Admissions

~~UNEXPECTED MILITARY DUTY~~ ACADEMIC RELIEF FOR U.S. MILITARY SERVICE/ABSENCE

~~NAU is committed to providing consideration to military students enrolled at any NAU campus or in the online program. When a student, who is also serving our country, is deployed he/she may choose one of the following options to complete the work he/she is enrolled in at the time of deployment. Be aware that military regulations governing the allowable time to replace Incomplete (I) grades differ between military branches. NAU strongly recommends that before choosing an option requesting an Incomplete beyond the end of the current term, students contact their military Education Office to determine their military branch's specific policy for recoupment of Tuition Assistance funds.~~

National American University (NAU) recognizes the sacrifices, commitment, and hardships of servicemen and women. This policy is intended to relieve academic burden during periods when military service conflicts with class attendance and course completion. This policy applies to active duty servicemen and women, their spouses, National Guard members and Reservists when orders take effect during, or intersect with, an active academic term (Proof of orders is required and can be accomplished by visual inspection or a letter or email from the commander or 1st Sergeant). This policy also applies to veterans who have a documented service related disability that prevents them from successfully attending and/or completing a course. (A letter or email from an attending medical professional stating the student's disability prevents them from successfully completing the class or program at this time is required).

Note: In some cases, students may accept an Incomplete during a time of absence and complete the course upon return. However, be aware that military regulations governing the allowable time to replace Incomplete (I) grades differ between military branches and the service requirements take precedent over NAU's requirements. NAU strongly recommends that before choosing an option requesting an incomplete beyond the end of the current term, students contact the military Education Office to determine the military branch's specific policy for recoupment of Tuition Assistance funds.

~~A student may select one of the options for each class (the same option may be used for all or different options for some classes.) For example, a student may decide to complete one class before leaving [option one] but will need to take an incomplete in the other classes [option three]. The form must be completed within 30 days of your last date of attendance. If not, the university withdrawal policy as found in the current catalog will be applied.~~

~~Before you sign the form, please speak to your NAU financial aid advisor and an NAU military finance coordinator.~~

~~Options one and two are available for all students regardless of the status of their financial aid disbursement.~~

Students will complete the Academic Relief for U.S. Military Service/Absence Form and will elect one of the following options for each class (the same option may be used for all or different options for some classes.) For example, a student may decide to complete one class before leaving [option one] but will need to take an incomplete in the other classes [option three]. On the space provided at the end of the form, list the classes, which will be affected by this policy, the name of the instructor for each class, and the Academic Relief for Military Service option for each class. Include the last date of attendance and sign and date this form. This form must be completed within 30 days of the last date of attendance. If the work is completed, the instructor will submit a grade change and award ~~you~~ the student the grade earned ~~on all of your work~~. Grade: ~~You~~ The student will receive a "W" on ~~you~~ the transcript ~~for your classes~~. The student will be allowed to repeat this class in the future.
