an understanding of the fundamental concepts and principles of military science and to develop leadership and managerial potential. Students who wish to participate in ROTC while attending National American University should contact the academic dean regarding the availability of ROTC for a particular university campus.

RESOLUTION OF TRANSFER DISPUTES – TEXAS

The following procedures shall be followed by NAU in resolution of credit transfer disputes involving lower-division courses:

1. If NAU does not accept course credit earned by a student at another institution of higher education, it will give written notice to the student and to the sending institution that transfer of the course credit was denied, and will include in that notice the reasons for denying the credit. Attached to the written notice will be the procedures for resolution of transfer disputes for lower-division courses as outlined in this section, accompanied by clear instructions outlining the procedure for appealing the decision to the Commissioner.

2. A student who received notice as specified in paragraph (1) above may dispute the denial of credit by contacting a designated official at either the sending or the receiving institution. At NAU the designated official is the dean of academics.

3. The two institutions and the student will attempt to resolve the transfer of the course credit in accordance with Board rules and guidelines.

4. If the transfer dispute is not resolved to the satisfaction of the student or the sending institution within 45 days after the date the student received written notice of denial, the sending institution may notify the Commissioner in writing of the request for transfer dispute resolution, and NAU will notify the Commissioner in writing of its denial and the reasons for the denial.

The Commissioner or the Commissioner’s designee shall make the final determination about the dispute concerning the transfer of the course credit and give written notice of the determination to the involved student and institutions.

The Texas Coordinating Board will collect data on the types of transfer disputes that are reported and the disposition of each case that is considered by the Commissioner or the Commissioner’s designee.

If NAU has cause to believe that a course being presented by a student for transfer from another school is not of an acceptable level of quality, it will first contact the sending institution and attempt to resolve the problem. In the event the two institutions are unable to come to a satisfactory resolution, NAU may notify the Commissioner, who may investigate the course. If its quality is found to be unacceptable, the Board may discontinue funding for the course.

Source Note: the provisions of this are from the Texas Administrative Code, section 4.27 adopted to be effective May 27, 2003, 28 TexReg 4109. Chapter 4, Subchapter B – Transfer of Credit, Core Curriculum and Field of Study Curricula.

SERVICE MEMBERS OPPORTUNITY COLLEGES

National American University has been designated as an institutional member of Service Members Opportunity Colleges (SOC). As an SOC member, National American University has committed itself to easing the transfer of relevant course credits providing flexible academic residency requirement of no more than 25% of the total credit hours required for graduation, and credits for learning from appropriate military training and experiences.

COURSE LOAD POLICY

In order to complete a degree in the standard time frame (two years for the associate degree and four years for the bachelor’s degree), the student course load would be about 16 credit hours for three quarters per year. The per quarter course load includes regular, accelerated, online, and independent study courses, as well as externships and internships. A minimum of
12 credits per quarter is required to be considered as a full-time student. Registration for course loads exceeding 18 quarter credits requires a minimum cumulative grade point average and signature as follows:

<table>
<thead>
<tr>
<th>Credit Hours</th>
<th>Min. Cumulative GPA</th>
<th>Signature(s)</th>

</tbody>
</table>

**REENTRY POLICY**

Students who reenter the university after more than four consecutive quarters of absence will be required to enter the university under current program requirements. For nursing readmission guidelines, please refer to the school of nursing student handbook.

An exception to this requirement will be made if the student has four or fewer courses left in his/her program, the reentry is within two years, and the university still offers the program. If the program is a limited enrollment program, the student will be readmitted on a space available basis. Students who leave the university due to military deployment may request special readmission consideration.

If the student was in academic suspension status when he/she left the university, he/she will be required to appeal his or her status to the campus academic standards committee and his or her re-enrollment is conditioned upon a successful appeal with the committee.

**TRANSCRIPTS OF RECORDS**

An official transcript is a certified copy of a student’s permanent record that shows the academic status of the student at the time of issuance. The registrar in Rapid City will release transcripts upon formal written request by the student. Requests must include the student’s full name, as recorded while attending National American University; Social Security number or Student ID number; date of birth; campus last attended; current address, telephone number and e-mail address; number of copies desired; last term of attendance (if known); to whom and where the transcripts are to be sent; and the student’s original signature. Transcripts may be withheld because of indebtedness to the university.

1. One copy of an official transcript will be issued to a graduate free of charge.
2. A $10 charge will be assessed for all subsequent official transcripts. A $15 charge will be assessed for same-day processing of any transcript.
3. No charge will be made for official transcripts issued directly to the following agencies:
   a. Scholarship agencies (i.e. embassies, BIA)
   b. Company/military tuition assistance
   c. Exam agencies (i.e. CPA, ABA)
   d. Prospective employers

4. There is no charge for an unofficial transcript (computer listing of courses and grades) released to current students.

The following documentation is required for the evaluation of military credit. Military completion certificates may be used to complement other records or when service courses are not recorded on official military transcripts. These certificates must include contact hours.

**Military–Air Force**

Community College of the Air Force (CCAF) provides transcripts to students with training completed from November 9, 1972, to present for a small handling fee. Active duty personnel or personnel in the Air National Guard or Air Force Reserve may obtain transcripts, as follows:

1. Visit an education services counselor, career and education manager, or training technician to request an official transcript.
2. Send a written request that includes your full name or former name if appropriate, social security number, and the address of the location you want the free transcript to be sent to the following address, using Air Force Form 2099 Request for Community College of the Air Force Transcript. (Your signature is required for release of a transcript.)
   
   **CCAF/DFRS**
   100 South Turner BLVD
   Gunter Annex AL 36114-3011.

3. Contact Credentials Inc. by telephone at 1-800-646-1858 or 1-847-446-1027, or through their web site at www.credentials-inc.com

**Military–Army**

The AARTS (Army/ACE Registry Transcript Service) transcript may be used to document military training and experience. Army enlisted active-duty personnel and veterans who entered the service during or after 1976 may only obtain transcripts as follows by requesting online at http://aarts.army.mil Choose the school "National American University-All Campuses"

E-mail: hrc.tagd.aarts@conus.army.mil

**Military–Navy/Marines**

Sailor/Marine ACE Registry Transcript (SMART) provides transcripts from 1975 forward. Transcripts may be obtained, as follows:

1. Request online: https://smart.cnet.navy.mil
2. Contact the Navy College Center at 1-877-253-7122 or send an e-mail to: ncc@navy.mil
3. Send a written request to the following address:
   Navy College Center
   VOLED Detachment, Code N27
   Center for Personal Development
Transfer of Credit
Transfer credit will not be granted for designated capstone courses in the university's academic programs. Credits earned at accredited business or technical schools, colleges, or universities may be transferred to National American University based on comparability of subject matter, applicability of the credit earned to the student's program, and if the student earned a final grade of "C" or better. Credit transfer may be restricted to that which has been completed within a recent time period. Students wishing to transfer credits must see that an official transcript of those credits is sent to the registrar. Transfer credits are also subject to the university's residency requirements.

A student who is enrolled at another university may also enroll for course work at National American University as a special student. It is the student's responsibility to request an official transcript of credits earned at National American University to be sent to the university at which he/she is a candidate for a degree.

Foundational nursing students eligible to receive transfer credits for one or more of their nursing foundation courses have the option to request that National American University not accept transfer credit in one or more of the nursing foundation courses. This request must be made at the time of admission and students must first see their nursing foundational core advisor to be advised regarding National American University’s admission criteria into the nursing clinical core. The decision to reject the transfer of courses into the nursing foundation core is not reversible.

Transferability of Credit Disclosure
Credits earned at National American University may not transfer to another educational institution. Credits earned at another educational institution may not be accepted by National American University. You should obtain confirmation that National American University will accept any credits you have earned at another educational institution before you execute an enrollment contract or agreement. You should also contact any educational institutions that you may want to transfer credits earned at National American University to determine if such institutions will accept credits earned at National American University prior to executing an enrollment contract or agreement. The ability to transfer credits from National American University to another educational institution may be very limited. Your credits may not transfer and you may have to repeat courses previously taken at National American University if you enroll in another educational institution. You should never assume that credits will transfer to or from any educational institution. It is highly recommended and you are advised to make certain that you know the transfer of credit policy of National American University and of any other educational institutions you may in the future want to transfer the credits earned at National American University before you execute an enrollment contract or agreement.

Veterans Upward Bound (Rapid City Campus)
The purpose of the Veterans Upward Bound program is to provide educational assistance to qualified veterans for the improvement of their educational skills prior to attending a college, university, vocational school or technical school. The program is free to qualifying veterans with all supplies, instructional materials, and academic services provided at no cost. Classes are available each quarter in writing, math and basic computer.

Eligibility requirements are as follows:
1. Provide a copy of the DD Form 214 and the most recent 1040 tax return. (Not required if the veteran did not file taxes.)
2. Must be discharged after January 31, 1955 and have served 181 days of active duty in the U.S. military or be service connected disabled.
3. Discharged other than dishonorable.

Services available include:
1. Academic preparatory/refresher courses in Basic Computer, Math and Writing
2. Tutoring in Basic Computers, Math and Writing
3. Career exploration
4. Preparation for college entrance exams
5. Academic advising and assistance and instruction in study skills
6. Assistance with completion of admissions, financial aid and scholarship applications and transcript requests
7. Referral to the Veterans Administration, veterans support agencies and community resources

Western Nebraska Community College, Scottsbluff, NE is affiliated with National American University, Rapid City, SD, to bring the Veterans Upward Bound program to western South Dakota. Veterans Upward Bound is funded under Title IV of the Higher Education Act of 1965 with Western Nebraska Community College being the recipient of the grant.
For additional information about this program at the Rapid City campus, contact the Veterans Upward Bound representative at 605-394-5002, toll-free at 1-888-559-9622.

WITHDRAWAL POLICY
Students may voluntarily withdraw or be administratively withdrawn from courses. Students withdrawing before the end of the add/drop period will have the course removed from their transcript and tuition will not be charged. Students who officially withdraw after the end of the add/drop period but before 60 percent of the academic term has elapsed will receive a "W" on their transcripts. The student’s grade point average will not be affected by the "W" grade on the transcript, however the credits will count toward cumulative credits attempted.

Students who have completed more than 60 percent of the academic term may not be withdrawn from a course. Please refer to the academic calendar for withdrawal deadlines for each academic term. For additional nursing program withdrawal procedures, please refer to the school of nursing student handbook.
Satisfactory Academic Progress Policy

To qualify for Title IV federal financial aid, a student must (1) satisfy the academic requirements of the university and specific program requirements, and (2) make satisfactory academic progress (SAP), as required by federal law. SAP is measured using qualitative and quantitative standards, including periods during which federal financial aid was not received. Qualitative progress is measured by cumulative grade point average. Quantitative progress is measured by completion rate and maximum timeframe.

Cumulative Grade Point Average
• A student must maintain a minimum cumulative grade point average (CGPA) as calculated in the Satisfactory Academic Progress Table in this policy. If a student is enrolled in an educational program of more than two academic years, the student must have a CGPA of a 2.0 or higher at the end of the second academic year.

• Satisfactory (S), Unsatisfactory (U), Incomplete (I), Withdrawal (W), and Withdrawal-Fail (WF) grades are not used in calculating CGPA. Credits earned by examination or transferred from another institution are also not used in calculating CGPA.

• When a student repeats an NAU course, the highest grade achieved in that course is used in calculating CGPA.

Completion Rate
• In addition to maintaining a minimum CGPA, a student must successfully complete 66.67% of all credit hours attempted, including those attempted in remedial and English as a Second Language (ESL) courses.

• Credits transferred from another institution are included as credits attempted and completed for the purpose of calculating completion rate.

• The grades of A, B, C, D, and S indicate successful course completion for purposes of this policy. The grades of F, I, W, WF, and U indicate a lack of successful course completion.

Maximum Timeframe
• A student must complete his/her academic program within a maximum of 150% of the published length of the education program as measured in credit hours. For example, a student completing a bachelor’s degree requiring 186 credit hours may attempt 279 credit hours to complete that degree. (186 x 1.5 = 279)

• Credits transferred from another institution are included as credits attempted and completed for the purpose of calculating maximum timeframe.

Satisfactory Academic Progress Status
The satisfactory academic progress of each student is evaluated for the purpose of determining federal financial aid eligibility. SAP is evaluated by the Satisfactory Academic Progress Committee at each campus once per quarter.

Good Standing – A student is in good standing status if the student has: (1) successfully completed a minimum of 66.67% of the credit hours attempted; (2) maintained at least the minimum CGPA; and (3) not exceeded the maximum timeframe.

Warning – A student will be placed in warning status if the student’s CGPA falls below the minimum or the student fails to successfully complete at least 66.67% of the credit hours attempted. A student in warning status will be given one quarter to return to good standing status. A student who does not return to good standing status within such time period will be placed in suspension status. Federal financial aid is available to eligible students in warning status.

Suspension – A student in warning status who does not return to good standing status after one quarter, or who exceeds the maximum timeframe, will be placed in suspension status. A student in suspension status is not eligible to receive federal financial aid, but may continue to attend classes if the student makes other payment arrangements. This status continues during periods of non-enrollment. A student may re-establish eligibility for federal financial aid as set forth in the following section entitled Re-Establishing Federal Financial Aid Eligibility.

Probation – A student in probation status has been granted such status by the SAP Committee in accordance with the following section entitled Re-Establishing Federal Financial Aid Eligibility. Federal financial aid is available to eligible students in probation status for one quarter, or longer, if the student meets the terms of an academic plan approved by the SAP Committee. If the student fails to return to good standing within one quarter or fails to meet the conditions of the academic plan, he/she will be returned to suspension status and will no longer be eligible for federal financial aid.

Students who have been placed in or removed from warning, suspension, or probation status, or who have exceeded the maximum timeframe, will receive notification letters stating their academic and financial aid status.

Re-Establishing Federal Financial Aid Eligibility
A student in suspension status may re-establish eligibility for federal financial aid if:
• The student continues to attend classes and improves his/her CGPA and/or completion rate to minimum standards without federal financial aid, or
• The student appeals the suspension and demonstrates that extenuating circumstances caused the student to be unable to make satisfactory academic progress, such as the death of a relative, serious injury or illness of the student, or other special circumstances. The student must also explain what has changed in the student’s situation that will allow the student to demonstrate satisfactory academic progress at the next evaluation.

• The student must submit an Appeal of Academic Suspension Form no later than the last day of add/drop week of the quarter for which the student wishes to enroll.
  • The appeal form must be submitted to the academic dean of the campus at which the student intends to enroll, regardless of whether the student has previously attended another NAU campus.
  • A student may appeal no more than 3 times.

A student who has exceeded maximum timeframe cannot re-establish eligibility for federal financial aid.

*Students taking preparatory courses for admission to a graduate program must maintain a 2.0 CGPA.*
NATIONAL AMERICAN UNIVERSITY DISTANCE LEARNING PROGRAM

National American University’s Distance Learning program is excited to offer students the opportunity to participate in online courses using one of the most advanced and reliable delivery systems available. The university’s online courses give students the opportunity to experience an enhanced learning environment, which transcends the traditional limitations of time and location. Students have access to "learning on demand" literally 24 hours a day from anywhere that has access to the Internet, locally, regionally or globally. In selected classes, students will also be able to access live lectures over the Internet using an advanced, real-time learning system.

Online students can expect to receive the same high-quality educational experience students have come to expect from National American University. As with NAU’s traditional on-site courses, instructors are experienced professionals with both appropriate academic credentials and professional real-life experience. In addition to quality academic programs, students also have access to outstanding technical and student services support. The combination of cutting-edge technology and solid online instruction gives students the opportunity to achieve more in their academic program and career.

ADMISSIONS

It is recommended that applicants visit the National American University website at www.national.edu/online. Students may request additional information at that site or contact the department of Distance Learning at 1-800-209-0182 or via e-mail at info@national.edu.

Instructions for Applying for Admission

The regular admission procedure requires that students apply for admission online. The application can be found at www.national.edu/online.

International Admission

National American University encourages diversity within its student body, and international students from many countries study through the Best of Both Worlds – IDP ™ program at international affiliate campuses and study online.

Admissions

International student applicants who wish to study in the National American University undergraduate program through an affiliate college or university outside the United States or who wish to pursue their undergraduate studies entirely online must satisfy the following criteria for admission:

1. Complete and submit a Best of Both Worlds Program – IDP ™ Online Application for Admission. See https://services.national.edu/registration/BOBWApp.aspx.

2. All applicants for admission must affirm their completion of secondary-level education in the online admissions application. All applicants must subsequently provide evidence of secondary and/or post-secondary education through satisfaction of one of the following requirements:

   a. Provide an official academic transcript or marks sheet indicating graduation from a secondary-level education institution. Diplomas, transcripts, and/or certificates related to government examinations must show the subjects passed and grades/marks received. All records should be submitted in the original language, and credentials in languages other than English must be accompanied by a certified English translation. Translations should be literal and not interpretive. A key to the marking system or grading scale should also be included if it is not indicated on the transcript.

   b. Provide an official transcript that indicates completion of a post-secondary program of at least two years in length with a minimum cumulative grade point average of 2.0/4.0 or the equivalent from (i) an international higher education institution that is approved by the country’s national ministry of education or appropriate approval body or (ii) an accredited U.S. higher education institution. Transcripts should show marks and credits earned for all post-secondary work. All records should be submitted in the original language, and credentials in languages other than English must be accompanied by a certified English translation. Translations should be literal and not interpretive. A key to the marking system or grading scale should also be included if it is not indicated on the transcript.

   c. Provide an official General Educational Development (GED) examination report demonstrating passing marks for the overall examination. In exceptional cases, an applicant may provide an official examination report from another test identified by National American University that demonstrates passing marks for the overall examination.

A student applicant that has been accepted by an NAU international affiliate but who has not satisfied this admissions requirement may enroll for up to six months as a provisionally accepted, degree-seeking student, until the point at which the student satisfies the admissions requirement through (a) (b) or (c) above.

3. All applicants whose secondary-level education was conducted in a language other than English must demonstrate proficiency in English through satisfaction of one of the following requirements:
a. Provide an official Test of English as a Foreign Language (TOEFL) score report indicating a minimum score of 500 for a paper-based exam, 173 for a computer-based exam, or 61 for an Internet-based exam. The TOEFL must have been taken within the past two calendar years. Official test scores must be sent from the testing agency to National American University. When ordering TOEFL test results, include the university’s school code of 6464.
b. Provide an official International English Language Testing System (IELTS) score report with an overall minimum score of 5. The IELTS must have been taken within the past two calendar years. Official test scores must be sent from the testing agency to National American University.
c. Provide evidence of completion of two semesters (or equivalent) of college-level English (excluding ESL courses) with a grade of "C" or higher at (i) an international higher education institution that is approved by the country’s national ministry of education or appropriate approval body or (ii) an accredited U.S. college or university.
d. Provide other evidence of English language proficiency as deemed appropriate by National American University.

A student applicant that has been accepted by an NAU international affiliate but who has not satisfied this admissions requirement may enroll for a period of time determined at the university’s sole discretion as a provisionally accepted, degree-seeking student, until the point at which the student satisfies the admissions requirement through (a) (b) (c) or (d) above.

In those circumstances where a student’s secondary-level education was conducted in English, NAU reserves the right to require additional proof of English language proficiency, including through tests of English language proficiency as enumerated above.

In the event that students accepted for study online or through a National American University international affiliate wish to enroll in campus-based courses in the United States, students will be required to satisfy additional requirements as follows:
1. Complete the International Student Application for Admission.
3. International students are required, as part of the application process, to show sufficient funding to cover tuition, fees, and living expenses through the duration of their studies. The amount and source of funds are also shown on the Certificate of Eligibility (I-20) required for application for an F-1 visa.
4. Students planning to bring a spouse and/or children to the United States are required to demonstrate the availability of additional funds to support those individuals.

Students requesting the Form I-20 to apply for an F-1 visa to enter the U.S. to attend National American University must fulfill all the aforementioned international admissions requirements. Upon acceptance by and approval from the university, Form I-20 will be issued to eligible students.

Additional documentation in support of an applicant’s candidacy may be requested as deemed necessary by National American University. The university reserves the right to reject documentation and to request verification of documents as necessary. Admissions documentation will be considered the property of the university and will not be returned to the applicant (some exceptions may apply). NAU reserves the right to reject any and all student applicants.

**SELF-DIRECTED LEARNER STATEMENT**

Students enrolled in online courses will be expected to complete a significant portion of their course work independent of direct faculty supervision. Due to the nature of online learning, the instructor’s role will be that of a facilitator and guide. In that role, the instructor will provide the student with guidelines and learning activities, and will offer feedback and evaluation as the student proceeds with the course.

Success depends upon the individual student’s self-motivation and ability to undertake independent study. Experience has shown that some students fail to realize the degree of effort and time that is required to successfully complete the course(s). Based upon the foregoing, National American University requires that students acknowledge their role as self directed learners during the enrollment process.

**FINANCES**

All charges are due and payable on or before the first day of each new quarter. Advance payment by mail or other means is advised. Financial aid is available for those students who qualify. Tuition and fee charges are subject to change without notice. Drafts and checks should be made payable to National American University.

Government sponsored or subsidized programs are generally not available to international students. International students should consult their country’s consul or ambassador for educational benefits sponsored by their home country.

**LEARNER SERVICES**

NAU’s dedicated staff of learner services advisors provide online students with easy access to convenient services. As a member of our online community, students receive personal guidance throughout their educational journey including academic advising, success coaching, technical support, course navigation, and additional support services. Learner Services Advisors can be reached through e-mail at uservices@national.edu or by phone at 1-800-548-0602.

**Online Orientation**

National American University’s online orientation introduces students to Desire2Learn, the software program used by National American University to distribute all online courses.
The online orientation familiarizes the student with the process of submitting assignments, participating in discussions, and communicating with the instructor online.

Tutoring Services
Tutoring services for selected courses are available for students taking online courses. To request tutoring services students should contact their campus academic dean or academic advisor.

Technical Support
Technical support is available for students taking online courses. Students experiencing technical problems are encouraged to contact NAU Technical Support at nausupport@national.edu.

Learning Resource Center/Online Library
National American University's Learning Resource Center (LRC)/Online Library assists and supports students, faculty and staff in achieving success in their academic programs and careers through the development and maintenance of current and timely information in a variety of formats. Distance learning students, faculty and staff have access to the National American University online library via the student portal, faculty portal and online learning environment. Electronic, searchable full-text databases are available from a variety of vendors including ProQuest, EBSCO, Gale, LearningExpress, NetLibrary, Mosby's, OVID, LexisNexis, and WorldCat.

ACADEMICS
National American University continually strives to provide students with an exceptional learning experience. At NAU, we take great pride in our unyielding commitment to the success of each of our students, and we fully understand the importance of our students' commitment to their own personal and academic growth.

NAU understands the demands of today's learners. Most NAU students are balancing their time between school, work, and family. Online courses allow students the flexibility to complete course work throughout the week. As long as students have Internet availability, they can access their courses 24/7 from anywhere around the world.

Students interested in learning more about online courses should visit National American University's Web site at: www.national.edu/online.

Attendance
In accordance with NAU's attendance policy, students must actively participate at least once per week to be counted present in their online course. Simply logging into the course is not considered attendance; therefore, failure to actively participate weekly may result in withdrawal from the course after two consecutive weeks of non-attendance.

Online students are required to actively participate in a weekly activity in order to be counted present. Weekly activities may include completing a quiz, posting a substantial discussion post, or submitting a required item to the drop box. The online courses are designed to include at least one of these items each week, please refer to the course schedule within the online classroom for weekly requirements.

Weekly participation in online classes is critical to each student's academic success. Failure to participate in weekly activities may affect a student's academic performance; furthermore, it may also result in administrative withdrawal.

Participation within the online courses can be verified through the student's access to the secured host site. As a result, the student's participation is permanently recorded through the learning management system.

A student's weekly involvement in course activities can be measured by active participation in the academic endeavor. Students who do not participate within the course in a consistent fashion may jeopardize their academic standing.

Students who have attended past the first 60 percent of the scheduled term, as published in the academic calendar, will not be dropped for non-attendance.

Certificates of Completion
Through its international Best of Both Worlds – IDP ™ affiliations, National American University offers certificates of completion for course work designed to meet the specific needs of learners and employers in select foreign countries. These certificates of completion are not available to students in the United States.

Test Proctoring
To help ensure the academic integrity of the examination process at NAU, each online student is required to utilize the test proctor system, which ensures that a verified, neutral, third person administers certain formal examinations in the student's online courses. Students are able to complete their online, proctored final exams using a webcam in the virtual presence of a proctor.

STUDENT CORE ABILITIES

Student core abilities are the intrinsic intellectual skill sets that all students will have successfully demonstrated upon completion of any of National American University’s degree programs. These fundamental competencies are the underlying basis of all course, program, and institutional learning goals and outcomes.

**Critical Thinking and Problem Solving** is the process of actively and skillfully gathering, organizing, and analyzing information to propose solutions and evaluate their effectiveness.

Students will demonstrate Critical Thinking and Problem Solving skills in the following ways:

- Recognize and describe a problem or opportunity and gather data through observation, questioning and idea generation.
- Organize and present information clearly, coherently, concisely, and objectively.
- Utilize mathematical skills to solve problems and interpret data.
- Analyze information using logic and reason to draw conclusions.
- Recognize intention, facts and opinions, bias, and underlying assumptions.

**Professional Competence** is a combination of knowledge and capabilities that allows the performance of a profession according to the standards of practice for the chosen field.

Students will demonstrate Professional Competence skills in the following ways:

- Perform professional or technical roles and duties efficiently and effectively.
- Be proficient in the language of the professional or technical field.
- Utilize technology to meet professional and technical expectations in the workplace.
- Demonstrate a professional presence.

**Collaboration and Communication** is the ability to interact with others to create relationships, partnerships, and professional networks, utilizing the exchange of information through speaking, writing, visual, and other appropriate modes of expression.

Students will demonstrate Communication and Collaboration skills in the following ways:

- Exhibit professional etiquette by using effective interpersonal skills.
- Lead and participate in teams to achieve a common purpose.
- Produce oral, written, and visual communication that is clear and precise; incorporate existing knowledge and research; employ the use of proper grammar, mechanics, style, and tone; and consistently address purpose and audience.
- Interpret and respond effectively to verbal and nonverbal communication.
- Utilize effective listening skills.

**Personal and Social Responsibility** is the development of a strong work ethic, personal integrity, and competence in ethical and moral reasoning, as well as the ability to consider the viewpoints of others, and the responsibility to contribute to one’s wider community.

Students will demonstrate Personal and Social Responsibility skills in the following ways:

- Identify the social, cultural, political, economic, and technological forces that shape interdependence at the local, national, and global levels.
- Develop an awareness of diversity through interactions with people whose culture, life experiences, and worldviews may differ from one’s own.
- Develop a plan for lifelong learning to enhance citizenship, employability, and personal growth.
- Apply ethical principles and articulate one’s own view of ethical, professional, and civic responsibilities.
GENERAL EDUCATION

General Education Core Curriculum

Mission and Philosophy
The mission of the General Education Core Curriculum (GECC) at National American University is to instill in its graduates an appreciation for and an understanding of certain broad aspects of human knowledge and experience and to promote a life of learning. Regardless of professional goals, each student will have the opportunity to develop the knowledge and skills important for college-educated adults through a core curriculum that emphasizes the fields of communication, the humanities, natural sciences, mathematics, the social and behavioral sciences, and information/technology literacy.

Core Curriculum Faculty Goals
The General Education Core Curriculum faculty will:

• Prepare students to attain university core abilities and core curriculum learning outcomes by utilizing performance-based curriculum in a caring and supportive learning environment.
• Measure and assess student learning in the core curriculum and implement improvements, as needed, to ensure high quality academic programs and services.
• Prepare students for the pursuit of graduate studies and/or continuing professional development and a life of learning.
• Meet university qualifications guidelines, utilize effective and innovative teaching methods that promote academic excellence, and pursue opportunities for professional development.
• Maintain the currency and relevancy of the general education core curriculum through regular faculty program assessment and curriculum committee meetings and input from university constituents.

Student Learning Outcomes
Graduates completing the General Education Core Curriculum at National American University will:

• Apply the skills of intellectual inquiry, quantitative competency, problem solving, and critical thinking.
• Demonstrate competence in information literacy and proficiency in the use of information technology.
• Demonstrate proficiency in written and oral communication skills.
• Develop goals and personal affirmations to achieve life and career aspirations.

ACADEMIC PROGRAMS

ACCOUNTING

Accounting: Bachelor of Science Degree

According to the Bureau of Labor Statistics (2008-09), most jobs in the field of accounting are held by individuals holding a bachelor’s degree in accounting. Individuals who attain professional certification may have even greater opportunities. Economic growth and recent corporate scandals have increased the demand for well-qualified accounting graduates. Given these trends, National American University offers a bachelor’s degree in accounting that focuses on providing graduates with the fundamental competencies necessary to enter this growth profession. Course work focuses on the skills necessary to successfully pass the Certified Public Accountant (CPA) exam. Many states also require additional education requirements beyond the bachelor’s degree for certification as a CPA. This degree program can be combined with additional undergraduate course work or the Master of Business Administration program to satisfy most state requirements.

Program Goals
The program will:
• Prepare learners to attain university core abilities and program learning outcomes by utilizing performance-based curriculum in a caring and supportive learning environment.
• Measure and assess student learning and implement improvements, as needed, to ensure high quality academic programs and services.
• Prepare learners to create plans for the pursuit of graduate studies and/or continuing professional development activities, membership in professional and community organizations, and a life of learning.
• Confirm that faculty members meet university qualifications guidelines, utilize effective and innovative teaching methods that promote academic excellence, and pursue opportunities for professional development.
• Monitor the needs of the program’s community of interest and maintain the currency and relevancy of program curriculum through regular faculty and advisory committee meetings and academic program reviews.
• Achieve and maintain specialized program accreditation.

Student Learning Outcomes
Graduates of the program will:
• Apply generally accepted accounting principles, managerial/cost accounting principles, auditing standards, and taxation practices.
• Analyze practical accounting problems and financial statements using critical thinking skills.
• Adhere to ethical guidelines governing the conduct of accountants.

• Demonstrate effective collaboration and teamwork skills.

Accounting: Bachelor of Science Degree Requirements

189 Credits

Offered at Albuquerque, Austin, Austin South, Bloomington, Brooklyn Center, Burnsville, Centennial, Colorado Springs, Colorado Springs South, Denver, Ellsworth, Independence, Lee’s Summit, Lewisville, Mesquite, Minnetonka, Overland Park, Rapid City, Rio Rancho, Roseville, Sioux Falls, Tulsa, Watertown, Wichita, and Zona Rosa. This program is also offered through NAU’s distance learning program. Some of the courses in this program may be offered only through NAU’s distance learning program.

**Capstone Course - Senior level, minimum "C" grade required, must be completed at NAU.

Students residing in the state of Texas:

## Block transfer is not available to these students

Residents of the state of Minnesota or students attending any Minnesota campus:

are encouraged to complete some advanced or upper division general education course work.

## Block transfer is not available to these students.

Graduation Requirements: A minimum 2.0 GPA is required overall and in the Accounting Major Core. See the "Graduation Requirements" section of the catalog for additional requirements.

(The university reserves the right to correct clerical errors.)

Accounting: Associate of Applied Science Degree

Graduates of this program may find employment as accounting technicians, payroll clerks, bookkeepers or clerical assistants in business, government, or nonprofit organizations. With experience, the graduate may also qualify for more advanced positions, such as payroll supervisor, lead accountant or tax specialist.

Program Goals

The program will:

- Prepare learners to attain university core abilities and program learning outcomes by utilizing performance-based curriculum in a caring and supportive learning environment.
- Measure and assess student learning and implement improvements, as needed, to ensure high quality academic programs and services.
- Prepare learners to create plans for the pursuit of graduate studies and/or continuing professional development activities, membership in professional and community organizations, and a life of learning.

ALLIED HEALTH

Clinical Laboratory Technician: Associate of Applied Science Degree

Program Goals
The Clinical Laboratory Technician/Medical Laboratory Technician program will:

• Prepare learners to attain university core abilities and program learning outcomes by utilizing performance-based curriculum in a caring and supportive learning environment.

• Measure and assess student learning and implement improvements, as needed, to ensure high quality academic programs and services.

• Prepare learners to create plans for the pursuit of graduate studies and/or continuing professional development activities, membership in professional and community organizations, and a life of learning.

• Confirm that faculty members meet university qualifications guidelines, utilize effective and innovative teaching methods that promote academic excellence, and pursue opportunities for professional development.

• Monitor the needs of the program’s community of interest and maintain the currency and relevancy of program curriculum through regular faculty and advisory committee meetings and academic program reviews.

• Achieve and maintain specialized program accreditation.

Student Learning Outcomes
Graduates of the program will:

• Follow established procedures for collecting biological specimens; perform chemistry, microbiology, immunology, hematology, and immunohematology laboratory procedures following predetermined criteria and safety requirements; and maintain quality control.

• Recognize unexpected test results and instrument malfunction in all major areas of the clinical laboratory, encompassing waived to complex testing, and take appropriate action.

• Correlate laboratory test results to disease processes.

• Demonstrate professional conduct and interpersonal communication skills when communicating laboratory information to authorized sources, interacting with members of the healthcare team, training new technicians, and providing customer service and patient education.

• Process information utilizing healthcare and laboratory information systems.

• Develop a plan to achieve national certification, participate in continuing education, and seek membership in professional organizations in order to maintain professional competence.

Health Information Technology: Associate of Applied Science Degree

The health information technology program is designed to provide students with a solid foundation in analytical, technical, and management skills associated with health information. Through practical approaches and professional domains, students will acquire the essential entry-level competencies to support the principles and management of health information and technologies.

The health information technology occupation is one of the fastest growing professions in one of the fastest growing industries. Health information professionals provide reliable and valid information that drives health care. Health information technicians are specialists in managing medical records, coding and reimbursement, and possess the skills to critically think and problem solve. These professionals play a key role in preparing, analyzing and maintaining health records and are considered experts in assuring the privacy and security of health data.

The health information field is increasingly focusing on electronic patient records, database management, and information privacy and security. HIT professionals work in a variety of settings, such as hospitals, physician practices, long-term care, home health care, insurance, managed care, health technology firms, and pharmaceutical companies.

The health information technology program is pending accreditation by the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM).

Program Goals
The HIT program will:

- Prepare learners to create plans for the pursuit of graduate studies and/or continuing professional development activities, membership in professional and community organizations, and a life of learning.
- Confirm that faculty members meet university qualifications guidelines, utilize effective and innovative teaching methods that promote academic excellence, and pursue opportunities for professional development.
- Monitor the needs of the program’s community of interest and maintain the currency and relevancy of program curriculum through regular faculty and advisory committee meetings and academic program reviews.
- Achieve and maintain specialized program accreditation.

Student Learning Outcomes
The graduates of the program will:

- Apply healthcare laws, regulations, accreditation, licensure, certification standards, and ethics in the health information technology profession.
- Collect, analyze, and maintain health record content in paper or electronic mediums.
- Assign ICD-9-CM and CPT codes accurately on inpatient and outpatient records.
- Apply healthcare billing and reimbursement processes for inpatient and outpatient encounters.
- Apply quality management, utilization management, risk management, and healthcare vital statistics in the health information technology profession.
- Create a professional development plan to achieve and maintain certification.

Health Information Technology: Associate of Applied Science Degree Requirements 99 Credits

Offered through NAU’s distance learning program. General education courses are offered online and at designated physical locations. Offered at Albuquerque, Austin, Austin South, Bloomington, Brooklyn Center, Burnsville, Centennial, Colorado Springs, Colorado Springs South, Denver, Ellsworth, Independence, Lee’s Summit, Lewisville, Mesquite, Minnetonka, Overland Park, Rapid City, Rio Rancho, Roseville, Sioux Falls, Tulsa, Watertown, Wichita, Wichita West, and Zona Rosa, and requires students to complete the Health Information Technology Core through NAU’s distance learning program.

*Professional course (Minimum "C" grade required)

Graduation Requirements: A minimum 2.0 GPA is required overall and in the Health Information Technology Major Core. See the “Graduation Requirements” section of the catalog for additional requirements.

(The university reserves the right to correct clerical errors.)

Healthcare Coding: Diploma

The diploma program in healthcare coding is designed to provide a comprehensive understanding of coding principles and standards for entry-level professionals. The program assists students in the interpretation of coding practices, for both inpatient and outpatient settings.

There are many demands within healthcare institutions for coding professionals. Coding skills are highly valued within the healthcare industry, as the information is used in preparing claims for reimbursement, evaluating outcomes, quality assurance activities, and for clinical research. Coding professionals work in a variety of settings, such as hospitals, physician practices, long-term care, home health care, insurance, managed care, and governmental agencies. Coding students are eligible to sit for the Certified Coding Associate (CCA) upon completion of the program.

Program Goals

The program will:

- Prepare learners to attain university core abilities and program learning outcomes by utilizing performance-based curriculum in a caring and supportive learning environment.
- Measure and assess student learning and implement improvements, as needed, to ensure high quality academic programs and services.
- Prepare learners to create plans for the pursuit of graduate studies and/or continuing professional development activities, membership in professional and community organizations, and a life of learning.
- Confirm that faculty members meet university qualifications guidelines, utilize effective and innovative teaching methods that promote academic excellence, and pursue opportunities for professional development.
- Monitor the needs of the program’s community of interest and maintain the currency and relevancy of program curriculum through regular faculty and advisory committee meetings and academic program reviews.
- Achieve and maintain specialized program accreditation.

Student Learning Outcomes

Graduates of the program will:

- Assign ICD-9-CM codes accurately on inpatient and outpatient encounters.
- Collect, analyze, and maintain health record content in paper or electronic mediums.
- Assign CPT codes accurately on outpatient encounters.
- Apply healthcare billing and reimbursement processes for inpatient and outpatient encounters.
## Healthcare Coding: Diploma Requirements

### 58.5 Credits

Offered through NAU’s distance learning program. The blended delivery format is offered at Albuquerque, Austin, Austin South, Brooklyn Center, Bloomington, Burnsville, Centennial, Colorado Springs, Colorado Springs South, Denver, Independence, Lee’s Summit, Lewisville, Mesquite, Minnetonka, Overland Park, Rapid City, Rio Rancho, Roseville, Sioux Falls, Watertown, Wichita, Wichita West, and Zona Rosa, and requires students to complete the Healthcare Coding Major Core through NAU’s distance learning program.

### Graduation Requirements: A minimum 2.0 GPA is required overall and in the Healthcare Coding Major Core. See the “Graduation Requirements” section of the catalog for additional requirements.

(The university reserves the right to correct clerical errors.)

## Medical Administrative Assistant: Associate of Applied Science Degree

The medical administrative assistant degree program is designed to prepare students for entry-level administrative positions in a variety of healthcare settings. Administrative duties may include greeting patients, setting appointment times, scheduling hospital admissions, medical transcription, medical record management, insurance coding and billing, bill collections, office compliance, and other general medical office procedures. A medical administrative assistant with sufficient training and experience may become responsible for office management.

The medical administrative assistant program utilizes a combination of lecture and laboratory sessions to address both administrative and general topics. Students in the program must complete all professional courses in the curriculum with a minimum “C” grade.

### Program Goals

The program will:

- Prepare learners to attain university core abilities and program learning outcomes by utilizing performance-based curriculum in a caring and supportive learning environment.
- Measure and assess student learning and implement improvements, as needed, to ensure high quality academic programs and services.
- Prepare learners to create plans for the pursuit of further studies and/or continuing professional development activities, membership in professional and community organizations, and a life of learning.
- Confirm that faculty members meet university qualifications guidelines, utilize effective and innovative teaching methods that promote academic excellence, and pursue opportunities for professional development.
- Monitor the needs of the program’s community of interest and maintain the currency and relevancy of program curriculum through regular faculty and advisory committee meetings and academic program reviews.

### Student Learning Outcomes

Graduates of the program will:

- Demonstrate entry-level skills, knowledge and behavior competence in administrative content, functions, and procedures; including medical records management, healthcare coding, office accounting, and transcription.
- Apply fundamental principles, regulations, and statutes for performing within legal and ethical boundaries.
- Create a plan for obtaining membership in professional organizations, and continuing education.

The Medical Administrative Assisting Core and Science courses are scheduled for the full required contact hours.

* Professional course (Minimum "C" grade required)

Graduation Requirements: A minimum 2.0 GPA is required overall and in the Medical Administrative Assistant Major Core. See the “Graduation Requirements” section of the catalog for additional requirements.

(The university reserves the right to correct clerical errors.)

**Medical Assisting: Associate of Applied Science Degree**

The medical assistant performs administrative and clinical duties in a physician's office or other outpatient care settings within the scope of specific training and state law and in accordance with assignments by a physician.

Administrative duties may include patient scheduling, receptionist duties, medical record management, medical transcription, office correspondence, medical insurance procedures, and office accounts, fees and collections. A medical assistant with sufficient training and experience may become responsible for office management.

Clinical duties may include interviewing patients, taking vital signs, preparing patients for examination, assisting the physician during the exam, performing routine laboratory testing, sterilizing instruments and equipment, and administering medications.

The medical assisting program utilizes a combination of lecture and laboratory sessions, as well as a practicum following completion of other required course work. Students are required to obtain a Hepatitis B vaccination prior to enrolling in the clinical science lab and laboratory techniques courses. In addition, they must submit to a background check, complete a physical examination, and tuberculosis testing prior to the practicum.

The curriculum includes courses in administrative, clinical, and laboratory skills in order to provide graduates with the entry-level competencies required of medical assistants. Students in the program must complete all professional courses in the curriculum with a minimum "C" grade. Upon successful completion of CAAHEP accredited programs, each student will have met the formal training requirement and be eligible to take the national certification examination to become a certified medical assistant, CMA (AAMA) or registered medical assistant, RMA (AMT).

**Program Goals**

The program will:
• Prepare learners to attain university core abilities and program learning outcomes by utilizing performance-based curriculum in a caring and supportive learning environment.

• Prepare learners in the cognitive (knowledge), psychomotor (skills), and affective (behaviors) learning domains to become competent entry level medical assistants.

• Measure and assess student learning and implement improvements, as needed, to ensure high quality academic programs and services.

• Prepare learners to create plans for the pursuit of further studies, continuing professional development activities, membership in professional and community organizations, and a life of learning.

• Confirm that faculty members meet university qualifications guidelines, utilize effective and innovative teaching methods that promote academic excellence, and pursue opportunities for professional development.

• Monitor the needs of the program's community of interest and maintain the currency and relevancy of program curriculum through regular faculty and advisory committee meetings and academic program reviews.

• Achieve and maintain specialized program accreditation.

**Student Learning Outcomes**

Graduates of the program will:

• Demonstrate entry-level skills, knowledge and behavior competence in content and administrative and clinical functions and procedures, including general operational functions, as defined by the Commission on Accreditation of Allied Health Education Programs Standards and Guidelines for Medical Assisting Educational Programs.

• Apply fundamental principles, regulations and statutes for performing within legal and ethical boundaries.

• Create a plan for becoming a certified medical assistant, membership in professional organizations, and continuing education.

**Medical Assisting: Associate of Applied Science**

**Degree Requirements**

101.5 Credits

Offered at Albuquerque, Austin, Austin South, Bellevue, Bloomington, Brooklyn Center, Burnsville, Centennial, Colorado Springs, Colorado Springs South, Denver, Independence, Lee’s Summit, Lewisville, Mesquite, Minnetonka, Overland Park, Roseville, Sioux Falls, Tulsa, Wichita, Wichita West, and Zona Rosa.

**Medical Assisting Major Core Credit Hours**

The Medical Assisting Core and Science courses are scheduled for the full required contact hours.

*Professional course (Minimum "C" grade required)

Graduation Requirements: A minimum 2.0 GPA is required overall and in the Medical Assisting Major Core. See the "Graduation Requirements" section of the catalog for additional requirements.

(The university reserves the right to correct clerical errors.)
Medical Staff Services Management: Associate of Applied Science Degree

Legal cases during the past decade have drawn national attention to the importance of credentialing and peer review in hospitals and other credentialing organizations. Because of this trend, the role of the medical staff services management professional has also grown in importance. To carry out the duties of the medical staff services director or coordinator, a person must possess the knowledge and skills related to medical staff services administration, accreditation and regulatory compliance, management of credentialing processes, privileging, risk management, medical staff law, peer review, and information management.

The medical staff services management degree program is offered both online and in a blended format to accommodate those currently in the profession, those new to the profession, and those wanting to pursue the profession.

Program Goals
The program will:

• Prepare learners to attain university core abilities and program learning outcomes by utilizing performance-based curriculum in a caring and supportive learning environment.

• Measure and assess student learning and implement improvements, as needed, to ensure high quality academic programs and services.

• Prepare learners to create plans for the pursuit of graduate studies and/or continuing professional development activities, membership in professional and community organizations, and a life of learning.

• Confirm that faculty members meet university qualifications guidelines, utilize effective and innovative teaching methods that promote academic excellence, and pursue opportunities for professional development.

• Monitor the needs of the program’s community of interest and maintain the currency and relevancy of program curriculum through regular faculty and advisory committee meetings and academic program reviews.

• Achieve and maintain specialized program accreditation.

Student Learning Outcomes
Graduates of the program will:

• Interpret and implement accreditation standards applicable to MSSM.

• Accurately enter reappointment and initial credentialing application data.

• Identify which credentialing elements need to be verified for an Initial, Reappointment, and Temporary Privileges process for the appropriate accreditation agency.

• Show proficiency in written and oral communication skills.

• Demonstrate satisfaction with the MSSM program.

Medical Staff Services Management: Associate of Applied Science Degree Requirements

92 Credits

The blended delivery format is offered at Albuquerque, Bloomington, Brooklyn Center, Burnsville, Centennial, Colorado Springs, Colorado Springs South, Denver, Ellsworth, Independence, Lee’s Summit, Lewisville, Minnetonka, Overland Park, Rapid City, Rio Rancho, Roseville, Sioux Falls, Tulsa, Watertown, Wichita, and Zona Rosa, and requires students to complete most of the Medical Staff Services Management Major Core through NAU’s distance learning program. This program is also offered through NAU’s distance learning program.

Pharmacy Technician: Associate of Applied Science Degree

The growing use of prescription medications has created a need for formally trained pharmacy technicians. National American University’s Associate of Applied Science (AAS) program provides the knowledge and skills necessary to perform the duties and responsibilities required of pharmacy technicians. These duties include assisting pharmacists in providing medication and healthcare products to patients, record keeping, and inventory management in a professional medical environment. Pharmacy technicians are also responsible for communicating with pharmacists and patients to ensure that quality care is being provided.

The AAS program at National American University is offered in a manner that accommodates traditional students and working adults. The program is designed to benefit individuals new to pharmacy, and current pharmacy technicians interested in enhancing their skills and formalizing their training.

Program Goals
The program will:

- Engage students in proficiency-based, core competencies which integrate the fundamental skills, knowledge, and practice of a Pharmacy Technician.
- Prepare students to collaborate successfully with healthcare professionals to meet the various needs of consumers in a multicultural society.
- Individualize student clinical experiences in a variety of real world settings through cooperative alliances with local retail, compounding, hospital, institutional, and home healthcare pharmacy settings.

Student Learning Outcomes
Graduates of the program will:

- Perform tasks to accurately prepare and package pharmaceutical products.
- Select and precisely measure appropriate ingredients for IV admixtures, hyperalimentation fluids, and parenterals, utilizing universal precautions, laminar flow hoods, and aseptic techniques.
- Integrate a fundamental knowledge of the use and side effects of prescriptions and nonprescription medications used to treat common diseases and identify potential barriers to effective pharmaceutical care.
- Display an operational knowledge of billing, purchasing, and inventory management in the pharmacy.
- Demonstrate the integration of a fundamental knowledge of the laws, regulations, and professional standards that govern the responsibilities of a pharmacy technician with practical experience.
- Exhibit proficiency in basic information technology skills and demonstrate transferability of these skills to other software applications.
- Express proactive behavior in providing pharmaceutical resources to meet diverse patient care needs.
- Integrate the management skills needed to operate effectively in a professional environment.
- Demonstrate interpersonal communication skills to ensure meaningful patient interactions.
- Project a caring attitude toward patients while providing customer service in a multicultural society.
- Recognize the importance of lifelong learning through continuing education activities and membership in professional pharmacy organizations.
- Demonstrate competence as a pharmacy technician during clinical experiences to generate a number of individualized career opportunities.
- Advance pharmacy technician education by contributing to an ongoing process of program assessment and improvement.

The Pharmacy Technician Major Core and Science courses must be scheduled for the full required contact hours.

*Professional course (minimum "C" grade required)

**Graduation Requirements:** A minimum 2.0 GPA is required overall and in the Pharmacy Technician Major Core.

See the "Graduation Requirements" section of this catalog for additional graduation requirements.

(The university reserves the right to correct clerical errors.)

**Therapeutic Massage: Associate of Applied Science Degree**

The therapeutic massage industry is a rapidly growing profession. Taking into consideration the mind, body and spirit, the focus of the massage therapist is to meet the needs of the client by perceiving the body as a whole.

With over 50 different therapeutic approaches, the massage therapist is not limited to utilizing only one approach. Massage therapists may work with premature babies, infants, children with disabilities, adults, and geriatric clients. This program is designed to be the foundation of any massage therapist’s career.

Massage therapists are found in a variety of settings. They may be found under the supervision of a healthcare facility such as a hospital, nursing home, rehabilitation center, or chiropractic office. Other massage establishments may include fitness centers, day spas, cruise lines, nutrition centers, or hair salons, and they may be employed by the establishment or on an independent contract. Many therapists choose to be self-employed and open a private practice independently or with several associates. Administrative duties may include client scheduling, receptionist duties, client record management, office correspondence, medical insurance procedures, fees, and collections. Clinical duties may include interviewing the client, documenting client progress reports, administering massage techniques for the purpose of relaxation, revitalization, or rehabilitation, or conducting on-site corporate massage.

The therapeutic massage program utilizes a combination of lecture and "hands-on" laboratory sessions. Students will be required to demonstrate the massage techniques with accurate proficiency. Students must also complete all professional courses in the curriculum with a minimum of a "C" grade.

As an integrative part of the learning process, the student will be required to complete an internship program. Requirements to enter the externship program include program coordinator approval. Upon successful completion of all course work, the graduate will be eligible to sit for the National Certification for Therapeutic Massage and Bodywork exam.
National American University’s therapeutic massage program may or may not meet the licensing requirements of all states in the United States.

Students enrolling in this program should possess hand/finger dexterity as well as the ability to communicate both orally and visually.

Program Goals
The program will:

- Prepare learners to attain university core abilities and program learning outcomes by utilizing performance-based curriculum in a caring and supportive learning environment.
- Measure and assess student learning and implement improvements, as needed, to ensure high quality academic programs and services.
- Prepare learners to create plans for the pursuit of graduate studies and/or continuing professional development activities, membership in professional and community organizations, and a life of learning.
- Confirm that faculty members meet university qualifications guidelines, utilize effective and innovative teaching methods that promote academic excellence, and pursue opportunities for professional development.
- Monitor the needs of the program’s community of interest and maintain the currency and relevancy of program curriculum through regular faculty and advisory committee meetings and academic program reviews.
- Achieve and maintain specialized program accreditation.

Student Learning Outcomes
Graduates of the program will:

- Combine massage and bodywork techniques for therapeutic benefit.
- Develop successful and ethical therapeutic relationships with clients.
- Conduct research on the historical foundations of and recent developments in the therapeutic massage field.
- Design a plan for participating in professional activities and pursuing personal and professional development.
- Construct a comprehensive business plan for a therapeutic massage business.

BUSINESS

Degrees in business administration are for individuals interested in gaining a deeper understanding of the key functional areas of business. Emphasis is placed on communications, teamwork, ethics, and the skills for managing in diverse and globally engaged organizations, providing a solid foundation for success in the business field.

This versatile program is designed to prepare graduates for a variety of career opportunities in business, industry and government. It will also help students develop the skills to become successful entrepreneurs or grow an existing business. Graduates who complete the bachelor’s degree programs will be prepared to enroll in graduate programs in fields such as business administration or management.

Courses focus on managing the interactions that occur between business functions when defining and solving real-world business problems. The curriculum is designed to emphasize performance-based active learning, and to make the course work directly relevant to the day-to-day challenges of working professionals. Students also have the option to select the following emphasis areas at selected campuses if they choose: financial management, human resource management, information systems, international business, management, marketing, pre-law, and management accounting.

The applied management degree program is distinct from the business administration degrees because it allows students to transfer credits from prior vocational, technical, specialty, or military education. Graduates from this program will find many career opportunities for advancement in business management areas, as well as management opportunities associated with their specialty field.

National American University has been providing quality business education for 70 years. The Applied Management and Business Administration degree programs at NAU are accredited by the International Assembly for Collegiate Business Education (IACBE).

Furthermore, the Applied Management and Business Administration degree programs share common program goals, which are as follows:

- Prepare learners to attain university core abilities and program learning outcomes by utilizing performance-based curriculum in a caring and supportive learning environment.
- Measure and assess student learning and implement improvements, as needed, to ensure high quality academic programs and services.
- Prepare learners to create plans for the pursuit of graduate studies and/or continuing professional development activities, membership in professional and community organizations, and a life of learning.
- Confirm that faculty members meet university qualifications guidelines, utilize effective and innovative teaching methods that promote academic excellence, and pursue opportunities for professional development.

- Monitor the needs of the program’s community of interest and maintain the currency and relevancy of program curriculum through regular faculty and advisory committee meetings and academic program reviews.
- Achieve and maintain specialized program accreditation.

Applied Management: Bachelor of Science Degree

The applied management program is designed for individuals with degrees, diplomas, or certificates in specialty areas, such as merchandising, dental hygiene, electronics, medical assisting, drafting, welding, or other vocational areas.

A minimum of 27 credit hours in one specialty area is required to complete this program. Combined with business and general education courses, this degree prepares the graduate for advancement in management areas associated with their specialty field. Two options are available under this program: (1) transfer of credit from the source of the specialty training, or (2) creation of a specialty area using approved National American University courses.

Student Learning Outcomes

Graduates of the program will:

- Apply concepts, theories, and analytical methods in the functional areas of business.
- Analyze typical challenges that managers are likely to face and recommend solutions, using critical thinking skills and ethical decision making models.
- Demonstrate effective collaboration and teamwork skills.

Applied Management: Bachelor of Science Requirements

186 Credits

This program is also offered through NAU’s distance learning program.

**Computer Literacy**

Introduction to CIS or CI Elective 4.5

* Business electives include EC, FN, LA, MG, MT and OL courses

Graduation Requirements: A minimum 2.0 GPA is required overall and in the Management Major Core. See the “Graduation Requirements” section of the catalog for additional requirements.

(The university reserves the right to correct clerical errors.)

**Business Administration: Bachelor of Science Degree**

The business administration bachelor’s degree program is designed to convey to students the knowledge base and strategic mind-set that is requisite for career success in the field of business. Graduates of this program will be qualified for a wide range of career opportunities in for-profit and nonprofit business organizations and governmental institutions. This program is also an excellent foundation for students who may wish to pursue a business-related graduate degree.

**Student Learning Outcomes**

Graduates of the program will:

- Apply concepts, theories, and analytical methods in the functional areas of business.
- Analyze typical challenges that business decision makers are likely to face and recommend solutions, using critical thinking skills and ethical decision making models.
- Demonstrate effective collaboration and teamwork skills.

**Business Administration: Bachelor of Science Requirements**

186 Credits

Offered at Albuquerque, Austin, Austin South, Bellevue, Bloomington, Brooklyn Center, Burnsville, Centennial, Colorado Springs, Colorado Springs South, Denver, Ellsworth, Independence, Lee’s Summit, Lewisville, Mesquite, Minnetonka, Overland Park, Rapid City, Rio Rancho, Roseville, Sioux Falls, Tulsa, Watertown, Wichita, Wichita West, and Zona Rosa. This program is also offered through NAU’s distance learning program.

**Business Administration Major Core  Credit Hours**

(A minimum of 40.5 of the following 79.5 credits must be earned at NAU.)

**Capstone Course - Senior level, minimum "C" grade required, must be completed at NAU.

Students residing in the state of Texas:
## Block transfer is not available to these students.

Residents of the state of Minnesota or students attending any Minnesota campus:
are encouraged to complete some advanced or upper division general education course work.
## Block transfer is not available to these students.

Graduation Requirements: A minimum 2.0 GPA is required overall and in the Business Administration Major Core. See the "Graduation Requirements" section of the catalog for additional requirements.

(The university reserves the right to correct clerical errors.)

Business Administration: Associate of Applied Science Degree
The business administration associate degree program is designed to convey to students many of the basic and more fundamental concepts that begin to form the foundation for the breadth of knowledge and strategic mind-set that are requisite for career success in the field of business.

Students who complete the associate degree program are encouraged to continue in the bachelor's degree program in business administration. In choosing this academic path, they may also choose an emphasis in marketing, management, finance, international business, management accounting, pre-law, or information technology.

Graduates of this program will be qualified for a variety of entry-level positions in business sectors such as banking, finance, sales, insurance and management.

Student Learning Outcomes
Graduates of the program will:
• Apply introductory concepts and theories in marketing, management, accounting, and economics.
• Analyze typical challenges that business decision makers are likely to face.
• Demonstrate effective collaboration and teamwork skills.

Business Administration: Associate of Applied Science Requirements
93 Credits

Business Administration: Bachelor of Science Degree, Emphasis in Accounting

Managers today often need skills in financial management. The accounting emphasis provides the student with a strong background in financial accounting and budgeting as well as preparing the student for a career in management. The Bachelor of Science degree in Business Administration with an emphasis in Accounting prepares students for various management positions which also have responsibilities in budgeting and financial management. This option does not prepare the student for the Certified Public Accountant Examination.

Business Administration: Bachelor of Science with Emphasis in Accounting Requirements

Business Administration: Bachelor of Science Degree, Emphasis in Entrepreneurship

Whether in the corporate or private business setting, entrepreneurship is an essential ingredient for success in the business field. Entrepreneurs serve as catalysts for economic growth by recognizing business opportunities and finding innovative ways to leverage those opportunities.

The Bachelor of Science Business Administration emphasis Entrepreneurship program prepares students to think like entrepreneurs and to utilize entrepreneurial tools and strategies, including opportunity scanning, product/service development plans, and pro forma financial statements, to achieve success in the creation of new business ventures.

Student Learning Outcomes

- Apply concepts, theories, and analytical methods in the functional areas of business.
- Analyze typical challenges that business decision makers are likely to face and recommend solutions, using critical thinking skills and ethical decision making models.
- Demonstrate effective collaboration and teamwork skills.
- Create a comprehensive business plan for a new business venture.

** Capstone Course - Senior level, minimum "C" grade required, must be completed at NAU.

Students residing in the state of Texas:
## Block transfer is not available to these students.

Residents of the state of Minnesota or students attending any Minnesota campus:
are encouraged to complete some advanced or upper division general education course work.

## Block transfer is not available to these students.

Graduation Requirements: A minimum 2.0 GPA is required overall and in the Business Administration Major Core and the Financial Management Emphasis Core. See the "Graduation Requirements" section of the catalog for additional requirements.

(The university reserves the right to correct clerical errors.)

Business Administration: Bachelor of Science Degree, Emphasis in Human Resource Management

This emphasis program is designed for students who have an interest in the human resource management functions of business organizations. The program explores the broad human resource activities required to attract, maintain and develop an effective workforce, including strategic planning, recruitment and selection, training and development, appraising employee performance and compensation, and benefits administration. This exploration also includes a review of recent laws, court decisions, new technologies, and social forces that make human resource management a rapidly evolving career field. In addition, this program of study encourages students to develop a strategic mind-set in the context of human resource management policies and practices, and empowers them to become effective decision-makers in this specialized field of business management.

Student Learning Outcomes
Graduates of the program will:

• Apply concepts, theories, and analytical methods in the functional areas of business.
• Analyze typical challenges that business decision makers are likely to face and recommend solutions, using critical thinking skills and ethical decision making models.
• Demonstrate effective collaboration and teamwork skills.
• Analyze Human Resource Management issues from a strategic perspective.

Business Administration: Bachelor of Science with Emphasis in Human Resource Management

Requirements

186 Credits

Offered at Albuquerque, Austin, Austin South, Bellevue, Bloomington, Brooklyn Center, Burnsville, Centennial, Colorado Springs, Colorado Springs South, Denver, Ellsworth, Independence, Lee’s Summit, Lewisville, Mesquite, Minnetonka, Overland Park, Rapid City, Rio Rancho, Roseville, Sioux Falls, Tulsa, Watertown, Wichita, Wichita West, and Zona Rosa. This program is also offered through NAU’s distance learning program. Some of the courses in this program may be offered only through NAU’s distance learning program.

**Business Administration: Bachelor of Science Degree, Emphasis in Information Systems**

This degree is intended for the business administration major who recognizes the increasing prevalence of information technology in the field of business and seeks proficiency in the use of such tools to facilitate the achievement of desired business goals. As with all the business administration degrees, a wide range of job opportunities are available, yet graduates of this program will have an advantage in their ability to use information technology to get the job done.

**Student Learning Outcomes**

Graduates of the program will:

- Apply concepts, theories, and analytical methods in the functional areas of business.
- Analyze typical challenges that business decision makers are likely to face and recommend solutions, using critical thinking skills and ethical decision making models.
- Demonstrate effective collaboration and teamwork skills.
- Demonstrate a practical knowledge base and applicable skill set within one of the following areas of Information Technology: Database Management, Network Management, or Web Development.

**Business Administration: Bachelor of Science with Emphasis in Information Systems Requirements**

(The university reserves the right to correct clerical errors.)

Business Administration: Bachelor of Science Degree, Emphasis in International Business
Increasingly, national, regional and even local markets have become more tightly integrated into a global marketplace. This degree program allows students the opportunity to focus on the international business dimension, its multiple facets, and in particular the implications that international business dealings have on the strategic decision-making of today's business leaders. Career opportunities in the field of international business are diverse. Graduates of this program will have an advantage in working with firms that conduct international business dealings.

Student Learning Outcomes
Graduates of the program will:
• Apply concepts, theories, and analytical methods in the functional areas of business.
• Analyze typical challenges that business decision makers are likely to face and recommend solutions, using critical thinking skills and ethical decision making models.
• Demonstrate effective collaboration and teamwork skills.
• Analyze management issues from an international business perspective.

**Capstone Course - Senior level, minimum "C" grade required, must be completed at NAU.**

Students residing in the state of Texas:

## Block transfer is not available to these students.

Residents of the state of Minnesota or students attending any Minnesota campus:

are encouraged to complete some advanced or upper division general education course work.

## Block transfer is not available to these students.

Graduation Requirements: A minimum 2.0 GPA is required overall and in the Business Administration Major Core and the International Business Emphasis Core. See the "Graduation Requirements" section of the catalog for additional requirements.

(The university reserves the right to correct clerical errors.)

Business Administration: Bachelor of Science Degree, Emphasis in Management

This business administration program is intended for students who aspire to management positions in a wide range of private industries and governmental agencies. Furthermore, the program is designed to cultivate in students a strategic mindset that will empower them to reach innovative solutions to contemporary business challenges within their chosen business sector.

Student Learning Outcomes

Graduates of the program will:

- Apply concepts, theories, and analytical methods in the functional areas of business.
- Analyze typical challenges that business decision makers are likely to face and recommend solutions, using critical thinking skills and ethical decision making models.
- Demonstrate effective collaboration and teamwork skills.
- Analyze issues central to management in a global business environment.

Business Administration: Bachelor of Science with Emphasis in Management Requirements

186 Credits

Offered at Albuquerque, Austin, Austin South, Bellevue, Bloomington, Brooklyn Center, Burnsville, Centennial, Colorado Springs, Colorado Springs South, Denver, Ellsworth, Independence, Lee’s Summit, Lewisville, Mesquite, Minnetonka, Overland Park, Rapid City, Rio Rancho, Roseville, Sioux Falls, Tulsa, Watertown, Wichita, and Wichita West. This program is also offered through NAU’s distance learning program. Some of the courses in this program may be offered only through NAU’s distance learning program.

Business Administration Major Core Credit Hours

(A minimum of 40.5 of the following 79.5 credits must be earned at NAU.)

### Business Administration: Bachelor of Science Degree, Emphasis in Marketing

Among the specializations a student may choose from in the field of business administration, marketing is currently one of the fastest-growing career fields. This degree program prepares students to effectively understand and evaluate marketing alternatives and be able to apply critical marketing-related skills. Moreover, this program is an excellent choice for students seeking a career in areas such as retail management, sales management, marketing research, advertising, and promotion.

### Student Learning Outcomes

Graduates of the program will:

- Apply concepts, theories, and analytical methods in the functional areas of business.
- Analyze typical challenges that business decision makers are likely to face and recommend solutions, using critical thinking skills and ethical decision making models.
- Demonstrate effective collaboration and teamwork skills.
- Develop a marketing plan for a product and/or service.

### Business Administration: Bachelor of Science with Emphasis in Marketing Requirements

**186 Credits**

Offered at Albuquerque, Austin, Austin South, Bellevue, Bloomington, Brooklyn Center, Burnsville, Centennial, Colorado Springs, Colorado Springs South, Denver, Ellsworth, Independence, Lee’s Summit, Lewisville, Mesquite, Minnetonka, Overland Park, Rapid City, Rio Rancho, Roseville, Sioux Falls, Tulsa, Watertown, Wichita, and Wichita West. This program is also offered through NAU’s distance learning program.

The marketing emphasis area of this program is only offered through NAU’s distance learning program. Some of the courses in this program may be offered only through NAU’s distance learning program.

**Business Administration: Bachelor of Science Degree, Emphasis in Pre-Law**

For students whose goal is to attend law school, National American University offers a Bachelor of Science degree in Business Administration, with emphasis in Pre-Law. The curriculum is designed to provide students with a foundation of knowledge and skills to facilitate their success in law school. Specialized courses promote the development of analytical and critical thinking skills, verbal and written communication skills, a fundamental understanding of substantive and procedural law, legal research skills, and knowledge of ethical guidelines governing the conduct of attorneys. Other courses in business and general education provide students with a broad base of knowledge for success in today's complex society.

Students who earn this degree may apply for admission to law school. Students should check the admission requirements of each law school in which they are interested in attending. Generally, to be admitted into law school, a person must have earned a bachelor's degree with a high grade point average and have performed well on the Law School Admission Test. Success in gaining admission to, and achieving success in law school is contingent upon the ability and effort of each student. Receipt of this degree does not ensure that a student will be admitted to, or succeed in law school.

Students who receive this degree, but do not subsequently earn a law degree, may pursue a variety of careers in which the above-mentioned knowledge and skills may be utilized. In many states, a person with this degree may qualify as a paralegal or legal assistant who can assist a licensed attorney, subject to state regulations. Only licensed attorneys may practice law. A person who earns this degree may not engage in activities considered to be the practice of law, including giving legal advice, representing a client in court, or setting legal fees.

**Business Administration: Bachelor of Science Degree, Emphasis in Supply Chain Management**

Supply chain management has emerged as a distinct field to meet the needs of the growing global supply chain, the series of business processes that move products from initial order to acquisition of raw materials, production, and distribution to the customer. With projections that global supply chain activities will continue to expand and integrate new technologies and practices, supply chain management has become an increasingly attractive career path for today’s business students.

In the Bachelor of Science Business Administration Emphasis Supply Chain Management program, students will learn to coordinate the various aspects of the supply chain in order to optimize efficiency while maintaining high quality and customer satisfaction. Students will also be challenged to consider how supply chain management integrates supply and demand management with product design, marketing, sales,
finance, and information technology, as well across partner companies.

Student Learning Outcomes

- Apply concepts, theories, and analytical methods in the functional areas of business.
- Analyze typical challenges that business decision makers are likely to face and recommend solutions, using critical thinking skills and ethical decision making models.
- Demonstrate effective collaboration and teamwork skills.
- Analyze Supply Chain Management issues from a strategic perspective.

Business Administration: Bachelor of Science with Emphasis in Supply Chain Management

Requirements

186 Credits

Offered at Albuquerque, Austin, Austin South, Bloomington, Brooklyn Center, Burnsville, Centennial, Colorado Springs, Colorado Springs South, Denver, Ellsworth, Independence, Lee's Summit, Lewisville, Minnetonka, Overland Park, Rio Rancho, Roseville, Sioux Falls, Watertown, Wichita, Wichita West, and Zona Rosa. This program is also offered through NAU’s distance learning program. Some of the courses in this program may be offered only through NAU’s distance learning program.

Business Administration Major Core

Introduction to CIS or CI Elective

4.5

4.5

**Capstone Course - Senior level, minimum "C" grade required, must be completed at NAU.

Students residing in the state of Texas:

## Block transfer is not available to these students.
Residents of the state of Minnesota or students attending any Minnesota campus:

are encouraged to complete some advanced or upper division general education course work.

## Block transfer is not available to these students.

Graduation Requirements: A minimum 2.0 GPA is required overall and in the Business Administration Major Core and the Supply Chain Management Emphasis Core. See the "Graduation Requirements" section of the catalog for additional requirements.

(The university reserves the right to correct clerical errors.)

Business Administration: Bachelor of Science Degree, Emphasis in Tourism and Hospitality Management

The tourism industry - which includes travel and tourism, restaurants and food and beverage services, lodging and recreation, amusement and attractions - is one of the largest and fastest-growing industries in the world. This degree program, which is offered at the Rapid City campus, combines business and specialty course work with internship opportunities to prepare graduates for management positions in private sector and public sector organizations.

Course schedules are flexible for those who wish to attend classes on a full-time or part-time basis. The program may also be combined with job opportunities in the region’s tourism and hospitality industry in order to gain practical experience during program enrollment.

Graduates will be prepared to seek management positions in tourism and hospitality organizations that provide services and products to those who are away from home. The program also provides an excellent foundation for graduates that wish to pursue business-related graduate degrees.

Student Learning Outcomes

Graduates of the program will:

• Apply concepts, theories, and analytical methods in the functional areas of business.

• Analyze typical challenges that business decision makers are likely to face and recommend solutions, using critical thinking skills and ethical decision making models.

• Demonstrate effective collaboration and teamwork skills.

• Apply tourism and hospitality management concepts and theories to the workplace.

Business Administration: Bachelor of Science with Emphasis in Tourism and Hospitality Management

186 Credits

Offered through NAU’s distance learning program. Offered at Bloomington, Brooklyn Center, Burnsville, Minnetonka, Rapid City, and Roseville.

Business Logistics: Associate of Applied Science Degree

The logistics segment of the business supply chain works to promote the efficient and effective flow and storage of goods, services, and information in order to meet customer requirements. Logistics activities typically include transportation management, warehousing, materials handling, order fulfillment, and inventory management.

The Associate of Applied Science in Business Logistics program is designed to meet the needs of those who are interested in pursuing a career in the logistics field. Students will learn how business organizations can achieve competitive advantage by developing and maintaining efficient and effective operations across their buying, shipping, and receiving channels. Graduates of logistics programs are increasingly sought for their knowledge and skills in this specialized field of business that is projected to continue its expansion and growth.

Program Goals

- Prepare learners to achieve established university core abilities and program learning outcomes in a caring and supportive learning environment that utilizes performance-based curriculum and promotes academic excellence.
- Measure and assess student learning and implement improvements, as needed, to ensure high quality academic programs and services.
- Prepare learners to create plans for the pursuit of graduate studies and/or continuing professional development activities, membership in professional and community organizations, and a life of learning.
- Confirm that faculty members meet university qualifications guidelines, utilize effective and innovative teaching methods that enhance learning, and pursue opportunities for professional development.
- Monitor the needs of the program’s community of interest and maintain the currency and relevancy of program curriculum through regular faculty and advisory committee meetings and academic program reviews.

Student Learning Outcomes

- Apply introductory concepts and theories in financial accounting, management, marketing, economics, ethics and social responsibility, and business logistics.
- Analyze typical challenges that business logistics professionals are likely to face and recommend solutions, using critical thinking skills and ethical decision-making models.
- Apply collaboration and teamwork concepts to business logistics.

CRIMINAL JUSTICE

Criminal Justice: Bachelor of Science Degree

For students whose goal is to pursue a career in the field of criminal justice, National American University offers the criminal justice bachelor of science degree. The curriculum is designed to provide students with the knowledge, skills and abilities for the career fields of criminal justice. Graduates of the criminal justice bachelor of science degree program are prepared to apply for entry-level employment in policing, courts or corrections and also to advance from entry-level employment to the supervisory and administrative levels of these career fields once they have attained the requisite entry-level experience. Policing and institutional corrections employment also will require the completion of a training academy. The criminal justice degree serves as a foundation for career positions such as police officer, deputy sheriff, state highway patrol officer, court clerk, court bailiff, correctional officer, probation officer, parole officer, as well as various federal law enforcement positions. Many criminal justice agencies today require applicants to have, at a minimum, an associate degree, if not a bachelor’s degree for entry-level employment. In addition to the bachelor’s degree being a requirement for entry-level employment in various criminal justice agencies, it is often criteria for higher skilled employment and higher pay scales. In some agencies, the bachelor’s degree can be a requirement or weighted factor in the promotion process. Promotional advancement may be attained earlier with the bachelor’s degree.

Students entering the criminal justice program should be aware that graphic images depicting violent crimes are utilized as teaching tools in various courses. Students should be prepared to view these images and to engage in discussions regarding these images as part of their required learning activities.

Program Goals

The program will:

- Provide students with the knowledge of the components of criminal justice: policing, courts, and corrections.
- Provide students with a systems theory perspective of how the criminal justice system is intended to work and the reality of how the system actually works, creating the issues and dilemmas that criminal justice professionals must manage and solve.
- Develop the critical thinking skills of students to evaluate criminal justice issues and develop analytical strategies to solve complex criminal justice problems.
- Develop the teamwork skills of students to work on criminal justice teams to perform essential functions.
- Develop the managerial skills of students for criminal justice administrative work.
- Develop the written and oral skills of students to perform the essential communication functions of criminal justice work such as communication with personnel, government and the community.
- Encourage students to pursue continuing education and memberships in professional organizations.
- Prepare students for promotional opportunities in the criminal justice field and for graduate education that will enhance their administrative capabilities for criminal justice careers.

Student Learning Outcomes

Graduates of the program will:

- Apply legal principles to the police, courts, and correctional components of the criminal justice system.
- Apply ethical decision-making models and professional standards to criminal justice situations.
- Utilize management and leadership skills to achieve organizational objectives.
- Apply contemporary criminological theories to criminal justice policies and procedures.
- Integrate and apply substantive knowledge and analytical skills to criminal justice operations and issues.

Criminal Justice: Bachelor of Science Requirements

187.5 Credits

The blended delivery format is offered at Albuquerque, Austin, Austin South, Bellevue, Bloomington, Brooklyn Center, Burnsville, Centennial, Colorado Springs, Colorado Springs South, Denver, Ellsworth, Independence, Lee’s Summit, Lewisville, Mesquite, Minnetonka, Overland Park, Rapid City, Rio Rancho, Roseville, Sioux Falls, Tulsa, Watertown, Wichita, Wichita West, and Zona Rosa and requires students to complete the Criminal Justice Major Core through NAU’s distance learning program. This program is also offered through NAU’s distance learning program.

Criminal Justice: Associate of Applied Science

For students whose goal is to pursue a career in the field of criminal justice, National American University offers the criminal justice associate of applied science degree. The curriculum is designed to provide students with a foundation in the knowledge, skills, and abilities for the criminal justice career field. Students who earn the associate of applied science degree are prepared for entry-level employment in policing, courts, and corrections. Policing and institutional corrections employment will also require the completion of a training academy. The associate degree can be a requirement for entry-level employment in various criminal justice agencies and is often criteria for higher skilled employment and higher pay scales. In some agencies, the associate of applied science degree can be a requirement or weighted factor in the promotion process. The student with an associate of applied science degree in criminal justice is qualified to apply for the positions of police patrol officer, court clerk, court bailiff, correctional officer, probation officer, parole officer, and some federal positions with the requisite law enforcement experience.

Students entering the criminal justice program should be aware that graphic images depicting violent crimes are utilized as teaching tools in various courses. Students should be prepared to view these images and to engage in discussions regarding these images as part of their required learning activities.

Program Goals

The program will:

• Provide students with the knowledge of the components of criminal justice: policing, courts, and corrections.

• Provide students with a systems theory perspective of how the criminal justice system is intended to work and the reality of how the system actually works, creating the issues and dilemmas that criminal justice professionals must manage and solve.

• Develop the teamwork skills of students to work on criminal justice teams to perform essential functions.

• Develop the written and oral skills of students to perform the essential communication functions of criminal justice
work such as communication with personnel, government and the community.

• Encourage students to pursue continuing education and memberships in professional organizations.

• Prepare students for promotional opportunities in the criminal justice field and for seeking the bachelor’s degree that will provide them with the skills needed to perform administrative tasks in criminal justice careers.

Student Learning Outcomes
Graduates of the program will:

• Demonstrate knowledge of the criminal justice system’s operations and issues.

• Apply legal principles to the police, courts, and correctional components of the criminal justice system.

• Apply ethical decision-making models and professional standards to criminal justice situations.

Criminal Justice: Associate of Applied Science
Requirements
93 Credits

The blended delivery format is offered at Albuquerque, Austin, Austin South, Bellevue, Brooklyn Center, Burnsville, Centennial, Colorado Springs, Colorado Springs South, Denver, Ellsworth, Independence, Lee’s Summit, Lewisville, Mesquite, Minnetonka, Overland Park, Rapid City, Rio Rancho, Roseville, Sioux Falls, Tulsa, Watertown, Wichita, Wichita West, and Zona Rosa and requires students to complete the Criminal Justice Major Core through NAU’s distance learning program. This program is also offered through NAU’s distance learning program and at Bloomington.

* Professional Course, minimum "C" grade required

^ Or placement recommendation

Residents of the state of Minnesota or students attending any Minnesota campus:

Graduation Requirements: A minimum 2.0 GPA is required overall and in the Criminal Justice Major Core. See the "Graduation Requirements" section of the catalog for additional requirements.

(The university reserves the right to correct clerical errors.)
HEALTH AND BEAUTY MANAGEMENT

Health and Beauty Management: Associate of Applied Science Degree

The Health and Beauty Management program prepares the licensed cosmetologist to own or operate a beauty parlor, salon or spa or to manage his or her own booth. This degree is designed for individuals who have earned a cosmetology certificate or diploma and have successfully passed their state board of cosmetology exam. A maximum of 60 quarter credit hours from a cosmetology certificate or diploma program is required to transfer into the health and beauty vocational core.

Students are able to add business skills to their industry knowledge and experiences through a performance-based curriculum that includes studies in management, marketing, communication, and career management. This program is an excellent option for students who wish to pursue a management career or become an entrepreneur in the health and beauty sector.

Program Goals
The program will:

• Create a caring and supportive learning environment that promotes academic excellence and student achievement through the use of a performance-based curriculum while being responsive to the individual needs of the student.

• Provide students with a fundamental knowledge of business development, operations, and management as it relates to the health and beauty industry.

• Integrate students’ previous education and practical experiences with knowledge and skills from the business field.

• Promote the importance of professional development and lifelong learning.

• Encourage students to maintain a work-life balance by managing their careers.

Student Learning Outcomes
Graduates of the program will:

• Identify a variety of employment options in the health and beauty sector.

• Create a comprehensive health and beauty business plan.

• Demonstrate proficiency in written and oral communication skills.

• Design a plan for participating in professional activities and pursuing personal and professional development.

Health and Beauty Management: Associate of Applied Science Degree Requirements

100.5 Credits

The blended delivery format is offered at Albuquerque, Austin, Austin South, Centennial, Colorado Springs, Colorado Springs South, Denver, Lewisville, Mesquite, Overland Park, Rapid City, Rio Rancho, Sioux Falls, Tulsa, and Watertown. This program is also offered through NAU’s distance learning program in states except Minnesota.
HEALTHCARE MANAGEMENT

Healthcare Management: Bachelor of Science Degree

The healthcare management program is designed to provide students with the necessary skills to become effective managers and leaders within the healthcare industry. Graduates can expect to find career opportunities in management positions within the diverse healthcare field or within their own area of clinical/professional expertise.

Program Goals

The program will:

- Prepare learners to attain university core abilities and program learning outcomes by utilizing performance-based curriculum in a caring and supportive learning environment.
- Measure and assess student learning and implement improvements, as needed, to ensure high quality academic programs and services.
- Prepare learners to create plans for the pursuit of graduate studies and/or continuing professional development activities, membership in professional and community organizations, and a life of learning.
- Confirm that faculty members meet university qualifications guidelines, utilize effective and innovative teaching methods that promote academic excellence, and pursue opportunities for professional development.
- Monitor the needs of the program’s community of interest and maintain the currency and relevancy of program curriculum through regular faculty and advisory committee meetings and academic program reviews.
- Achieve and maintain specialized program accreditation.

Student Learning Outcomes

Graduates of the program will:

- Apply principles, concepts, and theories related to healthcare systems, finance, law and ethics, the regulatory environment, quality and performance improvement, information systems, and management.
- Apply financial management principles to strategic planning, budgeting, and business operations in healthcare organizations.
- Examine challenges that healthcare managers are likely to face and recommend solutions, using critical thinking skills and ethical decision-making models.

Healthcare Management: Bachelor of Science Requirements

187 Credits

The blended delivery format is offered at Albuquerque, Austin, Austin South, Bellevue, Bloomington, Brooklyn Center, Burnsville, Centennial, Colorado Springs, Colorado Springs South, Denver, Ellsworth, Independence, Lee’s Summit, Lewisville, Mesquite, Minnetonka, Overland Park, Rapid City, Rio Rancho, Roseville, Sioux Falls, Tulsa, Watertown, Wichita, Wichita West, and Zona Rosa and requires students to complete the Healthcare Management Major Core through NAU’s distance learning program. This program is also offered through NAU’s distance learning program.

INFORMATION TECHNOLOGY
The computer industry continues to grow at an unprecedented rate, making the demand exceptionally high for people with information technology skills. The university offers a wide variety of degree options to prepare graduates for high-tech positions in network administration, network management, Internet systems development, computer security, and management information systems.

Program Goals
The program will:
• Prepare learners to attain university core abilities and program learning outcomes by utilizing performance-based curriculum in a caring and supportive learning environment.
• Measure and assess student learning and implement improvements, as needed, to ensure high quality academic programs and services.
• Prepare learners to create plans for the pursuit of graduate studies and/or continuing professional development activities, membership in professional and community organizations, and a life of learning.
• Confirm that faculty members meet university qualifications guidelines, utilize effective and innovative teaching methods that promote academic excellence, and pursue opportunities for professional development.
• Monitor the needs of the program’s community of interest and maintain the currency and relevancy of program curriculum through regular faculty and advisory committee meetings and academic program reviews.

Applied Information Technology: Bachelor of Science
The applied information technology degree is designed to provide the flexibility to integrate specialized technology and skills into a customized information technology program. It is intended for individuals with degrees, diplomas, certificates or certifications in specialty areas, such as information technology, computer science, programming, networks, computer aided design and database, or other related areas. A minimum of 27 credit hours in one specialty area is required to complete this program. This degree prepares the graduate for advancement in management or technical areas associated with their specialty field. Two options are available under this program: (1) transfer of credit from the source of the specialty training, or (2) creation of a specialty area using approved National American University courses.

Student Learning Outcomes
Graduates of the program will:
• Support the data management needs of business through the design, implementation and maintenance of relational databases.
• Collaborate with constituents to establish the information technology needs of a business and plan an appropriate solution and procurement strategy.

• Demonstrate the use of project management techniques within an appropriate system analysis and design life cycle framework to develop an information system.
• Solve a variety of business problems through the application of structured program analysis and design concepts.
• Apply ethical decision-making models in the information technology environment.

Applied Information Technology: Associate of Applied Science Degree

This program of study prepares graduates for various entry-level positions in the information system field with a balanced overview of technology in the major core. Students are encouraged to work with their advisors to design a program in their area of interest and their technology-related certifications, which may be in Microsoft networking, Cisco networking, or other technical disciplines. Graduates may qualify for positions such as network administrators, network engineers, or other technical positions.

Student Learning Outcomes

Graduates of the program will:

• Demonstrate proficiency in the fundamental information technology skills required to provide user support in business.

• Administer a network infrastructure designed to support management and production functions in business and industry.

• Implement and maintain computer-based information systems to support the decision-making function of management.

Applied Information Technology: Associate of Applied Science Requirements

93 Credits

Offered at Albuquerque, Austin, Austin South, Bellevue, Bloomington, Brooklyn Center, Centennial, Colorado Springs, Colorado Springs South, Denver, Ellsworth, Independence, Lee’s Summit, Lewisville, Mesquite, Overland Park, Rapid City, Rio Rancho, Roseville, Sioux Falls, Tulsa, Watertown, and Wichita. Computer Security: Associate of Applied Science Degree

The need for information security professionals has never been greater. The associate degree in computer security will familiarize students with techniques related to information security basics, network, operating system and software security, and methods for penetration testing. Graduates will possess the necessary tools to become IT professionals with the knowledge and expertise to identify emerging security risks and implement security policies and procedures to support organizational goals.

Student Learning Outcomes
Graduates of the program will:
- Support the data management needs of business through the design, implementation and maintenance of relational databases.
- Demonstrate proficiency in the fundamental information technology skills required to provide user support in business.
- Administer a network infrastructure designed to support management and production functions in business or industry.
- Implement and maintain computer-based information systems to support the decision-making function of management.
- Protect information assets through the implementation of security models and standards.

Computer Support Specialist: Diploma

This program prepares students to enter the exciting and challenging field of Information Technology. Armed with a solid core of information technology skills, students are prepared to enter the workforce as computer support specialists providing technical support, assistance, and advice to individuals and organizations that depend on information technology.

**Student Learning Outcomes**

Graduates of the program will:

- Demonstrate proficiency in the fundamental information technology skills required to provide user support in business.
- Implement and maintain computer-based information systems to support the decision-making function of management.
- Support the data management needs of business through the design, implementation, and maintenance of relational databases.

**Computer Support Specialist: Diploma Requirements 58.5 Credits**

Offered at Albuquerque, Austin, Austin South, Bloomington, Brooklyn Center, Burnsville, Centennial, Colorado Springs, Colorado Springs South, Denver, Independence, Lee's Summit, Lewisville, Minnetonka, Overland Park, Rio Rancho, Roseville, Sioux Falls, Watertown, Wichita, Wichita West, and Zona Rosa. This program is also offered through NAU’s distance learning program. Some of the courses in this program may be offered only through NAU’s distance learning program.

**Computer Support Specialist Major Credit Hours Core**

(A minimum of 22.5 of the following 40.5 credits must be earned at NAU.)

- CI1420 Principles of Programming | 4.5
- CI2011 Introduction to Database | 4.5
- CI2211 Internetworking Fundamentals | 4.5
- CI2430 Computer Concepts | 4.5
- CI2440 Introduction to Computer Security | 4.5
- CI3010 Linux | 4.5
- CI3091 Database Design and Management | 4.5
- CI3675 Microsoft Windows 7 | 4.5
- CI4118 Network Infrastructure | 4.5

**Electronic Health Record Support Specialist: Associate of Applied Science Degree**

This program is designed to prepare computer support specialists to work in the healthcare industry. The major core classes provide students with the skills necessary to provide technical support for the implementation and maintenance of electronic health records. The emphasis area classes focus on regulations, procedures and legal principles unique to the healthcare industry.

**Student Learning Outcomes**

Graduates of the program will:

- Demonstrate proficiency in the fundamental information technology skills required to provide user support.
• Administer a computer-based information systems designed support information assets in the healthcare industry.

• Apply ethical decision-making models appropriate in the healthcare business environment.

Electronic Health Record Support Specialist:  
Associate of Applied Science Requirements  
96 Credits

Offered at Albuquerque, Austin, Austin South, Bloomington, Brooklyn Center, Burnsville, Centennial, Colorado Springs, Colorado Springs South, Denver, Ellsworth, Independence, Lee’s Summit, Lewisville, Minnetonka, Overland Park, Rapid City, Rio Rancho, Roseville, Sioux Falls, Watertown, Wichita, Wichita West, and Zona Rosa. This program is also offered through NAU’s distance learning program. Some of the courses in this program may be offered only through NAU’s distance learning program.

Residents of the state of Minnesota or students attending any Minnesota campus:

# must take a Humanities elective.

Graduation Requirements: A minimum 2.0 GPA is required overall and in the Information Technology Major Core. See the "Graduation Requirements" section of the catalog for additional requirements.

(The university reserves the right to correct clerical errors.)

Information Technology: Associate of Applied Science Degree

This program of study provides education for various entry-level positions in the information systems field. Students are encouraged to work with their advisor to design a program in their area of interest, which may be in programming, database administration, Microsoft networking or software applications. Graduates may qualify for positions as computer operators, programmers or database administrators.

Student Learning Outcomes

Graduates of the program will:

• Support the data management needs of business through the design, implementation and maintenance of relational databases.

• Demonstrate proficiency in the fundamental information technology skills required to provide user support in business.

• Administer a network infrastructure designed to support management and production functions in business or industry.

• Implement and maintain computer-based information systems to support the decision-making function of management.

Information Technology: Associate of Applied Science Requirements

93 Credits

Offered at Albuquerque, Austin, Austin South, Bellevue, Bloomington, Brooklyn Center, Burnsville, Centennial, Colorado Springs, Colorado Springs South, Denver, Ellsworth, Independence, Lee’s Summit, Lewisville, Mesquite, Minnetonka, Overland Park, Rapid City, Rio Rancho,
Information Technology: Bachelor of Science Degree, Emphasis in Computer Security and Forensics

This program prepares students for the technology jobs of the future. Information security is the practice of ensuring the confidentiality, availability or integrity of a system. Digital forensics courses will provide students with a comprehensive understanding of digital forensics investigation tools and techniques, and the collection, preservation, and analysis of digital evidence. Graduates will have an in-depth understanding of threats, risks, and attacks, and the technologies, policies and procedures to mitigate information system threats.

Student Learning Outcomes
Graduates of the program will:

• Support the data management needs of business through the design, implementation, and maintenance of relational databases.

• Collaborate with constituents to establish the information technology needs of a business and plan an appropriate solution and procurement strategy.

• Demonstrate the use of project management techniques within an appropriate system analysis and design life cycle framework to develop an information system.

• Solve a variety of business problems through the application of structured program analysis and design concepts.

• Apply ethical decision-making models in the information technology environment.

• Protect information assets through the implementation of security models and standards.

Information Technology: Bachelor of Science with Emphasis in Computer Security and Forensics Requirements

187.5 Credits

Offered at Albuquerque, Austin, Austin South, Bloomington, Brooklyn Center, Burnsville, Centennial, Colorado Springs, Colorado Springs South, Denver, Ellsworth, Independence, Lee’s Summit, Lewisville, Minnetonka, Overland Park, Rapid City, Rio Rancho, Roseville, Sioux Falls, Watertown, Wichita, Wichita West, and Zona Rosa. This program is also offered through NAU’s distance learning program. Some of the courses in this program may be offered only through NAU’s distance learning program.

**Capstone Course - Senior level, minimum "C" grade required, must be completed at NAU.**

**Students residing in the state of Texas:**

## Block transfer is not available to these students.

**Residents of the state of Minnesota or students attending any Minnesota campus:**

are encouraged to complete some advanced or upper division general education course work.

## Block transfer is not available to these students.

**Graduation Requirements:** A minimum 2.0 GPA is required overall and in the Information Technology Major Core and the Computer Security and Forensics Core. See the "Graduation Requirements" section of the catalog for additional requirements.

(University reserves the right to correct clerical errors.)

**Information Technology: Bachelor of Science Degree, Emphasis in Internet Systems Development**

This program provides the student with the skills required to design, develop, and maintain interactive Internet web sites. This bachelor’s degree program prepares the student to work in the dynamic field of Internet development as the information technology professional on a Web site design team.

**Student Learning Outcomes**

Graduates of the program will:

- Support the data management needs of business through the design, implementation, and maintenance of relational databases.
- Collaborate with constituents to establish the information technology needs of a business and plan an appropriate solution and procurement strategy.
- Demonstrate the use of project management techniques within an appropriate system analysis and design life cycle framework to develop an information system.
- Solve a variety of business problems through the application of structured program analysis and design concepts.
• Apply ethical decision-making models in the information technology environment.
• Design, develop, and maintain interactive web sites employing both server-side and client-side programming methodologies.

Information Technology: Bachelor of Science with Emphasis in Internet Systems Development

Requirements

187.5 Credits

Offered at Bellevue, Ellsworth, Independence, Lee’s Summit, Rapid City, and Tulsa. This program is also offered through NAU’s distance learning program. Some of the courses in this program may be offered only through NAU’s distance learning program.

Information Technology Major Core Credit Hours

(A minimum of 27 of the following 49.5 credits must be earned at NAU.)

Introduction to CIS or CI Elective 4.5

4.5

**Capstone Course - Senior level, minimum "C" grade required, must be completed at NAU.

Students residing in the state of Texas:

## Block transfer is not available to these students.

Residents of the state of Minnesota or students attending any Minnesota campus:

are encouraged to complete some advanced or upper division general education course work.

## Block transfer is not available to these students.

Graduation Requirements: A minimum 2.0 GPA is required overall and in the Information Technology Major Core and the Internet Systems Development
Academic Programs

Information Technology

**Emphasis Core. See the "Graduation Requirements" section of the catalog for additional requirements.**

*(The university reserves the right to correct clerical errors.)*

Information Technology: Bachelor of Science Degree, Emphasis in
Management Information Systems

The requirement for management personnel to understand information technology and its impact upon modern business operation has never been greater. This degree program, with its component of business, finance, management, and accounting courses and its specialization in MIS, prepares graduates to be managers in information technology. Graduates are qualified for positions as systems analysts and information systems managers.

**Student Learning Outcomes**

Graduates of the program will:

- Support the data management needs of business through the design, implementation and maintenance of relational databases.
- Collaborate with constituents to establish the information technology needs of a business and plan an appropriate solution and procurement strategy.
- Demonstrate the use of project management techniques within an appropriate system analysis and design life cycle framework to develop an information system.
- Solve a variety of business problems through the application of structured program analysis and design concepts.
- Apply ethical decision-making models in the information technology environment.

Information Technology: Bachelor of Science with Emphasis in Management Information Systems

**Requirements**

187.5 Credits

Offered at Albuquerque, Austin, Austin South, Bellevue, Bloomington, Brooklyn Center, Burnsville, Centennial, Colorado Springs, Colorado Springs South, Denver, Ellsworth, Independence, Lee’s Summit, Lewisville, Mesquite, Minnetonka, Overland Park, Rapid City, Rio Rancho, Roseville, Sioux Falls, Tulsa, Watertown, Wichita, Wichita West, and Zona Rosa. This program is also offered through NAU’s distance learning program.

**Information Technology Major Core**

(A minimum of 27 of the following 49.5 credits must be earned at NAU.)

**Student Learning Outcomes**

Graduates of the program will:

- Demonstrate the use of project management techniques within an appropriate system analysis and design life cycle framework to develop an information system.
- Solve a variety of business problems through the application of structured program analysis and design concepts.
- Apply ethical decision-making models in the information technology environment.
- Administer a network infrastructure designed to support the management and production functions in business or industry.

Information Technology: Bachelor of Science with Emphasis in Network Administration/Microsoft
Information Technology: Bachelor of Science Degree, Emphasis in Network Management/Microsoft

This program provides the student with an in-depth knowledge of network design and operation. Graduates of this program have all the necessary skills to manage and provide technical support for a computer network. The focus is on Microsoft networking and prepares students for the Microsoft Certified IT Professional: Enterprise Administrator exams.

Student Learning Outcomes

Graduates of the program will:

- Support the data management needs of business through the design, implementation, and maintenance of relational databases.
- Collaborate with constituents to establish the information technology needs of a business and plan an appropriate solution and procurement strategy.
- Demonstrate the use of project management techniques within an appropriate system analysis and design life cycle framework to develop an information system.
- Solve a variety of business problems through the application of structured program analysis and design concepts.
- Apply ethical decision-making models in the information technology environment.
- Design, implement, and manage a network infrastructure to support management and production functions in business or industry.

**MCITP Network Management: Diploma**

This program provides students with an in-depth knowledge of network design and operation. Graduates of this program have the necessary skills to manage and provide technical support for a computer network. The focus is on Microsoft networking to prepare students to take the Microsoft MCITP Enterprise Administrator exams.

**Student Learning Outcomes**

Graduates of the program will:

- Demonstrate proficiency in the fundamental information technology skills required to provide user support in business.
- Administer a network infrastructure designed to support management and production functions in business or industry.
- Implement and maintain computer-based information systems to support the decision-making function of management.
- Design, implement, and manage a network infrastructure designed to support management and production functions in business or industry.

**Students residing in the state of Texas:**

## Block transfer is not available to these students.

**Residents of the state of Minnesota or students attending any Minnesota campus:**

are encouraged to complete some advanced or upper division general education course work.

**Students residing in the state of Texas:**

Graduation Requirements: A minimum 2.0 GPA is required overall and in the Network and Server Administrator Major Core. See the "Graduation Requirements" section of the catalog for additional requirements.

(The university reserves the right to correct clerical errors.)
LEGAL STUDIES

Paralegal Studies
Paralegals, sometimes called legal assistants, may be employed in law firms; corporate legal departments; local, state, and federal government offices; bank and trust departments; and other offices that require a specialized understanding of the law and the legal system. Paralegals may also be employed in other careers that require excellent analytical and communication skills.

Under the supervision of an attorney, a paralegal may interview clients and witnesses; draft court pleadings and other legal documents; perform legal research; review medical, police and other records; attend hearings; assist in trial preparations; and assist at trial. A paralegal may not engage in activities considered to be the practice of law, including giving legal advice, representing a client in court, or setting legal fees.

Paralegal Studies Program Admissions
In addition to the university’s admissions requirements and instructions on page 13, the following admissions requirement is program specific.

Any person convicted of a felony may not serve as a paralegal in the state of South Dakota without the approval of the South Dakota Supreme Court.

Paralegal Studies: Bachelor of Science Degree
National American University offers both a Bachelor of Science degree and an Associate of Applied Science degree in Paralegal Studies. A Bachelor of Science degree is offered for students who wish to prepare for increased employment responsibilities or choose to pursue graduate education. Credits earned in the Associate of Applied Science degree apply toward a Bachelor of Science degree in Paralegal Studies.

Program Goals
The program will:

• Prepare students who earn a Bachelor of Science degree for increased employment responsibilities and graduate education.
• Measure key student learning outcomes continuously and identify and implement opportunities for improvement.

Student Learning Outcomes
Graduates of the program will:

• Demonstrate a fundamental knowledge of substantive and procedural law.
• Utilize critical thinking skills to analyze problems by identifying and evaluating alternative solutions.
• Perform legal research using both traditional and electronic resources.
• Communicate effectively through both speaking and writing.
• Adhere to ethical guidelines governing the conduct of attorneys and paralegals.
• Recognize the value of lifelong learning and the importance of participating in professional organizations.
• Prepare for employment responsibilities and continuing education appropriate to their degree.

Paralegal Studies: Bachelor of Science Degree Requirements
187 Credits
Offered at Bloomington, Brooklyn Center, Burnsville, Independence, Lee’s Summit, Minnetonka, Overland Park, Rapid City, Roseville, Sioux Falls, and Zona Rosa. The programs offered at the Rapid City and Sioux Falls campuses are approved by the American Bar Association.

Paralegal Studies Major Core Credit Hours
(A minimum of 36 of the following 90 credits must be earned at NAU.)

* Must earn a minimum "C" grade in each Paralegal Studies Major Core course

1. May be credited as a cross-listed sociology course. If so, another Paralegal Studies course must be successfully completed or transferred.
2. Or placement recommendation
3. Paralegal coordinator approval required
4. Students may elect to satisfy a maximum of 4.5 internship credit hours with a Paralegal Studies elective course other than PL3000 Law Office Technology.
5. No prerequisite for EN2100 Speech
6. Academic advisor approval
7. CI1500 Word Processing for Windows recommended

Students attending any Minnesota campus:

are encouraged to complete some advanced or upper division general education course work.

## Block transfer is not available to these students.

Graduation Requirements: A minimum 2.0 GPA is required overall and in the Paralegal Studies Major Core. See the "Graduation Requirements" section of the catalog for additional requirements.

(The university reserves the right to correct clerical errors.)

Paralegal Studies: Associate of Applied Science Degree

An Associate of Applied Science degree in Paralegal Studies is offered for those students who wish to pursue a course of study emphasizing basic paralegal skills. Credits earned in this program will apply toward a Bachelor of Science degree in Paralegal Studies described above. Students can often earn the bachelor's degree in six additional quarters.

Program Goals

The program will:

- Provide students with fundamental knowledge of substantive and procedural law.
- Develop the critical-thinking skills of students to enable them to analyze problems by identifying and evaluating alternative solutions.
- Prepare students to perform legal research using both traditional and electronic resources.
- Develop the oral and written communication skills of students.
- Provide students with the knowledge of the ethical guidelines governing the conduct of attorneys and paralegals.
- Encourage students to participate in continuing education activities and maintain memberships in professional organizations.
- measure key student learning outcomes continuously and identify and implement opportunities for improvement.

Student Learning Outcomes

Graduates of the program will:

- Demonstrate a fundamental knowledge of substantive and procedural law.
Utilize critical thinking skills to analyze problems by identifying and evaluating alternative solutions.

Perform legal research using both traditional and electronic resources.

Communicate effectively through both speaking and writing.

Adhere to ethical guidelines governing the conduct of attorneys and paralegals.

Recognize the value of lifelong learning and the importance of participating in professional organizations.

Prepare for employment responsibilities and continuing education appropriate to their degree.

Business Administration: Bachelor of Science Degree, Emphasis in Pre-Law

For students whose goal is to attend law school, National American University offers a Bachelor of Science degree in Business Administration with emphasis in Pre-law. The curriculum is designed to provide students with a foundation of knowledge and skills to facilitate their success in law school. Specialized courses promote the development of analytical and critical-thinking skills, verbal and written communication skills, a fundamental understanding of substantive and procedural law, legal research skills, and knowledge of ethical guidelines governing the conduct of attorneys. Other courses in business and general education provide students with a broad base of knowledge for success in today's complex society.

Students who earn this degree may apply for admission to law school. Students should check the admissions requirements of each law school in which they are interested in attending. Generally, to be admitted into law school, a person must have
earned a bachelor's degree with a high grade point average and have performed well on the Law School Admission Test. Success in gaining admission to, and achieving success in law school is contingent upon the ability and effort of each student. Receipt of this degree does not ensure that a student will be admitted to, or succeed in law school.

**Students who receive this degree, but do not subsequently earn a law degree, may pursue a variety of careers in which the above-mentioned knowledge and skills may be utilized.** In many states, a person with this degree may qualify as a paralegal or legal assistant who can assist a licensed attorney, subject to state regulations. Only licensed attorneys may practice law. A person who earns this degree may not engage in activities considered to be the practice of law, including giving legal advice, representing a client in court, or setting legal fees.

See the Business Administration: Bachelor of Science Degree, Emphasis in Pre-Law program of study on page 81.
NATIONAL AMERICAN UNIVERSITY
SCHOOL OF NURSING

School of Nursing Mission Statement
The School of Nursing (SON), as an integral part of National American University, is in concert with its mission, core values and purposes. Consistent with the overall university mission, the School of Nursing mission is to prepare competent nursing graduates by providing a caring, diverse and student-centered environment that fosters critical thinking and enhances holistic health care across the lifespan. The nursing programs offer career mobility through an articulated ladder approach to nursing education.

School of Nursing Vision
Maintain and mature the infrastructure of the School of Nursing and the practice of nursing education.

School of Nursing Core Values
- Offer high quality nursing education and collaborative community partnerships.
- Provide a caring and supportive learning environment for nursing students.
- Offer professional nursing programs leading to career advancement and professional development.

School of Nursing Goals/Purposes
1. Prepare learners to influence the delivery of healthcare services through safe and accountable clinical judgment.
2. Promote and facilitate (student-centered) lifelong learning opportunities responsive to the needs of students, graduates, faculty, community, and profession.
3. Commit to the advancement of nursing knowledge and application to health care by collaborating with faculty within and external to the university and with professionals in healthcare and community agencies.
4. Support and participate in activities that interpret and promote the role of the nurse, influence nursing practice, and the concept of caring.
5. Support efforts to recruit and retain students from diverse backgrounds and experiences who demonstrate potential for success in nursing.
6. Incorporate a holistic approach to culturally congruent care throughout the lifespan.

School of Nursing Philosophy
The School of Nursing derives its philosophy and purposes from the mission statement of National American University. The School of Nursing and its faculty believe that nursing education should enable students to acquire the knowledge and proficiencies necessary to practice culturally competent and congruent nursing care and meet the changing needs of society. The philosophy and conceptual model are based on the learning paradigms of Benner (1984, 2000, 2001) and Leininger (1991, 2002, 2006). In accordance with these paradigms, the faculty believes that education is predicated on the following constructs derived from Benner’s "Novice to Expert" and Leininger’s "Transcultural Nursing" theories:

1. **Experiential:** student-centered and lifelong learning; Benner (1984, 2000, 2001) and Leininger (1991, 2002, 2006). The School of Nursing and faculty believe nursing education includes experiences and activities that promote learning in open learning climates where students may examine and discuss transitions in understanding, mistakes or misconceptions in actual clinical situations (Benner, 1984, 2000, 2001). Nursing is embraced as a discipline committed to the importance of lifelong learning for the maintenance and advancement of knowledge.

The School of Nursing and faculty further believe culturally congruent care reflects an infinite number of factors that affect well-being which is important for today’s diverse society. It is through culturally congruent care that nursing finds an infinite number of explored and unexplored dimensions of care as a pursuit for enhanced knowledge which may result in predictable care outcomes (Leininger, 1991, 2002, 2006).

The School of Nursing and faculty further embrace Leininger’s (1991, 2002, 2006) definition: “Care is the heart of nursing; Care is power; Care is essential to healing (or well-being); Care is curing; and Care is (or should be) the central and dominant focus of nursing and transcultural nursing decisions and actions” (Leininger, 1991, 2002, 2006).

3. **Clinical Judgment:** qualitative distinction, evolves over time, integrative/dynamic; Benner (1984, 2000, 2001). The School of Nursing and faculty believe Benner’s (1984, 2000, 2001) tenet that clinical judgment is based on recognition of dynamic patient/ family/ community transitions across time in response to conditions and associated treatment. The nurse’s clinical judgment evolves over time as the nurse gains experience and furthers education in the profession.

4. **Holistic Health/ Illness/ Death:** Leininger (1991, 2002, 2006). The School of Nursing and faculty believe nursing education should embrace the care of clients as addressed within all stages of health from wellness to death. Within the art of healing and comforting, utilization of a holistic perspective should support and enhance human dignity. This holistic perspective views cultural insight as a pivotal factor that directs and shapes well-being within an individual, the family and the community as a whole.

of Nursing programs are built upon various student levels of education and experience, and designed to enhance career mobility. Concepts of care and culture based on Leininger (1991, 2002, 2006) are threaded throughout the curricula. The constructs: experiential learning, caring, clinical judgment, and holistic health/illness/death provide horizontal threads that serve as broad categories under which a variety of content can be addressed. They are not considered mutually exclusive. It is recognized that the rapid evolution of nursing science, practice, and education demands on-going reexamination of categories and concepts.

The School of Nursing and faculty believe nursing is a practice profession with a defined body of knowledge and outcomes. Nursing practice is embraced through education as holistic, career in nature incorporating, and supporting lifelong learning.

**Nursing Practice and Nursing Education**

A knowledge base reflective of the varying levels of nursing practice contributes to incorporating information to promote health, prevent disease, restore health, and promote adaptation across the lifespan. Nursing demands the ability to adapt to a changing environment in assessing, analyzing, planning, implementing, and evaluating nursing care.

Continued learning and application of facts and principles is necessary for effective clinical judgment in patient care settings. As providers of health services, nurses should be self-directive, creative, critical thinkers who strive for lifelong learning, regardless of their level of practice.

Within nursing, there are levels of practice within varying settings which require different educational preparation. Educational preparation within each level of practice should build on previous knowledge to facilitate career mobility.

The NAU SON Associate of Science in Nursing (ASN) program prepares students to serve clients with complex care needs, which require judgment, independent decision making within the professional nurse role and collaborative decision making. The National League for Nursing (NLN) publication Outcomes and Competencies for Graduates of Practical/Vocational, Diploma, Associate Degree, Baccalaureate, Master’s, Practice Doctorate, and Research Doctorate Programs in Nursing (NLN, 2010) provides guidelines for associate degree nursing education and practice.

The NAU SON Bachelor of Science in Nursing (BSN) curriculum was designed to provide a broad base of principles from science and liberal arts including additional specialized courses in leadership, healthcare delivery systems, community and public health nursing, health promotion, nursing research, and evidence-based practice. To ensure the program quality and integrity, the BSN program follows the standards set out in the American Colleges of Nursing (ACCN) Essentials of Baccalaureate Education for Professional Nursing Practice (ACCN, 2008). The baccalaureate graduate enters the nursing profession as a nurse generalist with a strong foundation for developing specialized clinical practice and other advanced practice roles. The BSN graduates are prepared to function effectively in ambiguous, unpredictable and complex environments; demonstrate critical thinking and flexibility; translate, integrate and apply knowledge to enhance patient care quality and safety. The program graduates possess the skills and credentials necessary to pursue graduate education.

The NAU SON Master of Science in Nursing (MSN) program with emphasis in emerging technologies and interactive experiences was developed to prepare future educators for leadership in nursing education in a variety of settings. The MSN program utilizes the Essentials of Master’s Education in Nursing (AACN, 2011) to provide structure for the curriculum content. The program integrates theories specific to adult learning, curriculum design and evaluation of courses and programs, critical thinking and instructional design, and teaching strategies. This program provides students focused learning on how to teach online and use technology to teach nursing in innovative ways. The program graduates possess the skills and credentials necessary to work as nursing educators in all types of nursing programs. The MSN graduates are prepared to face challenges of today’s complex academic and healthcare environments, assume leadership roles in staff development and participate in innovative programs in health education within a global environment.

**Bachelor of Science in Nursing Program**

Today’s healthcare environment demands nurses who can function in a constantly changing healthcare setting, deal with emerging healthcare needs and incorporate evidence and research in their practice. The BSN program is an innovative design that enables the graduate nurse to provide care to individuals, families and communities in health promotion, acute or chronic illness and at the end of life. By focusing on the current research in nursing education and nursing practice, the BSN program educates nurse generalists with a strong foundation for developing specialized clinical practice and the skills and credentials necessary to pursue graduate education.

**Student Learning Outcomes**

- Synthesize knowledge from nursing, the arts and sciences in the holistic practice of professional nursing.
- Apply theory-based decision-making related to safe, competent and culturally congruent nursing care to individuals, families and communities in diverse settings across the lifespan emphasizing the concept of caring.
- Critically evaluate and utilize relevant findings of nursing research in professional nursing practice.
- Demonstrate professional values and behaviors consistent with professional standards.
- Assume responsibility for ongoing professional development in an ever-changing healthcare environment.

**Nursing Program Admission Requirements for BSN Students**

Admission to the nursing foundational core is based on the National American University admission criteria.

Admission to the nursing foundational core does not guarantee enrollment in the nursing clinical core. Admission to the nursing clinical core is selective and highly competitive.
Completed applications to the nursing clinical core must be received at least 90 days prior to the start of each nursing clinical core cohort; the application deadline is June 1* for the following fall quarter start.

**The criteria to be eligible for application to the clinical core of the BSN program:**

- Admission to National American University must be made before application to the nursing clinical core.
- All foundational core courses must be completed by the clinical core application deadline.
- Minimum cumulative GPA of 2.8 on all nursing foundational courses must be accomplished.
- All required foundational core courses must be completed with a minimum grade of "C".
- All science courses must have been completed within five (5) years of application to the nursing foundational core.
- Applicant must provide a copy of state specific verification of active certification of a nursing assistant or licensed vocational nurse or LPN.
- Prior to application to the nursing clinical core, applicants must successfully complete a pre-entrance examination, Test of Essential Academic Skills (TEAS). The student must take the TEAS test at a NAU School of Nursing campus program location or arrange for an official transfer of the scores from ATI to the program of application. The TEAS provides means to determine the potential for professional competency. The TEAS score will remain valid as entry criteria for six months. Applicants may retake the test if desired in an attempt to gain a higher score with no less than fourteen (14) days between testing.
- Non-native English speaking students must pass the official Test of English as a Foreign Language (TOEFL) with a minimum score of 500 paper-based, 173 computer-based or 61 for an Internet-based exam. **NOTE: Per Kansas State Board of Nursing requirements, non-native English speaking students at the Overland Park and Wichita West, Kansas campuses must must have completed within five (5) years of application to the nursing foundational core.**
- Prior to application to the nursing clinical core, applicants must successfully complete a pre-entrance examination, Test of Essential Academic Skills (TEAS). The student must take the TEAS test at a NAU School of Nursing campus program location or arrange for an official transfer of the scores from ATI to the program of application. The TEAS provides means to determine the potential for professional competency. The TEAS score will remain valid as entry criteria for six months. Applicants may retake the test if desired in an attempt to gain a higher score with no less than fourteen (14) days between testing.
- Non-native English speaking students must pass the official Test of English as a Foreign Language (TOEFL) with a minimum score of 500 paper-based, 173 computer-based or 61 for an Internet-based exam. **NOTE: Per Kansas State Board of Nursing requirements, non-native English speaking students at the Overland Park and Wichita West, Kansas campuses must must have completed within five (5) years of application to the nursing foundational core.**
- Applicant must provide a copy of state specific verification of active certification of a nursing assistant or licensed vocational nurse or LPN.
- Prior to application to the nursing clinical core, applicants must successfully complete a pre-entrance examination, Test of Essential Academic Skills (TEAS). The student must take the TEAS test at a NAU School of Nursing campus program location or arrange for an official transfer of the scores from ATI to the program of application. The TEAS provides means to determine the potential for professional competency. The TEAS score will remain valid as entry criteria for six months. Applicants may retake the test if desired in an attempt to gain a higher score with no less than fourteen (14) days between testing.

**Acceptance is based on the overall ranking of the following items:**

- TEAS test scores.
- Cumulative grade point averages of foundational core courses.
- Students who have completed nursing foundational coursework at NAU will be given priority consideration but not guaranteed admission into the nursing clinical core.
- Prior completion of a bachelor's or master's degree in any program of study.
- Grades from Human Anatomy and Physiology I and Human Anatomy and Physiology II.

**The following items must be submitted with the application (the cost of the items is the student's responsibility):**

- Completed application. Incomplete applications will not be considered for admittance.
- Successful background check completed by an agency selected by National American University School of Nursing.
- State specific verification of active certification of a nursing assistant or licensed vocational nurse or LPN must be on the completed application for admission into the nursing clinical core.
- Copy of active CPR for healthcare providers.
- Evidence of a health examination (current within six (6) months of admission) if applicable. Check with the respective program office.
- Evidence of active health insurance.
- Evidence of up-to-date immunizations or evidence of serologic immunity as required by clinical agencies signed by a healthcare provider.

**Articulation Policy for LPN to BSN Students**

The following policy applies ONLY to the LPN Bridge to BSN program offered at the NAU Overland Park and Wichita West, Kansas campuses.

The LPNs, who desire to become professional nurse with BSN degree, will take the NS3315 LPN to RN Transition Course. Admission for articulation is based on academic criteria and complies with Kansas State Board of Nursing policies, 1202 commission report and follows recommendations of the Council for Nursing Articulation in Kansas.

All licensed practical nurses will make application for acceptance into the BSN program and complete the following requirements. **Acceptance is based on available resources and the overall ranking of the following items:**

- Admission to National American University must be made before application to the nursing clinical core.
- In-state applicant must be a graduate of a Kansas State Board of Nursing approved practical nursing school/program with a cumulative GPA of 2.8 or above. Individual evaluation of credits will be accomplished by reviewing an official transcript from the previous nursing school/program and course syllabi. Validation of nursing competencies in selected skill sets will be conducted following the recommendations of the Council for Nursing Articulation in Kansas. Non-nursing course credits may be transferred according to NAU's policy.
- Out-of-state graduates from other State Board of Nursing approved practical nursing schools/programs will be evaluated individually by reviewing applicants' official transcripts and course syllabi. Validation of nursing competencies in selected skill sets will be conducted following the recommendations of the Council for Nursing
Articulation in Kansas. Non-nursing course credits may be transferred according to NAU's policy.

- Current active unencumbered LPN license from any state within the United States must be on the completed application for admission.
- The NS3315 LPN to RN Transition course, 4.5 credit hours, to be taken in the fall quarter with provisional admission into the nursing clinical core. This course must be completed with a minimum grade of "C" to gain full admission status. Failure to meet this requirement will result in removal from the program.
- Nine (9) credit hours will be held in escrow for the LPN bridging student. The student must successfully pass the first nursing courses NS3320D, NS3330 and NS3331 to have the nine (9) credit hours fully transferred into the program.
- Students who have completed nursing foundational coursework at NAU will be given priority consideration but not guaranteed admission into the nursing clinical core.

Criteria to be considered for acceptance into the nursing clinical core:

- Minimum cumulative GPA of 2.8 on all nursing foundational courses must be accomplished by the student.
- All nursing foundational courses must be completed by the clinical core application deadline.
- All required foundational core courses must be completed with a minimum grade of "C".
- All science courses must have been completed within five (5) years of application to the nursing foundational core.
- All nursing foundational core courses may be transferred into the program except for CS1500 Strategies for Success and CS2080 Career Management.
- Prior to application to the nursing clinical core, applicants must successfully complete a pre-entrance examination, Test of Essential Academic Skills (TEAS). The student must take the TEAS test at a NAU School of Nursing campus program location or arrange for an official transfer of the scores from ATI to the program of application. The TEAS provides means to determine the potential for professional competency. The TEAS score will remain valid as entry criteria for six months. Applicants may retake the test if desired in an attempt to gain a higher score with no less than fourteen (14) days between testing.

* For a new start BSN clinical core, the application timeline may be modified.

The general education transfer courses for the nursing foundational core must meet the same NAU admissions criteria. All nursing prefix (NS) courses must be completed at NAU.

Bachelor of Science in Nursing: BSN Degree Requirements

186.5 Credits

Offered at the Bloomington, Overland Park, Rapid City, Sioux Falls, Wichita, and Wichita West campuses.

Nursing Clinical Core Credit Hours
(All of the following 107 credits must be earned at NAU.)

** Capstone course.

All 3000-level nursing courses must be completed for progression to 4000-level nursing courses.

Students must have a state specific verification of active certification of a nursing assistant or licensed vocational nurse or LPN and be officially accepted into the nursing clinical core to register for nursing (NS) courses.

Minimum of 2.8 CGPA in the nursing foundational core. All nursing foundational core courses must be completed with a "C" grade or higher.

Minimum course grade of "C" required for progression in all courses within the nursing clinical core.

Failure to achieve a passing grade in a theory or clinical course will result in the failure of the associated theory or clinical course.

Admission to the nursing foundational core does NOT guarantee enrollment in the nursing clinical core.

All nursing students are encouraged to complete some advanced or upper division general education coursework.

(1The university reserves the right to correct clerical errors.)

Bachelor of Science in Nursing: LPN to BSN Degree Requirements
191 Credits

Offered at Overland Park and Wichita West campuses.

NOTE: LPN bridging into the BSN clinical core students must have a PN diploma (32 credits) with a 2.8 CGPA or above and a current active unencumbered LPN license.

LPN to RN Transition (4.5)

The LPN to RN Transition course must be completed with a minimum grade of "C".

Nursing Clinical Core (107)

(All of the following 107 credits must be earned at NAU. Except LPN Escrow courses.)

Online RN to BSN Program

Today’s dynamic and diverse healthcare environment requires professional nurses who can champion health promotion and disease prevention, function effectively in ambiguous, unpredictable and complex environments, demonstrate critical thinking and flexibility, and execute a variety of roles throughout a lifetime career. The National American University Online RN to BSN program is designed for RNs with an associate degree or diploma who seek a bachelor’s degree in nursing.

The National American University Online RN to BSN program builds on the student’s past education and experience. This program offers a flexible and practical way for RNs to expand their knowledge and prepare for leadership positions in a variety of healthcare settings. It also provides the skills and credentials necessary to pursue graduate education.

Student Learning Outcomes

- Synthesize knowledge from nursing, the arts and sciences in the holistic practice of professional nursing.
- Apply theory-based decision-making related to safe, competent and culturally congruent nursing care to individuals, families, and communities in diverse settings across the lifespan emphasizing the concept of caring.
- Critically evaluate and utilize relevant findings of nursing research in professional nursing practice.
- Demonstrate professional values and behaviors consistent with professional standards.
- Assume responsibility for ongoing professional development in an ever-changing healthcare environment.

Admissions Requirements

The Online RN to BSN program reviews applications and admits students every academic quarter. Admissions decisions are made and communicated in writing once the program application and admissions requirements have been completed and reviewed.

Admissions criteria include the following:

- Admission to National American University before application to the Online RN to BSN program.
- Graduation from an associate degree program in nursing or a diploma nursing program.*
- Current active unencumbered RN license from any state within the United States.* Evidence of current licensure must be present in the student’s departmental file. If the applicant is a recent graduate of National American University’s ASN program and does not hold an RN license, the applicant will be accepted into the program pending receipt of passing the NCLEX-RN® exam. If the student fails the NCLEX-RN®, the student will not be allowed to continue with enrollment the subsequent quarter. The student can, however, apply for admission and may be accepted when they pass the NCLEX-RN®.
- Minimum cumulative GPA of 2.8 or above from the graduated associate degree program in nursing or diploma nursing program. Applicants who do not meet the cumulative GPA requirement are reviewed on a case-by-case basis and may be admitted under probationary status.
• Minimum cumulative GPA of 2.8 on all transferred general education courses.
• All nursing prefix (NS) courses must be completed through NAU online.

*All international nurses must have a current active unencumbered RN license from any state within the United States and an international professional evaluation of their prior education credentials.

**Capstone course
Minimum course grade of "C" required in each nursing course for progression in the nursing program.
Minimum course grade of "C" required for all other courses.
Minimum of 2.0 CGPA required for progression and graduation.
All nursing students are encouraged to complete some advanced or upper division general education course work.
(The university reserves the right to correct clerical errors.)

ACADEMIC PROGRAMS | National American University School of Nursing

Online RN to BSN Requirements

190 Credits

Offered through NAU Distance Learning in all states except Tennessee and Texas.

NOTE: Students must have an associate degree or diploma in nursing with a 2.8 CGPA or above and a current active unencumbered RN license.

Associate of Science in Nursing

ASN Nursing

Nursing is a career that is in great demand. Nursing offers opportunities in multiple settings with individuals, families and communities. The National American University Nursing Associate of Science degree will provide the student the knowledge and skills necessary to integrate practice theories and concepts from nursing, sciences and humanities when providing comprehensive nursing care in a variety of settings. The program will provide competent graduates prepared to take the NCLEX-RN® exam. (Completion of the program does not ensure student eligibility to take the NCLEX-RN® exam. Students are responsible for meeting eligibility requirements for licensure designated by the Nurse Practice Act and the respective State Board of Nursing.)
Student Learning Outcomes

- Exhibit behaviors and characteristics congruent with the professional role.
- Utilize skills to promote communication and collaboration in the healthcare environment.
- Incorporate culturally sensitive information and care to promote health, prevent disease, restore health and promote adaptation across the lifespan.
- Create a safe and effective environment.

Admissions Requirements

Admission to the nursing foundational core is based on the National American University admission criteria. Admission to the nursing foundational core does not guarantee enrollment in the nursing clinical core. Admission to the nursing clinical core is selective and highly competitive.

Completed applications to the nursing clinical core must be received at least 90 days prior to the start of each nursing clinical core cohort. Spaces for the nursing clinical core are assigned on a competitive and space available basis for each admission period.

Acceptance is based on available resources and overall ranking in the following areas:

- Admission to National American University must be made before application to the nursing clinical core.
- Students who have completed nursing foundational course work at National American University will be given priority consideration but not guaranteed admission into the nursing clinical core.
- Criteria to be considered for acceptance into the nursing clinical core:
  - Minimum cumulative GPA of 2.8 on all nursing foundational courses must be accomplished by the student.
  - All nursing foundational courses must be completed by application.
  - All science courses must have been completed within five (5) years of application to the nursing foundational core. All science courses must have been achieved with a minimum "C".
  - General education nursing clinical core courses (SC1201, SC1370, PS2000, SO1050 or PS1050) may be completed prior to acceptance into the nursing clinical core. They are not nursing foundational courses and will not be calculated into the nursing foundational core needed 2.8 cumulative GPA.
  - State-specific verification of active certification of a nursing assistant must be on the completed application for admission into the nursing clinical core.
  - Prior to application to the nursing clinical core, applicants must successfully complete a pre-entrance examination (TEAS). The student must take the TEAS test at a NAU School of Nursing campus program location or arrange for an official transfer of the scores from ATI to the program of application. The TEAS provides a means to determine the potential for professional competency. The TEAS score will remain valid as entry criteria for six months. Applicants may retake the test if desired in an attempt to gain a higher score. Fourteen days is the time between re-test of TEAS as sitting is available.

The following must be submitted with the application (the cost of the following items is student's responsibility):

- Successful background check through an agency selected by National American University School of Nursing.
- Evidence of a physical exam (current within six (6) months of admission) completed and signed by a healthcare provider if applicable. Check with the respective program office.
- Evidence of up-to-date immunizations or evidence of serologic immunity as required by clinical agencies.
- Documentation of a negative TB skin test (taken within one year) or chest x-ray (taken with five (5) years) signed by a licensed professional.
- Documentation of current active CPR certification (American Heart Association for Healthcare Providers).
- Evidence of active health insurance (NAU student policy application is available at the student services desk).
- The ASN student applying to the clinical core should review and sign the functional abilities form. The signature implies the student can meet the physical needs to support the physical duties required of a nursing student.

* For a new start ASN clinical core, the application timeline may be modified.

In addition to meeting the NAU general admissions requirements, non-native English speaking students must pass the official Test of English as a Foreign Language (TOEFL) with a minimum score of 500 paper-based exam, 173 computer-based exam, or 61 for an Internet-based exam.

The general education transfer courses for the nursing foundational core must meet the same NAU admissions criteria.

All nursing prefix (NS) courses must be completed at NAU.

ASN Requirements

108 Credits

Offered at Denver and Zona Rosa campuses.

ORGANIZATIONAL LEADERSHIP

Today’s organizations need business professionals who are dynamic leaders and informed decision-makers in order to be successful in the competitive global economy. This degree program is designed for persons seeking to upgrade their leadership skills and advance in organizations. Graduates will have a distinct advantage in being able to combine core business knowledge with insight and skills gained from the added dimension of course work in organizational leadership. These courses prepare students to be better leaders, to initiate change, to solve problems, and to foster more innovative learning environments.

Students who have an interest in combining the knowledge and skills gained through the study of organizational leadership with those acquired in the field of human resource management should consider completing the human resource management emphasis core courses as open elective options.

Program Goals:

• Prepare learners to attain university core abilities and program learning outcomes by utilizing performance-based curriculum in a caring and supportive learning environment.
• Measure and assess student learning and implement improvements, as needed, to ensure high quality academic programs and services.
• Prepare learners to create plans for the pursuit of graduate studies and/or continuing professional development activities, membership in professional and community organizations, and a life of learning.
• Confirm that faculty members meet university qualifications guidelines, utilize effective and innovative teaching methods that promote academic excellence, and pursue opportunities for professional development.
• Monitor the needs of the program’s community of interest and maintain the currency and relevancy of program curriculum through regular faculty and advisory committee meetings and academic program reviews.
• Achieve and maintain specialized program accreditation.

Student Learning Outcomes

Graduates of the program will:

• Utilize leadership concepts and theories to attain organizational goals.
• Formulate management strategy to effect organizational change.
• Apply ethical decision making models to ethical dilemmas faced by individuals and organizations.
• Demonstrate effective collaboration and teamwork skills.

Organizational Leadership: Bachelor of Science Requirements

187 Credits

 offered at Albuquerque, Austin, Austin South, Centennial, Colorado Springs, Colorado Springs South, Denver, Ellsworth, Independence, Lee’s Summit, Lewisville, Mesquite, Rapid City, Rio Rancho, and Tulsa. This program is also offered through NAU’s distance learning program.

**Capstone Course - Senior level, minimum "C" grade required, must be completed at NAU.**

**Students residing in the state of Texas:**

## Block transfer is not available to these students.

**Residents of the state of Minnesota or students attending any Minnesota campus:**

are encouraged to complete some advanced or upper division general education course work.

## Block transfer is not available to these students.

**Graduation Requirements:** A minimum 2.0 GPA is required overall and in the Organizational Leadership Major Core. See the "Graduation Requirements" section of the catalog for additional requirements.

(The university reserves the right to correct clerical errors.)
VETERINARY TECHNOLOGY

Veterinary Technology: Associate of Applied Science Degree

This is an eight-quarter program with the last quarter consisting of an externship during which the student will work with a veterinarian in a veterinary office. The veterinary technology program is accredited by the American Veterinary Medical Association (AVMA). Students in this program are trained to assist veterinarians in all aspects of a veterinary practice including patient care, medication administration, surgical preparation, equipment maintenance, radiological procedures, laboratory procedures, public relations, and office procedures. Veterinary technicians do not diagnose, prescribe medications, or perform surgery. Upon graduation, the veterinary technician is qualified to take the National Veterinary Technician Exam and/or any other state exam required for registration, certification or licensure in that state.

The veterinary technology curriculum emphasizes laboratory and science courses such as clinical pathology, radiology, surgical assisting, and microbiology. These courses enable the technician to become a paraprofessional member of the veterinary medical team. Business and general education courses create a well-rounded education that can also be used in office management and front office work. This curriculum is not intended to prepare a student for admission to a school of veterinary medicine. The laboratory courses and externship program give the hands-on experience needed for development of skills for clinical situations. Students considering enrollment into this program are encouraged to concentrate on math and science in high school.

Recommended high school courses include algebra, biology, chemistry, and communication courses.

With the exception of biological concepts, general chemistry, and biochemistry, all science, animal science, and veterinary technology courses, including medical terminology, must be passed with a grade of "C" or above. All prerequisites for courses in the veterinary technology program must be passed with at least a "C" before the student is allowed to continue on to the next course.

Any student who fails to achieve a minimum of a "C" grade after the second attempt in a veterinary technology professional course will meet with an academic advisor to find a more suitable course of study.

Students enrolling in this program must possess hand/finger dexterity as well as the ability to restrain, handle, and/or lift large and small animals. Students entering the veterinary technology program must show proof of health insurance. If the student does not have current health insurance, he or she will be required to purchase coverage through the student health insurance program prior to the beginning of their first term.

Veterinary technicians may find positions working in research facilities, teaching institutions, zoos, animal parks, the military, veterinary clinics, feed, drug, and veterinary equipment companies, and the government. A career as a veterinary technician involves the excitement and challenge of veterinary medicine and the rewards of working with animals and their owners.

Admission Policy

All students applying for admission to the Veterinary Technology program, whose Academic Success Appraisal scores indicate the need for EN0500 English and MA0900 Foundations of Mathematics courses, will be placed in the Veterinary Assisting Diploma program. At the end of the first academic year (fall, winter, and spring terms), students may transfer to the Veterinary Technology program for the subsequent academic year if they have met the GPA requirements of the Veterinary Assisting program as follows:

• An overall GPA of 2.5 for the program.
• A "B" or higher grade in SC1180 Basic Animal Anatomy, AH2320 Basic Clinical Procedures, and AH1520 Introduction to Small Animal Nutrition.
• A "C" or higher grade in the remaining Veterinary Assisting core classes.

The grade criteria listed would apply to all students wanting to move from the Veterinary Assisting program to the Veterinary Technology program regardless of their placement scores.

Program Goals

The program will:

• Prepare learners to attain university core abilities and program learning outcomes by utilizing performance-based curriculum in a caring and supportive learning environment.
• Measure and assess student learning and implement improvements, as needed, to ensure high quality academic programs and services.
• Prepare learners to create plans for the pursuit of continuing studies and/or continuing professional development activities, membership in professional and community organizations, and a life of learning.
• Confirm that faculty members meet university qualifications guidelines, utilize effective and innovative teaching methods that promote academic excellence, and pursue opportunities for professional development.
• Monitor the needs of the program’s community of interest and maintain the currency and relevancy of program curriculum through regular faculty and advisory committee meetings and academic program reviews.
• Achieve and maintain specialized program accreditation.

Student Learning Outcomes

Graduates of the program will:

• Demonstrate knowledge of basic domestic animal anatomy and physiology.
• Apply the ethical guidelines governing the conduct of veterinarians and veterinary technicians.
• Demonstrate fundamental knowledge specific to the veterinary technology field.
• Perform a wide range of veterinary technology skills to assist veterinarians in all aspects of practice.

**Veterinary Technology: Associate of Applied Science Degree Requirements**

134.5 Credits

Offered at Rapid City.

The Veterinary Technology program is accredited by CVTEA, a subcommittee of AVMA.

**Animal Health Major Core**  
(16 of the following 44 credits must be earned at NAU.)

* Professional course (minimum "C" grade required and prerequisite minimum "C" grade required)

Graduation Requirements: A minimum 2.0 GPA is required overall and in the Veterinary Technology Major Core. See the "Graduation Requirements" section of the catalog for additional requirements.

(The university reserves the right to correct clerical errors.)

**Veterinary Assisting Diploma**

Veterinary assistants are becoming more important as valued members of the veterinary healthcare team in today’s modern practices.

This is a one-year program that prepares students to support veterinary technicians and veterinarians in a veterinary practice. Duties performed by veterinary assistants include animal restraint, preparing animals for surgery, care of surgical instruments and other equipment, care and feeding of in-patients, processing radiographs, and front office procedures. Veterinary assistants are not trained to give injections, take blood samples, perform laboratory procedures, administer anesthetics, monitor patients during anesthesia, or assist in surgery.

Students choosing to advance their career may become veterinary technicians by completing the veterinary technology program in an additional two years.
Program Goals
The program will:

- Prepare learners to attain program learning outcomes by utilizing performance-based curriculum in a caring and supportive learning environment.
- Measure and assess student learning and implement improvements, as needed, to ensure high quality academic programs and services.
- Prepare learners to create plans for the pursuit of continuing studies and/or continuing professional development activities, membership in professional and community organizations, and a life of learning.
- Confirm that faculty members meet university qualifications guidelines, utilize effective and innovative teaching methods that promote academic excellence, and pursue opportunities for professional development.
- Monitor the needs of the program’s community of interest and maintain the currency and relevancy of program curriculum through regular faculty and advisory committee meetings and academic program reviews.

Student Learning Outcomes
Graduates of the program will:

- Demonstrate knowledge of basic animal anatomy.
- Demonstrate fundamental knowledge specific to the veterinary assisting field.
- Perform the basic skills required to assist veterinarians and veterinary technicians in a clinical setting.

Graduation Requirements: A minimum 2.0 GPA is required overall and in the Veterinary Assisting Major Core. See the “Graduation Requirements” section of the catalog for additional requirements.

(The university reserves the right to correct clerical errors.)
AC1060 - Principles of Accounting I - 4.5 Credits
This course presents accounting principles and concepts applicable to receivables, plant assets and intangibles, liabilities, payroll, corporations and the Statement of Cash Flows. The students will also learn to analyze company performance using financial statements.
Prerequisite: AC1060
Delivery: on campus and online

AC1160 - Principles of Accounting II - 4.5 Credits
This course presents accounting principles and concepts applicable to receivables, plant assets and intangibles, liabilities, payroll, corporations and the Statement of Cash Flows. The students will also learn to analyze company performance using financial statements.
Prerequisite: AC1060
Delivery: on campus and online

AC1260 - Principles of Accounting III - 4.5 Credits
This course introduces students to the fundamental concepts of management accounting. The focus is on the accounting tools that managers will find useful in today's business environment. Topics include job order and process costing, activity-based costing, cost-volume-profit analysis, short term business decisions, capital investment and the time value of money, in addition to the master budget and flexible budgets.
Prerequisite: AC1160
Delivery: on campus and online

AC2050/CI2040 - Accounting Software Applications - 4.5 Credits
This course provides experience in establishing and using computer-based accounting systems for service and merchandising businesses.
Prerequisite: AC1160/CI1150
Delivery: on campus and online

AC2760 - Accounting for Managers - 4.5 Credits
This course is designed for the non-accounting major who needs a background in accounting from the viewpoint of management. The emphasis is on using accounting information to aid in managerial decision-making.
Delivery: on campus and online

AC3050 - Intermediate Accounting I - 4.5 Credits
An in-depth study of accounting concepts, principles and processes is presented. Concepts learned in the principles courses are reviewed with emphasis on contemporary accounting theory.
Prerequisite: AC1160
Delivery: on campus and online

AC3100 - Intermediate Accounting II - 4.5 Credits
This is a continuation of AC3050 with concentration on accounting for non-current assets, long-term liabilities, and stockholders' equity.
Prerequisite: AC3050
Delivery: on campus and online

AC3150 - Intermediate Accounting III - 4.5 Credits
Analytical techniques related to revenue recognition, interperiod tax allocation, pensions, leases, and accounting changes and errors are studied. Preparation of the statement of
Cash flows, basis financial statement analysis, and full disclosure are also emphasized.
Prerequisite: AC3100
Delivery: on campus and online

AC3200 - Cost Accounting - 4.5 Credits
This course presents accounting concepts and procedures applicable to an enterprise engaged in manufacturing. Variable costing and absorption costing methods are compared and contrasted. Cost allocation, joint products and by-products, process costing, spoilage, and other procedures, which assist management in the decision-making process are studied. Quality control, transfer pricing, and non-financial performance measures are also introduced.
Prerequisite: AC1260
Delivery: on campus and online

AC3300 - Advanced Cost Accounting - 4.5 Credits
This course is a continuation of the study of accounting concepts and procedures applicable to an enterprise engaged in manufacturing. Variable costing and absorption costing methods are compared and contrasted. Cost allocation, joint products and by-products, process costing, spoilage, and other procedures which assist management in the decision-making process are studied. Quality control, transfer pricing, and non-financial performance measures are also introduced.
Prerequisite: AC3200
Delivery: on campus and online

AC3400 - Federal Income Tax I - 4.5 Credits
This course is the first in a series that studies federal income tax law and its application to individuals, corporations, partnerships and other special considerations. After a brief review of the history of taxation in the U.S., the objective of the federal income tax law, and administration of the tax law, this course focuses on the individual taxpayer. Case problems involve preparation of the individual tax return and supporting schedules.
Prerequisite: AC1160
Delivery: on campus and online

AC3450 - Federal Income Tax II - 4.5 Credits
This course is a continuation of the study of federal income tax law. It focuses on the study of federal tax and its application to corporate taxpayers. The course explains the differences in corporate formations; analyzes the corporate tax formula; examines the effects of distributions, acquisitions, and reorganizations; and then focuses on partnership, gift and estate tax considerations. Case studies involve preparation of tax returns.
Prerequisite: AC3400/EN1300
Delivery: on campus and online

AC3560 - Accounting Information Systems - 4.5 Credits
This course focuses on accounting information systems and their control aspects, including administrative, operational, and security controls. Students will explore the information system's role in allowing business entities to maintain their financial accounting records.
Prerequisite: AC1260/CI1150
Delivery: on campus and online

AC4050 - Advanced Accounting I - 4.5 Credits
Students in Advanced Accounting I will study how businesses account for investments, consolidations and mergers. Students will work through business combinations using a variety of accounting methods to include the purchase method, the equity method, and the partial equity method. Special consideration will be given to intra-entity transactions that affect the consolidation process.
Prerequisite: AC3150
Delivery: on campus and online

AC4100 - Advanced Accounting II - 4.5 Credits
The requirements for segment reporting and interim reporting are taught. Foreign currency translations and accounting for transactions in foreign currencies are covered, including consolidating international subsidiaries. The efforts toward international accounting standard harmonization and the effects of the Securities and Exchange Commission on the accounting profession are discussed. The accounting for corporate liquidations and reorganizations is also explained.
Prerequisite: AC4050
Delivery: on campus and online

AC4140 - Advanced Accounting III - 4.5 Credits
This course develops the concepts and procedures for partnerships; including initial formation, admission of new partners, retirement partners and partnership liquidation. The accounting for state and local governments and for private not-for-profit organizations are explained. The requirements for estates and trusts are also covered.
Prerequisite: AC4100
Delivery: on campus and online

AC4200 - Auditing I - 4.5 Credits
This course is an introduction to a series of courses in auditing. It emphasizes the philosophy and environment of the auditing profession. Special attention is given to the nature and economic purpose of auditing, auditing standards, professional conduct, legal liability, audit evidence, audit planning, internal control considerations, audit sampling, audit working papers, and general records.
Prerequisite: AC4100
Delivery: on campus and online

AC4250 - Auditing II - 4.5 Credits
This course continues the study of the auditing profession. Particular attention is given to internal controls and obtaining evidence about the various financial statement accounts, the auditor’s reporting responsibilities, and other attestation and accounting services. The course concludes with a discussion of internal compliance and operational auditing.
Prerequisite: AC4200
Delivery: on campus and online

AC4290 - Accounting Case Analysis - 3 Credits
This course provides a broad review of the accounting curriculum with an emphasis on solving real world accounting problems in preparation for entry into the accounting profession. Students will integrate knowledge and skills obtained in accounting program coursework through case study analysis, critical thinking and problem solving.
Prerequisites: AC3150/AC3200/AC3450/AC4250
Delivery: on campus and online

AC4700-4740 - Accounting Internship - 4.5 Credits
The purpose of this internship is to give the student experience in applying what he or she has learned in the classroom by working in a business environment. The student's responsibility is agreed upon in advance by the student's advisor, the business entity and the student. Successful completion requires a written report by the student detailing the experience gained during the internship and successful completion of the projects assigned by the business supervisor(s). The student receives either a "pass" or "fail" grade.
Prerequisite: Advisor approval with senior status
Delivery: on campus

AC1900-4990 - Special Topics in Accounting - 1-4.5 Credits
Topics will vary depending on the interests of the instructor and students.
Prerequisite: Permission of the Academic Dean
Delivery: on campus

ANIMAL HEALTH (AH)

AH1150 - Animal Technology Topics - 4 Credits
This lecture and lab course introduces the student to the profession of veterinary medicine and the care and handling of small animals. Veterinary ethics, technician duties, and job opportunities will be covered as well as basic care of dogs and cats.
Delivery: on campus

AH1160 - Principles of Animal Care - 0 Credits

AH1170 - Principles of Animal Care - 0 Credits

AH1180 - Principles of Animal Care - 1 Credit
The intent of this course is to provide the student with a background in basic small animal care and sanitation. In addition, animal observation and handling are covered.
Delivery: on campus

AH1500 - Introduction To Exotic Animals - 1 Credit
This course is an introduction to exotic animals. Topics covered include information on pot-bellied pigs, birds, reptiles, ferrets, llamas and ratites. Additional subjects may be discussed if time permits.
Delivery: on campus

AH1520 - Introduction to Small Animal Nutrition - 1 Credit
The intent of this course is to introduce the student to basic nutrition of dogs and cats. Diets for various life stages as well as prescription diets will be covered.
Delivery: on campus

AH1800 - Clinical Experience - 1 Credit
This course is designed to familiarize the student with the everyday operations of a veterinary practice.
Prerequisite: AH1150
Delivery: on campus

AH2200 - Introduction to Equine Husbandry - 2 Credits
This course is designed to give students the opportunity to observe and participate in activities involved in the management of an equine operation.
Delivery: on campus

AH2230 - Animal Restraint I - 1 Credit
An introduction to the principles of restraint with emphasis on large animal restraint techniques.
Delivery: on campus

AH2240 - Animal Restraint II - 1 Credit
This course is a review of restraint of all species and an introduction to clinical applications. Large animals are emphasized.
Prerequisite: AH2230
Delivery: on campus

AH2300 - Clinical Pathology I - 2 Credits
This is a study of clinical diagnosis of animal diseases by the examination of body fluids. The course lecture deals with hematology and urinalysis.
Prerequisites: SC1240/SC1354
Delivery: on campus

AH2310 - Clinical Pathology I Lab - 2 Credits
This course emphasizes laboratory exercises using techniques learned in Clinical Pathology I.
Prerequisite: SC1354
Delivery: on campus

AH2320 - Basic Clinical Procedures - 3 Credits
The course is designed to cover basic pharmacy, laboratory, and radiological techniques. The student will learn to assist the veterinary technician in dispensing medications, setting up lab tests, and processing radiographs.
Delivery: on campus

AH2330 - Bovine Reproductive Management - 1 Credit
This course is designed to acquaint veterinary technicians with common problems in cattle reproduction, obstetrics, and neonatal care, and their prevention or treatment. Semen collection and handling will also be covered.
Prerequisite: Instructor approval
Delivery: on campus

AH2350 - Bovine Reproductive Management - 1 Credit
This course is designed to acquaint veterinary technicians with common problems in cattle reproduction, obstetrics, and neonatal care, and their prevention or treatment. Semen collection and handling will also be covered.
Prerequisite: Instructor approval
Delivery: on campus

AH2380 - Surgical Preparation - 3 Credits
The course is designed to train students to assist veterinary technicians in preparing patients for surgery by clipping and performing the surgical scrub. Instrument identification and care, preparation of surgical packs, and monitoring patients after surgery is included.
Delivery: on campus

AH2400 - Clinical Pathology II - 2 Credits
This course is a continuation of the study of clinical diagnosis of animal diseases. The course lecture deals with clinical chemistry, cytology, semen analysis, and serology.
Prerequisite: AH2300
Delivery: on campus
AH2410 - Clinical Pathology II Lab - 2 Credits
This course provides instruction in laboratory testing using body fluids to aid in diagnosis of animal diseases.
Prerequisite: AH2310
Delivery: on campus

AH2450 - Acupressure for Animals - 4 Credits
This course is designed to familiarize the student with various alternative healthcare modalities and to provide hands-on experience with acupressure techniques.
Delivery: on campus

AH2500 - Laboratory Animal Science - 1 Credit
This course is an introduction to laboratory animal science and technology. The student will learn breeds of laboratory animals including mice, rats, guinea pigs, hamsters, gerbils, rabbits, and primates. Animal husbandry such as care, handling, reproduction, and disease processes will be stressed. The student will also be exposed to legal requirements, anesthesia, and common laboratory animal procedures.
Prerequisite: AH1150/SC1240 or SC1180
Delivery: on campus

AH2700 - Veterinary Office and Hospital Management - 4 Credits
This course deals with the successful personnel and financial management of a veterinary practice. Topics such as front-office procedures, bookkeeping, and inventory will be covered.
Prerequisite: AH1150
Delivery: on campus

AH2750 - Principals of Avian Care - 2 Credits
This course is an introduction to avian care. Topics covered include avian identification, avian behavior, proper handling and restraint techniques, basic nutrition and husbandry, avian diseases, common laboratory procedures, and basic treatment techniques.
Prerequisite: AH1500
Delivery: on campus

AH3000 - Small Animal Dentistry - 2 Credits
This course is intended to introduce the student to basic dental care of companion animals. Oral anatomy, dental prophylaxis including teeth cleaning and polishing, dental wellness, and home care will be covered.
Delivery: on campus

AH3100 - Companion Animal Loss and Client Bereavement - 2 Credits
This course explores the human-companion animal bond and its effect on bereavement and the grief process. Also included are the effects of pet loss on the veterinary staff and management techniques used to help staff cope with these effects.
Delivery: on campus

AH3150 - Animal Clinic - 4 Credits
Basic principles relating to domestic animals, humane care, caging, housing, nutrition, and husbandry practices will be covered. The student will also become familiar with tasks related to handling, care, treatment, and usage of animals in a clinical situation or production unit.
Prerequisite: Instructor approval/EN1300
Delivery: on campus

AH3200 - Radiological Procedures - 3 Credits
This course explores the principles of radiology and radiological safety. Instruction in radiological techniques such as patient positioning, technique chart preparation, film exposure, and film processing are emphasized.
Prerequisite: SC1320
Delivery: on campus

AH3350 - Anesthesia for Veterinary Technicians - 2 Credits
This course is designed to prepare veterinary technician students for AH3400, Anesthesiology and Surgical Procedures. Principles of veterinary anesthesia will be covered. Patient preparation, pre-anesthetic protocols, general anesthesia and recovery, anesthetic equipment, and pain management will be included.
Prerequisite: Instructor approval
Delivery: on campus

AH3400 - Anesthesiology and Surgical Procedures - 4 Credits
This is a course designed to acquaint veterinary technicians with normal surgery room procedures, instrumentation, anesthesia, and monitoring.
Prerequisite: Instructor approval
Delivery: on campus

AH3700-3720 - Veterinary Technician Practicum (Externship) - 8-12 Credits
The student receives actual experience with selected veterinary clinics, hospitals, and animal care facilities where work is performed under direct supervision of practicing veterinarians.
Prerequisite: Program Director approval/EN1300
Delivery: on campus

AH1900-3990 - Special Topics in Animal Health - 1-4.5 Credits
Topics will vary depending on the interests of the instructor and students.
Prerequisite: Permission of the Academic Dean
Delivery: on campus

ANIMAL SCIENCE (AS)

AS1250 - Introduction to Animal Science - 4 Credits
This course is an introduction to the husbandry of cattle, sheep, horses, swine and poultry, including breed identification, selection and breeding, animal products, basic management techniques, and practical nutrition. The student will become familiar with the terminology used in the livestock industry, thus preparing for future employment or further study. A laboratory consisting of basic livestock handling techniques, physical examination, and restraint of large animals is included. In addition, field trips to local farms, ranches, and other livestock facilities will be arranged.
Delivery: on campus
AS2070 - Horse Production - 4 Credits
This course is an introduction to the husbandry of horses, including breed identification, selection and breeding, basic management techniques, and nutrition.
Prerequisite: SC1240/SC1180
Delivery: on campus

AS2350 - Animal Diseases and Prevention I - 4 Credits
Concepts of disease control, prevention, and treatment are studied in this course. In addition, specific diseases of small domestic animals are discussed.
Prerequisite: AS1250/SC1320/EN1300
Delivery: on campus

AS2360 - Animal Diseases and Prevention II - 1 Credit
This course is a continuation of Animal Diseases and Prevention I. Diseases of large animal species including horses, cattle, sheep, and swine will be covered.
Prerequisite: AS2350
Delivery: on campus

AS2500 - Animal Reproduction - 4 Credits
This course is a review of functional anatomy of reproduction followed by detailed studies of the physiology of reproduction including endocrinology, reproductive life cycles, mammalian semen, gestation, prenatal physiology and parturition, reproductive failure, and techniques for improving reproductive efficiency.
Prerequisite: AS1250/SC1320
Delivery: on campus

AS2600 - Applied Animal Nutrition - 4 Credits
This course is an introduction to the basic principles of nutrition and feeding applicable to dogs, cats, horses, and cattle.
Delivery: on campus

AS1900-3990 - Special Topics in Animal Science - 1-4.5 Credits
Topics will vary depending on the interests of the instructor and students.
Prerequisite: Permission of the Academic Dean
Delivery: on campus

INFORMATION TECHNOLOGY (CI)

CI1150 - Introduction to CIS - 4.5 Credits
This course provides the student with the necessary background for further study of information systems. Students gain a beginning understanding of computer hardware and software and how computer based operations are used to produce meaningful information. Students are exposed to security and ethical use topics based in the current technology including the Internet. Students develop practical examples of documents, workbooks, presentations, and electronic mail within Internet base mailing systems suitable for personal and professional purposes.
Delivery: on campus and online

CI1230 - Spreadsheets For Windows - 4.5 Credits
Spreadsheets for Windows is a course that teaches students what a spreadsheet is and how it is used in business. Topics covered in the course include creating, editing and formatting worksheets and charts, integrating worksheet data with various programs, working with multiple worksheets, and importing data. This course will help the student prepare for the Microsoft Office 2003 Excel Expert MOS Exam.
Prerequisite: CI1150
Delivery: on campus and online

CI1420 - Principles of Programming - 4.5 Credits
Principles of Programming is designed to be a first course in computer programming. Students will learn how to design and write programs that will be error-free, reliable and easy to modify and maintain. After completing the course, students will have a firm foundation in the concepts and techniques of structured program analysis and design, and will be able to use this knowledge to solve a wide variety of business problems.
Prerequisite: Algebra elective/CI1150 or placement
Delivery: on campus and online

CI2011 - Introduction to Database - 4.5 Credits
Students learn database design and Structured Query Language (SQL) commands to create databases and database objects, insert, update, delete and retrieve data. Techniques to develop logical database models are provided. The process to convert this logical database model into a physical database model and into an implementation model is determined.
Prerequisite: CI1150 and placement recommendation
Delivery: on campus and online

CI2020 - Visual Basic - 4.5 Credits
This course provides support for student learning related to Microsoft Visual Basic.NET. Students are introduced to the Visual Studio.NET Integrated Development Environment (IDE) used to create VB.net applications. Prior procedural programming methods are enhanced by developing object-oriented procedures to gather information from users, perform internal processing needed to apply application logic and then return a result to a form. Discussion topics include memory allocation methods, if else logic structures for decision making, for next and do until looping structures, segmenting logic with sub procedures and functions, and use of multiple forms to support application requirements.
Prerequisite: CI1420
Delivery: on campus and online

CI2040/AC2050 - Accounting Software Applications - 4.5 Credits
See AC2050

CI2080 - Multimedia Presentations - 2 Credits
Multimedia Presentations addresses a variety of communication media from plain text to pictures, audio, sound, and their presentation. Students will utilize current technology and equipment to present business topics in a professional manner.
Prerequisite: CI1150 recommended
Delivery: on campus
CI2120D - Fundamentals of Server 2008 Network and Active Directory - 4.5 Credits
This course introduces the student to network infrastructure concepts and the configurations provided by Windows Server 2008, Active Directory server roles, and the components of Active Directory domain services. Students will learn how to manage access to shared resources.
Prerequisite: CI2430 and CI2211
Delivery: online

CI2180 - Veterinary Software Applications - 2 Credits
This course is designed to provide hands-on experience in veterinary software applications.
Prerequisite: CI1150 or dean/academic advisor approval
Delivery: on campus

CI2211 - Internetworking Fundamentals - 4.5 Credits
Students will develop a foundation in current networking technologies including, local area networks (LANs), wide area networks (WANs), the Internet, and the hardware and software associated with networking. This also includes: terminology, components, design and connectivity, as well as, LAN topologies, protocols, and wireless networks. This course also covers LAN user concepts, basic functions of system administration and operation, and basic concepts involved in establishing a small, routed computer network.
Prerequisite: CI1150 or placement recommendation
Delivery: on campus and online

CI2370 - Web Design and Programming - 4.5 Credits
This course develops basic competency in the HTML, XHTML and JavaScript programming concepts. This course will start out with an explanation of HTML and then guides the student into learning how to create web pages that actually respond to and interact with the web browser through JavaScript. They will learn how to write not only JavaScript that can stand on its own within a web page, but also how to write scripts that call functions or otherwise interact with applications written in other development languages.
Prerequisite: CI1150
Delivery: on campus and online

CI2430 - Computer Concepts - 4.5 Credits
This course is designed to provide students with foundations in PC hardware and software concepts. Topics include basic hardware and software installation, configuration, and troubleshooting for standalone and networked PCs. Successful completion of this course helps prepare students to support personal computers.
Prerequisite: CI1150 or placement
Delivery: on campus and online

CI2440 - Introduction to Computer Security - 4.5 Credits
The purpose of the course is to provide the student with an overview of the field of Information Security and Assurance. Students will be exposed to the spectrum of security activities, methods, methodologies, and procedures. Coverage will include inspection and protection of information assets, detection of and reaction to threats to information assets, and examination of pre- and post-incident procedures, technical and managerial responses, and an overview of the Information Security Planning and Staffing functions. This course provides the foundation for understanding the key issues associated with protecting information assets, determining the levels of protection and response to security incidents, and designing a consistent, reasonable information security system, with appropriate intrusion detection and reporting features.
Prerequisite: CI1150 or Placement
Delivery: on campus and online

CI3010 - Linux - 4.5 Credits
This course is a study of the Linux operating system from the perspective of a system power user and administrator. Responsibilities for successful administration, installation, and implementation of a typical Linux distribution are covered. Topics covered in the class include desktop environments, user accounts and security, resource and application management, network administration, and virtualization concepts and scenarios.
Prerequisite: CI2430
Delivery: on campus and online

CI3020 - Intermediate Visual Basic - 4.5 Credits
The student is introduced to programming in the Windows environment using Visual Basic.Net as a tool. Students will write business applications to illustrate the features of the language. Students will cover the Windows environment, events, objects, properties, methods, program design, logic design, data arrays, control arrays, data manipulation, subroutines, input/output, and data structures.
Prerequisite: CI2020/CI3091
Delivery: on campus and online

CI3091 - Database Design and Management - 4.5 Credits
Students learn advanced concepts of database design, access, and management including installation of a Relational Database Management System. Views, partitions, advanced queries, functions, stored procedures, transaction processing, data integrity techniques, and advanced modeling and design concepts are introduced.
Prerequisite: CI2011
Delivery: on campus and online

CI3155 - Computer Ethics - 4.5 Credits
Students will be exposed to extensive and topical coverage of computer and technology-related ethics issues such as file sharing, infringement of intellectual property, security risks, Internet crime, identity theft, employee surveillance, privacy, and compliance. Students will gain an excellent foundation in ethical decision-making for current and future business managers and IT professionals.
Prerequisite: CI1150 or placement recommendation/EN1300
Delivery: on campus and online

CI3310 - Web Site and Web Application Design - 4.5 Credits
In this course, students learn to design, create and publish web pages using an industry standard WYSIWYG tool. Web application designs will incorporate graphics, tables, forms, database, and multimedia that function not only as visual elements, but also as navigational and informational elements within the site.
Prerequisite: CI1150 or placement and EN1300
Delivery: on campus and online

CI3380 - Client Side Scripting and Open Communication - 4.5 Credits
In this course, students will continue to develop a deeper understanding of HTML, DHTML, XHTML, and JavaScript. Students will also develop an understanding and appreciation of the constant evolution in web page development by making use of the technologies that are currently a part of this evolution.
Prerequisite: CI2370
Delivery: on campus and online

CI3520 - Programming in C++ - 4.5 Credits
The student is introduced to programming fundamentals using C++, a powerful, highly efficient programming language that is the modern choice for creating system software. Students will write both business applications and systems programs to illustrate features of the language. Students will learn C/C++ data types, control structures, writing and using functions, arrays and subscript handling, pointers, string manipulation, and beginning Object Oriented (OO) concepts of class design and operator overloading.
Prerequisite: CI1420
Delivery: on campus

CI3675 - Microsoft Windows 7 - 4.5 Credits
This course is to provide individuals with the knowledge necessary to understand and identify the tasks involved in deploying Windows 7 in a business. This course will help the students prepare for the following Microsoft Certified Professional exams: Exam 70-680 TS: Windows 7 configuring.
Prerequisite: CI2430 and CI2211
Delivery: on campus and online

CI3680 - Java Programming - 4.5 Credits
In this course, students are introduced to the Java programming language. While originally known as a tool to develop applets for World Wide Web pages, it can be used as a general purpose programming language suitable for building a variety of applications. Java is an object-oriented language much like C++, designed for maximum portability, and incorporates desirable features like automatic storage management, exception handling, and integrated support for multithreading.
Prerequisite: CI1420
Delivery: on campus

CI3710 - Internet Security - 4.5 Credits
This course introduces students to the technologies, terms, and processes related to Internet security. Students will examine concepts and techniques related to general security, network security, operating system security, and methods for testing security.
Prerequisite: CI2211 and CI2440
Delivery: on campus and online

CI3715 - Cybercrime and Information Systems - 4.5 Credits
Students will be introduced to fundamental principles in the field of cybercrime and will be exposed to a variety of computer related crime, cybercrime activities, methods, tools, and social and legal issues. Coverage will include review and investigation of actual cybercrime incidents, and examination of pre- and post- incident procedures.
Prerequisite: CI2440
Delivery: on campus and online

CI3720 - Computer Forensics - 4.5 Credits
This course introduces students to the techniques and tools of computer forensics investigations. Students will receive step-by-step explanations on how to use the most popular forensic tools. The course maps to the objectives of the International Association of Computer Investigative Specialists (IACIS) certification to provide credible, standards-based information.
Prerequisite: CI3725
Delivery: on campus and online

CI3725 - Network Security - 4.5 Credits
This course introduces the student to intrusion detection techniques used to discover intrusion attempts, respond to break-ins, and assess the damage of network attacks. Topics addressed include intrusion detection design and implementation, firewall design and implementation, virtual private networks, packet filters, and network traffic signatures.
Prerequisite: CI3710
Delivery: on campus and online

CI4020 - Advanced Visual Basic - 4.5 Credits
This course continues with more advanced features of Visual Basic. Topics include: ADO.NET Programming, data sources and dataset for Rapid Application Development, Multi-tiered Windows Forms application, ADO.Net with web applications, and Advanced database programming. Students will learn to use Visual Basic and ADO.NET in building data driven applications.
Prerequisite: CI3020
Delivery: on campus and online

CI4116D - Windows Server 2008 Hyper-V and Clustering - 4.5 Credits
This course provides students with the skills and knowledge necessary to implement and manage Windows Server 2008 Hyper-V and Clustering. The use of Solution Center Virtual Machine Manager and PowerShell are covered.
Prerequisite: CI4118
Delivery: online

CI4118 - Network Infrastructure Configuration - Server 2008 - 4.5 Credits
This course provides students with the skills and knowledge necessary to configure a Windows-based computer to operate in a Microsoft Windows Server 2008 networking infrastructure. It will provide students with the knowledge and skills to implement and manage a Microsoft Windows Server 2008 network infrastructure. These tasks include implementing routing; implementing and managing Dynamic Host Configuration Protocol (DHCP), Domain Name System (DNS); Windows Internet Name Service (WINS); securing
Internet Protocol (IP) traffic with Internet Protocol security (IPSec); configuring a network access infrastructure by configuring the connections for remote access clients, and managing and monitoring network access. This course will help the student prepare for the following MCITP exam: 70-642 Window Server 2008 Network Infrastructure Configuration.

Prerequisite: CI2211

Delivery: on campus and online

Cl4128D - Active Directory Domain Services Configuration - Server 2008 - 4.5 Credits

This course provides students with the knowledge and skills needed to configure Active Directory Domain Services in a distributed environment, implement Group Policies, perform backup and restore, and monitor and troubleshoot Active Directory related issues. This course will help the student prepare for the following MCITP exam: 70-640 Configuring Windows Server 2008 Active Directory.

Prerequisite: CI4118

Delivery: online

Cl4138 - Active Directory Configuration - Server 2008 - 4.5 Credits

Students will develop the knowledge and skills needed to configure Active Directory Domain Services in a distributed environment, implement Group Policies, Certificate services, and Lightweight Directory services, perform backup and restore, and monitor and troubleshoot Active Directory related issues. This course will help the student prepare for the following MCITP exam: 70-640 Configuring Windows Server 2008 Active Directory.

Prerequisite: CI4118

Delivery: on campus and online

Cl4148 - Administering Windows Server 2008 - 4.5 Credits

This course provides students with the knowledge and skills to plan, manage, and maintain Windows Server 2008 servers. Windows server administration tasks include managing the infrastructure, Web, and IT application servers as well as managing the server operating system, file, and directory services, software distribution, and troubleshooting. This course will help the student prepare for the following MCITP exam: 70-646 Window Server 2008 Server Administration.

Prerequisite: CI4138

Delivery: on campus and online

Cl4149D - Managing Windows Server 2008 - 4.5 Credits

This course provides students with the skills and knowledge necessary to configure identity and access solutions with Windows Server 2008 Active Directory and to plan Windows Server 2008 deployments and administration. This course helps prepare students for Microsoft certification exams 70-640 TS Windows Server 2008 Active Directory and 70-646 Pro: Windows Server 2008 Server Administrator.

Prerequisite: CI4128D

Delivery: online

Cl4158 - Application Infrastructure Configuration - Server 2008 - 4.5 Credits

This course will provide students with the knowledge and skills needed to install, configure, maintain, and troubleshoot an Internet Information Services (IIS) 7.0 Web Server and to configure, manage, monitor, and troubleshoot a Terminal Services (TS) environment. This course will help the student prepare for the following MCITP exam: 70-643 Configuring Window Server 2008 Applications Infrastructure.

Prerequisite: CI4118

Delivery: online

Cl4168 - Enterprise Administration Server 2008 - 4.5 Credits

Students will gain the knowledge and skills required to design network and application infrastructure solutions based on Windows Server 2008 that will meet varying business and technical requirements. This course will help the student prepare for the following MCITP exam: 70-647 Window Server 2008 Enterprise Administrator.

Prerequisite: CI4138 and CI4158

Delivery: online

Cl4220/MT4230 - Project Management - 4.5 Credits

This course focuses on the essentials of effective project management, the activities by which individuals strive to achieve a specific objective through deliberate methodical planning using particular interrelated tasks, and effective uses of various resources. The three phases of the project are studied: identification of the need or problem, development of the proposed solution, and implementation of the solution. Students will utilize current technology and equipment.

Prerequisite: CI1150 or placement recommendation /MT2050 or HT2240D

Delivery: on campus and online

Cl4221 - Systems Analysis and Design - 4.5 Credits

This course covers the full process of information systems development. Students will learn the concepts, skills, methodologies, techniques, and tools necessary for a systems analyst to successfully develop information systems. It includes the development of systems "blueprints" guided by the use of a Systems Development Life Cycle used for systems implementation. Topics of discussion include: in-house software development, programming languages and tools used to test software. The student will also learn techniques that will allow them to develop projects in a team environment.

Prerequisite: CI4220 and Junior Status

Delivery: on campus and online

Cl4222 - Integrative Systems Project - 4.5 Credits

Students demonstrate the ability to integrate knowledge accumulated in prior course work from their discipline and develop new knowledge to produce a capstone product. Students apply their cumulative knowledge to produce a project management handbook in a multiple discipline environment as members of a project team. Specific outcomes are expected for analysis, evaluation, and implementation processes for developing improvements during a case or live project. Formal written communications and/or multimedia presentations are provided to the stakeholders at scheduled milestones.
Prerequisite: CI4292 and Senior status
Delivery: on campus and online

CI4230 - Server-Side Scripting - 4.5 Credits
This course explores the server-side programming tasks needed to develop dynamic web sites. The student will learn to design and implement the server-side components to create web pages from databases based on user input. Students examine methods associated with building ASP.NET applications using Visual Studio.NET, Microsoft Internet Information Server (IIS) and Microsoft SQL Server.
Prerequisite: CI1420/CI2020/CI3090/CI3380
Delivery: on campus and online

CI4291 - Interconnecting Cisco Network Devices I - 4.5 Credits
This course provides instruction in the fundamentals of network environments, the basics of router operations, and basic router configuration. This course is designed to provide the skills and knowledge necessary to install, operate, and troubleshoot a network using Cisco routers and switches.
Prerequisite: CI2211/CI2430
Delivery: on campus and online

CI4292 - Interconnecting Cisco Network Devices II - 4.5 Credits
Provides continued instruction in Cisco-based networking technologies. Topics include advanced routing protocols, wireless networking, virtual networks, and security. This course is designed to provide the skills and knowledge necessary to configure and securing an advanced network, including WAN technologies with NAT, wireless networking, and IPv6.
Prerequisite: CI4291
Delivery: on campus and online

CI4293D - Interconnecting Cisco IP Routing - 4.5 Credits
This course is designed to provide students with the knowledge required to use advanced routing to accommodate scalability in Cisco routers connected to LANs and WANs in medium to large networks. This course helps to prepare the student for Cisco certification exam 642-902.
Prerequisite: CI4292
Delivery: online

CI4294D - Implementing Cisco Switched Networks - 4.5 Credits
This course is designed to help students prepare to plan, configure, and verify the implementation of complex enterprise switching solutions using the Cisco Enterprise Campus Architecture. This course helps to prepare the student for Cisco certification exam 642-813.
Prerequisite: CI4293D
Delivery: online

CI4295D - Troubleshooting and Maintaining Cisco IP Networks - 4.5 Credits
This course is designed to prepare students troubleshoot and maintain switching based and routing based solutions. Procedural and organizational aspects of the troubleshooting and maintenance process are covered. This course helps to prepare the student for Cisco certification exam 642-832.
Prerequisite: CI4294D
Delivery: online

CI4296D - Implementing Cisco IOS Network Security - 4.5 Credits
The focus of this class is on comprehensive security policies. Students perform tasks to secure the network 148 using Cisco IOS security features, web-based GUIs, and the command-line interface on Cisco routers and switches.
Prerequisite: CI4292
Delivery: online

CI4710 - Forensic Methods - 4.5 Credits
This course provides students with a practical hands-on approach to solving problems often encountered in computer forensics investigations. Several case studies provide students with detailed data for analysis.
Prerequisite: CI3720
Delivery: on campus and online

CI4800-4840 - Information Technology Internship - 4.5-13.5 Credits
The purpose of this internship is to give the student experience in applying what he or she has learned in the classroom by working in a business environment. The student's responsibility is agreed upon in advance by the student's advisor, the business entity, and the student. Successful completion requires a written report by the student detailing the experience gained during the internship and successful completion of the projects assigned by the business supervisor(s). The student receives either a "pass" or "fail" grade.
Prerequisite: Dean/academic advisor approval with senior status
Delivery: on campus

CI4910 - Research Topics in Systems Analysis - 1 Credit
This course is a supplement to CI4221- Systems Analysis and Design. It provides students with the opportunity to research and analyze literature and issues relative to the primary course, and demonstrate additional comprehension of the topic.
Prerequisite: Must be taken in conjunction with CI4221
Delivery: on campus

CI1900 - Special Topics in Information Technology - 1-4.5 Credits
Topics will vary depending on the interests of the instructor and students.
Prerequisite: Permission of the Academic Dean
Delivery: on-campus

CRIMINAL JUSTICE (CJ)

CI1000 - Introduction to Criminal Justice - 4.5 Credits
This course provides an overview of the criminal justice system, explaining the system structure of criminal justice and the specific functions of policing, courts, and corrections. Major topics in policing, courts, and corrections are introduced.
Course Descriptions

CJ1200 - Report Writing in Criminal Justice - 4.5 Credits
This course will introduce the student to the specific writing skills needed to write effective reports in criminal justice applications. Writing style, grammar, and technical writing skills will be introduced and developed, along with increasing understanding of the functions and purposes of the various reports within criminal justice agencies. Prerequisite: EN0500/ES2030 or placement recommendation.
Delivery: on campus and online

CJ1500 - Criminological Theory - 4.5 Credits
This course presents the historical development of the major theoretical schools of criminological explanations for crime and criminal behavior. The major assumptions, policies, and critiques of the classical and positivist theory schools are presented. New evolutions in crime and criminological theories are discussed. Prerequisite: CJ1000.
Delivery: on campus and online

CJ2100 - Criminal Law - 4.5 Credits
This course presents substantive criminal law which includes definitions of law, definitions of crime, general principles of criminal responsibility, elements of the major crimes, punishments, conditions or circumstances which may excuse individuals from criminal responsibility or mitigate punishment, the court system of the United States, and the basic concepts of criminal law. Prerequisite: CJ1500.
Delivery: on campus and online

CJ2150 - Professionalism and Ethics in Criminal Justice - 4.5 Credits
This course introduces the practice of professional behavior and decision making for criminal justice practitioners. The major decision-making tools for dealing with the potential for coercion, the misuse of authority in criminal justice work, and managing temptation are presented. Prerequisite: CJ1500.
Delivery: on campus and online

CJ2200 - Policing in U.S. Society - 4.5 Credits
This course presents the philosophy and history of law enforcement, the Constitutional controls imposed on law enforcement, the agencies and organizations of law enforcement, and the role and function of law enforcement in the criminal justice process. Prerequisite: CJ2150.
Delivery: on campus and online

CJ2230 - Diversity and Criminal Justice - 4.5 Credits
This course will acquaint students with the various cultural, ethnic, and racial groups that criminal justice practitioners encounter on a daily basis. Students will also examine the relationship and interactions of each group with the criminal justice system. Prerequisite: CJ2200.
Delivery: on campus and online

CJ2250 - Introduction to Forensics - 4.5 Credits
This course will introduce the student to the concepts, applications, and technologies involved in forensic science. Topics such as fingerprint analysis, ballistics, and DNA will be covered, as well as emerging technologies to law enforcement and criminal justice. Prerequisite: CJ2200.
Delivery: on campus and online

CJ2300 - U.S. Courts - 4.5 Credits
This course provides an overview of the court process from an organizational perspective. The roles of the prosecutor, judge, and defense attorney are presented from the concept of the courtroom workgroup dynamic and how court activity is conducted by the workgroup. Various courtroom dynamic theories are presented with emphasis on court workload processing and plea bargaining. Prerequisite: CJ1500/EN1300.
Delivery: on campus and online

CJ2400 - U.S. Corrections - 4.5 Credits
This course provides an overview of community and institutional corrections in the United States with an analysis and evaluation of contemporary correctional systems, and discussion of recent research concerning institutional correctional issues and the issues facing community corrections. Prerequisite: CJ1500.
Delivery: on campus and online

CJ2700 - Cybercrime in Criminal Justice - 4.5 Credits
This course will examine the history of cyber crime and the techniques and strategies for investigating computer crime. Emphasis will be placed on the identification of cyber crime activity and applying the concepts, theories and laws of computer crime to the conduct of investigations. Prerequisite: CI1150 or placement recommendation and CJ2200.
Delivery: on campus and online

CJ3000 - Victimology - 4.5 Credits
This course presents a survey of the literature, research, and current trends concerning the victim of crime with emphasis placed on victim rights and compensation in the criminal justice process, the extent of victimization, and the impact of victimization on the individual. Prerequisite: CJ2100.
Delivery: on campus and online

CJ3100 - Criminal Investigation - 4.5 Credits
This course provides an explanation of scientific crime detection and the techniques for case management and documentation, the concept of proof, and the impact of evolving technology on the investigative process. Prerequisite: CJ2100.
Delivery: on campus and online

CJ3200 - Police Issues and Practices - 4.5 Credits
This course discusses contemporary issues in policing from a systems perspective. The practice of policing in a complex environment creates consequences for the community and the
criminal justice system that must be addressed with analytical and appropriate solutions. Emphasis in this course is placed on those issues and the continuous evolving efforts to address the problems facing law enforcement.

**Prerequisite: CJ2200**

**Delivery:** on campus and online

**CJ3300 - Juvenile Justice and Delinquency - 4.5 Credits**

This course presents the nature and extent of juvenile delinquency, the theories of juvenile offending and rehabilitation, an overview of the juvenile justice system, and how it differs from the adult system, the history and unique philosophy of the juvenile court, juvenile court practices and procedures, and the relationship between juvenile offenders and policing and corrections.

**Prerequisite: CJ2100**

**Delivery:** on campus and online

**CJ3400 - Constitutional Law - 4.5 Credits**

This course will examine the basics of Constitutional Law from its birth to current applications. The history of the Constitution will be discussed, as well as the two major applications of Constitutional Law: governmental powers and individual liberties. The student will be introduced to a variety of legal terms, as well as become familiar with major cases that affect the criminal justice practitioner today.

**Prerequisite: CJ2100 and EN1300**

**Delivery:** on campus and online

**CJ3400 - Drugs and Alcohol in Criminal Justice - 4.5 Credits**

This course presents an overview of the description, classification, and analysis of the extent of the drug problem and the role of drugs in criminal behavior, as well as an overview of the most serious drug abuse problem, alcohol abuse, with an emphasis on the physiological and social aspects of alcohol use and abuse, social control measures and its role in criminal behavior.

**Prerequisite: CJ2100**

**Delivery:** on campus and online

**CJ4500 - Homeland Security and Terrorism - 4.5 Credits**

This course presents the various forms of terrorism and the explanations for terrorism from a theoretical and sociological perspective to be able to explain the causes of past, current, and new forms of terrorist behavior. Operational responses to terrorism are discussed, with special emphasis on the role of Homeland Security.

**Prerequisite: CJ2100/EN1300**

**Delivery:** on campus and online

**CJ4600 - Criminal Justice Administration - 4.5 Credits**

This course provides an overview of the principles and practices of administration and their applications to policing, courts, and corrections with an emphasis on the application of theoretical administrative concepts to practical criminal justice problems.

**Prerequisite: CJ2100/EN1300**

**Delivery:** on campus and online

**CJ4700 - Applied Research Methods - 4.5 Credits**

This course introduces the criminal justice student to the applied research activities of the criminal justice professional, including how to interpret criminal justice research, how to evaluate a criminal justice policy or program, and how to design an applied study for a criminal justice organization and for grant program evaluation.

**Prerequisite: CJ2100/EN1300**

**Delivery:** on campus and online

**CJ4800-4820 - Criminal Justice Internship - 4.5-13.5 Credits**

This course is a supervised work experience in an approved criminal justice or social agency setting completed during the senior year for the bachelor’s degree and during the sophomore year for the associate degree. The experience is designed to provide the student with an opportunity to apply academic learning in professional situations. The work experience assignment must be approved by the department and the student must be assigned to a faculty supervisor.

**Prerequisite: Sophomore Status for AAS/ Senior Status for BS**

**Delivery:** on campus and online

**CJ4900 - Criminal Justice Capstone - 4.5 Credits**

This course is the final application and explanation course for the criminal justice degree. In this course students will focus upon: making a connection between course content, skills learned and applied contexts; self reflection pertaining to their individual criminal justice college experience; and criminal justice employment issues. Emphasis will be placed on using theory and case studies to explain policy, the use of research results to inform and or evaluate policy, enhanced understanding of criminal justice operations, the use of professional decision making and leadership skill, and the enhancement of communications in criminal justice work.

**Prerequisite: Senior Status and all CJ courses completed prior to enrollment**

**Delivery:** on campus and online

**CJ1900-4990 - Special Topics in Criminal Justice - 1-4.5 credits**

Topics will vary depending on the interests of the instructor and students.

**Prerequisite: Permission of the Academic Dean**

**Delivery:** on campus and online

**CLINICAL LABORATORY (CL)**

**CL1010 - Introduction to Medical Laboratory - 3 Credits**

This course explores medical/clinical laboratory health career options, accrediting and certifying agencies, administrative law, and the educational requirements of various laboratory practitioners. Laboratory safety regulations and procedures are heavily emphasized and consistently followed during laboratory exercises. Students learn about laboratory glassware and general laboratory equipment including: centrifuges, microscopes, pipettes, balance scales, spectrophotometers, and pH meters.

**Delivery:** on campus
CL1020 - Specimen Collection - 2 Credits
The collection of blood specimens by venipuncture, skin puncture, and arterial puncture is addressed in this course. Students will learn about preanalytic variables that adversely affect the accuracy of test results. They will perform venipunctures and skin/capillary punctures. Collection of additional specimens such as stool, urine, sputum, and throat swabs are addressed, and students will practice collecting these specimens and explain proper collection procedures to simulated patients.
Prerequisite: Concurrent with CL1010
Delivery: on campus

CL1050 - Laboratory Calculations and Quality Control - 2 Credits
This course focuses on general calculations used in the laboratory, including normality, molality, and concentrations. The metric system, scientific notation, exponentials, and significant figures are reviewed. Concepts of quality control and quality assurance are discussed, and the mean, standard deviation, and coefficient of variation are calculated and interpreted. Westgard rules are used to evaluate quality control results. The concepts of external and internal quality control are discussed along with regulatory compliance requirements for competency and the use of proficiency testing. CLIA 88 regulations are revisited as are the categories of laboratory testing (waived, moderate complexity, and high complexity).
Prerequisite: MA1500
Delivery: on campus

CL1110 - Basic Immunology and Serology with Lab - 3 Credits
This course discusses the innate and adaptive branches of the immune system. Characteristics of antigens and immunoglobulins are emphasized, and immunological test principles are explored. Diseases and disorders involving the immune system, diagnosis and monitoring of malignant tumors, and organ transplantation matches and rejections are also addressed. Serological procedures are performed in the laboratory, including point-of-care testing, use of automated instruments that employ immunological test methods, and serial dilutions with the associated calculations.
Prerequisite: CL1010 and CL1050
Delivery: on campus

CL1120 - Hematology I with Lab - 5 Credits
This course addresses the production of red blood cells, white blood cells, and platelets and the various cell precursors are identified for each cell line. The structure of hemoglobin, its role in the delivery of oxygen and the transport of carbon dioxide, and functional and non-functional hemoglobin molecules are discussed. The classification of anemias, using red blood cell indices and reticulocyte parameters, are emphasized, linking calculations to the underlying disease/condition causing the anemia. Benign white blood cell and platelet disorders/diseases are addressed. Laboratory procedures covered include: the preparation and staining of peripheral blood smears, manual hemoglobin and hematocrit, manual cell counts, erythrocyte sedimentation rates and white blood cell differentials. Automated cell counters are introduced.
Prerequisite: CL1010 and SC1332
Delivery: on campus

CL1130 - Urinalysis and Body Fluids with Lab - 3 Credits
In this course, the student will perform the physical, chemical, and microscopic analysis of urine while reviewing renal physiology and correlating urinalysis findings with clinical conditions. The physical, chemical, and microscopic analysis of other body fluids including: CSF, synovial, peritoneal, pericardial, pleural (transudates and exudates), amniotic, fecal, and seminal fluid will be discussed and abnormal results will be correlated with clinical conditions and diseases. Collection of 24-hour urine specimens, performance of manual body fluid cell counts and associated calculations are also emphasized.
Prerequisite: CL1010 and SC1332
Delivery: on campus

CL1150 - Immunohematology I with Lab - 3 Credits
Characteristics of immunogens (antigens) and immunoglobulins (antibodies) are applied to red blood cell typing and plasma screening. Blood group systems (antigens and antibodies), including ABO, Rh, Kell, Duffy, Kidd, MNSs, Lewis, Li, and P1, are covered in detail. Quality control of equipment and reagents, preparation of red blood cell suspensions, and tests performed on patients prior to transfusion are discussed and performed. Compatible and incompatible test results are identified. Selection of special procedures to be used in the resolution of discrepant results is discussed. This course emphasizes patients (recipients) rather than donors. Tube and gel testing systems are used in the laboratory for compatibility testing.
Prerequisite: CL1110 and SC1332
Delivery: on campus

CL1170 - Clinical Microbiology I with Lab - 6 Credits
General microbiological concepts are reviewed, including metabolic and cultural characteristics of prokaryotic cells, transient and resident normal flora, and identification strategies. Identification of pathogenic bacteria, general concepts of antimicrobial susceptibility testing, collection and processing of clinical specimens, direct smear preparation and interpretation, primary culture interpretation, and epidemiology studies are discussed. Diseases and conditions are linked to organisms and associated virulence factors. Specimen collection and processing skills are developed and various identification and susceptibility methods are discussed and performed. Selection of primary culture media, description of colonial morphology, proper performance of the gram stain and appropriate direct tests are consistently performed in the laboratory portion of the course.
Prerequisite: CL1110 and SC1422
Delivery: on campus

CL1190 - Clinical Chemistry I with Lab - 4 Credits
This course addresses the role of the clinical laboratory in the diagnosis of diseases and disorders of the kidney, liver, pancreas, and heart. The association of the analyzed compound, its chemical structure, and biochemical function
are covered as the general structure and function of each organ is reviewed and linked to normal homeostasis. Clinical signs and symptoms of significant organ disease/damage are identified and linked to laboratory tests employed in identification of specific organ dysfunction. Collection, transport and processing of clinical specimens, the use of manual and automated methods, quality control and the importance of instrument calibration and standardization are discussed and practiced.

Prerequisite: CL1010, CL1050, SC1332 and SC1354
Delivery: on campus

CL2010 - Hematology II with Lab - 3 Credits
Bone marrow aspiration, cytochemical stains, cytogenetic studies, flow cytometry, and molecular techniques are procedures covered in this course. Heavy emphasis is placed on abnormal hematological conditions, such as the leukemias, plasma cell dyscrasias, lymphomas, myeloproliferative, and myelodysplastic disorders. Peripheral blood smears are examined focusing on abnormal cellular morphology commonly associated with each disorder. The theory of blood coagulation and fibrinolysis is addressed, and specific laboratory tests and techniques involved in the assessment and monitoring of these processes are discussed and practiced. Preanalytic errors affecting coagulation studies are addressed.

Prerequisite: CL1120
Delivery: on campus

CL2020 - Immunohematology II with Lab - 3 Credits
Blood donor unit collection, screening, and testing, preparation of blood components, infectious disease testing, special antibody studies, transfusion reactions, hemolytic disease of the newborn, and transfusion therapy are covered in this course. Additional topics addressed include artificial blood products, stem cell transfusions, bone marrow transplantation, intrauterine transfusions and the selection of appropriate blood products for special populations, such as neonates and severely immunocompromised patients.

Prerequisite: CL1150
Delivery: on campus

CL2030 - Clinical Microbiology II with Lab - 3 Credits
Medically important parasites (protozoa and metazoan), fungi, and viruses are covered in this course. Life cycles and diagnostic stages are emphasized. Wet preparations and trichrome stained smears are examined for parasitic diagnostic stages. Common fungal agents and their mechanisms of transmission, macroscopic appearance on culture media, and microscopic appearance, as demonstrated on lactophenol cotton blue preparations, are addressed. Viral cell cultures and immunoassays used in the identification of viral antigens and/or antibodies are briefly explored, and viral agents are linked to specific diseases and common methods of transmission. Collection of clinical specimens for parasitic, fungal, and viral culture is an integral part of the course.

Prerequisite: CL1170
Delivery: on campus

CL2040 - Clinical Chemistry II with Lab - 3 Credits
This course covers blood electrolytes, arterial blood gases, endocrine disorders, tumor markers, and therapeutic drug monitoring. Controlled substances and their detection are briefly addressed. Diagnostic protocols, laboratory techniques, instrumentation, and specimen collection procedures are emphasized. Patient presentation is linked to laboratory results and is interwoven throughout the course material.

Prerequisite: CL1190
Delivery: on campus

CL2050 - Clinical Chemistry II with Lab - 3 Credits
This course covers blood electrolytes, arterial blood gases, endocrine disorders, tumor markers, and therapeutic drug monitoring. Controlled substances and their detection are briefly addressed. Diagnostic protocols, laboratory techniques, instrumentation, and specimen collection procedures are emphasized. Patient presentation is linked to laboratory results and is interwoven throughout the course material.

Prerequisite: CL1190
Delivery: on campus

CL2060 - Professional Issues - 2 Credits
Topics covered in this course include education and training of students and employees, competency assessment and behavioral evaluations, professional organizations, continuing education, and preparation of a professional portfolio. Students are encouraged to identify topics to explore to a greater depth as they encounter these subjects during their clinical internships. Preparation for the national certification examination is an important part of this course.

Prerequisite: Concurrent with CL2091
Delivery: on campus

CL2070 - Clinical Internship I - 10 Credits
This internship covers the theory and practice of internship rotations through the following laboratory departments at a clinical facility: hematology, chemistry, urinalysis, coagulation, phlebotomy, and specimen collection. Students collect and process specimens, perform tests and associated quality control, perform preventive maintenance on instruments, and participate in troubleshooting as indicated in each of the listed departments under the supervision of assigned clinical laboratory staff. Emphasis is on the preanalytic, analytic, and postanalytic phases of laboratory testing.

Prerequisite: Completion of all other CL courses and concurrent with CL2080
Delivery: on campus

CL2080 - Clinical Internship II - 10 Credits
This internship covers the theory and practice of internship rotations through the following laboratory departments at a clinical facility: immunohematology, immunology/serology, microbiology, and chemistry. Students collect and process specimens, perform tests and quality control, perform preventive maintenance on instruments, and participate in troubleshooting as indicated under the supervision of assigned clinical laboratory staff. Emphasis is on the preanalytic, analytic, and postanalytic phases of laboratory testing.

Prerequisite: CL2091
Delivery: on campus

CL2090 - Clinical Internship II - 10 Credits
This internship covers the theory and practice of internship rotations through the following laboratory departments at a clinical facility: immunohematology, immunology/serology, microbiology, and chemistry. Students collect and process specimens, perform tests and quality control, perform preventive maintenance on instruments, and participate in troubleshooting as indicated under the supervision of assigned clinical laboratory staff. Emphasis is on the preanalytic, analytic, and postanalytic phases of laboratory testing.

Prerequisite: CL2091
Delivery: on campus

College Studies (CS)

CS1500 - Strategies for Success - 4.5 Credits
This course is designed to enhance the university learning experience and prepare students for personal and professional success. Concepts presented include managing change, setting and achieving goals, and thinking in ways that create success.
Time management, study skills, and library research are also discussed.
Delivery: on campus and online

CS1510 - Strategies for Success A - 2.5 Credits
This two-part course is designed to enhance the university learning experience and prepare students for personal and professional success. Concepts presented include managing change, setting and achieving goals, and thinking in ways that create success. Time management, study skills, and library research also are discussed.
Delivery: on campus

CS1520 - Strategies for Success B - 2 Credits
This course continues the study of topics that enhance the university learning experience and prepare students for personal and professional success. Concepts presented include managing change, setting and achieving goals, and thinking in ways that create success.
Delivery: on campus

CS2080 - Career Management - 3 Credits
This course prepares the student to manage his/her career through the job transitions that occur in the course of a lifetime. The course encourages students to maintain work/life balance, fostering positive feelings, and values about work activities. It also helps graduating students secure professional employment. Students will prepare a resume and cover letter, learn interview techniques, develop a "skills" language, networking techniques, and the means to meet employer expectations.
Prerequisite: Academic advisor approval
Delivery: on campus and online

CS2081 - Career Management Seminar - 1.5 Credits
This course provides the graduating student with a review of the tools to master future personal and professional success. The course focuses on understanding the employment and economic environment and securing professional employment. Special emphasis will be placed on addressing personal finance concepts that include building a strong FICO score and establishing investments for long-term goals.

CS1900-2990 - Special Topics in Career Management - 1-4.5 Credits
Topics will vary depending on the interests of the instructor and students.
Prerequisite: Permission of the Academic Dean
Delivery: on campus and online

ECONOMICS (EC)

EC2050 - Macroeconomics - 4.5 Credits
This is a study of how the entire economic system works. The course is centered around an examination of gross national product and examines fiscal and monetary policy, the budget, and banking. It demonstrates the role each plays in stabilizing the economy.
Delivery: on campus and online

EC2100 - Microeconomics - 4.5 Credits
This course examines parts of the economic system. It is a study of supply and demand, competition, pricing policies, wage and rent determination, and government regulation of business.
Prerequisite: EC2050
Delivery: on campus and online

EC3100 - International Economics - 4.5 Credits
This course is a study of economics from an international perspective. After explaining how international economies differ, it explores the theory of international trade, examines forces that affect trade policies, and develops an understanding of the foreign exchange market.
Prerequisite: EC2050
Delivery: on campus and online

EC1900-4990 - Special Topics in Economics - 1-4.5 credits
Topics will vary depending on the interests of the instructor and students.
Prerequisite: Permission of the Academic Dean
Delivery: on campus

ENGLISH (EN)

EN0500-0501 - Foundations of English - 0 Credits
This developmental course is designed to help students make the transition to essay writing in college composition courses. The course focus is on grammar and the correct form of paragraphs and essays. Using a combination of instructor-facilitated activities and a self-paced mastery program, students will work to improve their grammar skills and their ability to plan, draft, revise, and edit sentences, paragraphs, and short essays.
Prerequisite: Placement Recommendation
Delivery: on campus and online

EN0505 - Foundations of English - 2 Credits
This developmental course is designed to help students make the transition to essay writing in college composition courses. The course focus is on grammar and the correct form of paragraphs and essays. Using a combination of instructor-facilitated activities and a self-paced mastery program, students will work to improve their grammar skills and their ability to plan, draft, revise, and edit sentences, paragraphs, and short essays (4 hours lab/week).
Prerequisite: EN0501
Delivery: on campus and online

EN1150 - Composition I - 4.5 Credits
This course is designed to help students gain confidence and proficiency in basic writing skills. Students are introduced to principles and strategies that will help them to write and revise clearly, concisely, and coherently. Students write essays wherein organization and proper usage are stressed. Emphasis is also placed on introductory concepts of the research process.
Prerequisite: Placement recommendation or successful completion of EN0500 or ES2030 or placement recommendation
Delivery: on campus and online
EN3050 - Technical Communication - 4.5 Credits
This course introduces students to a variety of written communication styles used in the business industry. Students will learn and utilize effective researching and writing skills, including primary and secondary research, and synthesize that information into a formal written report. Emphasis is also placed on incorporating visual components to depict and reinforce researched data.
Prerequisite: EN1300
Delivery: on campus and online

EN3120/PL3120 - Classical Rhetoric in a Digital Age - 4.5 Credits
See PL3120

EN3150/HI3500 - American West Fact and Fiction - 4.5 Credits
This course is an interdisciplinary study of the culture of the American West. Emphasis is placed on both the history of the region and on the images of that history as they are presented in literature and art.
Prerequisite: EN1150
Delivery: on campus

EN3275 - Transcultural Literature - 4.5 Credits
This literature course explores the multicultural and global perspectives of ethnic and cultural groups by examining the writings of people of color. Transcultural literature is comprised of writings that characterize the racial, ethnic, and social diversity in the world. These diverse cultures include voices typically omitted from the traditional canon. This course offers the opportunity for students to learn about the range of experiences and possibilities in the world and move beyond resistance to engagement. This course engages students in a process of questioning, research, presentation, and reflection.
Prerequisite: EN1300
Delivery: on campus and online

EN3300 - Detective Fiction - 4.5 Credits
This humanities course is designed to examine the detective fiction literary genre. The student is exposed to a wide range of detectives and detective fiction writers. This course includes the use of text, tapes, and films.
Prerequisite: EN1150
Delivery: on campus

EN1900-4990 - Special Topics in English - 1-4.5 Credits
Topics will vary depending on the interests of the instructor and students.
Prerequisite: Permission of the Academic Dean
Delivery: on campus

**ENGLISH STUDIES (ES)**

ES1830 - Composition I and Lab - 5 Credits
Students at the advanced level further develop their skills with paragraph and essay organization. Students learn to use advanced grammatical structures in their written assignments. Students learn rhetorical forms and research methods necessary to successfully complete college-level writing tasks.
Prerequisite: placement recommendation  
Delivery: on campus

ES2030 - Advanced Academic Communication - 4 Credits
The goal of this course is to prepare students for writing in an academic English course and for writing academic research papers.  
Prerequisite: ES1830 or placement recommendation  
Delivery: on campus

FOREIGN LANGUAGE (FL)

FL0710D - English Structure I - 4.5 Credits  
In this course, English language learners will develop basic writing skills beginning at the sentence level and building to paragraphs. Learners will also continue to develop functional English language skills through grammar and vocabulary lessons relevant to the writing tasks of the course. This is the first in a four-course sequence of English courses designed to prepare learners for mainstream content courses in English.  
Prerequisite: Placement recommendation  
Delivery: online

FL0720D - English Structure II - 4.5 Credits  
In this course, learners will further their writing skills by building from paragraphs to essays, with emphasis on writing as a process. Learners will continue to develop functional English language skills and build a general knowledge of U.S. culture through reading, listening, and speaking tasks as well as grammar and vocabulary lessons. This is the second in a four-course sequence of English courses designed to prepare learners for mainstream content courses in English. A minimum of a "C" grade is required to progress.  
Prerequisite: Placement or FL0710D  
Delivery: online

FL1200 - First Year Spanish I - 4.5 Credits  
This course is designed to give a general introduction to the Spanish language stressing listening and speaking skills. Cultural aspects of Spanish-speaking countries are also examined.  
Delivery: on campus

FL1710D - Written Communications in English I - 4.5 Credits  
In this course English language learners will advance their academic writing and critical thinking skills by working through the process of writing a Cause/Effect essay and an Argumentative essay. Learners will also continue to develop functional English language skills through grammar and vocabulary lessons relevant to the writing tasks of the course. This is the third in a four-course sequence of English courses designed to prepare learners for mainstream content courses in English.  
Prerequisite: Placement recommendation  
Delivery: online

FL1720D - Written Communications in English II - 4.5 Credits  
This is the last in a four-course sequence of English courses designed to prepare learners for mainstream content courses in English. Learners will focus on academic writing and research and will write a formal research paper. Some vocabulary lessons are included.  
Prerequisites: Placement or FL1710D  
Delivery: online

FINANCE (FN)

FN3000 - Business Finance I - 4.5 Credits  
This course is an examination of the role of financial management, analysis, forecasting, mathematics, working capital management, cash and marketable securities management, accounts receivable, inventory management, and short-term financing.  
Prerequisite: AC1160 or AC2760/MA1500  
Delivery: on campus and online

FN3010 - Business Finance II - 4.5 Credits  
This course is an examination of capital budgeting under uncertainty, valuation and rates of return, cost of capital, term loans and leases, long-term debt, preferred and common stock, convertibles and warrants, mergers and acquisitions, failure, and reorganization.  
Prerequisite: FN3000  
Delivery: on campus and online

FN3050 - Investments and Portfolio Management - 4.5 Credits  
This course is an introductory course in investing. A study of the environment of investing, basic concepts of the "what" and "why" of investing, descriptions of the various types of investments, and tax implications of investment are included.  
Prerequisite: FN3010/MA3000  
Delivery: on campus and online

FN3060 - Corporate Investment Decisions - 4.5 Credits  
This course focuses on managing both current and fixed assets. Special emphasis is placed on managing working capital, making capital budgeting decisions, evaluating firm performance, and positioning to achieve firm goals.  
Prerequisite: FN3010  
Delivery: on campus and online

FN3100 - Risk Management and Insurance - 4.5 Credits  
This course introduces different types of insurance risks, insurance policy contracts, types and problems of insurers, social insurance, and risk management. The approach is broad with an emphasis on the basic unity of insurance.  
Prerequisite: MT2050  
Delivery: on campus and online

FN3200 - Financial Statement Analysis - 4.5 Credits  
This course is a study of financial statement accounting with emphasis on the reporting function. It is designed to develop critical thinking and problem solving skills in a financial statement environment. Additionally, the course is focused on the student’s ability to analyze and interpret financial data.  
Prerequisite: FN3000  
Delivery: on campus and online
FN3600 - International Financial Management - 4.5 Credits
This course introduces the international financial environment. Particular attention is given to short-term asset and liability management, long-term asset and liability management, and international banking.
Prerequisite: MT3000/FN3010
Delivery: on campus and online

FN4055 - Financial Institutions and Markets - 4.5 Credits
This course is a study of how financial institutions and markets operate. Students will develop a conceptual framework for understanding how recent and current events impact the financial environment. Emphasis is placed on interest rate theory, money and capital market instruments, government regulation, and international market issues.
Prerequisite: FN3000
Delivery: on campus and online

FN4000-4840 - Finance Internship - 4.5-13.5 Credits
The purpose of this internship is to give the student experience in applying what he or she has learned in the classroom by working in a business environment. The student's responsibility is agreed upon in advance by the student's advisor, the business entity, and the student. Successful completion requires a written report by the student detailing the experience gained during the internship and successful completion of the projects assigned by the business supervisor(s). The student receives either a "pass" or "fail" grade.
Prerequisite: senior status with dean/academic advisor approval
Delivery: on campus and online

FN1900-4990 - Special Topics in Finance - 1-4.5 credits
Topics will vary depending on the interests of the instructor and students.
Prerequisite: Permission of the academic dean
Delivery: on campus

HEALTH CARE (HA)

HA3010D - Introduction to U.S. Healthcare Delivery - 4 Credits
This course provides an introduction to healthcare delivery in the United States from a systems theory perspective. Topics of study include the types of professionals employed in healthcare, the institutions that provide services across the care continuum, and the effects of internal and external environments on the healthcare delivery system.

Developments in the evolution of health care in the U.S. and changes in the current healthcare environment will also be examined.
Delivery: online

HA3110D - Quality Improvement and Risk Management - 4 Credits
This course addresses methods used to measure and improve the efficiency and effectiveness of care delivery in healthcare institutions. Students will gain an understanding of the history and theory related to quality management and risk management in healthcare organizations, and will apply methods for collecting and analyzing quality data.
Prerequisite: HA3010D or HT1000D/ and EN1300
Delivery: online

HA3120D - Essentials of Managed Care - 4 Credits
This course examines the systems and processes used in the U.S. to control healthcare access and cost in order to improve efficiency and productivity in service delivery. Topics addressed include types of managed care organizations, reimbursement models, and utilization management in rural and urban settings.
Prerequisite: HA3010D
Delivery: online

HA3220D - Health Information Systems - 4 Credits
This course explores the use of health information in the delivery of health care with an emphasis on its creation, storage, manipulation, reporting, and use in strategic decision making. The determination of information system needs, system implementation, system evaluation, and confidentiality/security will also be addressed.
Prerequisite: CI1150/HA3010D or HT1000D
Delivery: online

HA3300D - Healthcare Policy and Ethics - 4 Credits
This course is an introduction to ethics as it applies to healthcare management. The course will include an introduction to ethical theory and the relationship of those theories to healthcare policy and to real world healthcare management.
Prerequisite: HA3010D/EN1300
Delivery: online

HA4050D - Healthcare Law - 4 Credits
This course examines legal principles and laws regulating health services activities. Healthcare topics include liability, negligence, malpractice, right of access to care, informed consent, and confidentiality. Legal aspects of human resources management in healthcare settings are also addressed.
Prerequisite: HA3010D or HT1000D/ and EN1300
Delivery: online

HA4070D - Regulatory Environment in Health Care - 4 Credits
This course emphasizes healthcare funding and reimbursement processes, and related compliance and regulatory mechanisms in healthcare organizations. Selected aspects of federal and state survey requirements are included.
Prerequisite: HA3010D/EN1300
HA4110D - Healthcare Planning and Evaluation - 4 Credits
This course explores strategic planning and evaluation in healthcare organizations. Students will examine theories and practices from the perspectives of health care and business, and will apply what they have learned using case studies.
Prerequisite: HA3010D
Delivery: online

HA4120D - Management of Continuum Care Services - 4 Credits
This course examines the role, organization and management characteristics of healthcare programs and institutions that provide patient services other than acute care hospitalization, such as long-term care, outpatient care, home care, hospice and physician practice settings.
Prerequisite: HA3010D
Delivery: online

HA4200D - Healthcare Financial Management - 4 Credits
This course introduces concepts and techniques of financial decision-making for the healthcare managers. Topics covered include fiscal management and performance; cost, revenue and risk; fiscal planning and forecasting, budgeting, control, and reporting. Financial management in long-term care facilities, home health agencies, and hospitals is discussed.
Prerequisite: AC1160/HA3010D
Delivery: online

HA4300D - Healthcare Management and Supervision - 4 Credits
Students will apply the managerial functions of planning, organization, leading, and controlling to the healthcare environment in this capstone course.
Prerequisite: Academic advisor approval and senior status/HA3010D
Delivery: online

HA4500D - Action Research Project - 4 Credits
This course for Option 2 Healthcare Management students combines experience working on a health services project, writing a senior-level thesis, and presenting the project. Learners will demonstrate critical, analytical, and interpretive skills in their project and thesis.
Prerequisite: Academic advisor approval and senior status/HA3010D
Delivery: online

HA4510D - Healthcare Internship - 4 Credits
The internship is designed for Option 1 Healthcare Management students to obtain managerial experience in an approved healthcare organization through the application of concepts and theories learned in the classroom. Successful completion requires a written report, detailing the experience gained during the internship, and successful completion of the projects assigned by the healthcare supervisor(s).
Prerequisite: Academic advisor approval and senior status/HA3010D
Delivery: online

HA1900-4990 - Special Topics in Healthcare Management - 1-4.5 Credits
Topics will vary depending on the interests of the instructor and students.
Prerequisite: Permission of the Academic Dean
Delivery: online

HEALTH AND BEAUTY (HB)

HB2100 - Mastering Cosmetology Business - 6 Credits
This course is designed to add business skills to students' industry knowledge and experiences through studies in management, marketing, communication, and career development. Previous education and practical experiences will be integrated with knowledge and skills from the business field. Students will gain a fundamental knowledge of business development, operations, and management as it relates to the health and beauty industry.
Delivery: online

HISTORY (HI)

HI2050 - American History Since 1877 - 4.5 Credits
This course is designed to increase students' knowledge and understanding of how and why the United States came to be what it is today. The course seeks to instill in students the habits of historical thinking that will allow them to live more competent lives in their local communities and in the nation at large.
Delivery: on campus and online

HI2155/HU2150 - World Religions - 4.5 Credits
See HU2150

HI3500/EN3150 - American West Fact and Fiction - 4.5 Credits
See EN3150

HI1900-4990 - Special Topics in History - 1-4.5 credits
Topics will vary depending on the interests of the instructor and students.
Prerequisite: Permission of the Academic Dean
Delivery: on campus

HEALTH INFORMATION TECHNOLOGY/HEALTH CARE CODING (HT)

HT1000D - Introduction to Health Information Management and Healthcare - 4 Credits
This course provides an introduction to health care delivery in the United States and the health information management profession and departmental functions related to filing and numbering methods, records management, retention and storage, and forms design. Various aspects related to health record documentation guidelines and standards will be explored, as well as the influence of accreditation and regulatory bodies. Health information processes and relationships among organizational departments and
healthcare providers will also be addressed. Developments in the evolution of healthcare in the US and changes in the current healthcare environment will also be examined.
Prerequisite: EN1150
Delivery: online

HT1100D - Introduction to Health Information Management - 3 Credits
This course introduces the health information management profession and departmental functions related to filing and numbering methods, records management, retention and storage, and forms design. Various aspects related to health record documentation guidelines and standards will be explored, as well as the influence of accreditation and regulatory bodies. Health information processes and relationships among organizational departments and healthcare providers will also be addressed.
Delivery: online

HT2110D - International Classification of Diseases Coding I with Lab - 3 Credits
This course covers clinical vocabularies and classification systems, as well as the principles and guidelines for using ICD-9-CM to code diagnoses and procedures. Students will gain an understanding of ICD as it is used in an inpatient setting and contribution to the severity of illness and case-mix analysis systems. Assignments and practical examples of patient records will provide practice in coding and sequencing of diagnoses. (2 hours of lecture and 2 hours of lab per week)
Prerequisite: HT1100D, ME1150, ME2211, ME2510 (or co-requisite), and SC1221 or SC1222D
Delivery: online

HT2115D - ICD-10 Coding I with Lab - 3 Credits
This course covers the principles and guidelines for using ICD-10-CM to code diagnoses and ICD-10-PCS to code procedures. Students will gain an understanding of ICD as it is used in inpatient and outpatient. Assignments and practical examples of patient records will provide practice in coding and sequencing of diagnoses for each body system.
Prerequisite: HT2110D and ME2520
Delivery: online

HT2120D - International Classification of Diseases Coding II with Lab - 3 Credits
This course covers clinical vocabularies and classification systems, as well as the principles and guidelines for using ICD-9-CM to code diagnoses and procedures. Students will gain an understanding of ICD as it is used in an inpatient setting and contribution to the severity of illness and case-mix analysis systems. Assignments and practical examples of patient records will provide practice in coding and sequencing of diagnoses. The applications of coding principles are also explored through the use of encoding software tools. (2 hours of lecture and 2 hours of lab per week)
Prerequisite: HT2110D and ME2520 (or co-requisite)
Delivery: online

HT2125D - ICD-10 Coding II with Lab - 3 Credits
This course covers the principles and guidelines for using ICD-10-CM to code diagnoses and ICD-10-PCS to code procedures. Students will gain an understanding of ICD as it is used in inpatient and outpatient. Assignments and practical examples of patient records will provide practice in coding and sequencing of diagnoses for each body system.
Prerequisite: HT2115D
Delivery: online

HT2130D - Current Procedural Terminology Coding with Lab - 3 Credits
This course will expand on the knowledge of clinical classification systems through the use of Current Procedural Terminology (CPT) coding principles. Assignments and practical examples of patient records will provide practice in coding and sequencing of diagnoses. Exercises will allow students to also apply guidelines for Evaluation and Management (E/M) code and modifier assignment, in addition to the purpose and use of the Healthcare Common Procedure Coding System (HCPCS). The applications of coding principles are also explored through the use of encoding software tools. (2 hours of lecture and 2 hours of lab per week)
Prerequisites: HT2120D
Delivery: online

HT2210D - Healthcare Data Quality and Management - 4 Credits
This course will provide an overview of quality improvement methodologies and expand on the use of health information and data for utilization review, risk management, and organizational approaches to quality assessment activities. Methods, tools, technologies, and processes for analyzing data are examined, to identify and prepare data for health-related purposes. Displays and reports to support quality improvement programs are explored.
Prerequisite: HT1100D and HA3220D
Delivery: online

HT2230D - Healthcare Reimbursement - 3 Credits
This course will provide an overview of the reimbursement and payment methodologies that apply to various healthcare settings, inclusive of the forms, processes, and practices of health information professionals. Topics related to insurance, third party, prospective payment, and managed care capitation are also explored along with issues of policy, regulatory information technology and data exchange among providers.
Prerequisites: HT2130D (or co-requisite)
Delivery: online

HT2240D - Health Information Management and Supervision - 3 Credits
This course focuses on the principles of supervisory management in the health information environment and provides an overview of general management functions. Staffing, training, performance, and productivity procedures are explored, as well as work processes and policies and procedures design. The application of these functions will be explored in the inpatient, ambulatory, and physician office environments.
Prerequisite: HT2210D (or co-requisite) and HT2230D
Delivery: online
HT2300D - Healthcare Coding Practicum - 3 Credits
The practicum is designed to allow students to participate in a supervised setting to gain practice experience in a health information department or other approved practice setting or organization. Through the application of concepts and theories, student will demonstrate skills focused on application of coding skills and observation of supervisory and planning activities. Students will prepare a written report of their practical learning experience.
Prerequisite: Academic advisor approval and completion of major core courses.
Delivery: online

HT2500D - Health Information Technology Practicum - 6 Credits
The practicum is designed to allow students to participate in a supervised setting to gain practice experience in a health information department or other approved practice setting or organization. Through the application of concepts and theories, student will demonstrate skills in record retrieval, data abstraction and analysis; record retention, release of information, and coding; and observation of supervisory and planning activities. Students will prepare a written report of their practical learning experience. Practicum placement will be at a site assigned by the Practicum Coordinator. Students will spend 90 hours at a practicum site during the quarter in which they are enrolled.
Prerequisite: Academic advisor approval and completion of major core courses.
Delivery: online

HT1900-2990 - Special Topics in Health Information Technology - 1-4.5 credits
Topics will vary depending on the interests of the instructor and students.
Prerequisite: Permission of the Academic Dean
Delivery: online

**HUMANITIES (HU)**

HU1050 - Music Appreciation - 4.5 Credits
This course is an introduction to the study of music in a broad context of the humanities. By studying the development of music through the ages, the student will understand how the cultural and political environment affects the art of music. The development of various music styles, the elements of music, techniques and instruments are reviewed and related to our current musical heritage.
Delivery: on-ground

HU2000 - Critical Thinking and Problem Solving - 4.5 Credits
This course is designed to develop students' basic skills of logical reasoning relative to problem-solving and related argument analysis. Learning to provide evidence and well-reasoned support for asserted solutions and/or positions within frameworks of clarity, depth, precision, relevance, and fairness are central to the course.
Delivery: on campus and online

HU2050 - Introduction to Philosophy - 4.5 Credits
This course is designed to introduce the student to the philosophical writings of ancient medieval and modern philosophers. The student, through the writings of philosophers, discovers and develops his/her own personal philosophy.
Delivery: on campus

HU2100 - Introduction to Humanities - 4.5 Credits
This interdisciplinary course examines the many ways that human creativity manifests itself in the areas of the visual arts, literature, philosophy, history, music, architecture, and technology. In this course, students will gain a broad understanding of Western cultural history.
Delivery: on campus and online

HU2150/HI2155 - World Religions - 4.5 Credits
This course explores the ways religion and its practice is relevant to human thought and behavior. A structure for organizing features common to most religious traditions makes learning easier and provides the student with a framework to identify similarities and differences between religions. Different teaching methods and techniques are used to make the student more aware of how religion shapes individual personalities, cultures, societies, and entire political systems. The course helps the student become better equipped to evaluate contemporary world events within a context of cooperation and the potentials for conflict among different religious traditions.
Prerequisite: EN1300
Delivery: on campus

HU2200 - Art Appreciation - 4.5 Credits
This course is designed to introduce the student to a study of art and its relation to the individual. The student will explore the various art forms throughout the major periods of art. Outstanding artists and their major contributions are included. Emphasis is placed on elements of art, drawing techniques, painting, digital art, photography, sculpture, ceramics, and architecture.
Delivery: on campus

HU2400 - Introduction to Film Studies - 4.5 Credits
Through the use of selected films, the student is introduced to the technical and theoretical aspects of film making. The course encourages critical analysis of films in order to enrich future viewing experiences.
Delivery: on campus

HU3000 - Voices on Aging - 4.5 Credits
This course is designed to engage students in the investigation of the emerging paradigm of conscious aging and its implications for individuals as well as society. Using an anthology of literature on aging, popular films and other media, students will examine the prevailing cultural attitudes and myths surrounding aging and how new perspectives reframe the aging process.
Delivery: on campus
HU3050 - Biomedical Ethics - 4.5 Credits
After exploring ethical argumentation through basic benefit/harm scenarios, students examine ethical issues in medical treatment and experimentation from the perspectives of patients, their families, and medical professionals. Students also produce arguments for ethical courses of action in biomedical cases.
Delivery: on campus and online

HU1900-4990 - Special Topics in the Humanities - 1-4.5 Credits
Topics will vary depending on the interests of the instructor and students.
Prerequisite: Permission of the Academic Dean
Delivery: on campus

LAW (LA)

LA3100 - Business Law - 4.5 Credits
This course introduces students to fundamental legal principles affecting business in the United States, including the sources and classifications of laws in the U.S. Students learn to recognize and apply basic legal concepts relating to contracts, torts, and product liability; explore various forms of business organizations common in the United States; and gain a fundamental understanding of select legal topics critical to operating a business, including real property, personal property, agency and employment, credit and secured transactions, bankruptcy and decedent's estates.
Delivery: on campus and online

LA3200 - International Law - 4.5 Credits
This course provides the student with the tools for understanding the principles underlying the legal environment of global business. It identifies the current legal rules and regulations affecting businesses and examines new developments and trends that will affect future transactions. Ethical implications and dilemmas are presented throughout the course.
Prerequisite: LA3100/MT3000
Delivery: on campus and online

LA1900-4990 - Special Topics in Law - 1-4.5 credits
Topics will vary depending on the interests of the instructor and students.
Prerequisite: Permission of the Academic Dean
Delivery: on campus

MATHEMATICS (MA)

MA0900-0901 - Foundations of Mathematics I - 0 Credits
This developmental course is designed to help students make the transition from arithmetic to college-level algebra and encourage success in college mathematics courses. Students will work in a self-paced mastery program designed to improve their basic mathematics and introductory algebra skills. Study topics may include whole numbers, decimals, fractions, proportions, percentages, signed numbers, real numbers and algebraic expressions, linear equations and inequalities, and polynomials.

Prerequisite: Placement Recommendation
Delivery: on campus and online

MA0905 - Foundations of Mathematics - 2 Credits
This developmental course is designed to help students make the transition from arithmetic to college-level algebra and encourage success in college mathematics courses. Students will work in a self-paced mastery program designed to improve their basic mathematics and introductory algebra skills. Study topics will include whole numbers, decimals, fractions, proportions, percentages, signed numbers, real numbers and algebraic expressions, linear equations and inequalities, and polynomials. (4 hours lab/week)
Prerequisite: MA0901
Delivery: on campus and online

MA1500 - Intermediate Algebra - 4.5 Credits
This course builds on introductory algebra concepts and also includes topics such as: utilizing formulas to solve word problems, solving compound inequalities, finding solutions to a system, reducing rational expressions, and solving related equations. The course concludes with a brief introduction to functions.
Prerequisite: Placement recommendation or MA0900
Delivery: on campus and online

MA2050 - College Algebra - 4.5 Credits
This course is an in-depth study of the traditional topics of college algebra. These topics include solving linear and quadratic equations and inequalities, graphs of equations and inequalities, operations involving polynomials and rational expressions, exponents, radicals, and an introduction to exponential and logarithmic functions.
Prerequisite: MA1500 or placement recommendation
Delivery: on campus and online

MA3000 - Business Statistics - 4.5 Credits
This course is applications-oriented with a business and economics emphasis. Topics studied include presentation and interpretation of numerical data, measure of central tendency, dispersion, probability, continuous and discrete probability distributions, and linear regression.
Prerequisite: MA2050 or placement recommendation
Delivery: on campus and online

ME1100 - Introduction to Medical Assisting - 4 Credits
This course gives the student an introduction to the profession of medical assisting, its scope of practice, and career opportunities available for the medical assistant. In addition, an orientation to the healthcare environment, receptionist duties, telephone techniques, appointment scheduling, and office maintenance are emphasized.
Course Descriptions

ME1150 - Medical Terminology - 4 Credits
This course is intended specifically for students who will be required to have a working knowledge of medical vocabulary as it is related to medical records and reports, laboratory findings, and general communication in healthcare settings. Delivery: on campus

ME181D - Medical Staff Services Management I - 4 Credits
This course will discuss the role of the medical staff services professional in various healthcare settings. Medical staff management topics will be addressed, including major accrediting bodies, state laws and regulatory organizations, credentialing, re-credentialing, and privileging. Prerequisites: EN1300, HA4050, and ME1150
Delivery: on campus and online

ME1240 - First Aid and Safety - 1 Credit
This course is designed to introduce the student to basic first aid and safety measures, cardiopulmonary resuscitation (CPR) of adults, children and infants, and automated external defibrillation (AED). Upon successful completion of this course, students will receive certifications from the American Heart Association in Basic Life Support for Healthcare Providers (CPR & AED), and Heartsavers® First Aid.
Delivery: online

ME1750 - Medical Transcription - 4 Credits
This course introduces the student to the use of word processing and transcribing equipment in order to produce a variety of medical reports. Medical and English language skills, report formats, and medical references are emphasized. Prerequisite: Computer literacy/ME1150
Delivery: on campus

ME2130 - Clinical Science Lab I - 2 Credits
This course, part one of a three-part laboratory course, provides an introduction to the duties and responsibilities within the clinical area of a medical office, including theory and practice. Emphasis will be toward medical asepsis, preparation and maintenance of exam rooms, vital sign assessment, and assisting with routine examinations.
Prerequisite: SC1332
Delivery: on campus

ME2140 - Clinical Science Lab II - 2 Credits
This course is a continuation of the medical assistant's duties and responsibilities in the clinical area of the medical office. The following clinical duties are presented and performed: continuation of aseptic techniques, instrument identification and sterilization, and assisting the physician with minor procedures.
Prerequisite: ME2130
Delivery: on campus

ME2150 - Clinical Science Lab III - 2 Credits
This course is a continuation of the medical assistant's duties and responsibilities in the clinical area of the medical office. The following clinical duties are presented and performed: radiology, medication administration, and electrocardiography.
Prerequisite: ME2140
Delivery: on campus

ME2182D - Medical Staff Services Management II - 4 Credits
This course will provide a general knowledge of the medical staff organization, role of the physician executive, medical staff bylaws, and related documents. Students participating in this course will be provided topics in medical staff law, the medical staff's role in quality improvement, and practitioner's health and behavior issues.
Prerequisite: ME1181D
Delivery: online

ME2183D - Medical Staff Services Management III - 4 Credits
This course will provide in-depth knowledge of managing a medical staff services department to include the coordination of medical staff meetings and the creation of medical staff services related communications. Through analysis and discussion, students will learn and apply project management planning and process. Students will also explore the use of technology in managing confidential information and will develop a plan for public relations and marketing from a cross-functional team approach.
Prerequisite: ME2182D
Delivery: online

ME2211 - Human Pharmacology - 4 Credits
This course introduces the allied health student to the study of drugs and drug therapy. Emphasis is placed on identifying drug actions, drug names, routes of administration, and adverse effects.
Prerequisite: SC1221, SC1222D, SC1332
Delivery: on campus and online

ME2250 - Medical Law and Ethics - 4 Credits
This course emphasizes legal principles, procedures, and regulations which affect the control, use, and release of health information, including HIPAA.
Prerequisite: ME1100 or HT1000D and EN1300
Delivery: on campus or online

ME2260 - Medical Records Management - 4 Credits
This course is designed to introduce the student to standard and electronic medical record systems and management. The medical record will be viewed from various aspects including the medical record release, standard information included in a medical record, medical record formats, types of filing systems, procedure to make corrections to a medical record, medical records storage, along with procedures for inactive record storage.
Prerequisite: ME1100/Computer literacy
Delivery: on campus

ME2400 - Laboratory Techniques I - 3 Credits
This course introduces the student to the use and care of the microscope. In addition, phlebotomy, urinalysis, and microbiological procedures are covered.
ME2410 - Laboratory Techniques II - 3 Credits
This course is a continuation of ME2400. Phlebotomy, routine "waived testing" in chemistry, hematology, and immunology, as well as toxicology procedures are covered.
Prerequisite: ME2400
Delivery: on campus

ME2510 - Essentials of Pathophysiology I - 3 Credits
This course provides a study of human diseases for the allied health student. Course content emphasizes the description, etiology, signs/symptoms, diagnostic procedures, and treatment for specified diseases.
Prerequisite: ME1150/SC1332 or SC1221 or SC1222D
Delivery: on campus and online

ME2520 - Essentials of Pathophysiology II - 3 Credits
This course continues the study of human diseases for the allied health student. Course content emphasizes the description, etiology, signs/symptoms, diagnostic, procedures, and treatment for specified diseases.
Prerequisite: ME2510
Delivery: on campus and online

ME2530 - Pathology for Massage Therapists - 4 Credits
This course provides the study of the process human disease for the therapeutic massage student. Course content includes disease awareness, indications and contraindications, and development of therapeutic discernment regarding treatment for specified diseases with the use of therapeutic massage.
Prerequisites: ME1150/SC1221
Delivery: on campus

ME2600 - Healthcare Coding I - 3 Credits
The focus of this course is learning the basic coding rules for ICD-9-CM, CPT and Level II (HCPCS) coding systems and then applying the rules to code patient diagnosis and services, and completing insurance claim forms. The medical topics of Medicare fraud/abuse, Centers for Medicare and Medicaid regulations, HMO's, LMRP's and PRO's are also reviewed.
Prerequisites: ME1150/SC1332 or SC1221 or SC1222D
Delivery: on campus

ME2610 - Healthcare Coding II - 3 Credits
This course continues with more advanced practical experience in insurance billing and coding. Students will abstract proper information from the patient record to the insurance form, code diagnoses, code physician services to complete an insurance claim, make entries on the patient's ledger card, and follow up on unpaid claims. Special attention will be given to proper use of modifiers and third-party reimbursement issues.
Prerequisite: ME2600
Delivery: on campus

ME2620 - Medical Office Procedures with Software Applications - 4 Credits
This course is designed to provide allied health students with practical application skills and knowledge in medical office administrative duties in manual and computerized methods. The following areas of medical office management are emphasized: communication skills, administrative responsibilities and procedures, medical practice finances, insurance and third party reimbursement.
Prerequisite: Computer literacy/ME1100
Delivery: on campus

ME3000 - Medical Assisting Exam Review - 3 Credits
This course is designed to provide the medical assisting student with a comprehensive review of content, skills, and behaviors in the administrative and clinical duties performed in an ambulatory setting. Emphasis is in preparing students for their practicum and certification exam.
Prerequisite: Instructor approval
Delivery: on campus

ME3310 - Medical Assisting Practicum - 6 Credits
The medical assisting practicum is designed to allow the student to obtain practical experience in a physician’s office. An unpaid, supervised practicum in an ambulatory healthcare setting performing administrative, clinical, and laboratory procedures within scope of the student’s training are addressed.
Prerequisite: Program coordinator approval
Delivery: on campus

ME3330D - Medical Staff Services Management Externship - 4 Credits
The medical staff services management externship is designed to allow students to obtain practical experience in a credentialing verification setting. The externship provides the student an opportunity to apply the principles and practices of credentialing and medical staff services management in a supervised setting at an approved site.
Prerequisite: Program Coordinator Approval
Delivery: online

ME1900-2990 - Special Topics in Allied Health - 1-4.5 Credits
Topics will vary depending on the interests of the instructor and students.
Prerequisite: Permission of the Academic Dean
Delivery: on campus

MARKETING (MG)

MG1050 - Principles of Marketing - 4.5 Credits
Principles of Marketing is an introductory course to the field of marketing. The student will learn the components of the marketing system and the marketing decision-making process which revolves around the marketing mix (product, price, place, and promotion). Additional topics include consumerism, the legal environment, consumer behavior, and the international market, and their effect on marketing.
Delivery: on campus and online

MG2050 - Principles of Advertising - 4.5 Credits
The student is exposed to the concepts, strategies, and planning associated with advertising and the effects of
advertising in the marketing concept. Emphasis is placed at the small business and retail level.
Prerequisite: MG1050
Delivery: on campus and online

MG2100 - Principles of Selling - 4.5 Credits
This course analyzes various selling methods, techniques and applications of selling to various marketing segments. The student demonstrates various sales techniques and presents a complete sales presentation as well as prepares several mini sales presentations.
Prerequisite: MG1050
Delivery: on campus and online

MG2200 - Principles of Retailing - 4.5 Credits
This is an introductory course designed to familiarize the student with the study of retail institutions, site selection, product selection, promotional strategies, pricing strategies, inventory control, and problems in retail management.
Prerequisite: MG1050
Delivery: on campus

MG2300 - Customer Service Relations - 4.5 Credits
Effective customer service can bring a competitive advantage to a firm. This course will provide students with information and skills in effective customer service. Topics addressed include the definition of effective customer service, models for providing effective customer service, service recovery models, practice in identifying and communicating effective customer service, and service management case studies.
Delivery: on campus and online

MG3050 - Marketing Management - 4.5 Credits
This course explores marketing concepts as they relate to the marketing manager's decision-making process. Topics discussed include the strategic planning process, marketing research procedures, market segmentation, defining the marketing mix, consumer behavior, organizational buying, advertising and promotion, distribution, pricing, and the globalization of marketing.
Prerequisite: MG1050
Delivery: on campus and online

MG3150 - Sales Management - 4.5 Credits
Emphasis of this course is in the areas of sales force management, organizing, staffing and training of a sales force, directing sales force operations, sales planning, and evaluating sales performance. Learning is enhanced with interactive lecture, group discussions and mini-case analysis.
Prerequisite: MG2100
Delivery: on campus

MG3300 - International Marketing - 4.5 Credits
This advanced marketing course allows the student to understand environmental and cultural aspects required to successfully enter into global marketing.
Prerequisite: MG1050/MT3000
Delivery: on campus and online

MG3350 - Social Media Marketing - 4.5 Credits
Social media marketing is playing an increasingly prominent role as a powerful marketing tool successfully employed by a variety of business organizations. This course examines the connections that exist between social media concepts and fundamental business considerations such as customer engagement, customer relationship management, and decision support services. Additional topics being treated in this course include social media metrics and measurement, use of profiles, the role of social objects, best practices, and the social business ecosystem.
Prerequisite: MG1050
Delivery: on campus and online

MG3500/PS3500 - Consumer Behavior - 4.5 Credits
This course informs the student of how the interaction of feeling, knowledge, behavior, and environmental events influence people and organizations in the conduct of their business transactions.
Prerequisite: MG1050
Delivery: on campus and online

MG4080 - Direct Marketing - 4.5 Credits
This course is intended to fit direct marketing into the overall marketing program and place it in context with the firm's marketing mix. Special emphasis is placed on direct mail, mail order, and telemarketing.
Prerequisite: MG1050
Delivery: on campus and online

MG4100 - Marketing Cases - 4.5 Credits
This is an advanced course in marketing management. It develops analysis and problem-solving skills by requiring the student to thoroughly analyze real marketing problems and propose viable solutions and recommendations.
Prerequisite: Senior status/MG3050
Delivery: on campus

MG4150 - Marketing Research - 4.5 Credits
This course is an introduction to the purpose and nature of problem identification and definition, information collection and analysis, and application of research for management decision making. Case problems and individual student projects are featured.
Prerequisite: Senior status/MA3000/MG1050/EN1300
Delivery: on campus and online

MG4500-4540 - Marketing Internship - 4.5 Credits
The purpose of this internship is to give the student experience in applying what he or she has learned in the classroom by working in a business environment. The student's responsibility is agreed upon in advance by the student's advisor, the business entity, and the student. Successful completion requires a written report by the student detailing the experience gained during the internship and successful completion of the projects assigned by the business supervisor(s). The student receives either a "pass" or "fail" grade.
Prerequisite: Dean/academic advisor approval with senior status
Delivery: on campus
MG1900-4990 - Special Topics in Marketing - 1-4.5 Credits
Topics will vary depending on the interests of the instructor and students.
Prerequisite: Permission of the Academic Dean
Delivery: on campus

MILITARY SCIENCE (MS)

MS2210 - ROTC Basic Camp - 4 Credits
Basic Camp offers the student who did not take ROTC courses during his/her first two years of school the opportunity to enroll in ROTC at the start of the junior year. Basic Camp is a six-week training period in which the student undergoes basic military training within a regular Army environment. Instruction consists of both classroom activities and practical exercises along with considerable field training. The student is closely supervised and carefully evaluated by military officers.
Delivery: on campus

MS3210 - ROTC Advanced Camp - 4 Credits
In this course the contracted ROTC advanced course cadet will attend a six-week intensified military training phase at Fort Lewis, Washington, which provides both classroom and practical experience in the difficult military and leadership skills required of a commissioned officer. This course is held in the summer quarter.
Delivery: on campus

MS3910 - Survey of American Military History - 4.5 Credits
This course is a survey of military history with the military institutions, technology and techniques, from 1763 to the present. The course will study the interrelationships of warfare, technology, and society in American history. The course will focus on such items as the changes in techniques in warfare, the make-up of military establishments, and the introduction of technology into military warfare. It will also view the political and societal changes that have influenced the nature of warfare in America.
Delivery: on campus

MANAGEMENT (MT)

MT2050 - Principles of Management - 4.5 Credits
This course introduces students to the field of management and emphasizes the knowledge and skills used by successful managers. Throughout the course, students will demonstrate specific knowledge and skills in the areas of management, history, decision-making, communication, planning, organizing, staffing, directing, controlling, and business ethics.
Delivery: on campus and online

MT2100 - Entrepreneurship and Small Business - 4.5 Credits
This course provides an overview of entrepreneurial concepts and strategies from a small business perspective. Topics include opportunity selection, competitive analysis, location selection, distribution, marketing promotions, financial considerations, legal and risk management issues, and business purchase or franchising opportunities.
Prerequisite: MT2050
Delivery: on campus

MT2200 - Franchising - 4.5 Credits
This course explores the world of franchising from an entrepreneurial perspective and covers topics such as the franchisor feasibility study, franchisor and franchisee management and marketing practices, financial considerations, and the franchisor-franchisee relationship.
Prerequisite: MT2100
Delivery: on campus

MT2400 - Small Business Management Operations - 4.5 Credits
This course focuses on the operational issues fundamental to managing a small business. Topics include small business strategic management, managing cash flow, techniques for enhancing profitability, and direction for managing people.
Prerequisite: MT2100
Delivery: on campus

MT3000 - International Business - 4.5 Credits
This course covers the scope of international business and the dimensions of multi-national enterprises. The student studies exporting and marketing in foreign business environments.
Prerequisite: MT2050 or MG1050/EN1300
Delivery: on campus and online

MT3050 - Human Resource Management - 4.5 Credits
Human resource managers, their duties and responsibilities, are the core of this course. Beginning with recruitment of personnel, the personnel process is discussed, including training, evaluation of employees, wage and salary administration, and some basics of labor law. Conflict management and discipline programs are also included in the course work.
Prerequisite: MT2050 or HT2240D/EN1300
Delivery: on campus and online

MT3080 - Compensation and Benefits - 4.5 Credits
This course is designed to guide the student through an in-depth study of compensation and benefit programs within business organizations. From strategy to implementation, students will examine the issues surrounding compensation and benefits from the standpoint of currently approved policies, objectives and techniques. Topics include treatment of pay models, external competitiveness policy, and linking organizational strategy to compensation and performance management.
Prerequisite: MT3050
Delivery: on campus and online

MT3100 - Employee and Labor Relations - 4.5 Credits
This course has been designed to aid students who desire a deeper understanding of union-management relations. The course focuses on negotiation and administration of labor agreements with emphasis on the development and application of the more significant bargaining issues. The transaction between two organizations - management and the labor union - are also discussed.
Prerequisite: MT2050
Delivery: on campus and online
MT3200 - International Management - 4.5 Credits
This course builds on the fundamentals introduced in International Business. Topics explored include the process of internationalizing business, the scope of international trade, and exporting and managing parent-subsidiary relations. Importing in the global market, licensing, joint ventures, organization structure for global operations, and government intervention are also discussed.
Prerequisite: MT2050/MT3000
Delivery: on campus and online

MT3230/PL3230 - Employment Law - 4.5 Credits
This course introduces students to laws and regulations that impact directly on employers and managers, including the Fair Labor Standards Act, Title VII of the Civil Rights Act of 1964, the Employee Retirement Income Security Act, and workers' compensation. As part of their course work, students examine workplace issues such as affirmative action, sexual harassment, and various discrimination topics. Critical analysis of employment issues will be conducted to assist students in understanding the legal framework in which management decisions are made.
Prerequisite: LA3100/MT2050
Delivery: on campus and online

MT3250/PS3250 - Organizational Behavior - 4.5 Credits
This course investigates the behavior of people within organizations for the purpose of applying such knowledge toward improving an organization's effectiveness. Three levels of behavior are studied: individual, individuals within a group, and inter-group behavior within organizations.
Prerequisites: MT2050/EN1300
Delivery: on campus and online

MT3300 - Supervision - 4.5 Credits
This course focuses on the art of empowering and developing people. It provides a thorough review of the supervisory management functions of planning, organizing, leading and controlling while addressing such contemporary issues as the quest for quality, team building, coaching, group dynamics, facilitation skills, and managing human resources and diversity.
Prerequisite: MT2050
Delivery: on campus and online

MT3450/PS3450 - International Relations - 4.5 Credits
This course addresses selected topics in the field of international relations. Students will analyze important historical events, the nature of power politics, tools of foreign policy, international trade dimensions, along with current issues and ethical considerations implicit in the field. Through a guided examination and reflection of such topics, students will become better informed citizens in a world that is becoming ever more globalized.
Delivery: on campus and online

MT3470/PL3470 - Bankruptcy - 4.5 Credits
See PL3470

MT3500/Ci3510 - Managing Information Systems - 4.5 Credits
Information systems (IS) have become powerful and indispensable tools of modern business. This course presents fundamental principles of IS from a business management perspective with emphasis on principles that a manager will find of particular use, such as those related to data management, e-commerce and current trends in the use of information technology.
Prerequisite: MT2050
Delivery: on campus and online

MT3600 - Strategic Entrepreneurship - 4.5 Credits
In this course, students investigate the entrepreneurial process and the role of entrepreneurship in the economy. Case study analysis will be integral to this investigation and topics will include entrepreneurial strategy, entrepreneurial marketing, the start-up process, and the importance of solid pro-forma financial statements.
Prerequisite: MT2100
Delivery: on campus

MT3650 - Business Plan Development - 4.5 Credits
In successfully launching a new business venture, the business plan plays a crucial role. This course closely examines the steps of the business planning process and guides students in conducting a feasibility analysis and developing a thorough plan for a prospective business venture.
Prerequisite: Students in the Small Business Management AAS program must complete all Major Core courses before taking this course; for students in the Business Administration Bachelor of Science Degree with Emphasis in Entrepreneurship, the prerequisite for this course is MT3600.
Delivery: on campus

MT3700D - Introduction to CIIM - 4.5 Credits
This course describes the CIIM approach to integrated process excellence and how to overcome the limitations of traditional Configuration Management and independent business practices. The change process is fast and efficient using the CIIM model because the information being changed is properly identified, structured, linked and owned. Completion of this course with a grade of C or better fulfills part of the requirement for CIIMB Certification.
Prerequisite: MT2050
Delivery: on campus and online

MT3710D - CIIM Change Process - 4.5 Credits
This course focuses on identification, physical item hierarchies, development, project planning, life cycle phases and business processes. The CIIM closed-loop and fast-track change process is also extensively covered. The roles of the Change Specialist, Change Review Board and Change Implementation Board are discussed. Completion of this course with a grade of C or better fulfills part of the requirements for CIIMB Certification.
Prerequisite: MT3700D
Delivery: online
MT4050 - Training and Development - 4.5 Credits
The focus of this course is on training and development (T&D), one of the eight processes in the human resources field. The class will provide an overview of the role of Human Resource Development (HRD) in the organization. Various elements of T&D will be examined as elements of a training program.
Prerequisite: MT3050
Delivery: on campus and online

MT4140 - Innovation, Creativity, and New Product Development - 4.5 Credits
This course examines innovation from multiple perspectives (including organizational and technological) and at both the macro and micro levels. Topics include the various types of innovation, leading models of innovation, and the concept of innovation as it relates to competitive advantage.
Prerequisite: MT3600
Delivery: on campus

MT4150/SO4150 - Business and Society - 4.5 Credits
This course is a program of study for understanding the pressures that interest groups in society place upon business organizations. Topics covered will include population growth, urban problems, minorities, air pollution, social responsibilities of businesses, and business ethics.
Prerequisite: MT2050
Delivery: on campus and online

MT4200 - Business Ethics - 4.5 Credits
This course exposes the student to both sides of past and present ethical dilemmas facing the world. Course content includes an overview of individual ethical development, ethical issues in business today, the opportunity and conflict of ethical issues, an ethical decision-making framework, and the development of an effective ethics program in a corporation.
Prerequisite: MT2050/EN1300
Delivery: on campus and online

MT4210 - Quantitative Analysis - 4.5 Credits
This is an introductory study of decision-making and planning through the use of decision trees, expected monetary value, linear programming, inventory control, and queuing theory.
Prerequisite: MA3000/MA2050
Delivery: on campus and online

MT4230/CI4220 - Project Management - 4.5 Credits
See CI4220

MT4240 - International Entrepreneurship - 4.5 Credits
This course explores the opportunities of entering today's global market from the international entrepreneurship perspective. International Entrepreneurship combines theoretical, scenario-based, and real-world application to expose the student to concepts, principles, and skills that are crucial to building and running a successful international business. Topics discussed include international entrepreneurship and entrepreneurship opportunities, entering the global market, and managing the global entrepreneurship enterprise.
Prerequisite: MT3600

MT4300 - Management Across Cultures - 4.5 Credits
This course provides students with a sense of the diversity of cultures and business practices throughout the world. The course enables students to focus on dynamic management issues in both foreign and diverse domestic environments. Major topic areas include international business management, cross-cultural communication, negotiation and decision-making skills, ethics and social responsibility, strategy formulation and implementation, global organizational skills, and staffing and training for global operations.
Prerequisite: MT3250/EN1300
Delivery: on campus and online

MT4420 - Strategic Human Resource Management - 4.5 Credits
This course provides a comprehensive review and integration of human resource management topics from a strategic perspective. Students will study the structure and conceptual model for strategic human resource practice and the implementation of human resource programs and policies using strategic approaches in order to attract, maintain and develop an effective workforce.
Prerequisite: MT3080/MT3100/MT3230/MT4050/MT4300
Delivery: on campus and online

MT4440 - Business Management Review - 3 Credits
This course provides a comprehensive review of business-related topics to include management, marketing, business ethics and social responsibility, accounting, economics, business law, finance, business analysis, and international issues. A comprehensive examination over these topics will constitute a significant portion of the student's final course grade. Lecture and lab activities are included in this course. (2.0 hours lecture and 2.0 hours lab/week on campus).
Prerequisite: For Business Administration Students: AC1260, EC2050, EC2100, FN3000, LA3100, MG1050, MT2050, MT3000, MT3050, MT3250, MT3500, MT4200, MT4210, OM3000, and Sr. status.
For Applied Management Students: AC1160, EC2050, EC2100, FN3000, LA3100, MG1050, MT2050, MT3050, MT3250, MT3500, MT4200, MT4300, OM3000, and Sr. status.
Delivery: on campus and online

MT4450 - Strategic Management - 4.5 Credits
This course provides practical training for the senior-level business student to develop an understanding and knowledge of strategic management as a tool for long-term business success. The course will develop skills in analyzing the various functions and contributions of the organization's component parts, and how they may be used in making strategic decisions. Students will create strategy by means of written case analyses.
Prerequisite: Senior status/MT4440
Delivery: on campus and online

MT4500-4540 - Management Internship - 4.5-13.5 Credits
The purpose of this internship is to give the student experience in applying what he or she has learned in the classroom by
working in a business environment. The student's responsibility is agreed upon in advance by the student's advisor, the business entity, and the student. Successful completion requires a written report by the student detailing the experience gained during the internship, and successful completion of the projects assigned by the business supervisor(s). The student receives either a "pass" or "fail" grade.

Prerequisite: Advisor approval with senior status
Delivery: on campus

MT4501 - Human Resource Management Internship - 4.5 Credits
The human resource management internship is designed to allow students to obtain experience in an approved human resource management setting through the application of concepts and theories learned in the classroom. Successful completion requires a written report, detailing the experience gained during the internship, and successful completion of the projects assigned by the internship supervisor.
Prerequisite: MT4420 may be taken concurrently with MT4420
Delivery: on campus and online

MT4505 - Human Resource Management Action Research Project - 4.5 Credits
The course combines experience working on a human resources management project, writing a senior-level thesis, and presenting the project. Learners will demonstrate critical, analytical, and interpretive skills in their project and thesis.
Prerequisite: MT4420
Delivery: on campus and online

MT1900-4990 - Special Topics in Management - 1-4.5 Credits
Topics will vary depending on the interests of the instructor and students.
Prerequisite: Permission of the Academic Dean
Delivery: on campus

NURSING (NS)

NS1020 - Health Assessment - 2 Credits
This course introduces the associate degree nursing student to the principles and psychomotor skills necessary to provide holistic and culturally congruent health and physical assessments for clients across the lifespan, with the focus on adults and older adults, in a variety of community and acute care settings. Health promotion and maintenance principles are incorporated throughout this course. Emphasis is placed on the nursing process, critical thinking skills and psychosocial and cultural care in collecting and documenting the health and physical assessment data for clients. Students are provided faculty-guided theory and laboratory experiences as well as faculty-supervised open laboratory time in order to develop competence and confidence in the performance of health and physical assessments. (Theory - 10 hours; Lab - 20 hours)
Prerequisite: EN1150, MA1500 or MA2050, SC1232, SC1332, SC1422
Delivery: on campus

NS1030 - Foundations of Nursing Practice - 8 Credits
This course introduces the associate degree nursing student to the principles and psychomotor skills necessary to provide holistic and culturally congruent nursing care for clients across the lifespan, with the focus on adults and older adults, in a variety of community and acute care settings. Health promotion and maintenance principles are incorporated throughout this course. Emphasis is placed on the nursing process, critical thinking skills, and psychosocial and cultural care in providing client care. Students are provided faculty-guided theory and laboratory experiences as well as faculty-supervised open laboratory time in order to develop competence and confidence in the performance of nursing skills.
Prerequisite: SC1201, SC1370, NS1010, NS1020
NS1030 and NS1031 must be taken concurrently.
Delivery: on campus

NS1031 - Foundations of Nursing Practice Clinical - 2 Credits
This course provides the associate degree nursing student an introduction to an actual healthcare environment and the opportunity to implement the principles and psychomotor skills learned in previous and concurrent courses. Health promotion and maintenance principles are an integral component of nursing care. The learner has the opportunity to provide holistic and culturally congruent nursing care for adults and older adults in a long-term care setting. Emphasis is placed on the application of nursing skills including the nursing process, psychosocial and culturally congruent client relationships, clinical judgment, communication and documentation, health and physical assessment, and basic and advanced nursing procedures. Students are provided faculty-guided and supervised clinical experiences in order to develop competence and confidence in the providing direct client care.
Prerequisite: SC1201, SC1370, NS1010, NS1020
NS1030 and NS1031 must be taken concurrently.
Delivery: on campus
NS1040 - Pharmacology I - 4 Credits
Introduces the associate degree nursing student to the concepts and techniques of dosage calculation and medication administration by a variety of techniques. Students will apply critical thinking skills to the calculation and administration of medications. Through use of the nursing process, students are introduced to the basic concepts of pharmacology related to actions, therapeutic and adverse effects and interactions of drugs/herbs. The course covers basic pharmacology of commonly used medications using a body systems approach with emphasis placed on therapeutic interventions and client education to clients across the lifespan. Emphasis will be placed on the importance of communication to the safe and competent administration of pharmacological agents.
Prerequisite: SC1201, SC1370, NS1010, NS1020
Delivery: on campus

NS1050 - Adult Health Needs I - 4 Credits
This course will focus on the role of the professional nurse in application of the nursing process to meet the holistic healthcare needs of clients throughout the adult and older adult years. Emphasis is placed on nursing and pharmacological interventions in the care of clients with acute and chronic health conditions across the health-illness continuum in acute and long-term care settings. The course focuses on the concepts of pain management, fluid and electrolyte balance, perioperative care, care of the client with cancer, death and dying, infection and inflammation, and shock syndromes. Disorders of the musculoskeletal, integumentary, respiratory, and reproductive systems are presented. Health promotion, health maintenance, and illness prevention concepts will be linked with caring and cultural congruent care.
Prerequisite: NS1030, NS1031, NS1040
NS1050 and NS1051 must be taken concurrently.
Delivery: on campus

NS1051 - Adult Health Needs I Clinical - 5 Credits
This course provides the associate degree nursing student with the opportunity to incorporate medical/surgical nursing concepts and care in a healthcare environment, and the opportunity to implement the principles and psychomotor skills learned in previous and concurrent courses. Health promotion and maintenance principles are an integral component of nursing care. The learner will provide holistic and culturally congruent nursing care for adults and older adults in acute and subacute care settings. Emphasis is placed on the competent application of nursing care and skills for medically/surgically complex clients utilizing and implementing the nursing process, psychosocial and culturally congruent client relationships, clinical judgment, communication and documentation, health and physical assessment, and advanced nursing procedures. Students are provided faculty-guided and supervised clinical experiences in order to develop competence and confidence in providing direct client care.
Prerequisite: NS1030, NS1031, NS1040
NS1050 and NS1051 must be taken concurrently.
Delivery: on campus

NS2011 - Maternal/Child Nursing - 6 Credits
This course focuses on the role of the professional nurse in meeting the holistic health needs of the childbearing family. The nursing process is utilized to identify and meet the needs of the childbearing family and to provide family-centered psychosocial and culturally sensitive care. An overview of pediatric nursing with emphasis on the well-child and care of the hospitalized child is included. Concepts of pharmacology specific to the pediatric and maternity client will be presented.
Prerequisite: SO1050 or PS1050, NS2031, NS2032
NS2011 and NS2012 must be taken concurrently.
Delivery: on campus

NS2012 - Maternal/Child Nursing Clinical - 3 Credits
This course provides the associate degree nursing student with the opportunity to incorporate maternal/newborn and pediatric nursing care concepts in various healthcare environments. It affords the student an opportunity to implement the principles and psychomotor skills learned in the previous and concurrent courses. Health promotion and maintenance principles are an integral component of nursing care. The student will provide holistic, culturally congruent nursing care to the childbearing family. Emphasis is placed on the competent application of nursing care skills and principles to the childbearing family as the client, utilizing and implementing the nursing process. Communication, clinical judgment, therapeutic client relationships, documentation and health and physical assessment will be coupled with advanced nursing procedures. Students are provided faculty-guided and supervised clinical experiences in maternal, newborn and pediatric setting in order to develop competence and confidence in providing care to the childbearing family.
Prerequisite: SO1050 or PS1050, NS2031, NS2032
NS2011 and NS2012 must be taken concurrently.
Delivery: on campus

NS2021 - Mental Health Needs of Clients and Families - 3 Credits
This course introduces mental health concepts, selected common psychiatric disorders, treatment modalities, and related nursing care of clients and their families. Students will use communication and caring through the application of the therapeutic relationship in caring for and treating clients and families with common clinical conditions and disorders. Students will utilize the nursing process to assess and plan for the culturally sensitive care of clients and families. The professional nursing student will develop a teaching plan for a single psychoactive medication during the course, and gain knowledge of common psychoactive medications use in the treatment of clients.
Prerequisite: EN1150, SO1050 or PS1050, NS2031, NS2032
NS2021 and NS2022 must be taken concurrently.
Delivery: on campus

NS2022 - Mental Health Needs of Clients and Families Clinical - 2 Credits
This course provides the associate degree nursing student with the opportunity to develop interpersonal skills for caring for clients, across the lifespan, who may be encountering difficulties in the perceptual or behavioral spheres. Students
will develop culturally sensitive care plans using nursing process to meet the needs of the mental health client and the family. The professional nursing student will develop a teaching plan around client diagnosis or treatment and share with the client using therapeutic communication. The student will be able to assess the client and the environment for safety issues which may impair the provision of a therapeutic milieu. The student will integrate nursing care that considers dignity, worth, uniqueness, and the rights of individual clients and families. Students are provided faculty-guided and supervised clinical experiences in order to develop competence and confidence in the providing direct client care. Prerequisite: SO1050 or PS1050, NS2031, NS2032
NS2021 and NS2022 must be taken concurrently. Delivery: on campus

NS2031 - Adult Health Needs II - 4 Credits
This course focuses on the role of the professional nurse in applying the nursing process to meet the holistic health needs of clients throughout the adult and older adult years. Emphasis is placed on nursing and pharmacological interventions in the care of client’s with acute and chronic health conditions across the health-illness continuum in acute care settings. Disorders of the neurological, cardiovascular, blood, lymphatic, immune, endocrine, gastrointestinal, renal and urinary systems, and the special senses are presented. Health promotion, health maintenance, and illness prevention concepts will be linked with caring and cultural congruence. Prerequisites: PS2000, NS1050, NS1051
NS2031 and NS2032 must be taken concurrently. Delivery: on campus

NS2032 - Adult Health Needs II Clinical - 7 Credits
This course provides the associate degree nursing student with the opportunity to incorporate advanced medical/surgical nursing concepts and care in a healthcare environment for complex and potentially medically unstable adult and older adult clients. The student will implement the principles and psychomotor skills learned in previous and concurrent courses, and manage health promotion and maintenance for assigned clients. The learner will provide holistic and culturally congruent nursing care with emphasis on the discriminating management of nursing care, implementation of the nursing process, psychosocial and culturally congruent client relationships, clinical judgment, communication and documentation, health and physical assessment, and advanced nursing procedures in acute and subacute care settings. Students are provided faculty-guided and supervised clinical experiences in order to develop competence and confidence in providing direct client care. Prerequisites: PS2000, NS1050, NS1051
NS2031 and NS2032 must be taken concurrently. Delivery: on campus

NS2040 - Pharmacology II - 1 Credit
This course is designed to be a lab experience allowing the student to demonstrate assessment, clinical judgment, and integration of knowledge to care for clients with complex disease management and pharmacological interventions. The course is designed to be a lab experience utilizing human simulation to provide complex physiological and pharmacological scenarios. Emphasis is placed on accurate assessment of data, selected pharmacological interventions, outcomes evaluation, and documentation. Prerequisite: NS2011, NS2012, NS2021, NS2022
Delivery: on campus

NS3011 - Complex Adult Health Needs - 5 Credits
This course challenges the associate degree nursing student to integrate and synthesize the knowledge gained in all previous courses to be applied to the adult and older adult client with co-morbidities of both acute and chronic health needs. Emphasis is placed on the management of clients with chronic illness that is complicated by an exacerbation or an acute illness, clients with compromised verbal abilities, clients requiring mechanical ventilation, and clients with multi-system failure. The course also presents the student with the challenges of planning, implementing and evaluating care for the client with altered sensorium and/or cognition. Prerequisite: NS2011, NS2012, NS2021, NS2022
NS3011 and NS3012 must be taken concurrently. Delivery: on campus

NS3012 - Complex Adult Health Needs Clinical - 6 Credits
This clinical course provides the associate degree nursing student the opportunity to integrate all the components of the professional nursing role in acute-care and subacute settings. The student will demonstrate leadership, management and culturally congruent care, and skill to care for clients with diverse and complex needs across the lifespan. Students will have the opportunity to demonstrate synthesis of clinical competence and clinical judgment, and respond to complex and emergent client health needs. Students will have the opportunity to organize and prioritize care needs of multiple clients and justify the care of assigned clients. Students are provided faculty-guided and supervised clinical experiences in enhancing clinical judgment and in providing direct client care. Prerequisite: NS2011, NS2012, NS2021, NS2022
NS3011 and NS3012 must be taken concurrently. Delivery: on campus

NS3026D - Concepts and Challenges in Professional Nursing - 3 Credits
This course is designed to facilitate role understanding and socialization into professional nursing. This course introduces concepts to be explored in further depth in the program, including social context for nursing, nursing roles in the healthcare delivery system, nurses and political action, and nursing's future challenges. Delivery: online

NS3050D - Pathophysiology in Practice - 4 Credits
The focus of this course is on the mechanisms and clinical manifestations of high-volume and high-risk diseases/conditions common across the variety of nurse practice settings. Learners will explore the impact of episodic and chronic health challenges from a holistic individual, family, and community cultural perspective. This knowledge will be applied to the nurse's role in management of disease,
injury, and health restoration within a caring and culturally sensitive context.
Prerequisite: prior A&P course(s)
Delivery: online

NS3225D - Nursing Theory and Healthcare Delivery Models - 4 Credits
This course will utilize Leininger’s theory on Culture Care as a framework for introducing the learner to the paradigms, theories, values, concepts, and phenomenon of interest in the discipline of nursing. Learners will explore the relationships between theory, research, and practice. Additionally, learners will explore the U.S. healthcare delivery system, healthcare economics, the political process and its impact on the health of individuals, families, and communities. Within this framework the learner will examine the impact of cultural, social, and ethnic diversity on the delivery of health care and develop strategies for addressing healthcare issues utilizing the political process.
Delivery: online

NS3250D - Ethics and Issues in Contemporary Nursing - 4 Credits
This course explores the theories, models, and principles that serve as guides for ethically sound behavior within a nursing context. The course addresses the complexities created by science and technological advances, increasing cultural diversity, the variety of settings where nurses practice, and emphasizes the importance of principled behavior in personal and professional situations.
Delivery: online

NS3305D - Evidence-Based Practice and Research in Nursing - 6 Credits
This online course will provide a foundation for research and evidence-based nursing practice. The course will assist learners to understand, critique, and apply nursing research in providing holistic care to individuals, families, and communities across the continuum of cultures. Learners will develop basic skills to interpret and apply research and evidence to all scopes of nursing practice.
Prerequisite: NS3026D, MA3000, EN1300
Delivery: online

NS3315 - LPN to RN Transition - 4.5 Credits
This course is designed to assist the licensed practical/vocational nurse to transition to the role of the baccalaureate degree nurse. The focus is on the core competencies of critical thinking, therapeutic communication, assessment, and technical skill that progressive personal and professional role development of the beginning baccalaureate nurse. Nursing theory, professional values, legalities, and ethics are introduced. Nursing roles will be further explored: designer, coordinator, manager of care; mandatory reporter; advocate, change agent, educator, and member of a profession. Students are provided faculty guided theory and laboratory experiences in order to develop competence and confidence in the performance of health history and physical assessments across the lifespan.
Prerequisite: Admission to the nursing clinical core
Delivery: on campus

NS3320D - Pathophysiologic Concepts I - 4 Credits
This online course introduces the concepts of pathophysiologic processes underlying disease states across the lifespan and human responses to those processes. As a basis for beginning nursing practice, students will link manifestations, diagnostic studies, complications, and disease management to specific disease states and pathologic processes. The focus is on specific processes involving stress response, immune function, cellular proliferation, fluid and electrolyte balance, acid-base imbalance, and selected body system disorders including renal, gastrointestinal, liver/biliary, endocrine, hematologic, integumentary, genitourinary, and reproductive.
Prerequisites: SC1232, SC1332
Delivery: online

NS3321D - Holistic Health Assessment - 4 Credits
This online course introduces the nursing student to the principles and psychomotor skills necessary to provide holistic and culturally congruent health and physical assessments for clients across the lifespan. Health promotion and maintenance principles are incorporated throughout this course. Emphasis is placed on use of the Nursing Process, critical thinking skills, and holistic and cultural appropriate care in collecting and documenting the health history and physical assessment data for client’s health experience. Students are provided faculty guided theory and interactive experiences in order to develop competence and confidence in the performance of health history and physical assessments across the lifespan.
Prerequisites: Admission to the nursing clinical core
Delivery: online

NS3325 - Introduction to Professional Nursing Practice - 3 Credits
Beginning with a brief historical overview of nursing, nursing is defined in its past, present, and future roles. Nursing theory, professional values, legalities, and ethics are introduced. The scope of practice of the professional nurse, as well as standards of professional practice will be explored. The core tenets of caring and healing are central to the practice of a professional nurse. Nursing literature will be introduced and the student will begin to explore nursing theory and the evidence base of the discipline.
Prerequisites: Admission to the nursing clinical core
Delivery: on campus

NS3326D - Professional Role Development - 2 Credits
This course focuses on the core competencies of critical thinking, therapeutic communication, assessment, and technical skill and the progressive, personal, and professional role development of the beginning baccalaureate nurse. A review of educational paths in nursing leads the student into an exploration of the multiple roles, responsibilities, and requisite skills of the nurse today and in the future. The emphasis will be on the role development as provider of direct and indirect care to individuals, families, groups, communities, and populations throughout the lifespan. Nursing roles will be further explored: designer, coordinator, manager of care, mandatory reporter, advocate, change agent, educator, and member of a profession.
Prerequisites: Admission to the nursing clinical core
Delivery: online

NS3330 - Foundations of Holistic Nursing - 7 Credits
This course focuses on the role of the professional nurse in using therapeutic communication, maintaining professional boundaries and giving, translating, or transmitting health information to meet the holistic health needs of the client and their family. Health promotion and maintenance principles are incorporated throughout this course, as applied to self health and client health practices. Students will learn to apply growth and development theory, access research about risk factors in illness prevention, and work with clients in a culturally-sensitive manner. Family nursing theory is applied throughout the health experience. In addition, teaching/learning theory and psychosocial health concepts will be applied to individuals, families, and communities.
Delivery: on campus

NS3331 - Foundations of Holistic Nursing Clinical - 3 Credits
This clinical course introduces the nursing student to the importance of therapeutic communication and professional relationships. This clinical course focuses on the role of the professional nurse in assessing and meeting the holistic health needs of the client and their family. Family nursing theory is applied throughout the health experience. Students will complete a teaching/learning project, a comprehensive physical assessment, a comprehensive social assessment, a communication project, and a family nursing intervention to meet the needs and desires of the client and their family unit.
Delivery: on campus

NS3340D - Pathophysiologic Concepts II - 4 Credits
This online course builds on previous concepts of pathophysiologic processes underlying disease states across the lifespan. As a basis for beginning nursing practice, students will apply what they have learned in NS3320D to further their knowledge and to link manifestations, diagnostic studies, complications, and disease management to specific disease states and pathologic processes. The focus is on specific pathologic processes involving selected body system disorders with the emphasis on the respiratory, cardiovascular, peripheral vascular, neuropsychiatry, neurologic, sensory and musculoskeletal systems, and multiple interacting systems/multi organ dysfunction.
Prerequisites: NS3320D
Delivery: online

NS3343 - Holistic Nursing Care in Chronic Illness I - 6 Credits
This course will focus on the role of the professional nurse in application of the nursing process to meet the holistic healthcare needs of clients with chronic health conditions throughout the lifespan. Family-centered nursing interventions will be used to promote and maintain health and prevent disease complications for families. Developmental theories will be introduced, and family stress and adaptation theories reinforced. Emphasis is placed on physiologic alterations and nursing actions that incorporate play, pharmacological interventions, and medical treatments in the care of clients with chronic health conditions. Chronic illness theory and related concepts that impact the disease trajectory will be explored.
Delivery: on campus

NS3345 - Holistic Nursing Care in Chronic Illness I Clinical - 4 Credits
This clinical course will focus on the client and family experiencing chronic health conditions. Nursing students will apply the nursing process and utilize family theory to guide nursing actions that promote health and prevent disease for families with chronically ill family members. Students will appropriately communicate and engage in direct and indirect care of clients with chronic illness in a variety of healthcare settings. The physiologic and psychosocial needs and desires associated with chronic illness will be examined.
Delivery: on campus

NS3346D - Pharmacology for Nurses - 4 Credits
This course provides the theoretical background that enables the student to provide safe and effective nursing care related to medications or herbal/natural products to persons across the lifespan. Students will learn to base clinical decisions in the context of nursing by using current, evidence based information and through the understanding of pharmacokinetics and pharmacodynamics. Developmental and physiological considerations across the lifespan and diverse populations as associated with drug therapy will be incorporated. Students will learn to monitor and evaluate the effectiveness of drug therapy, the reduction of adverse effects, and appropriate teaching methods.
Delivery: online

NS3360 - Holistic Nursing Care in Acute Illness I - 7 Credits
This course focuses on the foundational concepts, principles, and techniques of beginning and intermediate psychomotor skills necessary to provide holistic and culturally congruent nursing care for clients in the acute, sub-acute, and long-term care setting in order to promote physical restoration, maintenance or independence. Emphasis is placed on the management and adaptation of clients with acute illness or exacerbations of chronic illness. Students will learn to provide physical nursing care, and to perform delegated medical treatments.
Delivery: on campus

NS3361 - Holistic Nursing Care in Acute Illness I Clinical - 3 Credits
This clinical course builds on the foundational concepts and psychomotor skills necessary to provide holistic and culturally congruent nursing care for adult clients in the acute, sub-acute, and long-term care setting. Emphasis is placed on learning the nursing actions necessary to manage clients with acute signs, symptoms, disease, and illness trajectories in the acute care setting. Clinical practice guidelines, standard policy and procedures will inform the students' nursing practice. Students will learn to provide direct nursing care and perform delegated medical treatments such as medication administration, IV therapy, wound care, oxygen therapy, sterile technique, and surgical care. Students will collect and interpret data to provide client and family-centered care.
Delivery: on campus
NS4000D - Issues in Transcultural Nursing - 4 Credits
This course is designed to assist students to explore and analyze cultural values, beliefs, attitudes, and patterned life ways of themselves, clients, and other members of the community. Learners will describe examples of varying healthcare practices in populations. Utilizing culture care knowledge and methodologies, learners will develop a culturally-congruent nursing care plan that meets the holistic needs of a simulated client and family.
Prerequisite: EN1300
Delivery: online

NS4043 - Holistic Nursing Care of the Community - 6 Credits
This course is intended to prepare nurses in the practice of community and public health nursing. This course will meet the entry level population-based public health nursing competencies. Students will be introduced to the basic public health nursing knowledge base and personal characteristics that contribute to effective nursing practice in the community health setting. Mental health needs of communities, systems, individuals, and families will be incorporated in this course.
Prerequisite: EN1300
Delivery: on campus

NS4045 - Holistic Nursing Care of the Community Clinical - 2 Credits
This clinical course is intended to prepare nurses in the practice of community and public health nursing. Students will have clinical experiences with communities, systems, individuals, and families; with some exposure to home visiting during this educational experience. Each clinical experience has the potential to satisfy a variety of entry level population-based Public Health Nursing competencies. Mental health needs of communities, systems, individuals, and families will be incorporated in a variety of clinical settings.
Delivery: on campus

NS4050D - Public Health and Community Nursing - 6 Credits
This course introduces the student to the concept of population focused nursing practice. Public health, public health nursing, and community nursing are examined from a local, national, and international perspective.
Prerequisite: NS3305D, NS4000D
Delivery: online

NS4060D - Caring for Vulnerable Populations - 4 Credits
This course builds on Public Health and Community Nursing and focuses specifically on vulnerable populations. Perspectives on vulnerability, epidemiology of vulnerability, factors contributing to vulnerability, and outcomes of vulnerability are explored. Assessment, planning and implementation, evaluation of care, and strategies for improving the health and wellness of vulnerable populations are developed using an epidemiological and culturally competent approach.
Prerequisites for Online RN to BSN: EN1300, NS4050D
Prerequisites for Generic BSN: EN1300, NS4043
Delivery: online

NS4143 - Holistic Nursing Care in Acute Illness II and End of Life - 6 Credits
This course challenges the student to synthesize the multifaceted nursing roles associated with providing safe and effective care to complex patients in the emergent and/or acute care setting. Students will focus on the multiple dimensions of patient-centered care that promotes psychosocial and physiologic integrity of the client. The emphasis of this course will be focused on the ability of the student to synthesize knowledge from nursing, the arts and sciences in the holistic practice of professional nursing. Students will learn to provide psychosocial, physical, and end of life nursing care and to perform delegated medical treatments in the emergent and/or acute care setting.
Delivery: on campus

NS4145 - Holistic Nursing Care in Acute Illness II and End of Life Clinical - 4 Credits
This course challenges the professional nursing student to integrate and synthesize the knowledge gained in the previous acute care nursing course to be applied to clients throughout the lifespan. Students will learn to care for complex multi-system conditions in the acute care setting. The student will be challenged to apply and synthesize the nursing process and the health experience of the client and their family including end of life care. Students will be exposed to a multidisciplinary approach to providing care to emergent and/or complex acute clients. Students are expected to become proficient with diagnostic tests and procedures.
Delivery: on campus

NS4150D - Information Technology in Nursing - 4 Credits
This course provides learners with knowledge about IT systems used in hospitals and healthcare agencies and applications to improve nursing delivery of safe patient-centered care. Concepts include a survey of the types of systems currently in use and in development, environmental assessment to determine system needs, implementation and staff education strategies, system cost-benefit determination, and system evaluation. Learners will discuss both the advantages and concerns associated with ongoing changes in information technology.
Delivery: online

NS4155D - Public Health and Community Nursing Clinical - 2 Credits
This course introduces the student to population based clinical experience with a focus on meeting the health needs of a community as a whole. The student will assess a community in relation to a Healthy People 2010 health objective. Evidence based public health nursing interventions will be developed based on barriers and assets within a community. Measurable health indicators will be developed as a means of evaluating their success in meeting the goals identified for the chosen population. Community partners are identified that are essential for promoting health within a population.
Prerequisite: NS4050D
Delivery: online
NS4210D - Research and Evidence-Based Practice - 4 Credits
This online course emphasizes the scientific inquiry behind the discipline of nursing. Empiric knowledge and evidence-based practice methods will be introduced. Quantitative and qualitative research processes along with outcomes research will be incorporated throughout the course. The method of integrated research reviews will be utilized to build an evidence-based practice and assist in the preparation for future graduate-level studies.
Prerequisite: MA3000, EN1300
Delivery: online

NS4243 - Holistic Nursing Care in Chronic Illness II and End of Life - 6 Credits
This course focuses on the role of the professional nurse in applying the nursing process to meet the holistic health needs of clients throughout the lifespan. Emphasis is placed on nursing interventions in the care of client’s with chronic health conditions across the health-illness continuum and end of life care. Geriatric and end of life competencies will be discussed throughout the course.
Delivery: on campus

NS4245 - Holistic Nursing Care in Chronic Illness II and End of Life Clinical - 4 Credits
This clinical course focuses on the role of the professional nurse in applying the nursing process to meet the holistic health needs of clients throughout the lifespan. Emphasis is placed on nursing interventions in the care of clients with chronic health conditions across the health-illness continuum and end of life care. Geriatric and end of life competencies, psychosocial and physiologic integrity nursing strategies and safe and effective care environments will be demonstrated in the clinical setting. The student will further explore the concepts of supervision and delegation of healthcare personnel in the healthcare setting.
Delivery: on campus

NS4300 - Concept Integration for the Professional Nursing Role I - 5 Credits
This integrative concept course enhances the student’s understanding of the complex roles professional nurses must fulfill in a focus area. This course will assist with the difficult transition of the nursing student into the professional practice role of a graduate nurse. This course will include experiences similar to those students are likely to confront as newly employed BSN-prepared registered nurses. The supervised clinical or preceptored experience supports the role transformation of students and promotes clinical competence at the BSN preparation level. Students will practice the essential role development skills of communication, collaboration, negotiation, delegation, coordination, and evaluation of interdisciplinary work to enhance patient safety and quality care. Students will apply the principles of leadership and management in a specific practice area of nursing. Test-taking strategies and implementation of a personalized plan of study to assist in preparing students for NCLEX-RN® success will be emphasized.
Delivery: on campus

NS4350D - Qualify Management in Nursing and Health Care - 4 Credits
This course provides a multidisciplinary approach to quality management. The learner will gain an understanding of the historical and theoretical evolution of quality management, national quality standards, customer satisfaction and cost, issues in quality care, various methods of collecting and managing quality data, and applying evidenced based practice to healthcare systems to improve quality outcomes.
Prerequisite: EN1300
Delivery: online

NS4400D - Leadership and Management in Nursing - 6 Credits
This course introduces students to the principles of leadership and management in the practice of nursing. Students explore associated issues and their effect on nursing practice. Concepts related to change, communication, conflict, and financial management will be presented. Students will gain understanding of organizational theories, key skills in nursing and human resource management, strategic planning, participatory thinking, and shared vision.
Prerequisite: Online RN to BSN: EN1300, NS3225D, NS3305D, NS4150D; Generic BSN: All 3000-level nursing courses and EN1300
Delivery: online

OFFICE (OF)

OF1010 - Office Accounting - 4 Credits
This course is designed to introduce the student to basic accounting procedures. This course instructs the management of financial records, collection and billing procedures, the basic accounting cycle, payroll writing and withholding taxes, and banking procedures. The course also provides examples of these skills in specific office settings.
Delivery: on campus
ORGANIZATIONAL LEADERSHIP (OL)

OL3100 - Principles of Organizational Leadership - 4.5 Credits
Leadership has been a key topic in many management courses, and in recent years, it has been recognized that effective leadership is required to meet organizational challenges. This course will help students gain insight and learn necessary skills to enhance their leadership abilities.
Delivery: on campus and online

OL4100 - Organizational Culture and Leadership - 4.5 Credits
Culture in organizational settings is complex and diverse. This course will address culture at the national, industrial, organizational, and sub-organizational levels.
Prerequisite: OL3100
Delivery: on campus and online

OL4200 - Learning Organizations - 4.5 Credits
Competition and globalization require an organization’s leaders to think creatively and learn adeptly to ensure business survival. A learning culture is used strategically to help a company remain competitive within complex operating environments. This course discusses the driving forces that encourage the development of learning organizations and the necessary elements to create them. How organizational leaders strategically develop and sustain these elements is also presented.
Prerequisite: OL3100
Delivery: on campus and online

OL4300 - Organizational Development and Change - 4.5 Credits
Change is an inevitable part of life, and organizations must be able to anticipate and understand change in order to remain competitive. In this course, students will learn to use specific processes and techniques to implement planned change interventions in organizations to maximize effectiveness. Developing the individual, work teams, and the organization as a whole are also addressed.
Prerequisite: OL3100
Delivery: on campus and online

OL4500 - Action Research I - 2 Credits
Research is important in today's business environment and the successful organizational leader must be able to conduct organizational research. This course is part one of a two-part course series. Students will first learn about the principles and processes involved in action research. Then, after formulating an action research plan for a specific organizational issue, students will begin to gather data in preparation for further steps that will be taken in Action Research II to bring the project to completion.
Prerequisite: MT4200/MT4300/OL3100/OL4100/OL4200/OL4300
Delivery: on campus and online

OL4550 - Action Research II - 2 Credits
This course continues the study of action research. After conducting preliminary research in OL4500 Action Research I, students will analyze data findings, make specific recommendations based on the analysis, and produce a written research report detailing their action research project. Finally, students will create a PowerPoint presentation that highlights the central elements of their action research project.
Prerequisite: OL4500 and EN1300
Delivery: on campus and online

OL1900-4990 - Special Topics in Organizational Leadership - 1-4.5 Credits
Topics will vary depending on the interests of the instructor and students.
Prerequisite: Permission of the Academic Dean
Delivery: on campus

OPERATIONS MANAGEMENT (OM)

OM1000D - Introduction to Business Logistics - 4.5 Credits
This course introduces students to the many dimensions of logistics. Students will begin to explore the elements of the logistics system, including demand management, order management, inventory management, warehousing management, and transportation management. Supply chain management concepts, international logistics, and career opportunities in the logistics field are also addressed.
Prerequisite: MT2050
Delivery: online

OM2100D - Logistics and Transportation Management - 4.5 Credits
This course introduces students to the field of logistics with an emphasis on the physical distribution and transportation of raw materials, intermediate inputs, and finished product. Throughout the course, students will demonstrate specific knowledge and skills in the areas of logistics planning, pricing and cost decisions, regulations and public policy, risk management, supply chain management. Furthermore, students will understand the operations and structure of different modes of transportation including rail, water, air, and highway.
Prerequisite: OM1000D (for the Business Logistics AAS degree program); MT2050 (for the Business Administration Bachelor of Science Degree With Emphasis in Supply Chain Management degree program)
Delivery: online

OM2200D - Purchasing and Supply Chain Management - 4.5 Credits
This course reflects the ever-changing face of supply management and the increased impact of the recent economic recession. Topics include strategic management, innovation, sustainability, and collaboration. The course emphasizes the role that procurement is playing in shaping stakeholder engagement and delivering costs.
Prerequisite: Prerequisite: OM1000D (for the Business Logistics AAS degree program); MT2050 (for the Business Administration Bachelor of Science Degree With Emphasis in Supply Chain Management)
Delivery: online
OM2300D - Demand Forecasting and Inventory Management - 4.5 Credits
This course focuses on key components of supply chain management, principally, demand forecasting and inventory management. Topics include the various techniques used in demand forecasting and inventory management, in addition to a limited treatment of resource planning and the application of lean thinking and Six Sigma management philosophies.
Prerequisite: OM1000D
Delivery: online

OM3000 - Operations Management - 4.5 Credits
The main focus of this course is on the essentials of effective operations management – the activities which people carry out the actual transformation of resources into products and services. It emphasizes people operating in teams for improved goods and services to customers.
Prerequisite: MT2050 and MA2050
Delivery: on campus and online

OM3100D - Business Logistics Internship - 4.5 Credits
The business logistics internship is designed to provide students with professional experience in an approved logistics setting. Students will apply concepts and theories learned in the classroom to the workplace environment. Successful completion of this course requires a written report, detailing the experience gained during the internship, and successful completion of the projects assigned by the internship supervisor.
Prerequisite: Completion of all Major Core courses
Delivery: online

OM3150D - Business Logistics Project - 4.5 Credits
This course serves as a vehicle to integrate the various discipline specific skills developed throughout the logistics program. The case study approach will be used as the mode of analysis. Students will present analyses of case studies, with an increasing level of sophistication.
Prerequisite: Completion of all Major Core courses
Delivery: online

OM3200D - Marketing and Distribution Channels - 4.5 Credits
Marketing channels have become an essential element of any successful business plan due to increased competition and the explosion of Information Technology and E-Commerce. Students will become aware of marketing channel strategy, design, and integration of E-Commerce technology.
Prerequisite: MG1050 and OM3000
Delivery: online

OM3400D - Manufacturing Planning and Control - 4.5 Credits
The development of an effective manufacturing planning and control (MPC) system is key to the success of any company. This course closely examines planning and controlling in all aspects of manufacturing, including managing materials, scheduling machines and people, and coordinating suppliers and key customers.
Prerequisite: OM3000
Delivery: online

OM4100D - Quality Management in the Supply Chain - 4.5 Credits
This course introduces students to the critical role of managers in the process of understanding, measuring, and improving quality throughout the supply chain. This applies to both the manufacturing and services field. Students will gain an understanding of quality control strategy, operations, and implementation as a means of creating comparative advantage for a firm. The interaction between quality control and other business functions is studied. The use of product quality as an input into its value to customers is emphasized. Students will also study and implement a Six Sigma quality control methodology. Finally, the value of leadership in the organization in creating and improving a culture of quality is studied.
Prerequisite: OM3400D
Delivery: online

OM4200D - Projects and Technologies in the Supply Chain Management - 4.5 Credits
Managing projects and technology in the supply chain involves initiating, planning, executing, and closing stages. Moreover, the management processes entail proactive improvement of buyer-supplier efficiencies. Topics include project risk planning, budgeting, and quality planning.
Prerequisite: OM2100D, OM2200D, OM3200D, OM3400D and OM4100D
Delivery: online

OM4500D - Strategic Supply Chain Management - 4.5 Credits
This course is designed so students will characterize Strategic Supply Chain Management with an emphasis on understanding and classifying methods of effective Supply Chain Management. Throughout this course, students will demonstrate specific knowledge and skills in the areas of supply chain management, ethics, inventory, contracts, integration, strategies, sourcing, pooling, pricing, global logistics, design, and technologies.
Prerequisite: OM4200D
Delivery: online

PARALEGAL (PL)

PL1100/SO1100 - Introduction to Legal Principles - 4.5 Credits
This course examines the United States legal system from a historical and philosophical perspective. Students explore numerous topics, including the relationship between law, values, status, wealth, and power. Students are introduced to legal reasoning and analysis, the dynamic process of making and enforcing laws, the structure of the legal system in this country, and the participants in that system.
Delivery: on campus

PL1150 - Legal Research I - 4.5 Credits
This course is a study of methods and procedures used in legal research. It introduces the student to indexes used as the primary source of the law (statutes, regulations and case law)
and secondary sources (legal encyclopedias), and includes an introduction to computerized researching.
Prerequisite: EN1150
Delivery: on campus

PL1350 - Legal Research II - 4.5 Credits
This course is an extension of Legal Research I with an emphasis on complete research of specific legal problems or questions. The student is given responsibility to research a project embodying several questions of law with the results reduced to a legal memorandum.
Prerequisite: PL1150
Delivery: on campus

PL2050 - Torts - 4.5 Credits
This course is a study of the basic principles of tort law. Students examine the elements of the different torts, including negligence, the various intentional torts, strict liability, torts connected to land, and products liability. Students analyze hypothetical tort claims, possible defenses to such claims, and damages resulting from such torts.
Prerequisite: PL1100
Delivery: on campus

PL2150 - Civil Procedure - 4.5 Credits
This course explores the civil litigation process. Students acquire a thorough knowledge of all aspects of a civil procedure, including service of process, pretrial discovery, motions, trial, appeal, and enforcement of judgments. Students utilize such knowledge to draft pleadings and papers under the supervision of an attorney.
Prerequisite: PL1350/EN1150
Delivery: on campus

PL2350 - Criminal Procedure - 4.5 Credits
This course examines the constitutional foundation of criminal law and criminal procedure. Students review substantive criminal law concepts, including criminality, culpability, and the elements of particular crimes. Students also explore criminal procedure, including search and seizure, the pretrial process, trial, sentencing, and appeal.
Prerequisite: PL1350
Delivery: on campus

PL2500/EN2500 - Legal Writing - 4.5 Credits
This course is an extension of the Legal Research courses with an emphasis on the various types of legal writing. The student is given responsibility for drafting legal correspondence, instruments, pleadings and briefs, in addition to interoffice memorandums.
Prerequisites: PL1350/EN1150
Delivery: on campus

PL3000 - Law Office Technology - 4.5 Credits
This course introduces students to technology commonly utilized in law offices. Using a hands-on approach, students learn various software applications, including applications related to office management, case organization and management, electronic discovery, litigation support, presentation and trial graphics, electronic research, databases, and word processing.
Prerequisite: PL1100/CI1150
Delivery: on campus

PL3050 - Real Property - 4.5 Credits
This course introduces students to the laws of real property. Topics include the different estates in real property, property rights, finance and conveyance, contracts, mortgages, liens, and land use. Students review legal descriptions, and draft deeds and other real estate documents under the supervision of an attorney.
Prerequisite: PL1100
Delivery: on campus

PL3100 - Professional Ethics and Law Office Procedures - 4.5 Credits
This course provides a classroom forum for discussion of ethical issues involved in the legal profession and, specifically, ethical issues encountered by paralegals. Students review and discuss the purpose of the ethical codes and guidelines of the American Bar Association, the National Association of Legal Assistants, and the National Federation of Paralegal Association. Students consider ethical issues concerning the unauthorized practice of law, confidentiality, conflicts of interests, advertising and solicitation, attorney fees and client funds, competency, and professionalism, and discuss law office procedures to prevent ethical violations.
Prerequisite: PL1100
Delivery: on campus

PL3120/EN3120 - Classical Rhetoric in a Digital Age - 4.5 Credits
Of the many definitions of "rhetoric," this course focuses on rhetoric as the art of persuasion and explores the application of rhetorical theory to the modern world, with emphasis on the legal profession and digital expressions. Students practice and experiment with clarity, structure, fluency and logic in both oral and written projects. After exploring the concepts of classical rhetoric, students learn to apply those concepts to improve persuasive abilities in today’s society--from courtrooms to advertising to blogs.
Prerequisite: EN1300
Delivery: on campus

PL3230/MT3230 - Employment Law - 4.5 Credits
See MT3230

PL3250 - Wills, Trusts, and Probate - 4.5 Credits
This course introduces students to the legal principles involved in the creation and enforcement of wills and trusts and the procedures of estate administration. Students review basic estate planning techniques and prepare testamentary documents for review by an attorney. Students also acquire
knowledge and skills necessary to assist in the administration of a decedent's estate.
Prerequisite: PL1100
Delivery: on campus

PL3400 - Evidence/Exclusionary Rule - 4.5 Credits
This course introduces students to the intriguing and complex rules that govern the admission of evidence at trial. Through the study of the Federal Rules of Evidence, supplemented by numerous examples, students acquire a fundamental knowledge and understanding of the purpose and procedures related to the law of evidence.
Prerequisite: PL1350 or Junior status
Delivery: on campus

PL3470/MT3470 - Bankruptcy - 4.5 Credits
This course instructs students on all aspects of consumer bankruptcy proceedings, from the filing of the bankruptcy petition to the final discharge. Students gain practical knowledge of debtor/creditor relations, secured and unsecured debt, and the effect of the commencement of Chapter 7 and Chapter 13 bankruptcy proceedings, and bankruptcy alternatives.
Prerequisite: PL1100
Delivery: on campus

PL3500 - Introduction to Contracts - 4.5 Credits
This course examines the law of contracts and the corollary law of equitable remedies. Students study the classical contract model, the Uniform Commercial Code, and federal statutes governing contracts. Students analyze hypothetical factual scenarios by applying legal and equitable theories learned in this course. In addition, students develop practical skills by drafting basic contracts and pleadings associated with contract litigation.
Prerequisite: PL1150
Delivery: on campus

PL4110 - Elder Law - 4.5 Credits
This course examines various legal issues encountered by the elderly, and explores various methods for addressing those issues, including advance directives, wills, trusts, guardianships, entitlement programs, managed care and long-term care insurance, viatical settlements, living facilities for the elderly, financial planning, and elder abuse.
Prerequisite: PL3250
Delivery: on campus

PL4150 - Practical Legal Investigation - 4.5 Credits
This course instructs the student in methods of conducting a proper investigation through interviewing techniques, records investigation, the taking of statements, and proper reporting of obtained information.
Prerequisite: PL2150
Delivery: on campus

PL4200 - Litigation and Trial Practice - 4.5 Credits
This course prepares the student to assist attorneys in all aspects of civil litigation from the client interview through pre-trial discovery and motion practice, to trial and post-trial motions and appeals. This course guides the student through an entire set of facts and requires considerable research and the preparation of discovery documents, motions, briefs, stipulations, and other papers related to civil litigation.
Prerequisite: PL2150
Delivery: on campus

PL4220 - Environmental Law - 4.5 Credits
This course examines the complex and interrelated federal, state and local laws and regulations controlling pollution, and the environment.
Prerequisite: PL1350
Delivery: on campus

PL4250 - Administrative Law - 4.5 Credits
This course examines administrative agencies and administrative procedures, with emphasis on federal agencies. Students review constitutional issues addressed during the development of agencies and the delegation of power to agencies. Students study procedures governing agency actions, including rulemaking, investigations, enforcement, and adjudications.
Prerequisite: PL1350
Delivery: on campus

PL4350 - Adversary System - 4.5 Credits
This course examines the adversary system and alternate dispute resolution methods. It is also a practicum that applies the knowledge and skills developed by the student in previous courses. Students assist in the preparation of a lawsuit for trial, commencing with the initial interview through post-trial motion procedures.
Prerequisite: PL2150
Delivery: on campus

PL4500-4590 - Paralegal Internship - 4.5-13.5 Credits
This course provides the student with practical experience in a law firm or other law-related office in a capacity agreed upon in advance by the faculty internship supervisor, the internship office, and the student. Students communicate regularly with the faculty internship supervisor and submit weekly reports completed by the student.
Prerequisite: Instructor approval
Delivery: on campus

PL4600 - CLA Review - 4.5 Credits
Although national certification is not a professional requirement for paralegals/legal assistants, it is strongly encouraged. This course provides an in-depth, comprehensive review of the paralegal curriculum, accomplished through study of the concepts covered in the Certified Legal Assistant (CLA) Examination.
Delivery: on campus

PL1900-4990 - Special Topics in Paralegal Studies - 1-4.5 Credits
Topics will vary depending on the interests of the instructor and students.
Prerequisite: Permission of the Academic Dean
Delivery: on campus
**PSYCHOLOGY (PS)**

**PS1050 - Introduction to Psychology - 4.5 Credits**
This course covers the fundamentals of human psychology, starting with the historical context from which the psychology evolved up to modern day theories on human thought and behavior. Students will gain an understanding of the scientific method, the guidelines to critical and creative thinking, and the different methodologies used in psychological research. Students will explore and understand what affects human emotion, motivation, and cognition as well as theories of personalities and pathology. Understanding the basics of psychology promotes a better understanding of self, which helps create a more authentic and productive life.  
Delivery: on campus and online

**PS2000 - Human Growth and Development - 4.5 Credits**
This course is designed to increase the student's knowledge and understanding of growth and development at each age and stage throughout the lifespan. Concepts and theories about physical, cognitive, social, and personality development over the lifespan are presented. Emphasis is placed on issues and theoretical perspectives in the field, genetic and environmental influences, the development of basic human abilities, and the development of self in society.  
Delivery: on campus

**PS2100 - Human Relations - 4.5 Credits**
This course is a study of interactions among people - why our beliefs, attitudes and behaviors sometimes cause interpersonal conflict in our personal lives and in work-related situations. The emphasis is on the analysis of human behavior, prevention strategies, and resolution of behavioral problems in organizations.  
Delivery: on campus and online

**PS3100 - Abnormal Psychology - 4.5 Credits**
This course will provide an understanding of psychopathology using an integrative and multidimensional perspective. Psychological disorders will be explored from biological, psychological, and social dimensions. Additional focus will be concentrated on the clinical description, causation, and treatment and outcome of diagnosable pathology.  
Prerequisite: PS1050  
Delivery: on campus

**PS3250/MT3250 - Organizational Behavior - 4.5 Credits**  
See MT3250

**PS3500/MG3500 - Consumer Behavior - 4.5 Credits**  
See MG3500

**PS1900-4990 - Special Topics in Psychology - 1-4.5 credits**
Topics will vary depending on the interests of the instructor and students.  
Prerequisite: Permission of the Academic Dean  
Delivery: on campus

**PHARMACY (RX)**

**RX1000 - Introduction to Pharmacy with Lab - 4 Credits**
This is an introductory course in the field of pharmacy. The course orientes students to the work of pharmacy technicians and the context in which the technician's work is performed. Students learn the concept of direct patient care and the technician's general role in its delivery. Students are introduced to the medication laws, standards, and regulations affecting pharmacy technicians and the concept of quality assurance and its procedures. Students examine the attitudes, values, and beliefs necessary for successful pharmacy technicians. Lab activities are embedded in the course. (3.5 lecture + 0.5 lab; 4.5 contact hours)  
Delivery: on campus

**RX1100 - Pharmacy Calculations - 4 Credits**
This course introduces students to the calculations performed by technicians in the pharmacy practice setting. The course will orient users to the different measuring systems used in the pharmacy and conversions between the systems. Students will also learn common pharmacy symbols. Calculations will include proportions and dilutions. Common calculations in pharmacy will be applied, such as calculating proper dosage and identifying amounts of ingredients for compounded products. Common medications, by trade and generic name, targeted outcome, and primary body system are investigated.  
Prerequisites: MA0900 or placement recommendation  
Delivery: on campus

**RX2500 - Drug Therapeutics I with Lab - 4 Credits**
This course provides students detailed information on the therapeutic use and side effects of prescription medications, nonprescription medications, and alternative therapies, including immunizations. For each medication studied, students learn the brand and generic name, standard pronunciation, dosage forms, and routes of administration. Therapeutic areas covered include the anti-infective drugs, narcotic pain relievers, neurologicals, and psychiatric agents. Lab activities are embedded in the course. (3.5 credits lecture + 0.5 credits lab = 4.5 contact hours)  
Prerequisites: RX1000/RX1500, SC1221 or SC1222D  
Delivery: on campus

**RX2600 - Drug Therapeutics II with Lab - 4 Credits**
This course provides students detailed information on the therapeutic use and side effects of prescription medications, nonprescription medications, and alternative therapies. For each medication studied, students learn the brand and generic name, standard pronunciation, dosage forms, and routes of administration. Therapeutic areas covered include the gastrointestinal, renal, respiratory, and endocrine systems; plus hormone, topical ophthalmic, and otic agents. Lab activities are embedded in the course. (3.5 Lecture credit + 0.5 Lab credit = 4.5 contact hours)  
Prerequisite: RX1000/RX1500/RX2500/SC1221 or SC1222D  
Delivery: on campus
RX1500 - Pharmacy Operations with Lab - 3 Credits
This course provides students with knowledge of pharmacy operations in a variety of settings. Students will investigate the role of a pharmacy technician in dispensing medications, examine duties in sterile and nonsterile environments, control inventory and purchase pharmaceuticals, demonstrate professional communication and customer service skills, and distinguish practices for safety and the prevention of medication errors. Lab activities to practice and demonstrate skills are embedded in the course.
Prerequisites: none
Delivery: on campus

RX2200 - Medical Insurance and Pharmacy Law - 2 Credits
The class provides students with a basic understanding of medical insurance and pharmacy billing. Students examine current technology to initiate, verify, adjudicate, and collect payment for pharmacy services and supplies. The process to dispense medications and over-the-counter products complying with federal and state laws in accordance with federal and state laws and regulations is outlined.
Prerequisites: RX1000/RX1500
Delivery: on campus

RX2310 - Community or Outpatient Pharmacy Lab - 2 Credits
This course provides students with hands-on experience in the production of pharmaceutical products. The skills of medication preparation, labeling, product storage, providing supplemental patient information, and quality assurance are addressed. Students also learn to prepare manufactured products for distribution including immunizations and investigational drugs, and to compound nonsterile products.
Prerequisites: RX1000/RX1100/RX1500
Delivery: on campus

RX2410 - Preparing for Pharmacy Profession with Lab - 3 Credits
This course provides students with the tools they will need to be successful as pharmacy technicians. Students are exposed to a variety of issues related to the attitudes, values and skills; in addition to the legal responsibilities of a pharmacy technician. Students will review areas of concentration presented throughout the entire program, such as: pharmacy calculations, aseptic compounding, non-sterile compounding, basic biopharmaceutics, and pharmacy laws and regulations. They also re-examine areas related to processing of prescriptions, purchasing, and inventory control. A final review of this information is essential to the successful passing of the national certification exam. Throughout this course, students gain an appreciation for the value of technician certification and active involvement in professional organizations. Lab activities are embedded in the course. (1.5 Lecture credits + 1.5 Lab credits = 4.5 Contact Hours)
Prerequisite: All RX 2000 classes
Delivery: on campus

RX2510 - Inpatient Pharmacy Lab - 2 Credits
This course provides students with hands-on experience in the production of pharmaceutical products, utilized during inpatient hospital stays. The skills of medication preparation, labeling, product storage, providing supplemental patient information, and quality assurance are addressed. Students also learn to prepare sterile compounded products for distribution, and cytotoxic and other hazardous injectable medication products.
Prerequisite: RX1000/RX1100/RX1500
Delivery: on campus

RX2700 - Drug Therapeutics III with Lab - 3 Credits
This course provides students detailed information on the therapeutic use and side effects of prescription medications, nonprescription medications, and alternative therapies. For each medication studied, students learn the brand and generic name, standard pronunciation, and dosage forms, and routes of administration. Therapeutic areas covered include the cardiac system, plus muscle relaxants, narcotic analgesics, anti-inflammatory drugs, immunizations, and neoplastic agents. This course teaches the American Heart Association’s cardiopulmonary resuscitation of adults, children, and infants. Safety concerns and disaster responses in the health care environment are explored. Lab activities are embedded in the course. (1.5 Lecture credit + 1.5 Lab credit = 4.5 contact hours)
Prerequisites: RX1000/RX1500/SC1221 or SC1222D
Delivery: on ground

RX3110 - Infusion Externship - 4 Credits
Students practice skills developed in the didactic and laboratory phases of their training in an environment that provides infusion services. The student will engage in the entire scope of activities that might be performed by a pharmacy technician at the particular site. The student will be evaluated by the site’s preceptor.
Prerequisites: Program coordinator approval
Delivery: on campus

RX3120 - Community or Outpatient Externship - 4 Credits
Students practice skills developed in the didactic and laboratory phases of their training in a community or outpatient pharmacy that does not offer infusion services. The student will engage in the entire scope of activities that might be performed by a pharmacy technician at the particular site. The student will be evaluated by the site’s preceptor.
Prerequisites: Program Coordinator approval
Delivery: on campus

RX1900-2990 - Special Topics for Pharmacy Technicians - 1-4.5 Credits
Topics will vary depending on the interests of the instructor and students.
Prerequisite: Permission of the Academic Dean
Delivery: on campus

SCIENCE (SC)

SC1040 - General Biology - 4.5 Credits
This non-lab course is designed to introduce the student to the life sciences. Development of a science-oriented vocabulary is stressed. Organization, structure/function relationship, the
Course Descriptions

SC1055 - Biological Concepts with Lab - 4.5 Credits
This lecture course is designed to introduce the student to the life sciences. Development of a science-oriented vocabulary is stressed. Organization, structure/function relationships, the scientific method, characteristics of living things, and information systems are some of the topics discussed. Laboratory exercises reinforce biological concepts learned in the lecture portion of this course. (3.5 hours lecture, 2 hours lab/week)
Delivery: on campus

SC1100 - Environmental Science - 4.5 Credits
This course is an introduction to environmental science that includes energy principles, relationships of organisms in ecosystems, and human impact.
Delivery: on campus and online

SC1120 - Astronomy - 4.5 Credits
This course is an introduction to astronomy as a science. Basic principles of physics are utilized in developing an overall concept of our location in space and a general view of the neighborhood. Current topics are emphasized.
Delivery: on campus

SC1150 - Environmental Geology - 4.5 Credits
This course includes the examination of Earth processes that influence human activities. Topics include Earth development, rocks and minerals, internal Earth processes, surface Earth processes, Earth resources, pollution, and waste disposal.
Delivery: on campus

SC1180 - Basic Animal Anatomy - 4 Credits
This course is an introduction to anatomy of domestic animals. Parts of the animal and the skeleton will be emphasized. In addition, major muscles, vessels, nerves and organs will be identified and their primary functions discussed.
Delivery: on campus

SC1200 - Principles of Nutrition - 4.5 Credits
This course introduces nutritional concepts including principles of digestion and absorption, the functions of nutrients, lifecycle needs, disease prevention, and weight management. The basic principles of nutrition are studied with particular emphasis on their applications to human health and daily living.
Delivery: on campus and online

SC1201 - Nutritional Foundations - 2 Credits
This course introduces the basic nutritional concepts and their application to health and disease modification and prevention; including digestion and absorption, functions of nutrients, nutritional needs across the lifespan, and weight management.
Delivery: on campus

SC1210 - Introduction to Meteorology - 4.5 Credits
This course examines the nature of the atmosphere, including how and why a wide variety of weather conditions are observed on the Earth. Topics include: heat transfer and temperature; moisture, clouds and precipitation; air pressure and wind; mid-latitude storm systems; tornadoes and hurricanes; weather forecasting; and climate change. There will also be a special emphasis on local climatology.
Delivery: on campus

SC1221 - Essentials of Anatomy and Physiology with Lab - 6 Credits
Designed for allied health learners with little or no biology knowledge, this course provides an introduction to the essentials of anatomy and physiology. Throughout the course students will demonstrate knowledge of the complementary relationship between structure and function of the human body, as well as the integration of systems to maintain homeostasis. Students will apply this fundamental knowledge to explain common diseases, disorders or conditions, and make recommendations that promote individual health, regardless of age or gender. Laboratory activities are embedded in this lecture-based class to optimize student assimilation and retention of content. (4.5 hours lecture, 3 hours lab/week)
Delivery: on campus

SC1222D - Essentials of Anatomy and Physiology - 6 Credits
Designed for allied health learners with little or no biology knowledge, this course provides an introduction to the essentials of anatomy and physiology. Throughout the course students will demonstrate knowledge of the complementary relationship between structure and function of the human body, as well as the integration of systems to maintain homeostasis. Students will be able to apply this fundamental knowledge to explain common diseases, disorders or conditions, and make recommendations that promote individual health, regardless of age or gender.
Delivery: online

SC1223D - General Anatomy and Physiology - 4 Credits
This bridging course in anatomy and physiology studies is available to students who have completed prior college-level course work in the field. Throughout the course, students will demonstrate knowledge of the complementary relationship between structure and function of the various body systems, as well as the integration of systems to maintain homeostasis. Prerequisite: Prior Anatomy and Physiology course(s) (4 hours lecture)
Delivery: online

SC1232 - Human Anatomy and Physiology I with Lab - 6 Credits
This course utilizes a systems approach to study human anatomy and physiology. Cells and tissues, the integumentary system, the skeletal system, the muscular system, the nervous system and the endocrine system are addressed. (4.5 hours lecture, 3 hours lab/week)
Delivery: on campus

SC1240 - Anatomy and Physiology of Domestic Animals - 4 Credits
This course is a systems approach to the study of the essentials of anatomy and physiology of domestic animals.
Prerequisite: ME1150
Delivery: on campus

SC1280 - Comparative Anatomy Lab - 2 Credits
This course covers the comparison of the anatomy of domestic animals using the cat as a model of dissection. Prerequisite: SC1240
Delivery: on campus

SC1300 - Physical Science - 4.5 Credits
This lecture course provides a general knowledge of the physical sciences dealing with matter and energy. Lectures cover introductory chemistry, physics, astronomy, and earth sciences. Prerequisite: MA1500
Delivery: on campus

SC1320 - Anatomy and Physiology of Domestic Animals II - 3 Credits
This course is a continuation of the systems approach to the study of the essentials of anatomy and physiology of domestic animals. Systems not covered in Anatomy and Physiology of Domestic Animals I are addressed. Prerequisite: SC1240
Delivery: on campus

SC1332 - Human Anatomy and Physiology II with Lab - 6 Credits
This course utilizes a systems approach to study human anatomy and physiology. The blood, and cardiovascular system, the lymphatic system, the digestive system, the respiratory system, the urinary system, and the reproductive system are addressed. Also covered are fluid and electrolyte balance, acid and base balance, and genetics. (4.5 hours lecture, 3 hours lab/week) Prerequisite: SC1232
Delivery: on campus

SC1354 - General Chemistry and Biochemistry with Lab - 4.5 Credits
This course is a basic study of concepts of chemistry and its importance in life sciences. This course emphasizes biochemistry and includes intense problem-solving sessions in the metric system and medical mathematics. Laboratory exercises reinforce chemistry concepts learned in the lecture portion of this course. (3 hours lecture, 3 hours lab/week) Delivery: on-campus

SC1370 - Pathophysiology - 6 Credits
This course is designed to familiarize the beginning nursing student with the communication, interpretation and impact of disease by an individual, family, and community. The interrelatedness and response to disease will consider the biological, social, cultural, spiritual, physical, and behavioral aspects of the individual. Etiology, signs and symptoms, demographics, pathogenesis, and co-morbidities will be considered in reference to various disease processes. Prerequisite: SC1332
Delivery: on campus

SC1421D - Microbiology - 4.5 Credits
This course is a general introductory course to microbiology. It provides a background in many areas of microbiology, antimicrobial agents and immunology. Host parasite relationships of microorganisms will be studied with an emphasis on bacteria. Delivery: online

SC1422 - Microbiology with Lab - 6 Credits
This course is a general introductory course to microbiology. It provides a background in many areas of microbiology, antimicrobial agents, immunology and host parasite relationships of microorganisms will be studied with an emphasis on bacteria. In the lab portion of this course, students will learn aseptic techniques and apply them in the isolation of pure cultures of bacteria. Students will also perform various staining techniques and chemical tests to identify these bacteria. The response of bacteria to changes in environmental conditions will be examined. Various life stages of medically important parasites will also be observed. (4.5 hours lecture, 3 hours lab/week) Delivery: on campus

SC2050 - Clinical Kinesiology - 4 Credits
This course explains the body’s structures, regions, and movements. Course content includes a review of location and movement terminology, bone structure and function, joint structure and function, and muscle profiles. Students will learn how and understanding of the body’s structures will help the body move through joint motions, and passive and resisted range of motion techniques. Clinical applications of concepts reinforce learning and integration of knowledge into practice. Prerequisite: SC2060 or TM program coordinator consent Delivery: on campus

SC2061 - Palpation of Anatomy with Lab - 3 Credits
This course is designed to bridge the gap between musculoskeletal anatomy and physiology and the living body. Course content includes a survey of muscle anatomy and physiology, musculoskeletal assessment, proprioception, neurological coordination, systemic palpation of the skin and fascia, bones, and other relevant structures. Primary emphasis is placed on muscle palpation and identification of muscle actions and attachments. 1.5 hours lecture, 3 hours lab/week. Prerequisite: SC1221
Delivery: on campus

SC2200 - Pharmacology for Veterinary Technicians - 4 Credits
This course introduces the veterinary technician student to the study of drugs and drug therapy. Emphasis is placed on identifying drug actions, drug names, routes of administration, and adverse effects. Prerequisites: SC1320/SC1354
Delivery: on campus

SC3100 - Bacteriology/Parasitology - 3 Credits
This course is a study of characteristics of pathogenic and non-pathogenic bacteria and fungi. The fundamentals of infections and control of internal and external parasites are also explored. Prerequisite: AH2300
### Course Descriptions

**Delivery:** on campus

**SC3110 - Bacteriology/Parasitology Lab - 2 Credits**
This course includes laboratory exercises in the collection, culture and identification of bacteria and fungi. Identification of internal and external parasites is also emphasized.
Prerequisite: AH2300/AH2310

**SC1900-4990 - Special Topics in Science - 1-4.5 Credits**
Topics will vary depending on the interests of the instructor and students.
Prerequisite: Permission of the Academic Dean

### SOCIOMETRY (SO)

**SO1050 - Introduction to Sociology - 4.5 Credits**
This course is designed to develop the sociological thinking of students. The multifaceted nature and depth of sociology will be presented in such areas as socialization, diversity, stratification, social institutions, and globalization.

**SO1100/PL1100 - Introduction to Legal Principles - 4.5 Credits**
See PL1100

**SO1800 - Community Volunteer Practicum - 4.5 Credits**
This practicum course provides students with the opportunity to serve as a volunteer in a community non-profit organization which has been approved by the university.

**SO2050 - Marriage and the Family - 4.5 Credits**
This course studies premarital and marital relationships in modern society. The historical and cultural aspects of love, dating, marriage, and alternative systems are used to discover the difficulties in adjusting to marriage and the family.
Prerequisite: SO1050

**SO2120/PL2100 - Domestic Relations - 4.5 Credits**
See PL2100

**SO2150 - Child Growth and Development - 4.5 Credits**
This course looks at children from a developmental perspective; it reflects how children change as a result of age and experience. The student studies the physical, cognitive, social, and emotional development of children from conception through adolescence.
Prerequisite: SO1050

**SO3100 - Human Geography - 4.5 Credits**
This course explores the study of geography by emphasizing the relevance of geographic concepts to human problems. A central focus of the course is on the tension between globalization and cultural diversity. Students will explore how people are taking deliberate steps to protect their cultural identities as the world becomes more unified economically, culturally, and environmentally.
Prerequisite: SO1050

**SO3450/MT3450 - International Relations - 4.5 Credits**
See MT3450

**SO4150/MT4150 - Business and Society - 4.5 Credits**
See MT4150

**SO1900-4990 - Special Topics in Sociology - 1-4.5 Credits**
Topics will vary depending on the interests of the instructor and students.
Prerequisite: Permission of the Academic Dean

### THERAPEUTIC MASSAGE (TH)

**TH1021 - Ethics and Personal Growth with Lab - 3 credits**
Students will develop fundamental knowledge and skills required to promote successful and ethical therapeutic relationships with clients and be successful as an employee, independent contractor, or small business owner. This course is also designed to teach the fundamentals of managing physical stress including proper use of breath, relaxation, body alignment, movement techniques, and diet. 1.5 hours lecture, 3 hours lab/week.

**TH1031 - Fundamentals of Massage Therapy with Lab - 3 Credits**
This course provides an introduction to massage practice including the effects, benefits, indications, and contraindications for massage; preparing equipment and products for massage; sanitary and safety practices; and client consultation and documentation. Students will incorporate this fundamental information into the effective design of massage and bodywork sessions. Throughout the course, students progressively classify massage movements, apply massage techniques, demonstrate procedures for a general body massage, and create a professional massage routine for clients in various positions lying and seated. 1.5 hours lecture, 3 hours lab/week.

**TH1041 - Business Practice and Therapeutic Massage Lab - 3 Credits**
Students will review the history of massage in the context of understanding contemporary massage requirements, scope of practice, and code of ethics. This course emphasizes the application of therapeutic massage including increased utilization of various soft-tissue and joint mobilization techniques in the whole body massage routine. Student will also develop, implement, and document assessments and
individualized treatment plans. 1.5 hours lecture, 3 hours lab/week.
Prerequisite: TH1031
Delivery: on campus

TH2021 - Specialty Massage Techniques with Lab - 3 Credits
This course will examine craniosacral therapy, myofascial release, lymphatic drainage, Eastern bodywork, reflexology, and energy therapies. Students will incorporate these advanced techniques into the effective design of massage and bodywork sessions in which they combine massage and bodywork techniques for therapeutic benefit. Students will also learn to modify the existing methods of the massage routine to fit the needs of the special population with whom they are working. 1.5 hours lecture, 3 hours lab/week.
Prerequisite: SC1221 and TH1041
Delivery: on campus

TH2061 - Neuromuscular Techniques with Lab - 3 Credits
This course provides a systematic training program for deep tissue, neuromuscular techniques and other massage modalities. Course content covers sequential, progressive massage therapy for the entire body. The course utilizes “hands-on” simulation and case studies to explore client scenarios with greater complexity. 1.5 hours lecture, 3 hours lab/week.
Prerequisite: SC1221 and EN1300
Delivery: on campus

TH2081 - Special Population Massage Techniques with Lab - 3 Credits
The course will examine pre/post natal massage, infant massage, geriatric massage, chronic/terminal illness, hospice, cancer, and pain management. Students will learn the theories of these advanced techniques to gain knowledge on how to effectively incorporate them into massage and bodywork sessions. Students will also learn to modify the existing methods of the massage routine to fit the needs of the special population with whom they are working. 1.5 hours lecture, 3 hours lab/week.
Prerequisite: SC1221 and TH1041
Delivery: on campus

TH2100/MT2100 - Mastering Therapeutic Business - 4 Credits
This course is designed to introduce the student to employment options, such as being a self-employed massage therapist or working for a business. The course will include topics such as life planning, success strategies, conscious business, business start-up, business and financial management, therapeutic communications, and marketing.
Prerequisite: TH2050
Delivery: on campus

TH2500 - Student Clinic - 3 Credits
This diploma-level internship emphasizes supervised student clinic activities, preparation for the national certification exam, and employment as a massage professional. Students will incorporate all components of their instruction into the recruiting, screening, orienting, and massaging of clients, as well as, beginning to explore opportunities for massage professionals in their community. The student clinic is an integral part of the training to gain practical knowledge of the therapeutic massage industry.
Prerequisite: Program coordinator approval
Delivery on campus

TH3010 - Massage Internship - 2 Credits
An integral part of the training to gain practical knowledge of the therapeutic massage industry is an acquisition of practical skills in a clinical/educational setting. The fieldwork provides administrative, observational opportunities, hands-on experience as appropriate, feedback to the student, and learning tasks as appropriate. Fieldwork is completed in a supervised setting at an approved site.
Prerequisite: Program coordinator approval
Delivery: on campus

TOURISM AND HOSPITALITY MANAGEMENT (TM)

TM1000 - Introduction to Tourism and Hospitality Management - 4.5 Credits
This course provides learners with a basic knowledge of all the activities associated with the tourism and hospitality industry. Students explore lodging, food service, events, conventions, concerts, gaming, resorts, parks, and attractions. The students learn what products, services, and experiences these facilities provide. Students also learn how the industry is divided into segments of professionals, including facility operators, conveyance operators, activity managers, and sales and promotion personnel. Students learn what types of customers are served by the industry.
Delivery: on campus and online

TM2000 - Food Service and Lodging Management - 4.5 Credits
This course provides information on techniques involved in managing the full range of lodging and food services facilities. The course addresses the full range of lodging facilities and food service facilities. Students learn the various tasks employees and management personnel perform to deliver products and services experiences to customers. There is discussion of the elements that build quality and success into these types of businesses.
Prerequisite: MT2050
Delivery: on campus

TM2050 - IT Applications for Tourism and Hospitality - 4.5 Credits
The goal of this course is to familiarize students with the information technology tools that are used in the tourism and hospitality industry. These tools include 800-number reservation systems, e-mail, web sites, computerized reservation systems used for lodging and airlines, and software used to manage tourism and hospitality facilities.
Prerequisite: CI1150 or placement recommendation
Delivery: on campus
TM2250 - Destination Tourism - 4.5 Credits
The goal of this course is to provide information on the many types of facilities that attract people from long distances. These include casinos, resorts, parks and attractions. It discusses the types of products, services and experiences these facilities provide to customers. The course discusses the tasks that must be executed by employees and managers. There is discussion of the elements that build quality and success into destination tourism.
Delivery: on campus

TM2500 - Tourism and Hospitality Marketing - 4.5 Credits
The goal of this course is to provide students with tools to participate in the marketing and sales aspects of the tourism and hospitality industry. The course covers the wide variety of marketing and sales tools that are used by business and government to promote the travel and hospitality industry. Marketing strategy and philosophy are discussed as they apply to the tourism and hospitality industry.
Prerequisite: MG1050/TM1000
Delivery: on campus

TM3100 - Event and Convention Management - 4.5 Credits
A significant portion of the travel industry serves customers attending events and conventions. Students learn about the many types of products, services, and experiences that are provided to customers who attend events and conventions. In turn, the course will address the tasks that must be executed by workers and managers at events and conventions. There is discussion of what elements build quality and success into event and convention management.
Prerequisite: MT2050
Delivery: on campus

TM4500 - Internship - 4.5 Credits
The purpose of this internship is to give the student experience in applying what he or she has learned in the classroom by working in a business or government environment. The student's responsibility is agreed upon in advance by the student's advisor, the business entity, and the student. Successful completion requires a written report by the student detailing the experience gained during the internship and successful completion of the projects assigned by the business supervisor(s).
Prerequisite: Junior or Senior status
Delivery: on campus

CENTRAL ADMINISTRATION

University President
Jerry L. Gallentine, BS, Fort Hays State University (1962); MEd, University of Toledo (1963); MS, University of Toledo (1965); PhD, University of Toledo (1965).

Chief Executive Officer
Ronald Shape, BA, Dakota Wesleyan (1991); MBA, University of South Dakota (1996); EdD, University of South Dakota (2001).

Provost/General Counsel
Samuel D. Kerr, BS, Black Hills State University (1982); BS Ed, Black Hills State University (1982); MEd, South Dakota State University (1986); JD, University of Nebraska-Lincoln (1992); EdD, University of South Dakota (2001).

Chief Financial Officer
Venessa Green, BS, DeVry Institute (1993); MBA, National American University (2006); CPA

System Vice President of Institutional Support and Military Service
Scott Toothman, BS, National American University (1997); MBA, National American University (2002).

Associate Provost/System Vice President for Curriculum and Instruction
Marilyn Holmgren, BA, College of St. Scholastica (1976); MS, The Tri-College University (1990); PhD, University of Nebraska (2008).

System Vice President of Graduate Studies/Dean of the Graduate School
Phyllis Okrepkie, BBA, University of San Diego (1980); MBA, National University (1984); DM, Colorado Technical University (2001); CMA.

System Vice President for Academic Operations and Learner Services
Jason Warr, BS, University of Utah (1994); MBA, Westminster College of Salt Lake City (1997); CPA.

System Director of Curriculum
Dave Courson, BA, Southern Illinois University (1968); MBA, University of Wyoming (1974); MA, University of Northern Colorado (1979).

Registrar
Tom Mahon, BS, Eastern Montana College (1979); MEd, Eastern Montana College (1985).

System Director of Alumni Services
Guy W. Tillett, BA, Butler University (1959); MAT, Indiana University (1968).

System Assessment Coordinator
Travis Brink, AAS, National American University (2002); BS, National American University (2003); BS, National American University (2004); MBA, National American University (2004).

System Director of the Center for Student Achievement
Holly Boomer, BA, Chadron State University (1989); MA, Chadron State University (1990); PhD, University of Nebraska-Lincoln (2000).

System Director of Financial Aid
Cheryl Bullinger

System Director of Human Resources
Jackie Peterson, BBA, University of Wisconsin (1981); MILR, University of Wisconsin (1993); Senior Professional in Human Resources Certification.

Chief Information Officer
John Buxton, BS, University of Nebraska (1993); MBA, University of Tulsa (1995).

System Librarian
Pat Hamilton, BA, University of South Dakota (1974); MLS, University of Washington-Seattle (1979).

System Director of Marketing
Tiffany Smith, BA, Chadron State College (1997).

System Director of Student Accounts

System Director for Learner Services
Meg Whiston, BA, University of New Hampshire (1981); MEd, University of New Hampshire (1982); MEd, University of New Hampshire (1984); PhD, Cornell University (1992).

Dean of the School of Nursing
Julia Bronner, BSN, College of St. Teresa (1965); MSN, Winona State University (1990); PhD, Capella University (1999); RN, CTN.

System Criminal Justice Program Chair
John Preston, BA, University of Alabama (1993); MS, University of Alabama (1999).

System General Education Program Chair
Marilyn Carlson-Aronson, BS, University of Sioux Falls (1960); MA, University of South Dakota (1973); MA, University of South Dakota (1992); EdD, University of South Dakota (1997).

System Business Program Chair
Todd Herseth, BA, Dakota Wesleyan University (1995); MBA, University of South Dakota (2004).

System Program Chair for Healthcare Management, Health Information Technology, Healthcare Coding, and Medical Staff Services Management
Shawna Sweeney, AS, NE Iowa Community College (1998); BA, College of St. Scholastica (2006); MS, Dakota State University (2011).

System IT Program Chair
Bob Thrall, BA, St. Mary’s University (1972); MS, Dakota State University (2004); Certified Professional, Microsoft.

System Legal Studies Program Chair
Paul Sedlacek, BS, Business Administration, University of Nebraska (1977); JD, University of Nebraska (1980).
System Medical Assisting and Medical Administrative Assistant Program Chair
Cathie Ogdie, AA, Mount Saint Clare College (1974); BA, University of Guam (1976); MS, University of South Dakota (1995); DLM (ASCP), MT (ASCP).

System Pharmacy Technician Program Chair
Pat Schommer, BS, University of Wisconsin (1982); MA, St. Mary’s University of Minnesota (2009), CPhT.

System Therapeutic Massage Program Chair
Laura Woitte, AAS, National American University (2003); BA, Dakota Wesleyan University (1998); MSAS, University of South Dakota (2007).
CAMPUS ADMINISTRATION

Albuquerque

Campus President

Academic Dean
Luis H. Quinonez, BA, University of New Mexico (1992); MBA, University of Phoenix (2005).

Learner Services Coordinator
Alisha Diaz-Bole, BA, University of California-Irvine(1993); MA, Indiana University (1997).
Elizabeth Peters, BS, National American University (2008).

Allied Health Program Coordinator
Juanita Quintana-Frazier, BAM, University of Phoenix (1997); CPC (2008), RMA (2010).

Information Technology Coordinator
Patricia Stans, BS, New York University (1963); PhD, New Mexico State University (1976).

Network Coordinator
Mary Carson, BS, National American University (1984); MA, Webster University (1989).

Austin

Campus Executive Officer

Academic Dean
Matthew Painter, BS, Mountain State University (1999); BS, Mountain State University (2000); MS, Mountain State University (2002).

Director of Admissions
Nancy Meason

Learner Services Coordinator
Maria Neis, BA Cornell College (2007).

Information Technology Program Coordinator
Demetrice Browder, BS, Louisiana Tech University (1997); MS, Marist College (2002).

Medical Assisting Program Coordinator
Viviana V.Vera, BS, Park University (2001); Certified Professional Coder (2005); MBA, University of Phoenix (2005); Registered Medical Assistant (2010).

Austin South Education Center

Campus Director
Mark Winkleman, BA, Wabash College (1982); MA, Indiana University (1985); PhD, University of Illinois (1995).

Bellevue

Campus Director

Trevor Mischke, BME, Northern State University (2004); BA, Northern State University (2004); MM, National American University (2009).

Director of Admissions
Mari Jane O’Donnell

Bloomington

Campus Executive Officer
Roger Sage, BS, Iowa State University (1979); MBA, Cardinal Stritch University (2002).

Academic Dean

Learner Services Coordinator

Director of Admissions
Chris Celestino, BBA, University of Minnesota-Duluth (2005).

Regional Campus Librarian/Assessment Coordinator

Brooklyn Center

Executive Campus Director
Travis Jensen, BS, South Dakota State University (2004).

Academic Dean
Julia Miller, BA, University of Minnesota (2008); MA, Concordia University (2011).

Senior Learner Services Coordinator
Chasity Hendricks, BA, Metropolitan State University (2007).

Learner Services Coordinator

Director of Admissions
Jessica Klinkhammer, BA, Winona State University (2009).

Campus Librarian
Anne Rojas, BA, University of Minnesota (1983); MLIS, Dominican University (2007).
